Six Run Splurge Gives Schoolers 12-9 Victory

fourth inning uprise, paced by Roy Cozart, enabled the Cisco Night Schoolers to come from behind and scoot past the Independents, 12-9, last night at Chesley Field.

A hustling First Baptist nine banged the First Christians, 12-2, n a Sunday school game ear-

Headed by Russell Johnson, short stop, the Cisco Independents scampered for a 4-2 lead in the openeing frame after Don Johnson, third batter up, doubled, slipping his brother, who got aboard with a single, to the plates.

With one man away, Mac Harrelson powered for a single, the elder Johnson went to third, and both tallied on a single by Joe Philpott, who later scored on an error. In the bottom of the first, the Cisco Night Boys rushed two runs to the platter. A lone talley in the second

inning by Willis Black, Green Sox moundsman, edged the Independents away with a 3-2 lead. Scoring in the second frame was limited. Black whiffed J. V. Heyser from the batter's box and forced Brown to fly out to second and Morris was out at first. Morris, opposing pitcher, in turn, took Donovan and Erwin out of the game on throws to first and Philpott flew to first.

But things started popping in the fourth inning. After holding the Independents tightly, the Cisco Night Schoolers roared home with six runs, mostly donations. Cozart, whose field play during the evening was super, splurged the scoring treks, followed by Burrows, Tipton, Heyser, Goff, Heyser and Morris.

In the top of the fifth, Morris limited the Independents to one here. run when Philpott doubled, and Officers for the current term Brown, third paseman. However, Black gave up two hits and a walk to the Schoolers before the sides retired. The score stood 12-6 for the Schoolers as the tilt neared the seventh. A final desperate thrust by the Independents in the seventh was turned by without net results, but the losers did manage to push in three runs, And that accounted for the final score.

POLIO SEASON AT HAND

During the months from May through October, hundreds of Americans will be threatened with the crippling disease called polio. And, yes, hundreds will be inflicted, others will die, so says the National Foundation of Infantile Paralysis.

Those responsible, says the Foundation, for the welfare of children should carefully observe the following five health rules, now that the 1949 polio season is here.

(1) Avoid crowds and places where close contact with other persons is likely.

(2) Avoid overfatigue caused by too active play or exercise of irregular hours.

(3) Avoid swimming in polluted

water. Use only braches and swimming pools declared rafe

by local health authorities. 4) Avoid sudden chilling. Re move wet shoes and clothing at once and keep extra blankets and heavier clothing han dy for sudden changes.

5) Observe the golden rule for personal cleanliness. Keep food tightly covered and safe from flies or other insects. Garbage should be tightly covered and, if other disposal facilities are lacking, it should be buried or burned,

NOTE THESE POINTS

The symptoms of infantile paralysis are headache, nausea or ipset stomach, muscle soreness or stiffness and unexplained feer. If polio strikes your famly, call a doctor immediately Early diagnosis and prompt reatment can often prevent erious crippling. Rule out fear nd anxiety; a calm, confident ttitude aids recovery. Rememer that out of every four perns stricken by polio, two recover completely, and a third is left with only slight after-effects.

If polio is actually diagnosed, get in touch with your town's chapter of the National Foundation for Infantile Paralysis. It will pay whatever costs of care and treatment you cannot afford vourself.

Try Combinations Of Fruits And Berries For Distinctive Flavor And Economy

- By Frances Barton

ONE fruit is good, but several are better! At least that's the opinion of a number of good cooks who have tried combinations of fruits for jam and jelly making. Not only are these combinations satisfying for their distinctive and intriguing flavors, but they reduce the load on the food budget by allowing more of a less expensive fruit or berry to extend a smaller amount of a more expensive one. Simply use the fruits you prefer in any combination you choose like the

Bottled or powdered fruit pectins o the trick. Using pectins, the homemaker need not bother at all about the jellying properties of her fruits. They take the guesswork out of jelly and jam making and prove their economy, too, by producing a greater yield of the fi ished product Your family will h delighted with this one:

Currant and Gooseberry Jam 5 cups prepared fruit

7 cups sugar 1 box powdered fruit pectin To prepare the fruit. Stem about pulp to remove some of the seeds.) Combine fruits and measure 5 cups into a very large saucepan.

To make the jam. Measure sugar and set aside. Place saucepan holdng fruit over high heat. Add powdered fruit pectin and stir until 1 quart fully ripe currants and mixture comes to a hard boil. At crush thoroughly. (If desired, sieve once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, Crush thoroughly or grind about stirring constantly. # ATTEND CHURCH

THE CHURCH NEEDS YOU \_ YOU NEED THE CHURCH

I here they are! We were so busy at the task of the moment that we forgot we were leaving our footprints. Every step we take leaves its mark. Eager young minds see them so clearly even when we have not noticed them ourselves. Why not let your steps lead them to church!

Ask the average boy what he expects to do to make a living. His first impulse is to do just what his father has been doing. That is somewhat modified today, when so many new opportunities are offered, to which parents are directing the attention of the growing boy. But it is surprising how many farmers' poys return to the farm, how many preachers' sons go into the ministry, and how many bankers' sons carry on in the place of their dads. Your son will follow you to church too.

Listen to the speech of your neighbor; the words he uses, his characteristic expressions, the very inflection of his voice. Then ask his son to talk about some matters in which he is interested. He is following in Daddy's track's, even to the tone of his speech.

ow important then that we walk ahead of these growing children with our feet turned in the right direction, along the best paths! Do we want our girls and boys to be interested in community welfare? Then let them follow us to the meetings where community-minded women and men are giving their best thought to helping build a good society. Do we want them to be faithful worshippers of the Living God? Then let them sit with us in the place of worship. Whether we wish it or not our children are walking "in Daddy's Tracks," just as you and I walk where our fathers walked.
