MORAN JUNIOR AND SENIOR BANQUET IS SUCCESS

The Junior Class of Moran High School honored the Senior Class with a banquet Friday night, April 22, in the reception room of the homemaking department.

After the invocation by Mr. Hugh Smith, the guests were served strawberry cocktail followed by the main plate of mashed potatoes with green peas, creamed chicken in patty shells, butter and rolls, salad, iced tea, and icecream and cake for dessert.

A welcome was offered by Delores Henry of the Junior Class and responded to by the President of the Senior Class, Bruce Wibbanks.

A vivid class history was brought by Charlene Allen followed with a song by the Sophomore Girls, who served. The Senior Class Prophecy was given by Geneva Montgomery, a song by Sue Hamilton, and the Senior Class Will by H. W. Brooks, Jr.

Don Rupe And James McCracken Are Sworn In As New City Commissioners

G. C. Rosenthal was installed as mayor of the City of Cisco at the regular meeting of the board of city commissioners Tuesday night at the city hall.

McCracken was appointed to the office of finance commissioner and Rupe was named street commissioner. J. L. Stafford, former street commissioner, was given the duties of water commissioner, and Hugh (Chief) Brown retained his duties as sanitation commissioner.

In a business meeting it was decided to award the garbage collection contract to Edgar Johnson for another 12 months. Five applicants submitted bids on the job. The contract was awarded to Johnson over the other bidders because of the manner in which the job had been handled in the past.

The officials tentatively set date for "Cleanup Week" as the week of May 8 and instructed City Secretary Hal Lavery to draw up the details of the campaign. Exact dates will be announced later as will the collection days for the various streets.

It was also agreed to set in motion plans for the allowing of netting in the waters of Lake Cisco for the purpose of ridding the lake of undesirable fish. Tentative plans call for the opening of the netting project on May 1 and for the licensing of netters to assure all citizens of equal rights.

It was proposed that netters post a \$10 bond in order to obtain a tag for his nets. The bond will be returned if the applicant follows the regulations being worked out. Applications must be filed with the lake custodian who will judge the activities. The proposal stipulates that nets must be inch mesh or larger and sets the size and type of fish that may be removed from the lake by the process of netting.

Mayor Rosenthal, in accepting

the office of mayor, issued the following statement:

TO THE CITIZENS OF CISCO—

I thank you for the honor you have bestowed upon me and I can assure you my time and efforts will be used to justify your judgment in selecting me as your mayor.

At this time I have no plans to make any change in the personnel. This can only be made after a thorough study of each employee, when you must realize I will take time. And I am assured of full co-operation of the commissioners which will be necessary to assure good results.

It is my plan to have this office open to any and all who care to bring their troubles and complaints and they will always find me ready to discuss these problems and I feel sure we will reach satisfaction to both sides. Our city is in need of many improvements and as you know, these things all cost money and money is one thing we are not overburdened with; our main source of revenue being the collection of taxes and water bills. We will endeavor to continue making collections and make adjustments where necessary.

Your suggestions, comments, and co-operation are solicited and will be appreciated.

Company Expects To Begin Work Before May 15

The Lane Star Gas Company has announced plans for modernization and expansion of its Pueblo plant to step up the production of natural gasoline, butane and propane. It was understood, unofficially, that the proposed expansion program would result in an expenditure of several hundred thousand dollars.

Work, scheduled to start within thirty days, will be carried out by Lane Star construction personnel, according to J. A. Bates of Ranger, superintendent of the West Texas district of the gas company's gasoline department.

The present de-ethanizer, distillation unit and oil pumps at the Pueblo Plant will be replaced by larger units. Mr. Bates said. The construction project also calls for installation of an 18-mile pipe line of two inch diameter which will transport all liquid hydrocarbons produced at Pueblo to Plant 108 at Ranger. From this point they will be carried by existing facilities to the central fractionating plant at Ranger. There the hydrocarbons will undergo further processing.

Modernization and expansion of the Pueblo plant is under the supervision of Mr. Bates, assisted by J. W. Van Bibber of Ranger, maintenance foreman, and L. M. Cawley, superintendent of the Pueblo plant.

Plans for revamping of the plant were supervised by Fred Townsend, superintendent, and John Kindle, assistant superintendent of Lone Star gasoline plants, both of Dallas, and Chester R. Rogers of Longview, superintendent of the East Texas district of the gas company's gasoline department.

Construction of the 18-mile pipe line will be under the supervision of Luther Tolbert of Dallas, pipe line superintendent, and Herman Dempsey, foreman, of Lone Star's Ranger pipe line district.

According to L. M. Cawley, superintendent of the Pueblo plant, work was scheduled to begin on plant improvements by May 15. The entire project will require several months to complete and will necessitate the employing of a crew of workmen.

The Company recently completed a new office and warehouse building which measures 36x80 feet. It is of structural steel construction and is sided with transite. It is equipped with all modern equipment and facilities and is of ample size to house additional employees necessary for the operation of the larger plant. The Company also installed, at the same time, a new 1,000 horse GMB compressor and a 600 horse compressor.

The plant, which is located between Cisco and Moran, just north of Lake Cisco, now employs 12 men and several more will be added when the expansion program is completed. The company built and maintains 10 houses at the plant for the convenience of the employees. No new houses are contemplated to take care of the additional employees, it was reported.

BAIRD DENTIST HAS STROKE

Dr. V. E. Hill, well known Baird dentist, suffered a heart attack at his office Friday morning, and was reported under treatment at the Callahan County hospital.

TIME STOPS— "Big Ben," First National Bank Clock, Goes On Strike And Causes Confusion

Old "Father Time" is taking a vacation in Cisco these days—so far as the hundreds of white collar workers are concerned. The cause of the shutdown is simple—"Big Ben," the first National Bank clock, is out of order.

Since the giant clock threw a gear in the wrong socket it has virtually upset the entire populace, caused the city bus to fall behind its schedule, and in general, brought on wide spread confusion.

"We've received numerous calls from irate persons demanding that we set the clock," said James McCracken, assistant cashier at the bank.

"One person said the clock's disorder might jeopardize his job, and asked if we couldn't do something about it in a hurry. Then another, a housewife, who calls the bank or a nearby store for the correct time each morning is complaining about her son's tardiness to school," McCracken pointed out.

According to officials, it is the first time Big Ben has been completely out of order since it was first installed by the O. B. McClintock Company in 1933. "The clock, at one time or another, lost time on one side, but never on all four," McCracken said. "Just what is wrong, we don't exactly know."

McCracken explained further: "The clock does not have any

mechanisms, but is operated by a master clock inside the building. It could be that several of the electrical wires leading to the larger clock have gotten wet, causing a short." We had no idea so many people depended on the clock. Everytime the city bus passes, the driver starts yelling and giving us funny looks," he smiled.

In order to stop the phone calls, a bank attendant put up cardboard covers across the clock's faces and wrote: "Out of order," "Time out for repairs," "Don't look now," and "It could be runnink." They drew comment.

McCracken said the bank was expecting a serviceman from Marlin, Texas, to put "Big Ben" back in shape within three days. And until he arrives, Ciscoans will just have to make believe they know the time.

New Oil Discovery Is Made In Pioneer Area

Announcement that the Realler Production Co. of Dallas has completed their No. 1 Leeman Underwood, located three miles northeast of Pioneer, as a discovery well for Eastland County, was made here this week.

The well pumped 70 barrels of 40 gravity oil in 24 hours from 228 perforations at 2,446-2,500 feet, on official gauge. Location is 330 feet south and east of the George Click survey in Section 44, Block 2, ETRR Co. Survey.

Drilling operations of the No. 2 Leeman Underwood by the Realler Production Co., were to begin within the next week. Location is 990 feet from the south and 330 feet from the west line of the Underwood 160 acre tract in Section 44, Block 2, ETRR Survey. Permit is for 2,995 feet with rotary.

Alleged Bandit

James Bennett, 25, above, is being sought by police in connection with a \$5,000 bank robbery in Follansbee, W. Va., after being implicated by Roy Mann, 26, who is now in custody. Police quoted Mann as saying that Bennett and an accomplice may be fleeing toward Florida.

In a statement released today, day, April 28. Persons wishing assistance with retirement claims or death claims under the Social Security Act should call at that time for necessary help and information.

McNatt reminds employers that their regular quarterly social security tax returns are due in the office of the Collector of Internal Revenue, Dallas, Texas during the month of April. These returns cover wages during the three month period ending March 31, 1949. Such returns should be filed by each employer who had one or more persons working for him during the quarter. Certain special types of work, however, such as farm work, work for governmental agencies, and work of domestic servants in private homes, are not included under the Social Security system; reports are not filed by employers on earnings doing these types of work.

MAYOR AND TWO AUDERMEN TAKE OFFICE

James T. Methew was installed in the office of Mayor of the city of Moran at a meeting of the city council Tuesday evening, April 26, and immediately took charge of the business which followed. At the same time S. L. Myrick and Paul Harper were sworn in as city audermen. Mathews replaced Mayor Foy B. Barnett, who is retiring after a term of two years. Mr. Barnett thanked

Mr. Hardy McKelvin and I.

Cat Replaces Cat

If you think you are confused, just read a bit further. Sandra Vogt, 5-year-old Fort Worth, Texas, girl, happily strokes a jet-black cat, named Blackjack II. Sandra's Blackjack I was given to Marlene Wendt of Oxford, Louisiana, after Marlene had written to the Texas and Pacific railroad asking them to replace her cat which the train had run over. Sandra gave up her cat in order that the little Louisiana girl could be happy, and now Sandra has Blackjack II, and she's happy — ACME.

Gas Has Got It!

The men, bless 'em, love any food with chocolate flavoring and it's the thoughtful wife who keeps chocolate cookies on hand in the cookie jar for between-meal nibbling. For Chocolate Meringue Cookies sift together 2 cups sifted confectioner's sugar, 1 tsp. flour, 1/4 tsp. salt. Beat 3 egg whites until stiff. Add sugar mixture 2 tbsps. at a time until thoroughly blended. Fold in 3 squares unsweetened chocolate (melted and cooled), 1/2 cup shredded cocoanut, and 1 tsp. vanilla. Drop from teaspoon on lightly greased baking sheet. Bake in moderate gas oven (375° F) for 10 mins.

A two or three-burner gas hot plate is inexpensive to operate and a helpful addition in the laundry when starch must be cooked or handkerchiefs boiled.

If your family likes pork chops, try simmering them in pineapple juice over a low flame. Then place in a 400-degree oven for about 20 minutes.

Colored clothes that can be safely washed with white laundry can also be dried with white clothes in your automatic gas dryer. It holds approximately the same amount as the washer so that each load can be dried immediately after washing.

Save the juice from cooked dried fruits to make a flavorful chilled fruit drink.

To peel tomatoes easily and quickly, spear them on a long fork and hold over the gas flame while turning. The heat loosens the skin.

Out Here In the Great Southwest —

... visitors from other states sometimes marvel at the bigness of our way of doing things. And, too, it is a constant source of pride to our own people when they look about them and witness, among other things the magnitude of some of our business institutions and their capacity to render service. Here in Eastland County we are proud of our title plant and along with a host of others we think it's the best in the Southwest.

High Blood Pressure

HARDENING OF ARTERIES, PAINS IN LEFT ARM AND SIDE—

Elmer G. Johnson, President of Harlingen State Bank, Harlingen, Texas, writes on Feb. 20, 1948:

"Please send another bottle of Liquid Garlic, also send a bottle to my sister-in-law, Mrs. Hulda C. Dutton, 45 Atwater Terrace, Springfield, Mass.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here has taken two bottles and is much better, his blood pressure down about 60 points. Mrs. W. F. Nelson of San Benito, who was in bad shape, is also very much better and her blood pressure down considerably. This Garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure."

Drivers Go On Defense In New Oil Company Club

POCA CITY, Okla., April 27—Newest offensive against traffic accidents -- the Defensive Driver's Club.

Continental Oil Company has begun enrolling its employees in a newly-formed organization that pledges its members to defensive driving -- allowing for the other driver's mistakes. Launched by the company's safety division, which is directed by J. S. Boylan, the Defensive Drivers' Club offers as its creed:

"I will be a defensive driver. I will make allowance for the other fellow's carelessness, lack of skill and knowledge. I recognize that I have no control over the unpredictable actions of other drivers and pedestrians, nor over conditions of weather and roads; therefore, I will develop a defense against these hazards. I will concede my right-of-way and make other concessions to avoid collision. I will be careful to commit no

driving errors my self and will be defensively alert to avoid all accident traps."
