Parking Meters Are Being Installed; Will Be Ready Friday

Street department employee were working Monday and Tuesday erecting standards for parking meters which are being installed in the downsawn area of Cisco. The crew is using air hammers and setting the posts in concrete.

The posts are being painted as soon as they are erected and when the paint is dry the meter heads will be installed. Approximately 400 of the meters will be placed in locations selected by Walter Bei, engineer sent out by the successful bidder.

The meters are being placed eximately three feet from the curb in order to allow for possible widening of Avenue D. That project is being discussed by city officials and state highway department officers.

The meters should be in operation by Friday or Saturday, it was announced. When they are placed in operation a special ofto check parking and to maintain the meters. It was reported ton services. Burial was to folthat maintenance costs would be in charge of rites there,

Your Job at Home

Food storage, as every homemaker knows, is an important part of housekeeping. Nutritional values of foods are frequently lost and spoilage results through improper refrigerator care. And there is no spoilage results through improper refrigerator care, drying out than by better way to protect the vitamin content and prevent drying out than by wrapping in Sylvania cellophane. Lettuce, watercress, carrots and other fresh vegetables retain their crispness and nutritional values when protected this way. Ready-to-eat and ready-to-cook dishes like this Beef Casserole Au Gratin keep moist for hours if wrapped in cellophane. It can be made well in advance and stored in the refrigerator until sections. Esso MOTOR OIL

... something Extra added!

This is three-way extra protection

Extra 1 - Extra lubricating quality - Esso Extra covers and stays on metal parts.

Extra 2 - Extra cooling-hot engine parts are quickly bathed with Esso Extra Motor Oil.

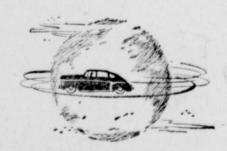

Extra 3 - Keeps engines extra clean - detergent action picks up and disperses soot, sludge, varnish and dirt.

HUMBLE OIL & REFINING COMPANY

Here's How New Esso Extra Motor Oil Protects Your Car

You probably use a good detergent soap in your kitchen. New Esso Extra Motor Oil contains a detergent specially designed to be added to motor oil to keep engines clean. As a good detergent soap will not injure hands and delicate fabrics, the mild detergent in Esso Extra Motor Oil is safe for use in the finest, tightest automobile engine made.

OVER A MILLION MILES.

New Esso Extra Motor Oil has been road tested in cars like yours for over a million miles of driving. In every test, whether the car was driven slow in city traffic or pushed on the highway, new Esso Extra Motor Oil proved to the engineers who made the tests that it gives extra motor oil performance.

HOT OR COLD-ALWAYS THE SAME

In cold weather, you want a motor oil thin enough to flow instantly to moving engine parts. In hot weather, you want an oil that stays full bodied and tough. Scientists rate the ability of an oil to stay the same, hot or cold, by its viscosity index, and, generally, the higher the viscosity index, the better the oil. New Esso Extra Motor Oil has the highest viscosity index of any motor oil in Texas—or out!
