CISCO, TEXAS, SUNDAY MORNING, NOVEMBER 14, 1948

NUMBER 2

The Gay Philosopher

Copyright New York Graphic Society) By J. W. S.

WHAT THIS AREA needs and is a good, old-fashioned making rain—a rain that would make creeks run and fill tanks and lakes. According to weather data, our wet years come in cycles of about seven years. And we're pretty well due for another very wet year.

CITY OFFICIALS tell us that Cisco is more fortunate than most West Texas cities. The last time Lake Cisco was full and running over the dam was back in 1942. Virtually no water has come into the lake since that very wet year.

DESPITE NO RAIN to speak of in the intervening years, Lake Cisco has held up pretty well. It has supplied the city—a peak month takes out up to 45,000,000 gallons—and allowed the state fish hatchery to use probably a billion gallons a day.

LAST MONTH the city used over 39,000,000 gallons in addition to what the fish hatchery needed. The hatchery, as a conservation move, has consolidated its fish into three tanks lately, cutting their water needs sharply.

IF NO RAIN falls, Cisco will have plenty of water for another month or two, says city officials estimated Saturday. And it takes into account losses through evaporation. The railroads are beginning to use less water as new diesel engines go into service. And they've been the city's biggest customer.

LAST WEEK AN Eastland newspaper, commenting on water in the county, said, in part: "The relative water deficiencies of Eastland, Ranger and Cisco were being discussed recently by Leslie Hagaman of Ranger and Buck Pickens of Eastland. Hagaman said the Ranger city has gone 22 months without a rain, the longest on record. The previous longest dry spell being 16 months. The Ranger lake has enough water, he estimated, to get Ranger by for another 3 months at the present consumption rate, and then after 120 days after that on a basis of drastically curtailed

Pickens said the water level of Lake Eastland is only about a foot and a half below the level of the old spillway before the spillway was raised seven or eight years ago, and that Eastland has enough water to last for six months or so, if use is not increased."

WATER SALES TO cities during recent months by the City of Cisco has been water from Lake Cisco mostly.

GOOD RAIN would stop a lot of worry on the part of many city councilmen and superintendents in West Texas.

Patagonia is a region at the southern tip of South America. The original meaning of the word opera was "works."

Regulation W Reports Due On November 19

The Merchants Credit Association Saturday called the attention of persons and firms engaged in the business of making installment loans and installment sales of "listed articles" that the period for filing the registration statement required by regulation W will expire on November 19, 1948.

Regulation W listed articles comprise the following items of consumer durable goods: cooking stoves, dishwashers, irons, refrigerators, washing machines, combination units of any of the foregoing, air conditioners, radios or television sets, sewing machines, suction cleaners, furniture and rugs, and automobiles. Articles having a cash price of less than \$50 are exempted.

While a substantial number of persons and firms have already submitted registration statements, others apparently subject to the regulation have not done so, it was reported.

Attention was called to the fact that such a statement should be filed by November 19, 1948, regardless of whether the Registrant had filed a statement under the provisions of the old Regulation W in effect prior to November 1, 1947. Persons desiring information or registration statement forms should communicate with the Merchants Credit Association as they have a supply on hand.

WTCC Will Hold Annual Meeting

ABILENE, Nov. 13.—Directors of the West Texas Chamber of Commerce, representing 132 counties of an area twice as large as all the New England States combined, will hold their annual meeting here Monday and reiterate their position of protecting water rights for domestic purposes.

The meeting will be called to order at the headquarters building in Abilene at 10 a.m. by President C. F. Dodson, and invocation will be said by Rev. James Todd, Christian pastor at Randall, who is a director of the organization.

Discussion of the water rights of West Texas is on the agenda for Judge C. E. Coombes of Stamford, a former WTCC president, who is legal counsel for the organization in its fight to perpetuate the prior rights of municipalities for water appropriations.

Other features of the program will include an address on the revision of the state constitution at the noon luncheon by Paul Carrington, Dallas attorney and banker and vice president of the East Texas Chamber of Commerce.

During the day reports will be made by C. W. Meadows, Sr., of San Angelo, chairman of the Latin-American Relations Commission; an address by Dr. R. M. Hawkins, educational committee chairman, on the College Building Fund; a discussion of the WTCC industrial briefs by L. C. Porter, Vice President of the Texas & Pacific railway.

Sterling Williams, state representative from Snyder, will speak on the proposed Williams-Holt bill, an enabling act for HJR 24 (Amendment No. 7) which was passed in last Tuesday's election. This bill is designed to assist local government in setting up the machinery for a levy of the 30 cent ad valorem tax for farm-to-market road and flood control within their counties and has been one of the WTCC projects for the last 20 years.

Others who will make reports are Clyde Westfall of Stamford, chairman of the elections committee, Malcolm M. Meek, treasurer; John D. Mitchell, Odessa, chairman of the resolutions committee and H. C. Custard, Cleburne, chairman of the nominating committee.

"This year's meeting will be a project meeting rather than the old type referendum meeting," said General Manager D. A. Brandeen. "We are making our report on activities already in progress and which must be continued for the good of all West Texas."

VICTORY IN THEIR EYES

With the sparkle of victory in their eyes, the Truman family leaves Independence, Missouri, for their triumphal return to the Capitol.—(NEA Telephoto).

Criminal Cases Scheduled For Trial This Week

The following cases have been scheduled for trial in the County Court during the week beginning Tuesday November 16, according to a report from the offices of the County Judge:

State of Texas vs. Jake Stuard, charged with driving while intoxicated.

State of Texas vs. Cleo M. Boyett, charged with driving while intoxicated.

State of Texas vs. Billy Jean Hancock, charged with driving while intoxicated.

State of Texas vs. Will D. Hazel, charged with driving while intoxicated.

State of Texas vs. Richard D. Barrett, charged with petty theft.

State of Texas vs. Glenn T. Davidson, charged with petty theft.

State of Texas vs. Fairy Lee Patterson, charged with possession of whiskey.

State of Texas vs. Lee Johnson, charged with possession of whiskey.

The cases of Richard D. Barrett and Glenn T. Davidson have preferential settings for Thursday, November 18.

According to Everett Grisham, district attorney, pleas of guilty in five criminal cases scheduled for the same time were entered and fines collected.

Jerrald J. Smith Selected to Attend Technicians School

HEADQUARTERS, YOKOTA AFB, Japan.—Corporal Jerrald J. Smith, son of Mrs. C. P. Farmer, Route 3, Cisco, Texas, presently stationed at Yokota Air Force Base, Japan, was recently selected to attend the United States Medical Department Surgical Technical School at the 25th Medical Station Hospital, Osaka, Japan, where he will be taught to perform a variety of non-professional surgical and medical duties in rendering surgical care and treatment to patients.

Corporal Smith, a graduate of Cisco High School, Class of '47, enlisted in the United States Air Force during May of 1947 and reported at Lackland Air Force Base, Texas, where he received his basic training. Upon the completion of his basic training he served at various Air Force Bases throughout the United States until he shipped overseas to Japan in June of 1948, where he was assigned to the Fifth Air Force and subsequently reported for duty with the 3d Medical Group. This is an integral part of the 3d Bombardment Wing, the main tactical unit stationed at Yokota Air Force Base. This Wing is currently an indispensable nucleus of the Fifth Air Force, the occupation air arm of Japan carrying out its present assigned mission as an ever-alert guardian of peace and a pioneer of the future.

Water in the bottom of a ship is called bilge water.

WOULD SAVE SEVERAL BILLIONS

Former President Herbert Hoover at his press conference in Washington, told newsmen that the recommendations to be made by his Commission on Reorganization of the Executive Branch of Government would result in savings of "several billion dollars a year" if carried out. The Hoover Commission is seeking ways to streamline and make more efficient the President's own branch of government.—(NEA Telephoto).

Training Union Revival Planned

East Cisco Baptist Church officials announced Saturday that the congregation was sponsoring a Training Union revival beginning Sunday night and continuing through Thursday night. Services will begin 7:30 p.m.

REV. ARLIE A. WATSON at the church building located at 507 East 12th Street. There will be leaders for all age groups.

A special team of workers under the leadership of Rev. Arlie A. Watson of Abilene will conduct the series of services. Other members of the team are Mr. and Mrs. Bill Williams, and Mr. and Mrs. Ralph Davis of Hardin-Simmons University.

Rev. Watson will speak at the evening services of the church Sunday and the public was invited to attend.

Great Britain's national ensign is nicknamed the Union Jack.

A barometer registers atmospheric pressure.

King Henry the VIII founded the Church of England.

Woman Slightly Hurt in Three-Car Accident

One person was slightly injured in a traffic accident involving three cars at the intersection of 9th and Ave. E. at 3:30 p. m. Friday.

Mrs. Carl Kile of 807 West 11th Street received emergency treatment in a doctors' office for bruises and sprains. Her small daughter who was riding in the car with her was uninjured.

The accident occurred when the automobile driven by Mrs. Kile was struck on the right side by one driven by J. D. Pittman, Cisco Junior College student. The impact threw the two cars into another that was stopped at the "stop sign" on Ninth Street.

Extensive damage was inflicted on the two cars figuring in the original crash and some damage was reported to the car stopped at the intersection.

Officers Parsons and Hatton who made the investigation reported that a traffic ticket for failure to render right of way was issued to one of the persons involved in the accident.

Volleyball League Members to Meet Tuesday Night

Members of the Men's volleyball league of the ABC club were urged to attend an assembly to be held at the Cisco High School gymnasium, 7:30 o'clock Tuesday night, for the purpose of organizing a winter sports program.

Charles Burke, president of the athletic booster club, will preside at the meeting and volleyball teams from various groups throughout the city will group plans to stimulate an interest in basketball.

O. L. Samey and Ralph Glenn were appointed by the club as committeemen to formulate preliminary steps for the inaugural of the league in Cisco.

Mineral Rights Offered by WAA

In an unusual war surplus offering of the War Assets Administration, the oil, gas and mineral rights to 2,420 acres of the former Camp Fannin near Tyler, will be sold to the highest bidder subject to priority claims beginning November 19.

Announcement that the government's interests in the resources underlying recently transferred to the state for use as an East Texas tubercular sanatorium would be put on the market, was made today by the WAA's Grand Prairie regional office.

'SATIRA' GOES ON

Patricia "Satira" Schmidt poses in her dressing room before making her first appearance at the Latin Quarter night club in Newport, Ky. The young exotic dancer was recently freed from a Havana, Cuba prison while serving the second year of a 15-year sentence for the yacht shooting of John Lester Mee, her married lover.

Presbyterians To Observe Youth Night Sunday

For several years the General Assembly of the Presbyterian Church has set aside one Sunday in November as Assembly's Youth Night. This year November 14 has been chosen, it was announced.

Rev. Stuart McC. Rohrer stated that the purpose of this service is for the young people to demonstrate to the congregation their particular contributions to the total church program. This service is beneficial to the adults of the local church, for it gives them a greater knowledge, a deeper interest, and a better understanding of the work of their young people than they have had before. It is beneficial to the youth, for through planning and participating in this service, they are challenged to a rich Christian experience in consecration and service. This challenge to Christian service may lead far beyond the confines of the congregation.

"even unto the uttermost parts of the earth." The subject for the Youth Night Service will be "Walk as Children of Light." Miss Laura Lou Morris, President of the local Youth Fellowship group, will be in charge of the service. All friends of the local group were cordially invited to attend this service. At the morning worship hour, Rev. McC. Rohrer will speak on the subject: "Now Is the Time to Be a Hero."

A cordial invitation was extended to all to attend services.

New Lunch Room Prices Announced By School Heads

Beginning Monday, November 15, prices of lunches at Grammar school and west ward will be reduced to 25.00 per week per child PROVIDED the child pays on Monday of each week.

The price will not have been 25 cents per child except where two or more of the same family are regular participants, in which case a reduction will be made.

High school prices will remain the same and no reduction will be made to those students who pay by the day.

A child is absent one day of the week, no refund will be made, but if he is absent more than one day, then twenty cents per day for each day absent will be subtracted from cost of the meals the following week.

School officials made the following statement:

"We want the public to know that the school lunch room is not in competition with any eating place and could not possibly serve meals at this low cost without help from the Federal Government which sponsors our Lunch Program in the schools and enables us to serve type-A meals with milk to students on a non-profit basis, the object of which is to encourage the child to eat a well balanced meal and promote good health and higher grades. Students who are unable to afford a hot lunch are served absolutely free with no discrimination. Thus far this term, 685 free lunches have been served."

"The School Cafeteria is now serving an average of 314 meals per day at Grammar School and 80 at High school. The ladies who work in the kitchen all have health certificates and every precaution is taken to prepare well balanced and palatable meals."

Mrs. Joe Black is in charge of food at the Grammar School. She is assisted by Mrs. Joe Tullios, Mrs. Martha Jessup and Mrs. Bertie Davis. Mrs. James Haynie and Mrs. Opal Blackstock prepare the meals at High School. The menus are prepared by Mrs. Pippen and must be kept on file subject to approval by the State Department of Education School Lunch Division in Austin.

GROCERYMAN'S CONDITION SATISFACTORY

Standlee McCracken, local Clover Farm groceryman, who is in a Dallas hospital following a successful operation Friday, is reported to be recovering rapidly. Hospital attendants stated his recovery as "very gratifying."

Mrs. McCracken and small son Standlee Jr., left Cisco early Sunday for Dallas where they will remain for the next few days.

Malaria is spread by the anopheles mosquito.

THE CAPITALISTIC SYSTEM

An eastern investor trust recently published some interesting figures—figures that indicate pretty clearly that there is nothing very wrong with the so-called "capitalistic system" in the United States.

The American people with less than one-fifteenth of the world's population and residing on about six per cent of the world's land:

Produce—45 per cent of the meat, 46 per cent of the electricity, 50 per cent of the wealth, 50 per cent of the copper; 60 per cent of the petroleum, 60 per cent of the wheat, and 65 per cent of the corn.

Consume—14 per cent of the food, 40 per cent of the salt, 48 per cent of the coffee, 50 per cent of the goods, 53 per cent of the wool, 56 per cent of the rubber, and 72 per cent of the silk.

Own—35 per cent of the railroads, 48 per cent of the radios, 50 per cent of the gold, 60 per cent of the telephones, 60 per cent of the life insurance, 85 per cent of the automobiles, and 92 per cent of the bathtubs.

But we would venture the guess that very few people have stopped to analyze the problem as to why we should be so much better off than the rest of the world with regard to the material things of life. One of the answers is our use of mineral energy that has transformed America from a rural agricultural nation to an industrial giant and has put in the hands of Americans 500 times as much energy as we had in 1850.

In 1850, the average American worked 70 hours a week and earned an average of 27 cents an hour. Today, the average man can produce about five times as much in an hour as he did in 1850. Whatever the rest of the world may say about its own way of doing things, the success of the American people has been due very largely to the direct progress of private capital.

YOU CAN HAVE PLENTY OF BUTANE ALL WINTER IF

YOU HAVE ADEQUATE STORAGE

Will you be sure of having all the LP-Gas you will need this winter? Or will you be at the mercy of bad roads, bad weather and possible gas shortages? There is only one way in which your Butane-Propane dealer can promise you all the gas you'll need and that is for you to have adequate storage now!

So if you want to enjoy all the advantages of gas next winter—without any empty-tank worries—let your dealer explain how you can be guaranteed of having dependable, year-round gas service. Write, phone or see him today.

HERE'S THE PICTURE: The refineries which produce LP-Gas (Propane or Propene) have the same capacity all the year around. They produce the same amount of gas in the summer as they do in the winter. You store it four times as much as you use during the four winter months as there is during the other eight. This means LP-Gas produced in the summer must be stored for use in the winter. The refineries have increased their storage facilities. Your local dealer has increased his. But that's still not enough! Even more gas must be stored.

HERE'S THE ANSWER: The only solution to this problem is for you folks who use LP-Gas to increase your storage facilities too. That's the only possible way in which your dealer can assure you of having a dependable, year-round supply of LP-Gas. Remember—your storage tank is like the gas tank in your car. If it's too small you're always running out of gas. So play safe. Get as far winter by getting adequate storage NOW!

HOW BIG A TANK DO YOU NEED?

You'll have adequate storage when you have a tank big enough to hold a supply of gas that will carry you through the four winter months. A tank that size will enable you to have it filled now while plenty of gas is available. Then, this fall, you can have it refilled and start off the winter with enough gas to see you through.

GRAVES BUTANE CO. Phone 756 1300 Avenue D CISCO, TEXAS.

GAS IN THE TANK IS MONEY IN THE BANK!

He Helped to Feed the World

Designer Named Judge For Maid Of Cotton Show

MEMPHIS, Tenn., Nov. 13.—Hope Skillman famous New York cotton fabric designer and converter, will be chairman of judges for the 1949 Maid of Cotton.

A leading pioneer for high-fashion distinctive designs in cotton, Hope Skillman heads her own textile converting firm. Working against the former regard for cotton as a rustic type of goods, she introduced during damasks, shimmering chambrays, and satin stripes, today fashioned into fabulous costumes by such designers as Omar Kiam, Adele Simpson, Claire McCardell and Tina Leser.

She has led the drive to establish cotton as an all-season material. More than five years ago her Victorian sofa stripes and tartan clan plaids were harbingers of cotton's role this season as one of the most talked-about fabrics in fall and winter fashions.

The 1949 Maid of Cotton will have several creations in her wardrobe fashioned from the new Hope Skillman fabrics, according to Margot Herzog, fashion director of the National Cotton Council and the Cotton-Textile Institute.

As the head of the board of judges for the '49 Maid of Cotton contest, Miss Skillman will play an important part in selecting King Cotton's good will and

Cotton will leave shortly following the contest in Memphis for New York to assemble her wardrobe and complete preparations for the exciting five months' tour which opens in Miami in February. She will visit more than thirty major United States cities.

Any single girl between 19 and 25, born in a cotton state, is eligible to enter the contest. Application forms may be secured from the National Cotton Council, P. O. Box 18, Memphis 1, Tennessee. December 10 is the closing date for entries.

Freshman Cadets To Get Own Flag

COLLEGE STATION, Nov. 13.—Texas A&M College's freshmen cadets will have a flag of their own after Monday, November 15. The flag, a gift from J. T. Davis of Sterling City, who graduated from A&M in 1919, will be formally presented to the regiment at Bryan Air Field Annex by President F. C. Bolton and Dean M. T. Harrington at 5:15 p.m.

The flag shows a maroon sailfish, leaping, against a white silk background, and carries the legend, "Freshmen Regiment, A&M."

While on the A&M campus for the TCU football game, Davis noticed that the freshmen had no flag of their own. He immediately made arrangements by telephone to New York to make such a flag. Prior to the official presentation, the banner has already been used by the freshmen at the Arkansas football game—

And So To Bed

Baby's bath hour should be when he needs it most. When he is young, Mother may find it convenient to bathe him just before the 10 a.m. feeding. When he gets to the creeping and crawling stage, however, a bath just before his evening meal will insure his cleanliness after a day of play. After bathing, dry him thoroughly and give his skin a gentle patting all over with baby lotion, a fragrant white emulsion of pure oil and lanolin with an antiseptic ingredient added for greater protection. This will work wonders in keeping your cherub's skin soft and smooth in spite of winter weather. Before tucking Baby in bed after the feeding, check to see whether a diaper switch is needed. With each change, put a few drops of lotion on a sterile absorbent cotton ball and pat it softly into each tiny fold and crease to help prevent uncomfortable chafing and chapping. This technique will help make his Nibs comfortable and content for the night's sleep. Then, into baby-soft sleepers in a darkened, well-aired room and so to bed.

it was behind the new flag that the freshmen paraded in Dallas last Saturday prior to the A&M-SMU game.

Ciscoans to Attend Methodist District Conference Mon.

Bishop W. C. Martin of the Dallas-Fort Worth area of Methodist Churches will be the speaker at the district conference of the Cisco District which will convene in Dublin Monday night November 15 at 7:30 p.m.

Rev. Oran Stephens, district superintendent, will announce the committees at the Monday evening meeting. On Tuesday morning Rev. Stephens will conduct the Conference as presiding officer. He reported that a report from the churches indicated a fine spirit of interest and progress.

Delegates from the First Methodist Church in Cisco are J. T. Anderson, George Boyd, Benny Butler, Bill Childers, Jess Proctor, Mrs. John Shertzer, Mrs. Paul Woods and Mrs. R. N. Cluck.

Claude P. Jones, J. D. Hendrickson, B. J. Osburn, C. J. Turner, Mrs. Carroll Smith, S. H. Nance, Wm. Reagan, H. S. Drumwright, J. T. Elliott and G. R. Nance.

JAPANESE LEADERS SENTENCED

The longest trial in history reached a climax when the International War Crimes Tribunal in Tokyo pronounced sentence on 25 Japanese leaders accused as war criminals. All of the accused, shown here during the trial, were found guilty of war crimes. General Hideki Tojo, fifth from left in prisoners dock, and six others have received the death penalty, the rest imprisonment.—(NEA Telephoto).

make that type of art available to a larger number of people.

He explains that in the past 10 years, sculptors have begun to utilize clay materials, and predicts the trend will continue because they have proved satisfactory as well as cheap.

Richard instructs a University class in ceramic art in which students learn the fundamentals of handling clay materials.

Texan is Author Of School Report

AUSTIN, Nov. 13. — Three chapters in New Mexico's report on its public education were written by University of Texas Education Professor James W. Reynolds.

As a member last year of the division of surveys and field services for George Peabody College, Nashville, Dr. Reynolds worked with the New Mexico Education Survey Board to determine needs of education for

the state. His chapters were on student personnel, curriculum and instruction, and institutions of higher education.

Wheat Grindings Below August

AUSTIN, Nov. 13. — Texas wheat grindings in September were 8 per cent below August grindings, reports from the Bureau of the Census to the University of Texas Bureau of Business Research showed. Grindings in September totaled 4,010,000 bushels, a level 5 per cent above a year earlier.

Oil Collection Index is Planned

AUSTIN, Nov. 13.—The University of Texas Bureau of Economic Geology oil well sample collection, consisting of two million samples from 25,000 Texas wells will be indexed in a publication to be issued soon, Dr. John T. Lonsdale, Bureau director announced.

Publication of the index should make the oil well sample library of even greater benefit to oil industry geologists and others interested in subterranean conditions in various parts of the state. The oil well sample library weighing some 200 tons recently was moved from the University campus to the new Off-Campus Research Center about five miles north of Austin. There geologists may study oil, gas and water samples from nearly every part of the state. Duplicate samples may be obtained by colleges and oil companies of some of the collection, particular on coastal wells.

The collection, begun in 1912 and added throughout the years now occupies some 11,050 square feet of floor space in its new location at the Off-Campus Research Center.

Texas Cement Production Up

AUSTIN, Nov. 13. — Texas cement production in September 1948 was 18 per cent ahead of September 1947, reports from the Bureau of Mines to the University of Texas Bureau of Business Research showed. Totaling 1,196,000 barrels, September production rose 3 per cent from the previous month.

THIRD GENERATION STUDENT

FIRST TSCW THIRD-GENERATION STUDENT—Miss Janet Galt pauses by the Old Japanese Wishing Gate in the Texas State College for Women Smith-Carroll gardens. It is one of the few landmarks on the campus unchanged since both her mother, Mrs. M. J. Galt of Oklahoma City, and her grandmother, Mrs. M. M. Mahaffey of Mt. Vernon, were TSCW students, in the classes of 1930 and 1903, respectively. Miss Galt is a freshman library science major.

ENDURANCE FLYERS FORCED DOWN

The endurance flyers, Fred Vincount and Bert Simons, after staying aloft for 533 hours, ended their flight abruptly Thursday night when their engine failed. The flyers made a dead stick landing from under 1000 feet, demolishing the plane, but leaving them without serious injury. They were shooting at a record of 726 hours in the air set by the Key brothers of Meridian, Miss.—(NEA Telephoto).

Foreign Students Enroll at Texas

AUSTIN, Nov. 13. — Twenty foreign students from 11 countries have been given University of Texas graduate non-resident tuition scholarships of \$125 each for the current semester.

Ten of the recipients are from China and one is from each of the following countries: Spain,

Canada, Panama, France, Lebanon, Mexico, Guatemala, Egypt, India and Peru.

Also 22 students from 16 other states in the nation were given graduate non-resident scholarships, including three from Louisiana, two each from Oklahoma, Minnesota, Indiana and California; and one each from Michigan,

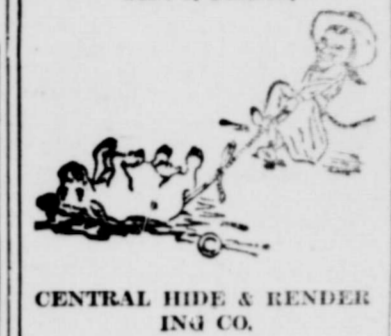

Pennsylvania, Nebraska, Missouri, Kansas, West Virginia, New Jersey, Illinois, New York, Arkansas and New Mexico.

THE GOOD THINGS OF LIFE... ON CREDIT

Have you ever wondered why a friend or neighbor... who makes no more money than you do... is able to buy a lot of nice things you apparently cannot afford?

Sometimes, perhaps, you enviously guess that he's living beyond his means... mortgaging his future... keeping only one jump ahead of the sheriff.

That would, of course, be a wrong guess in the case of millions of families who live better than their neighbors on no greater income—simply because they make better use of their income and their credit privileges.

Responsible people can buy almost anything they want, anywhere, any time and pay for it later.

Loboes and Coaches Plan Strategy To Be Used in Branding Mavericks

By JIM EWELL

A general review, accentuated with pass defense and downfield blocking, will set the pace anew for Coach John Hansard's beleaguered Cisco High Loboes Monday afternoon, in what's shaping into a stimulated upsurge that could forecast "a change in the weather."

"We played a sloppy game of ball out there Thursday afternoon, and there's no kidding about that. It couldn't have been any worse and just when things were beginning to brighten up," said Hansard Saturday.

In order to avert another disaster, Hansard is remodeling his offensive strategy in an overall manner that will seemingly go against the two remaining foes of the season, namely, Eastland and Breckenridge. But for the time being, everything is being concentrated on the winning over Eastland, since that club will give

the Ciscoans a fight for every inch.

Line Coach Buck Overall is going to miss the services of Norman Boggs, 164 pound tackle who is being switched to the back field in Hansard's revamping plans. Boggs, a junior, is being prepped for future duty with the Loboes as a back fieldman after an impressive performance in the line. He is fast, plays a good brand of ball and drives with determination.

Also in the mentors' reconversion of the team, Gene Milner will be shifted to left end from a former quarterback position, and Durwood Smith, whom coaches have expressed a belief in, will assume half back chores for the season's duration.

Stan Sharpe will come up from the reserve ranks and will be in the Eastland bangup considerably. He'll be at the quarterback slot, replacing Hub Harwell.

Severe training rules were laid out before the Loboes Friday in a closed session by Hansard and Overall, emphasizing eating habits. Coaches blamed heavy eating before the Mineral Wells skirmish as one contributing factor to the Mountaineers' victory.

Naturally, since the showing displayed by the Loboes Armistice Day, there has been a tremendous letdown in their hustle and spark. But the urge to retaliate on the Mavericks may succeed in lifting the pressure.

Jim Smith, hub in the Mavericks' offensive setup, is the main problem confronting and standing in the way of Lobo anticipations. Facts and figures coming over the grapevine from the Mavericks' camp report Smith's ability as a running expert. Too, he is a favorite target for aerial thrusts from Don Brashier, Eastland quarterback.

The Mavericks so far have shown a distaste in passing antics, but if Hansard's revived defense proves a little rugged for all concerned, Brashier will be employed to propel the ball via the air route.

Only serious problem pressing the Cisco club is the rebounding injuries that have and are plaguing them. Russell Johnson is under hospital attention with an injured elbow; George Watts is still at a sideline seat with a bruised leg muscle and Hub Harwell is recuperating from a wrenched knee.

Memphis Girl Receives Tech Scholarship

LUBBOCK, Nov. 12—Sue Lynn Guthrie, Texas Technological college co-ed from Memphis, has received the annual \$300 Borden scholarship award for three years outstanding work in the Texas Tech home economics division.

The Borden award, established four years ago, is given to the woman student in home economics who has the highest grade point average for the three year's previous work, and who has completed two or more courses in foods and nutrition.

In 1927 Miss Guthrie was awarded the Panhellenic scholarship as the outstanding member of her freshman home economics class.

In addition to scholastic honors she has been active in many extra-curricula activities. She is a past president of Junior Council, president of Omega chapter, Phi Upsilon Omicron, national honorary organization, and holds membership in Forum, Alpha Chi, and the Home Economics club.

Her mother, Elsie Bass Guthrie, is a graduate of Texas Tech.

TOJO TO GO

An 11-nation International Military Tribunal has found General Hideki Tojo, left, Japan's wartime Premier, guilty of waging wars of aggression and crimes against prisoners of war and civilian internees, and has sentenced him to death. Shigenori Togo, right, Japanese Foreign Minister at the time of Pearl Harbor, was sentenced to twenty years imprisonment.—(NEA Telephoto).

McCarty, Hiteshew Engagement Is Announced

NEW YORK, Nov. 12.—The engagement of Mrs. Eleanor Harrower Hiteshew of New York to Mr. Milburn McCarty, Jr., son of Mr. and Mrs. Wilburn McCarty of Washington and Eastland, Texas, is made known here today by her parents Mr. and Mrs. Corning White of New Preston, Conn. Their marriage will take place on Nov. 20th in New York.

Mrs. Hiteshew, formerly an editor on the magazine "Seventeen" is a free lance writer. She is a great-granddaughter of John William de Forest, novelist, a cousin of Lee de Forest, the inventor, and a descendant of Jesse de Forest, who organized and led the settlement of New York in 1624. Mrs. Hiteshew was divorced from her former husband Franklin M. Hiteshew.

Mr. McCarty was graduated from Dartmouth College and studied at the University of Mexico. He is a descendant of Col. Daniel McCarty, who was one of the first Speakers of the Virginia House of Burgesses. During the war he was an offi-

Educational Opportunities Available

The Marine Corps Institute, a correspondence school offering a variety of more than 200 well-chosen courses, free of charge to Marines everywhere, has been aptly described as a "ready-to-order" education for on-the-go Marines. Above, a MCI instructor explains the advantages of the Institute and some of the courses offered to a prospective Marine student.

SOCIAL and CLUBS PHONE 37

MRS. ALTON LOMAX HOSTESS TO GROUP

Mrs. Alton Lomar was hostess when Group Four of Women's Council of First Christian church met Wednesday afternoon in her home for the regular meeting. Mrs. Jack Lauderdale presided in absence of Mrs. V. C. Overall, group leader, and called the meeting to order with prayer by Mrs. Eugene Shockley.

Mrs. Bill Dill brought the devotion using scripture basis of verses 43-48 of the fifth chapter of the Book of Matthew. The topic discussed was "Are Christians People Who Care?" The missionary lesson was presented by Mrs. Eugene Shockley and gave a glimpse of mission work in the Virgin Islands.

The business session was next conducted and plans were made to fill a basket with Thanksgiving food for a needy family. Minutes and roll call were read by Mrs. J. C. Fletcher and routine business was transacted. The meeting was adjourned by all joining in the missionary benediction.

A social hour followed and a nice sandwich plate with dessert and a cup of coffee was passed to Mesdames: R. W. Crews, Bill Dill, Bob Ellison, J. C. Fletcher, Jack Lauderdale, Don La Casse, Eugene Shockley, Blake Stephens, Bill Winston and the hostess, Mrs. Lomax.

MRS. J. E. SPENCER WAS CLUB HOSTESS

Mrs. J. E. Spencer and Mrs. R. L. Shaw were hostess when Merry wives Forty-Two club met Friday afternoon in the Spencer home to enjoy the afternoon diversion. Decorations of roses and chrysanthemums adorned the rooms used for the occasion.

Three tables of players took part in the games and at the close a lovely chicken salad plate with ascert and hot tea was passed to Mesdames: W. H. LaRoque, George D. Fee, T. J. Dean, J. E. Crawford, C. R. Baugh, G. P. Mitcham, Joe Wilson, A. J. Olson, W. W. Moore, R. L. Shaw, C. E. Paul, Miss Ella Andres and Mrs. Spencer.

NATIVE CISCOAN'S BOOK PRAISED BY ASSOCIATE

The following clipping was handed to us by Mrs. George P. Fee, having been sent to her by her sister who lives at Bartlesville, Okla.

BY MARGARET GRANT

A delightful respite from the many ultra-sophisticated novels of the current year is gained from reading the prize-winning novel, "Root Out of Dry Ground" by Mrs. Argye Briggs, which appeared during the past month in the book store. Mrs. Briggs was awarded Erdman's \$5,000 award for her book "Root Out of Dry Ground."

Frankly, when we saw it publicized as "a great piece of Chris-

tian fiction" we expected it to be one these goody-goody novels about impossibly saintly characters who move in an aura of unreal holiness. What was our delight when we found it a thoroughly readable book, people with the common folk of the Southwest, written in a completely human strain, and so engrossing that we couldn't put it down until we had finished it!

Mrs. Briggs has created two unforgettable characters, Janie, the hump-back, and Chrissie, the motherless child, whom she reared into womanhood. In an environment of almost unbearable ugliness and sordidness, the lives of these two underprivileged human beings developed into beauty and fulfillment. Throughout the pages of the book shines the Christian spirit of the writer and the book leaves one with a greater vision of the power of the Saviour to bring up a tender plant even from a "root out of dry ground."

The book is well written with events evolved in logical sequence and the characters throughout are delightfully real and appealing.

Mrs. Briggs, whom Bartians are proud to claim as a fellow towns-woman, is thoroughly charming, poised and level-headed. She is full of animation and interest and very enthusiastic about Bartlesville as her hometown. She lives on Seneca in one of the older houses of the city which she describes as an "old house on an old street."

She is the wife of Preston Briggs, a petroleum engineer employed by Phillips Petroleum Company, and has three bright-eyed children. Preston, Jr., aged seventeen, who is in College High school; Argye, 15, and Elinor, 13, both in Central High School.

She is an ardent lover of outdoor life and takes long hikes with her youngsters through the Osage hills and other points of interest in the vicinity, whose beauty most of us pass up to go further afield in search of "scenery."

Mrs. Briggs finds a fascinating wealth of historic interest in this part of Oklahoma and is an eager student of the colorful past of the Indian Territory. She is keenly interested in all activities of the southwest and is alert on all topics of the day.

She is a member of the First Baptist church and has made her religion a practical and integral part of her life. She writes in the early-morning hours and spends the rest of her time in the beloved task of making a home for her husband and children. She has a deep sense of eternal values, has eliminated the non-essentials, and is a thoroughly delightful person to know.

LYDIA CLASS MEETS IN W. D. HAZEL HOME

Mrs. W. D. Hazel was hostess when Lydia class of First Baptist Sunday School met Wednesday in her home for the class meeting of the month. Mrs. C. S. Surles was co-hostess of the meeting. The group was called to order with prayer by Mrs. Hazel following which Mrs. O. L. Mason brought the devotion. Officers elected to fill two vacant places were Mrs. J. V. Hey-

ser, second and Mrs. O. G. Lawson third vice president. Routine business was transacted and discussion held about the meeting, in December.

Pictures were made of the group by Mrs. Heyser; and some time was spent in looking at pictures brought back from India by J. V. Heyser Jr. Each member had been asked to bring a photo of herself in childhood or girlhood days. These were passed around and caused much guessing and merriment. Three members whose birthdays fall in November were honored with a nice gift each. They are Mrs. G. M. Beene, Mrs. W. H. Hall and Mrs. C. S. Surles.

Refreshments of birthday cake, sea foam dessert and coffee were passed at the close of the hour to Mesdames O. L. Mason, Fred Grist, O. J. Russell, G. M. Beene, W. H. Hall, L. B. Mayhew, J. V. Heyser Sr., J. M. Wilson, Eula Grantz, O. G. Lawson, Ina Pyle Martin, C. S. Surles and W. D. Hazel.

PARENTS ANNOUNCE APPROACHING RITES

Mr. and Mrs. R. R. Jones of cottage 2107, Humboldt, announce the engagement and approaching marriage of their daughter, Mary Ann, to Mr. J. W. Kornegay, of Rising Star. The wedding will take place in the near future, the date of which will be announced later.

CHILD STUDY CLUB HAD FINE PROGRAM

Cisco Child Study club met last Friday at the Women's club house with Mrs. Alton Lomax as hostess and the president, Mrs. Richard Donovan, in charge.

Minutes, read by Mrs. J. H. Denton, secretary, were approved; the group voted to purchase two footballs and two large jumping ropes for the West Ward school and to repair window shades at the school building, West Ward school being a project of the club this year. The topic on "Childhood Problems" was presented by Mrs. Don Choate who conducted a round table discussion in the form of a question and answer program.

A social hour was next enjoyed and refreshments were served by Mrs. Lomax to Mesdames: Eldon Kenney, a visitor; and Gene Abbott, Don Choate, J. H. Denton, Richard Donovan, J. C. Fletcher, Jay Garrett, Bill Huffman, J. V. Heyser Jr., Ray Kinard, Jack Lauderdale, J. H. Latson Jr., Derward Morris, Wallace Smith, Blake Stephens, H. H. Tompkins Jr., Don LaCasse and Victor Lawson.

Mrs. Bill Kendall served the wedding cake. Plate favors were miniature lace umbrellas tied with blue and gold ribbon.

Following the serving a number of games in keeping with the occasion were played and the gifts were presented at the close in a clever manner. Each guest went to the booth where the gypsy fortune teller was reading the future events of her life and when Miss Bailey came to have her future read she was told of the shower of gifts she would receive and which was forthwith presented. The packages were then opened and displayed by the honoree to the group of friends.

Those present were: Mesdames J. A. Krisel, Elbert Ezzel, L. E. Edwards, T. E. Owens, Gordon Strawn, Ted Hale, A. Z. Myrick, Cisco; Mrs. C. O. McKee, Miss Dorris McKee, Denton.

BRIDE ELECT HONORED WITH LOVELY SHOWER

The ladies of the Church of Christ were hostesses when Miss Elizabeth Bailey was honored with a Bridal shower Tuesday evening from 7 to 9 o'clock in the home of Mrs. Brooks Terry at 1106 West Seventh street. Guests were welcomed by Mrs. Terry and were shown to the table where Miss Kathleen Bailey, sister of the honoree, was in charge of the bride's book.

A blue and gold theme, chosen colors of the bride-elect was carried throughout the rooms. The dining table, covered with lace cloth, held a pretty centerpiece of gold-color mums and blue corn flowers flanked at the sides by lighted blue tapers in crystal holders. Mrs. W. E. Dean poured the hot spiced tea and

Seven Business Failures Reported

AUSTIN, Nov. 13. — Seven Texas businesses failed in October, reports to the University of Texas Bureau of Business Research showed.

Two businesses failed in September, seven in October 1947. Business failures for the first 10 months of 1948 totaled 66 compared with 44 in the like period of 1947.

Average liabilities per failure were \$53,000 in October this year, \$440,000 in September, and \$14,000 in October 1947.

Yosemite National Park is in California.

Texas Leads In Surplus Selling

Texas again leads the nation in total sales of surplus government real estate to educational institutions, it was reported today by the southwest regional office of War Assets Administration at Grand Prairie, Texas.

The Lone Star state easily topped New York, which with \$51,528, 167 in real estate sold to education, was second, and Minnesota, with \$43,090, 196, third. Texas educational institutions have thus far obtained nearly a third of all the land allocated in the program, the report shows.

Of the five state region, Texas, Arkansas and Mississippi now rank in one, two, three order in the number of surplus buildings allocated to schools and colleges among 48 states, the report disclosed. Original value of the 26,841 acres and 3,892 buildings sold in Texas is \$61,588,739, representing more than 15 per cent of all property disposed of in the national program.

With the two other states—Oklahoma and Louisiana—included, the region has received better than 38 per cent of surplus land and buildings thus far sold to schools. Public benefit discounts of from 40 to 95 per cent of a fair value price fixed by the War Assets Administration were allowed the institutional purchasers under the program.

The report was taken from official figures as of September 30, 1948, of the United States Office of Education as summarized by the staff of Colonel Karl E. Wallace, the Grand Prairie WAA regional director. The office of Education cooperates with WAA in final determination of the disposals.

Of the other regional states, Oklahoma received 2,898 acres and 1,341 buildings for property originally costing \$37,443,419. Mississippi obtained 3,120 acres and 2,081 buildings representing \$28,981,269 in property; Arkan-

Texas Students To Enter Livestock Judging Contest

LUBBOCK, Nov. 12.—Six agriculture students from Texas Technological college leave on Nov. 19 for Chicago where they will participate in intercollegiate livestock judging Nov. 27 at the International Livestock show.

Student judges from Texas Tech include W. D. Hancock, Jayton; Glenn Quattlebaum, Amarillo; Clinton Ritter, Lawton; Edd C. McElroy, Brownfield; Robert Cox, Lubbock, and Robert Mims, San Angelo. Prof. Ray C. Mowery, assistant head of the animal husbandry department, will accompany the judging team.

Several opportunities for practice judging before reaching Chicago will be offered the students. Professor Mowery said, with the first stop at Wichita Falls at the George Keith Hereford ranch. Other farms and ranches in the itinerary include Flying L ranch and Turner ranch, Sulphur, Okla., to observe Herefords, J. C. Penney Aberdeen Angus farm, Hamilton, Mo., Boulderbridge Belgian horse farm, St. Paul, Minn., Edellyn shorthorn farms, Wilson, Ill., and Marellbar farms, Libertyville, Ill.

Colleges to be visited en route include Oklahoma A&M, Kansas State, University of Minnesota, University of Wisconsin and Iowa State.

sas, 1,233 acres and 2,66 buildings representing a cost of \$18,408,816, and Louisiana, 802 acres and 679 buildings representing \$6,348,006.

The five states together have received 10,359 buildings for their schools out of a national aggregate of 19,750 awarded, or well over half the grand total.
