Putnam Receives
.82 Inches Rain

Putnam received another good rain the past week. John D. Isenhour reports that the gauge showed a reading of .82 inches. However, it fell so slow that no water was caught in lakes. But the rain will be of great benefit to farmers and ranchers as since the rain and ice the ground had frozen and thawed pushing the ground up, and grain and grass was not doing much good as it needed more rain to settle the top of the ground.

Two Local Youths Charged With Auto
Theft and Burglary, Held In Ft. Worth

Two Cisco youths were in a Fort Worth jail early Thursday awaiting the arrival of Eastland County officers who had charged them with automobile theft and burglary. The crimes were allegedly committed in Cisco on Wednesday night.

The charges resulted from the theft of an automobile belonging to M. P. Herring, Jr., and it was taken from 504 West 6th St. at about 9:30 p. m. The boys were also charged with burglarizing the Big Little Drug Store here of approximately \$50 in merchandise and cash. Owner, Cecil Elliott discovered the robbery when he opened at 6 a. m. Thursday.

The burglary had been discovered earlier, by Bob Cleveland when he noticed that a window at the rear of the building was open. The auto, a 1941 model Buick, and the merchandise were said to be in the hands of Fort Worth police.

County Chiropractic Association
Issues Plea To Defeat Science Bill

"The Basic Science Bill now pending before the Texas Legislature, if passed, would soon do away with all those practicing healing arts except those of the medical profession," members of the Eastland County Chiropractic Association charged here today.

"On examination of the Basic Science Bill, it was found that the proposed law shall not apply to persons licensed to practice the healing art or any branch thereof in the State of Texas and since those of the medical profession are the only ones licensed in the state at the present time it would take but a few short months to give them a

complete monopoly," it was said. The association referred to the Minimum Standards Bill now pending in the Legislature and said that the bill was proposed solely for the benefit of the medical profession. Since Texas has one of the strongest medical requirements in the nation there would be no reason to add additional cost to the government, they pointed out.

"Such a law has been enacted in Iowa and has operated since 1935 and, deciding it was a failure, their house voted 64 to 34 to repeal it last week," association members said. "It was found that the law was designed to give the medical profession a monopoly on the practice of healing arts. Instead of ruling ignorance out of the sick room, as claimed, it exempts those now licensed to practice, and requires all others to take the examination. This law in other states has resulted in the gradual strangulation of all other healing arts.

"The Texas Bill would instantly do away with all other, doctors and within six months there will be only medical doctors in the state. The fewer doctors there are the more suffering there will be, especially in the rural communities."

The association reported that they wanted to acquaint the public with the proposed Chiropractic Licensing Bill which the organization itself had been trying to get passed for many years. This measure would assure the public that the Chiropractic profession was always on the alert to be certain that only those with sufficient education and proficiency be allowed to practice as chiropractors.

"The proposed Chiropractic Licensing Law would regulate age, education and other requirements of the profession. It would call for examinations on the subjects of anatomy, physiology, symptomology, pathology, analysis of the human spine, hygiene and public health," it was pointed out.

The association asked the public to study the proposed law and give their state senator and representatives their opinion.

The Cisco Daily Press has completed arrangements to hold a cooking school on March 9, 10 and 11. The school will be held from 2 to 4 p. m. on each of the three days at the Texas Theater. All women of the Cisco area have been invited to attend the event.

Mrs. Clyde Stephenson of Abilene, Miss June Clark of Seymour and Miss Cassie Honaker, all home economists with the Lone Star Gas Company, will conduct the school. In addition to cooking demonstrations, new stoves and home appliances will be displayed and demonstrated during the school.

New recipes and methods of preparing foods will be demonstrated. Meals will be cooked on the stage each day in demonstration of lectures.

Free ice cream will be served daily, and numerous prizes will be awarded. "The Press is sponsoring the cooking as a public service," Editor J. W. Sitton said. "We feel that the women of the Cisco area will be interested and we are happy that the opportunity to sponsor the school has come along."

Additional information concerning the event will be announced from day to day.

State Leases Land
For Hundred Years

AUSTIN, March 3. — Land Commissioner, Bascom Giles has found a 'steady customer' for a small tract of school land in Pecos County.

The Commissioner has received payment from an oil company covering rental on the tract years, making the present lease effective until the year 2049. The tract, less than two acres in size, is one of the smallest in the School Land Board's records. However, it has paid off in man-sized hunks — \$20,000.00 in the Permanent School Fund in cash bonuses and \$217,398.00 in royalties.

The 100-year rental payment is without precedent, Giles stated.

However, added the Commissioner, the lease may be forfeited unless production is maintained and unless all regulations of the School Land Board are conformed with.

More Than 190 Persons Heard Coach
Frank Broyles Address The Annual
"Father And Son" Football Banquet

Frank Broyles, youngest coach in the Southwest Conference, told an estimated crowd of 190 persons Wednesday night at the annual "Father and Son" football banquet honoring members of the Cisco High School Junior College teams that "the recruiting of prospective hardest task required of a coach football players."

In his address at the Cisco Country Club, Broyles who is now completing his second year with the Baylor athletic department, listed the various steps the high school candidate must go through before he can be accepted for a scholarship.

"The first step," he said, "the coach meets and talks with the officials and coaches of the boy's school. If he finds the boy making good grades, he then approaches the boy's parents with the proposition."

"If the parents approve the coach offer, the boy is asked to stay a few days with the team — eat, sleep and live with them. At the end of his stay if he is satisfied that he would like to attend Baylor, he is taken to the dean's office and given a four-year scholarship."

"Baylor or any other college," Broyles asserted, "does not want players who cannot make their grades. The staff lets the boy know right away that he's not just coming to play football."

Prior to the main address,

Coach Stormy Davis and Buck Overall introduced each member of the two football teams here. Athletic Director Jack Everett spoke briefly and expressed appreciation for the interest the Lion-Rotary Clubs, who jointly sponsor the event each year, had taken in honoring the group.

Bill McGuire, who is now attending the University of Wyoming, was voted the Most Valuable Player on the 1948-49 football team at Cisco Junior College. He was elected from a field of eight candidates.

E. L. Jackson Cisco civic leader, served the banquet as Master of Ceremonies while Ray Judia and a small orchestra from the junior college entertained the audience with several mixed instrument selections.

After the dinner, served in Chuck wagon style, the guest speaker showed films of the Dixie Bowl Game.
