Parade To Launch Ranch Day Activities Friday

Wheat Prospects Good Despite Storm Damage

Prospects for a bountiful wheat harvest in the Plains counties were maintained by generous rains over that entire area. Torrential rain, hail and high winds caused some crop damage in very local areas, but the benefits over the area as a whole exceed the limited damage. Soil moisture is sufficient to carry the crop to maturity. Dry weather and sunshine are now needed.

Leaf rust was present in a number of earlier counties, but damage for the most part has not been significant and no rust has been reported in the Panhandle area. Wheat is mostly an full head south of Amarillo and is heading in the extreme northern Panhandle. Limited harvest is expected to start in the Low Rolling Plains area southwest of Wichita Falls around May 20.

Corn, sorghum and cotton improved in the southern counties during the week, and many farmers made good progress in cleaning up grassy fields. Sorghums in the commercial Coastal Bend area were making excellent progress and some early fields were heading. Cotton planting was in full swing in most of east and central Texas, but little progress was made in other parts of the state.

Some cutworm damage on early cotton was reported in the counties along the Red River. In the High and Rolling Plains areas, some cotton and sorghums had been planted, but rains interrupted field work and may necessitate some replanting. Range and pasture feed was abundant in all areas excepting the Trans-Pecos. Additional rains in that area as well as in all Plains counties added further to moisture reserves in those western areas. All classes of livestock were fat and growing rapidly on the luxuriant green feed supply. The spring movement of big steers to Kansas and Oklahoma was at a peak. Marketing of yearling wethers from the Plateau counties increased sharply as the weather cleared.

CONDITION UNCHANGED

The condition of John Huffmyer, who is critically ill at the home of his son, Roy Huffmyer, was reported unchanged late today.

Mr. Huffmyer was stricken with paralysis several years ago and his condition became critical Monday. Another son Robert, of White Oaks, New Mexico, arrived in Cisco Wednesday to be at the bedside of his father. He was accompanied by Mr. Huffmyer's youngest grandson, Robert John Huffmyer.

4-H Girls Make 20 Million Meals In Food Program

Will 20 million meals placed end-to-end reach around the world, Nobody seems to know. But it is a fact that some 400,000 4-H Club girls last year planned, prepared and served 20 million meals as part of their training in the National 4-H Food Preparation program. In Texas, 21,746 were enrolled in the project, according to Floyd Lynch, State 4-H Club Leader, and the 1949 program is off to a good start.

Designed to help 4-H'ers understand food values from both health and economy standpoints, the program also develops desirable personal food habits. The youthful cooks range in age from 10 to 21 years, and as in all 4-H Club activities they "learn by doing." Use of home-produced food is stressed.

Merit awards will again be provided by Servel Home Economics department. They are educational trips to the National 4-H Club Congress for state winners, and six \$300 scholarships for members of a special blue award group. County winners will be presented with a gold-filled medal. The Co-operative Extension Service directs the program.

Dona Hendry of Blackwell was one of the national champions in 1948, having first won the state and Nolan county awards. Other county winners were: Mary Schultz, Atascosa; Margie Bartsch, Bastrop; Yvonne Marek, Calhoun; Mary Kaehlik, Cameron; Joan Evans, Coleman; Ann Brooks, Delta; Rosalie Camarillo, Guadalupe; Ann Lindstrom, Harris; Jeane Deese, Jefferson; Eloise Barker, Jones; Mary Crump, Lubbock; Billie Carlile, Martin; Bonnie Fenoglin, Montague; Margie Coalson, Parker.

Ex-Students To Meet At 5 P. M. To Elect Offices

A colorful parade in downtown Cisco at 10 a. m. Friday will officially open Third Annual Ranch Day festivities of Cisco Junior College, according to an announcement today by Austin Hollywood, chairman of the affair. The parade will be led by Art Clifton.

The expected five blocks long procession will assemble at 10th Street and Avenue D and will travel down Avenue D to 3rd Street, where it will disperse.

Following the parade, varied activities are planned for the entertainment of college students and approximately 1,000 high school seniors from throughout this region.

The 55-piece Lobo Band, this time posing as the Wrangler Band, complete with boots and chaps will lead the parade. Several decorated floats, the Wranglerettes, motor vehicles from the National Guard, clown, horses and other features will be included in the parade.

The celebration will also be the occasion for the return of hundreds of ex-students for a homecoming. The day for the exes will come to a climax at a meeting of the Alumni Association at 5 p. m. for the purpose of completing organization of a permanent body and the election of officers for the coming year. Association President W. H. LaRoque will preside.

In the afternoon, following welcome and introduction talks by President O. L. Stamey and Dean R. F. Webb and the traditional competitive contests, a long list of events will be held on the campus. These events include athletic contests, motion pictures, a matinee dance, a 42 tournament, and other features. The evening's program will include a softball game at 7:30 at Chesley Field and, later, a barn dance with Jerre Westfall calling.

For the first time since the Ranch Day idea came into being, visitors and guests will be met by official hostesses, directed by Mrs. Minnie Hill.

The hostesses, known as the Wranglerettes, will be uniformed in Western attire, each with a blue and white ribbon. The hostesses will act as guides on tours around the campus and through the class rooms.

Registration of senior classes from neighboring schools and ex-students will be held in the administration building in charge of the Ranch Day Names Committee. Cisco residents and business leaders have been invited to visit the campus during the day.

Guard Unit Praised For Its Accomplishments, Civic Value

Chamber of Commerce manager B. A. Butler cited the accomplishments of the Cisco National Guard unit at a barbecue held in their honor Wednesday night at the Lake Park. Approximately 30 Guardsmen and guests were present.

Butler called upon the Guard unit "to continue striving for advancement and progress of the community. He said, speaking in the behalf of the Chamber of Commerce, that Cisco was proud of the National Guard organization here, and the important role it was playing in the part of civic responsibility.

The guest speaker, introduced by Sgt. Frank Schlepfer, told the Guardsmen that "Cisco was watching the Guard unit with high interest in their ability to continue working for a higher goal.

"The businessmen of Cisco, as well as the populace, are back of you and your leaders to the last ditch," he said. "Cisco deems it an honor to have an active National Guard unit functioning within its 'walls,'" he continued.

In addition, Butler praised the leadership of the officers which includes Captain Olin Odom, Lt. Robert Donovan, Lt. C. J. Ritchey and Lt. Jack Lauderdale.

Other guest speakers who were introduced included J. B. Williams, Eastland County sheriff; Jerry W. Sitton, editor of the Daily Press; Dr. F. E. Clark, unit medical officer, and Hal Lavery, city secretary.

Prior to the speeches, a menu consisting of barbecue, potato salad, and chuck wagon style beans and bottled drinks was served to the group.

Officers and guardsmen present were as follows: Robert Donovan, Jefferson Collier, Jimmy Schlepfer, Wayne Parsons, Jerry Farley, Bill Tabor, Joy Dean Laws, Joe McIntire, Jack King, Jim Ewell, Wayne Rupe, James Ricker, Earl Butler, Sam Gorman, Emmett Graham, Jimmie Cummins, Frank Schlepfer, Jim Lassiter, Alfred Anderson, Ted Fields, Robert Jones, Harold Reich, Paul Woods, Ran Seaborne, Charles Beene, Olin Odom, Elbert Tipton, Hilbert King, James Reed, Jimmie Waddell, Emmett Reich and others.

Indian Educator Discusses Problems Of Education In All Nations Of World

"Time was when the teachers and educators of the universe were the first citizens, but now a modern world has pushed them into the background," so said Dr. T. M. P. Mahadevan, professor of Philosophy at Cornell University, in an address before more than 400 persons Wednesday afternoon at the Cisco High School auditorium.

Dr. Mahadevan's appearance here was one of two in the state and one of three in the southwest. He spoke to the general assembly of the University of Texas only a day before his arrival here yesterday, and is slated to make an address at the University of New Mexico at Albuquerque May 12.

A small man in height, Dr. Mahadevan was introduced to the assembly by O. L. Stamey, president of Cisco Junior College, who accompanied the guest speaker from Austin. High School Principal Carlos Turner introduced President Stamey.

Dr. Mahadevan said both the East and the West, through lack of interest, had pushed the educating profession into almost obscurity.

"There was a time when an educator was honored and respected by his fellow men for his profession, but that was long ago," he said. The world is neglecting the teaching and education society."

Dr. Mahadevan said, he had found no difference in the attitude and belief of the student in his tours around the world. "A teacher," he declared, "can influence the youth of the world so long as he is continuously living and thinking in terms of youth."

The guest speaker, who has been living in the United States for almost a year, said if the world would take on the same outlook as the students, there would be no need for panic, world conflicts and fear.

"All of the problems that have ever been brought onto the people of the world have been made - made," he said. "I have found in my travels that the students of the world are free - living, believers of

justice and care - free individuals."

India, today is backward in its educational program, in that it does not tend to turn out individuals, but human beings tagged with a number. If my country (India) is to achieve a place in the world as a nation, there must be introduced to the people a sense of responsibility, and not just a burden to others," he concluded.

Dr. Mahadevan made the Texas trip at the invitation of Dr. Painter, President of the University of Texas, who extended the invitation at the suggestion of Eugene Lankford, Cisco attorney. Mr. Lankford came in contact with Dr. Mahadevan through a mutual friend, Swami, Omkar of India when he found that he was coming to Texas. Dr. Mahadevan wrote Judge Lankford that he would like to meet him in Austin. Due to ill health the judge was unable to make the trip and wrote that he would not be at the meeting there. The Indian educator immediately wrote that he would come to Cisco for a visit.

Judge Lankford, working with college officials, arranged for the talk here, which was one of two in Texas and the only one in the nation to a junior college group.

**MISS ROSE ANN WOODS, BRIDE-ELECT, HONORED AT TEA SATURDAY**

Mrs. G. P. Mitcham of Cisco, Mrs. J. B. Abernathy of McHenry, and Mrs. Jim Mitcham of Brownwood entertained on Saturday, May 7, in the G. P. Mitcham home honoring Miss Rose Ann Woods, which was the pre-nuptial affair since the announcement of her engagement to Mr. Thomas New-Hughston of Dallas.

The house was resplendent with lovely floral decorations, white and yellow theme, colors of the bride-elect beamed.

Guests were received at the door by Mrs. John Shertzer who

introduced them to the hostesses, who presented them to the honoree, Miss Woods; her mother, Mrs. Paul M. Woods, and her grandmother, Mrs. W. J. ## Select Your Best Plants To Mature in Garden Row

Thin out excess plants gradually, and allow the best plants to live, using discards for table when possible.

Thinking out the plants that come from the seed you have sown may give you an emotional shock. In fact, some gardeners just can't bring themselves to do it, and in consequence their plants are so crowded none can develop full size and vigor, and the crop is reduced in quantity as well as quality.

There is no way to get a full stand in a row without sowing extra seeds; and the home gardener is well advised to do this. He may look upon the task of thinning out as an opportunity, which permits him to select the finest plants to develop and inferior ones to be eliminated.

For best results, thinning should be done in stages. In the case of a crop which grows best when the plants stand six inches apart, do not thin them out until they are each six inches. There are two reasons for this:

First, many vegetables, such as carrots and beets, are most delicious when half-mature. By thinning at first only enough to insure that each plant stands well alone in the row and then allowing them to

duced them to another group of out-of-town guests, Mrs. Ruby Ables and Mrs. Turner Garner of Brownwood. As the guests passed on to the other reception room they were greeted by Mrs. Henry Drumwright and Mrs. Bill Childers who ushered them into the dining room.

Here, again the "bride-elect's" chosen colors were emphasized. The table, laid with an imported Maderia linen cloth, was centered with a silver bowl filled with white and yellow rose buds. (The arrangement was flanked at the sides by crystal candelabra holding burning yellow tapers. On either side was a yellow bird with a golden card in its bill bearing good wishes for the bride. The buffet held a matching centerpiece of white and yellow rose buds, with yellow tapers in crystal holders flanking the sides.

Mrs. J. E. Spencer presided at the silver tea service at an end of the dining table; Mrs. Bob Gilman presided at the opposite table-end over the silver trays of rolled and finger tip tea sandwiches and individual white cakes embossed with yellow flowers. Assisting in the dining room were Mrs. K. N. Greer, Mrs. W. C. Hogue, Mrs. E. L. Graham, Mrs. Sterling Drumwright, Mrs. Jack Anderson, Mrs. Bill Mitcham, Mrs. Rex Carrothers and Mrs. A. D. Anderson.

Mrs. J. Frank Dean has just returned from a visit with Mr. Dean's people in Pine Bluff, Arkansas. The gathering was in the nature of a family reunion held at the home of Mr. Dean's mother who is 88 years old — the occasion was her birthday. Before Mr. Dean's passing a few months ago, he had seldom missed spending her birthday with his mother — in fact, when he received his injury which hastened his death, he had started on one of his annual visits to Pine Bluff.

Accompanying Mrs. Dean were her daughter, Mrs. Paul Ormsby, and son, Paul Dean Ormsby.

### As Time Goes Marching On —

... more and more land titles become involved in an endless chain of normal, every-day events precipitated by marriage, divorce, lunacy, birth, death and other natural and unnatural happenings within the family circle. Thanks to Time, it cures some titles temporarily, but wrecks and changes the status of many others. Court action may "quiet" titles for the moment, but not for long. The abstract is your safeguard - keep it up to date.
