

Annual Pinnell Family Reunion Is Held Here Recently

The annual Pinnell family reunion was held July 22, 23, and 24 at the Presbyterian Encampment, located at Lake Cisco.

At the closing business session, Ben Pinnell was elected president and Mrs. Walter Brooks was re-elected secretary-treasurer. It was also decided to include the Brooks family in the celebration next year, making it the Pinnell-Brooks reunion. Those present for the three-day reunion were:

A. B. Pinnell and son, Benny, El Paso; Mr. and Mrs. Tom Pinnell, San Bernardino, Calif.; W. L. Parish, Port Arthur; Mrs. Alice Pinnell and daughter, Jane Ann, Sweetwater; Tom and Dora Boyall, Abilene; Mrs. Mae Baker, Bakersfield, Calif.; Mrs. Vida Waincott, Throckmorton; Mr. and Mrs. W. C. Brooks, Moran; Mrs. J. P. Atwood, Clyde.

Mrs. Joyce Stewart and son, Barry, Kermit; Margie Atwood, Kermit; Mr. and Mrs. Ed Brewster, Wanda Larry and Wilda, Albany; Mrs. Paul Varney and daughter, Jerry, Dallas; Mr. and Mrs. Sidney Brooks, Lueders; Mr. and Mrs. Eugene Brooks and family, New Mexico; Mr. and Mrs. Ernest D. Clemente and daughter, Toni, San Bernardino, Calif.; Mr. and Mrs. Ben Pinnell, Moran; Mr. and Mrs. Homer Brooks, Moran; Mr. and Mrs. Gilbert Whitehead, Zepher; Mr. and Mrs. Brooks Smith, Tohoka.

Mr. and Mrs. Cleo Evans, Carol Ann and Don, Mineral Wells; Mr. and Mrs. E. A. Hooper and Letha Lee, Abilene; Della Anasas, Mineral Wells; Emma Anasas, Mineral Wells; Mr. and Mrs. A. L. Deguire, Dallas; Mrs. Horace Brooks and Bruno, Moran; Don Latimer, Albany; Mr. and Mrs. Norrel Long, Cross Plains; Jimmy Long, Cross Plains; Marie Shamrock, Cross Plains; Mr. and Mrs. C. W. Fenton, Jr., and Lyette, Odessa; Mrs. Jessie Klutts, Cross Plains; Mr. and Mrs. Fred Long, Cross Plains; and Mrs. Bertha Wieler, Cross Plains.

Business Census Being Taken Here

The official business census in Cisco and Eastland County was started Monday, according to an announcement by Miss Lela Latch, official enumerator for Cisco.

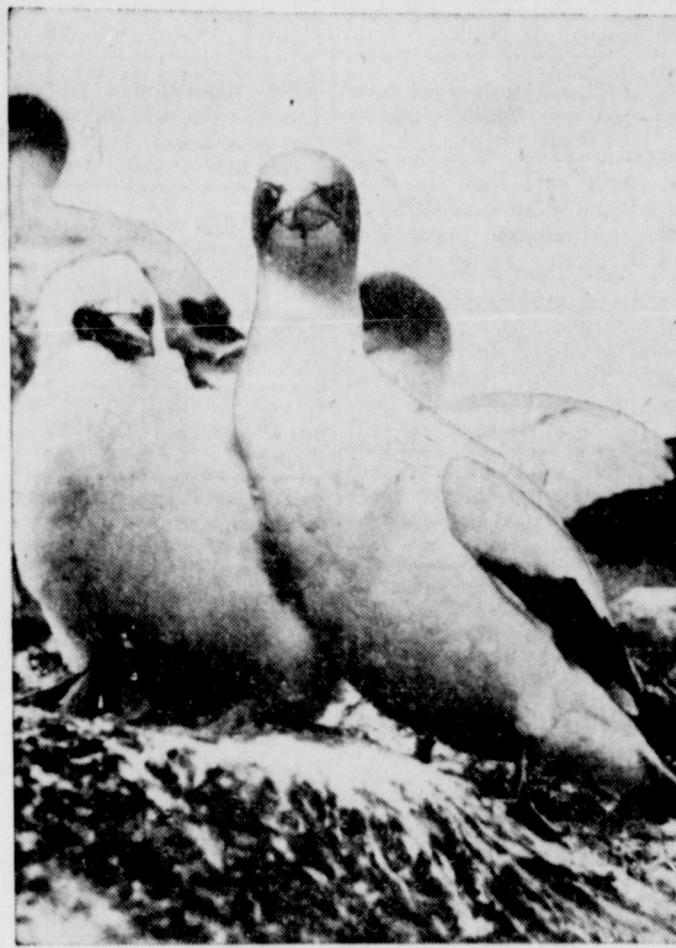

The census is being taken by the Department of Commerce under authorization by an act of Congress under public law 671, which authorizes and directs the Commerce Department to take such a census every five years. The census will include wholesalers, retailers and service establishments and will provide a record for business in the United States. The finished report will give the number of establishments in each city, county and state and will show the dollar volume of business done during the year. It will give an accurate picture of employment during the year and will be a measure on National Income and National production.

The records of individuals will be confidential and will be handled only by the Commerce Department. The law provides a penalty for those who fail to cooperate or to give accurate information. Miss Latch and six other enumerators, including Mrs. Grady Laws of Cisco, attended a two-day school of instruction in Eastland last week. The school was under the direction of Jack Welch of Abilene. Mrs. Laws, the enumerator in one of the rural areas.

POLIO VICTIM IMPROVES

Four-year-old Billie Burke, daughter of Mr. and Mrs. C. Burke, of Cisco, continued to improve as a polio patient in Fort Worth's City-County hospital this week. Billie was stricken with polio July 8. Hospital attendants have given her a good chance for normal recovery. Burke reported.

CREDIT BODY GIVES ANALYSIS OF ACTIONS OF TEXAS LEGISLATURE

A breakdown of the 633 bills passed at the recent session of the Texas legislature, as analyzed by the Retail Merchants Association of Texas, shows no damaging legislation was enacted that dips into the consumer's pocketbook or impedes business. Mrs. Roy Huffmyer, Secretary of the Merchants Credit Association.

She said the legislators followed a course that generally could be termed "middle-of-the-road" as evidenced by the legislation allowed to die and measures approved. Despite a record appropriation, the Legislature did not burden consumers or businessmen with new or additional taxes.

Mrs. Huffmyer warned, however, that the Legislature left several pieces of legislation pending for action at a special session, legislation which will require appropriations and either new or increased taxes. The amount of money that will have to be raised has been variously estimated at from \$17 million (for next year's operation of the eleemosynary institutions) to as high as \$150 million. The amount that will be needed will of course depend on what legislation is passed at the forthcoming special session.

Of the ten amendments to the State Constitution passed by the Legislature and up for approval by the voters on November 8, one in particular deserves careful scrutiny by consumers and businessmen alike. That is the amendment which would raise the salaries of legislators and authorize once-a-year sessions. Approval of this amendment, she said, will mean a \$2 million a year additional expenditure, a burden which will have to be borne by taxpayers.

Mrs. Huffmyer said the digest of the 1,501 bills considered by the Legislature and the final action taken on them showed that consumers and businessmen of this area owed the Legislators an expression of appreciation. Particular attention was called to the following laudatory action:

No new or increased taxes. An amendment to the Unemployment Compensation Act that helps deserving unemployed persons and reduces the tax burden of employers, and defeat of another bill which would have increased the compensation tax burden.

A status quo attitude toward labor laws. Enactment of a number of bills (in the fields of health, civic rights and education) that checkmate further federal encroachment upon States' rights in these fields. Defeat of a soldiers' bonus that would have cost \$400 million and helped individual veterans very little. Establishment of a Legislative Council and Legislative Budget Board, the former to

make recommendations to bring about a more efficient State government, and the latter to assist in the determination of financial policies of the State.

Defeat of an amendment that would have allowed virtually unlimited State pensions. Refusal to raise the so-called "luxury" tax on radios, cosmetics, etc., although at the same time failing to repeal the State tax.

Two Are Held On Charges Of Illegal Possession Of Beer

Two Cisco negroes are facing charges of illegal possession of beer with intent to sell, following their arrest here Saturday night by Constable R. C. Farmer. The charges were filed Monday before Justice of the Peace Will Brown.

Farmer said a considerable amount of beer and whiskey was confiscated in the raid. The defendants were released after they posted bonds.

DAIRY PRODUCTS GAIN

Auto Mechanics Classes Planned This Year At Cisco High School

Plans to begin a high school vocational training school in auto mechanics, to be carried on at the Cisco Junior College shop, were revealed here Wednesday.

Elmer Frede, shop director at the college is to leave for Austin Friday, where he has arranged a meeting with W. R. Kate, director of Trade and Industry Training, regarding the proposed plan. Once at the state capitol, Frede will present the Cisco School's proposal that classes be offered in auto mechanics to students in the junior and senior classes in high school.

Although his request must go through higher offices, Frede said he wouldn't know if the state school department had accepted the proposal until they notified him in Cisco. However, he said he had some hope of the department's passing the plan.

"In my late telephone call to Mr. Kate Wednesday, he invited me to come to Austin and present the school's plans. If he had not thought the proposal would pass, he certainly would not have asked me to make the trip," Frede said.

Frede said he hoped to get the program underway this fall, if the application was accepted by the board in time. If the pro-

114 VOTES CAST IN SCHOOL ELECTION

One hundred and fourteen votes had been cast at 3 p. m. today in the school tax election being held throughout the Cisco Independent School District, it was reported at the City Hall polling place.

School officials, who had urged a large turnout of voters, said the polls would be open until 7 p. m. today.

Rev. Rohre Talks To Rotary Club

Rev. Stuart McC Rohre, attending his last meeting as a member of the Cisco Rotary Club, was the speaker at the regular noon meeting Thursday in the dining room of the Victor Hotel. Rev. Rohre was presented by W. H. McAnally, who was in charge of the program for the meeting.

Rev. Rohre told of the dangers confronting the American people under present practices of some governmental departments and warned against Socialism creeping in under the name of Government reforms.

Mayor G. C. Rosenthal was welcomed into the club as a new member and was presented his pin and membership card by Rotarian E. P. Crawford.

At the invitation of President Bob Elliott, Arlin Bint, superintendent of the Cisco Public School System, explained the double election being held today to equalize the tax rate over the entire school district and for the acceptance of the bonded indebtedness by the entire district. Mr. Bint urged all citizens to vote.

E. W. Berry and George Barron of Abilene and J. C. Poe and Jack Frost of Eastland were visitors from Rotary Clubs in those towns, making up attendance. Other visitors were R. J. Stephenson and Arlin Bint of Cisco.

ELECTRIC USE JUMPS

AUSTIN, July 28. — June electric power consumption in Texas was 12 per cent greater than in May, the University of Texas Bureau of Business Research reported. All types of power use gained: commercial, 18 per cent; residential, 11 per cent; and industrial, 9 per cent.

Skipper Thomas, Humble Pipe Line Veteran, Will Retire Next Month

(Special To The Press)

MIDLAND, July 28. — J. W. "Skipper" Thomas, West Texas division superintendent of Humble Pipe Line Company, will be honored with a barbecue and retirement party on Saturday, July 30, at Cloverdale Park in Midland. Mr. Thomas will retire next month at the age of 65 after more than 30 years' service with the company.

Humble Pipe Line employees from all over the West Texas area have been invited to the party, and many executives and friends from the company's

West Texas-Panhandle headquarters were moved to Midland in 1939, and in 1946 the Panhandle area was transferred to the North Texas Division with Mr. Thomas remaining in charge of the West Texas division.

home office in Houston are also expected to attend.

Following the party Mr. Thomas will begin his four-week annual vacation before actually retiring on August 30. His plans for the future are incomplete, but he will continue to live at his spacious home in Midland with his son and daughter-in-law, Mr. and Mrs. J. W. Thomas, Jr.

Both of his sons are in the oil business. J. W., Jr., is a drilling contractor and Frank is district petroleum engineer at Pampa for Humble Oil & Refining Company. A daughter, Mrs. Wilma Thomas Hughes, lives in Wichita Falls. Mrs. Thomas died in 1944.

It was more than 44 years ago that Mr. Thomas first went to work on a pipe line in the famous Spindletop Field near Beaumont. After working in the Gulf Coast area for 13 years, he joined the Humble Pipe Line Company in 1918 as district foreman at Wichita Falls.

Contract Calls For Completion By Local Builders Within 120 Days

Waters Brothers Construction Company of Cisco today received orders from the Department of the Army to proceed with the construction of the motor vehicle storage depot for the U. S. Army Engineers to be delivered to the Cisco unit of the Texas National Guard upon completion, according to an announcement by Warren Waters of the contracting firm.

Mr. Waters reported that representatives of the U. S. Army Engineers, headed by Mr. Bowers, were in Cisco Wednesday and made the building location. Construction was to begin Thursday and to be completed within 120 calendar days.

The new building will be located on a tract of government land which was secured from the City of Cisco several months ago. It will be located east of the Cisco Junior College campus on the old city airport property.

According to plans and specifications the building will be 52 x 100 feet in size and will include vehicle storage space, offices, rest rooms and other features.

The local construction company holds similar contracts for motor vehicle storage buildings in Breckenridge, Olney and Ranger. Work on the Breckenridge building was entering the final stages and work on the Ranger and Olney buildings followed in succession.

Mr. Waters announced that the company had been awarded additional contracts on work on the Breckenridge, Ranger and Cisco buildings approximating \$10,000. The original contract on the Cisco building called for an expenditure of approximately \$36,000. The additional contract was awarded by the Texas National Guard.

Oil Workers Union And Local Firm Forming Contract

Negotiations opened Tuesday morning in the Victor Hotel between the Oil Workers International Union, CIO and the Cisco Hydrocarbon Corporation to form a contract between the company and members of the union.

The Oil Workers Union, a section of the CIO, won the right to represent the employees of the local firm at an election held recently, it was announced.

The employees and the union are being represented by President Verne W. Peterson of Local 478 of the Oil Workers International Union and R. W. Lawrence, Union representative. The Union's committee of employees is made up of Frank Bilderback, D. A. Morrow and Kenneth R. Preston.

The Cisco Hydrocarbon Corporation is being represented by Lee Trantham, J. W. Martin of Houston and F. M. Wright of Cisco. Mr. Wright is manager of the local plant. He reported that the contract was in the negotiating stage and that it would possibly take several days to complete the talks.

OFFICIAL SOFTBALL SEASON ENDS TONIGHT; PLAYOFFS BEGIN MONDAY

Officially, the city's second year of softball will draw to a close tonight at ABC Park and club officials were anticipating one of the largest crowds since the gates were opened last May.

The twin bill will pit the East Cisco Baptists against the First Methodists in the Church League. Since the championship in this league has already been decided, the outcome of the Baptist-Methodist tilt will declare only second and third place standings. The game will get underway at 7:45.

Termed as "very crucial," the Cisco Night Schoolers and the West Texas Kilowatts, now tied for second place in the Commercial League, will go to bat at 8:45 p. m. Here, the outcome will enable the winning club to try the Seranton Plowboys since it would throw the champs of the second place bracket in an automatic tie for first. The Plowboys are heading the league with four wins and one loss. The Schoolers and the Kilowatts are squared with 3 wins and one loss each.

Manager Troy Stewart of the Schoolers will divide the pitching chores between Delmer Childers, Bill Burrows, and possibly Durward Morris. Childers, however, will likely see most of the

ABILENE, July 28. — In lineal city council, asking for the appropriation.

A request was sent to Washington this week by John Couch, president of the Bob Baskin Dam Assn., for a resurvey by the Reclamation Bureau. Banteen said this request was made in line with the criteria proposed by the WTCC which would give domestic water priority in all multipurpose dam construction.

This program has been finding wide-spread approval in official circles and, according to Congressman Mahon who says, "the thinking of the Bureau of Reclamation is undergoing a drastic change. The Bureau is enthusiastically supporting the Canadian project, even though it is almost exclusively a municipal water supply project."

Senators Tom Connally and Lyndon Johnson, together with Congressman Omar Burleson, Eugene Worley and George Mahon, have also added their commendation to the program. Likewise letters have come from the United States C of C and the National Association of State Chambers of Commerce. One of the last letters Gov. Beauford Jester wrote before his death was

Towns joining in the water appropriation request for the Bob Baskin dam are: Knox City, Benjamin, Goree, Munday, Peacock, Aspermont, Rochester, Rule, Weibert, Haskell, Hamlin, Stamford, Anson, Guthrie, Truscott, Seymour, Throckmorton, Fort Griffin, Albany, Girard, Clairmont, Spur, Rhineland, O'Brien, Sagerton and Avoca.

Mrs. Edward Lee Talks To Council

Members of the First Christian Church General Council, in their regular weekly meeting Tuesday at the church, heard Mrs. Edward Lee in a talk entitled: "Cooperation in a Christian Nation."

In her discussion, Mrs. Lee, wife of former Mayor Lee, told of work the Women's Christian Missionary Society had planned for the next six months. In conclusion, Mrs. Lee said more

missionary work and study should be carried on as never before in Christian homes and nations.

Prior to Mrs. Lee's talk, Mrs. H. H. Davis delivered the devotional. Minutes were read and approved and regular business was transacted before the group. Mrs. Fleming Waters, president, presided.

More than 20 members were present, including two guests.

Mrs. O. J. Russell was to leave Cisco tonight for Los Angeles, Calif., for a three week's visit with her daughter, Miss Topsy Russell.

LUCKY STRIKE

MEANS FINE TOBACCO!

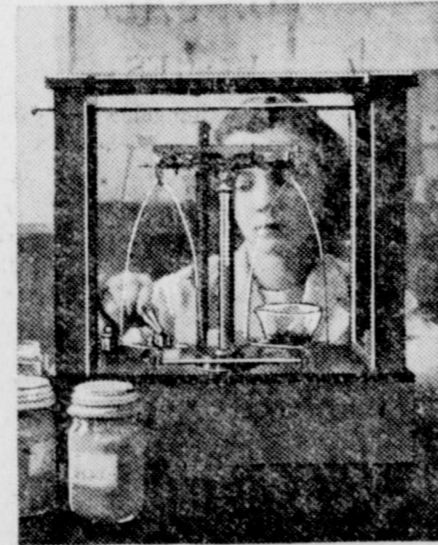

Tests made by America's largest cigarette research laboratory scientifically help Lucky Strike buyers select the fine tobacco that goes into Luckies!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye.

This man knows where fine tobacco grows. Here is one of Lucky Strike's tobacco-buying supervisors gathering sample leaves from a curing barn. Such samples are obtained from every tobacco-growing area and sent to the laboratory for pre-market analysis. No wonder—L. S./M. F. T.—Lucky Strike means fine tobacco!

This scientist knows how to test tobacco. In our Tobacco Control Division, samples sent to the laboratory are subjected to scores of analyses to determine smoking quality. This vital testing, both before and after tobacco is purchased, has been conducted for years... still another guarantee that Lucky Strike means fine tobacco.

Reports received. The laboratory sends results of the analyses to the buying supervisors. This information helps the buyer go after finer, lighter, milder tobacco for Lucky Strike. Thus the judgment of the buyer at tobacco auctions is combined with modern science at the laboratory to assure you that Luckies are a finer, milder cigarette.

We know: **LUCKIES PAY MORE** for fine tobacco (millions of dollars more than official parity prices)

We are convinced: **LUCKIES PAY MORE** for cigarette research

So, for your own real deep-down smoking enjoyment **Smoke a Lucky!**

Lucky Strike's fine tobacco and constant research combine to give you a finer cigarette. Prove this to yourself. Buy a carton of Luckies today.

DAILY TAX 58,179 CARTWHEELS

Yup, them's silver dollars, pardner, 58,179 of them. They're a feature of the 50th Anniversary celebration of The Timken Roller Bearing Company, Canton, Ohio.

About 8,000 of the silver dollars had to be left in bags, because the 12-cubic-foot lucite box made especially for the display won't hold that much hard money.

In the photograph above, two Timken employees, Louise Kessler, left, and Audrey Roth are amazed at the size of the pile. The exhibit is in the courtyard of the main entrance to the Canton plants of the Timken Company.

The large pile of cartwheels, weighing approximately 3500 pounds, represents the amount Timken and its employees hand out in federal income taxes daily. The Cleveland and Pittsburgh Federal Reserve Banks required several weeks to corral them for the First National Bank of Canton, which had the job of ordering them for Timken.

AIR FORCE SQUADRON MAPS HUGE AREA OF ARCTIC WASTES

The formidable peaks of Mt. McKinley and adjacent wild terrain in Alaska mountain ranges which for years have defied exploration fall easy prey to the probing cameras of the U. S. Air Force 72nd Photo Reconnaissance Squadron. Mt. McKinley, highest mountain on the North American continent, as it soars to 29,300 feet, is a familiar sight to the crews of the B-29's of the Squadron that travel back and forth over such areas to make overlapping photographs for much needed charts.

More than 260,000 square miles of Alaskan terrain has been photographed by the Squadron since its arrival in Alaska in 1946.

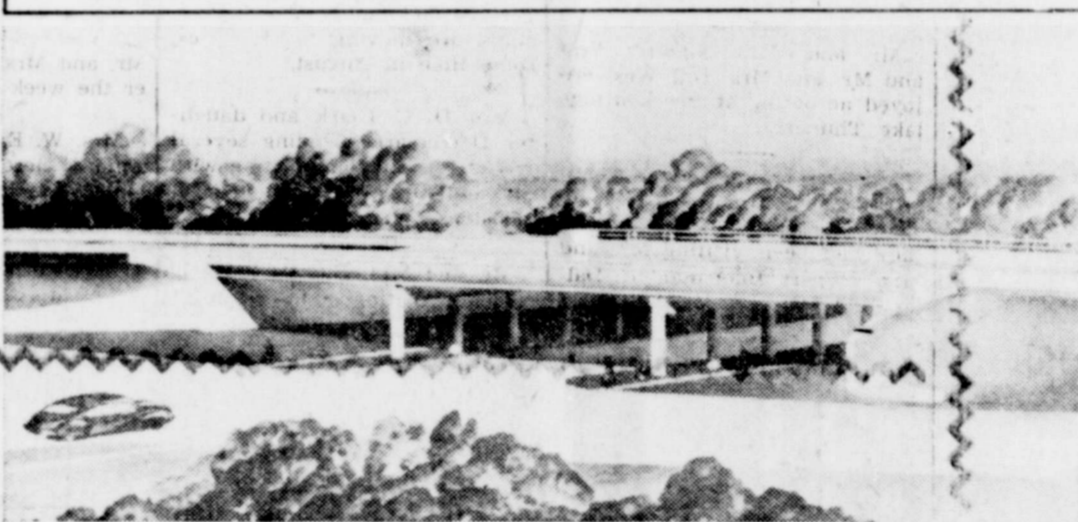

Here S/Sgt. R. H. McLeod, Seattle, Washington, passes E-17 camera to T/Sgt. Lewis White, Salado, Texas. Magazines on cart (right) are fixed into position atop cameras after they are mounted. Each carries a 200-foot roll of film and rolls are easily changed in flight. As many as 30 loaded magazines are used on one mission. (U. S. Air Force Photo.)

DALLAS EXPRESSWAY CROSSING

This beautiful, modernistic bridge is one of four in the first two-mile section of Dallas' Central Expressway which will be officially opened late in July. When the giant boulevard, long a dream of this growing Southwest Metropolitan center, is completed, 10 overcrossings and 10 underpasses will carry motorists over and under crowded street and rail intersections. A second mile and one-quarter section is scheduled to be opened to traffic in late fall.

Structural steel for three of the four bridges in the two-mile stretch, including the Washington Street Bridge above, was supplied by U. S. Steel's Virginia Bridge Company.

The new expressway, a major step in solving the traffic congestion of the flourishing Greater Dallas area, will be one of the finest in America. It will be 11.9 miles long, extending from the Trinity River in the outskirts of southeast Dallas, through the heart of the city, and north to a point just beyond Northwest Highway. The boulevard will have three 12-foot traffic lanes in each direction, emergency parking strips and paralleling service roads on the outside. T. E. Huffman, engineer-manager for Central Expressway, expects that it will carry thirty to forty thousand cars after completion.

Fascinatin' Fashions By Judy Seaton

"A rose is a rose is a Rosenfeld!" Actress Joan Alexander read the flowery inscription, then exclaimed: "And it's so true! I've never found dresses so 'ready-to-wear' before!" Joan marveled at the latest designs, and finally chose this striped Cohama Jersey for the picture.

Besides her role as Della Street over CBS on "Perry Mason," Joan also plays Audrey Roberts on "Rosemary." "With those two and frequent calls for nighttime half-hour shows," she says, "I have to have a wardrobe that's ready for anything!"

The simple lines and beautiful cut of this dress illustrate today's trend in fashion toward easily adaptable clothes.

Most important, this nylon jersey heralds a revolution in warm weather convenience. No longer does summer mean hours of ironing, tedious time spent over a heavy wash. For now, with the brand-new nylon weaves, in exactly one hour after tubbing, the dress is ready to wear, without even ironing!

"It's just what I need with my schedule," said Joan. "But does it really dry that fast?" An on-the-spot test convinced her—a swatch of material was washed, and when Joan left a half hour later, it was bone dry!

Setting the Bridal Buffet Table

Bells and bows of tulle and ribbon top a proud wedding cake. The bridal motif is further carried out in the eggshell translucent Belvidere pattern of Lenox china where a dainty pink ribbon ring is twined with tiny blue forget-me-nots. The satin rayon damask cloth of traditional bride's white is a handsome background to gleaming silver.

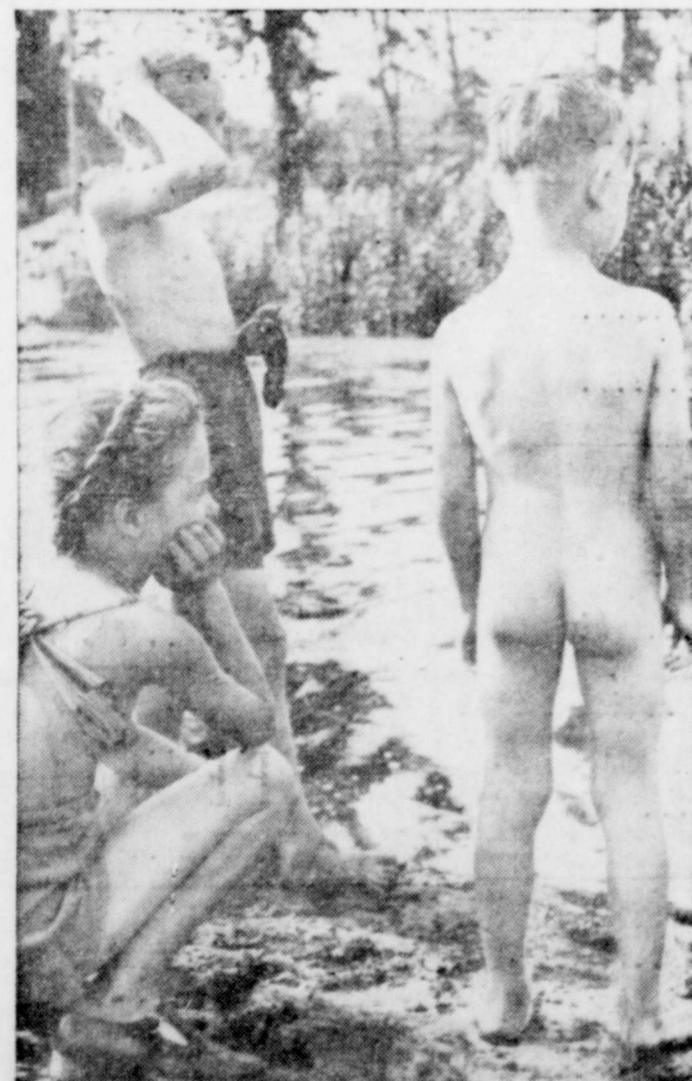

Plan a memorable table setting for the most memorable occasion in a lifetime—the wedding. Whether it is a simple or an elaborate wedding, this is the time to display your fine Lenox china, silver and linens.

The rules for your table arrangement are simple but rigid.

1. The bride's table must be covered with a white cloth.
2. The wedding cake is the one indispensable requirement and table as the principal decoration or centered on a separate draped stand or at the side of the long table.
3. The menu, of course, will determine the china, silver and glassware. Here, as on all correct table settings, only those pieces which will be used are set out.

4. Punch or champagne should be placed on a separate table by itself, except at a small wedding where it is set on the main buffet table to balance the tea tray.

With suitable accessories, you will find a very simple pattern of fine china will lend itself as gracefully as a formal pattern to the bridal buffet setting. This is because fine china has a lustrous translucent body that polished silver and gleaming linens highlight. In fine china such as the Lenox Belvidere pattern shown here, you have the same exquisite body, the same superior materials and workmanship by the same skilled craftsmen as is found in the White House Service and Lenox museum pieces you see throughout the world.

HOT ALL OVER—Even these kids in Berlin are feeling the heat. And they do what children everywhere do under the circumstances—head for the nearest cooling swimming hole.

BIRDS IN HAND—Hilda Gonzalez holds a rare golden parrot valued at \$2000, while two hyacinth macaws settle on the wrist and shoulder of Alton Freeman, in Miami, Fla. Looking down at them is a toucan, a big bird among toucans in Brazil, where these birds came from.
