Dove Season To Open Sept. 1st; **Birds Plentiful**

Texas nihrods were advised today that hunting prospects for mourning doves will be good when the season opens Sept. 1 except in the uppermost portion of the state.

The State Game, Fish and Oyster Commisson reported that rains had given the doves more than enough food and water.

OLD MAN SUMMER time is back in Cisco after an absence of almost a month and it's hard to take. Especially when your grass and weeds need cutting and you've been promising for weeks to do things like pouring concréte steps.

He finally got aught by the boys who are charged with the responsibility of checking the parking meters He looked out his window in time to see Chief Perdue sticking a ticket for illegal parking under the windshield wiper. We will write another story on this case as soon as Mayor Rosenthal, judge of the city court, tries the case of a motorist by the name of Rosenthal.

Faced with the acute short age of experienced material, Coach Jack Everett's spirited band of Cisco High School football aspirants opened the 15-day pre-season training program of Monday at Chesley Field.

Some 40 candidates for berths on the varsity eleven reported to Coaches Everett and Buck Overall. Suits and equipment were issued and the twice-a-day training schedule was put into immediate effect. The arrival of new equipment added to the spirit of the training camp.

With only three weeks of work before the new season begins, the Loboes are undergoing strenuous workouts in preparation or the opening game with the locona Indians on September 9. The game will be played here.

This season, the Loboes face ne of the toughest schedules in the state. The schedule calls for games with such teams as Big Spring, Cleburne, San Angelo, Stephenville and Breckenridge

Graduation last spring took its oll of veteran backs, and Eveett must whip up a fast charging backfield to suit his split T-formation before the season is aunched. Early indications are that the offensive will be built around their one returning back - Hub Harwell.

In addition to Harwell, bidders for the backfield posts will include the following: James Mc-Gowan, 135 pounds; Leo Farmer, 168; Robert Jackson, 136; Fred Smith, 100; L. E. Sublett, 105; Buddy Wright, 105: Jack Kisner, 140; Tommy Pennell, 140; Jerry Cowan, 155; Lloyd Nelms, 138; Arthur Gallagher, 125: Bobby Black, 120; Jim Webb, 140, and Harold Jones, 145.

In the line, the outlook is better. Everett can rely on his 3 veteran linesmen - Robert Me-Murry, 150 pound guard, Nornan Boggs, 180 pound tackle, and Jimmy Waddell, 210 pound tackle.

VACATION! They've picked time and place, and they've planned and saved for months.

That's the American way-the way of tree choice-so familiar we take it for granted. A man picks his job, leaves it freely for a better one. He chooses the town he'll work in, the house where he'll live. He saves or spends as he wishes.

It's not that way everywhere. In some countries, the government puts a man in a city, a house, a job, with no choice in the matter. He can't quit, leave town or move around the corner without permission. If he gets a vacation, he is told where and when to go. The government runs everything, the people nothing.

That's what happens when a free people turn over their responsibilities to their government. They also turn over their freedom of choice. Socialism is the result. How does Socialism happen. Not overnight. It is woven slowly, a thread at a

time, into the bonds of slavery. Little by little the government assumes powers other than governing-until it finally assumes all power.

You, here in West Texas, would be astounded by the various ways and means that some formerly good statesmen in Washington have been politically jockeyed and pressured into succumbing in many instances to the Socialistic planners that have infected our government and good old-line political parties.

Through acquiescence against the better judgment of some of our statesmen, our Federal government has already embarked on political, bureaucratic duplications and the taking over of private businesses with your tax funds.

This is true not only in our industry in some eastern locations, but the bureaucrats are now openly aiming at banks, insurance, steel, railroads, mines, forests and many other private businesses that have so helped this country to grow, produce and prosper. This is how Socialism got its political wedge and hold in such non-producing countries as England is today and it is why such countries are not producing but are leaning on us.

Talk to your friends and neighbors; see how they feel about this Socialism and other political "Isms" in Washington that are threatening your American way of life, decreasing your liberties and increasing your taxation.
