Scranton will open the official basketball season on Tuesday night, Sept. 20, with Desdamona furnishing the opposition.

The playing team for Scranton will likely be composed of William Donahoo, Mark Ray, Shirley Westfall, Joe Wheatley, Wayne Cozart, and Gene Hicks.

The girls team will be composed of Roma Jean Reese, Melba Reese, Julia Wheatley, Sue Grace, Ja Anne Morgan, Charline Ingram, Jane Starr, Joyce Trimble, Patsy Naylor and Mary Horne.

A pep squad has been organized under the direction of Mrs. Lillian Battle to support the two teams. Boys and girls teams in the elementary grades will also be organized soon and will play games. Due to the interest in athletics, an outdoor court will be built.

For Friday night's games a small admission charge will be made. Boland and Gattis will be the referees.

On Friday night, Sept. 23, the Scranton teams will meet the 10000S SUMMIA JO SUMAJ Brown County at the Williams gym. The next week a return game with Desdamona will be played there.

Loboes Lose Hard Fought Game To Big Spring Steers

The Big Spring Steers struck twice in the fourth quarter to break up a 6-6 tie and down a fighting Lobo 11-6 in a non-conference game at Chesley Field Friday night.

For three full quarters the lightweight Loboes fought the heavier opponents to a standstill but in the fourth, the weight difference began to tell and Amos Jones was able to push over the two counters that spelled defeat for the scrapping locals.

Youth Christian Unit Will Meet

There will be a meeting of the Cisco Youth Christian Association at 7 p. m. Monday, it was announced by association officials. The meeting will be held at the First Presbyterian Church.

Joe Stamey was elected president of the group when it was organized several months ago and council members from each church in town were named.

At the meeting Monday decisions will be made as to arrangements for the first party to be held by the group. Details of the program will be discussed and committees appointed to work out the program and entertainment.

After holding the visitors score less for most of the first two quarters, a fumble by the Loboes on their own sixteen yard line gave the Steers their first big opportunity. On the first play Amos Jones, who was responsible for all three Big Spring counters, fired a pass to Floyd Martin behind the goal line. The try for extra point was no good.

Early in the third quarter the fighting Loboes came back to tie the score. They recovered a fumble on the enemy 45 yard line and on two plays had made it first and ten on the 35. Here Douglass Johnson faked a hand-off and circled his own left end going over with two men in front of him for the score. Suggs dropkick was wide and the score remained 6-6.

The remainder of the third was nip and tuck; but shortly after the start of the fourth quarter the Steers worked the ball down to the 25 yard line and lunged over after being hit on the two yard line. The try for extra point by Cross was good.

The final Steer tally came when the West Texans assumed

possession of the ball on the Lobo 35 after a short kick by Johnson. In four tries Martin carried the ball to the Loboes four yard line where Jones slipped through guard and went over standing up. The try for point was good and the count reached 20-6.

Outstanding in the Lobo backfield was Douglas Johnson, 138 pound Sophomore, who was in at quarter, replacing Harwell who was injured in the Nocona game. He accounted for 59 of the 87 yards made rushing and was key man in the secondary defensive line.

Callerman, Jackson, Farley and Harwell came in for their share of glory in all departments of the game. Harwell was used mainly on defense because of an ankle injury.

The entire forward wall made a splendid showing against a line that had them outweighed more than 15 pounds per man. James Waddell really his his stride and tore gaping holes in the enemy line to down fleet-footed Steers before they got started. Also outstanding was Evans, 130 pound Lobo center who played most of the game.

The end play was much improved and the play of Boggs, Suggs and McMurray left local fans singing their praises. In for their first time in a regular game, Herbert Coats, 130 pound guard and Red Melton, both sophomore — left the coaches little worry as to who will replace McMurray and Suggs in the line-up next year. Substitutes Pippet at end, Watts at center, Pippet at end and Smith at tackle and end, all played good ball and with more prac-

Club Coffee Held Friday in Home of Mrs. Blake Stephens

Guests were met by Mrs. Stephens, Mrs. Wallace Smith and Mrs. J. H. Denton and were shown to the table where Mrs. Derward Morris was in charge of registration.

The house was made gay with floral decorations of pink and white, club colors; and a Back-to-School theme was emphasized in the table center piece of school supplies in the dining room.

After registering their names the guests and members were directed to the table which was in charge of Mrs. Richard Donovan, and Mrs. Forbes Wallace, where they were served coffee and plates of hot biscuits and tiny cakes.

They were seated in the living room for the program hour and business session which followed. Mrs. J. H. Denton, club president, welcomed the group and presented Mrs. H. N. Lyle, president of the city Federation, the invited speaker. Mrs. Lyle chose as her subject, "Ethics of the Club Women." WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

Obviously the railroads cannot be as efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law Which Are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad.

Innocent Bystanders Suffer Losses and Hardships

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employees, and are the most highly paid of all employees on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employees of the Missouri Pacific. In addition, they have imposed great inconvenience and hardship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, then all thinking Americans must face the question, "What is the next step?"

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Firemen and Engineers, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

There is No Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Wabash Railroad was forced to discontinue operation for several days under similar circumstances.

What Are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for full

day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

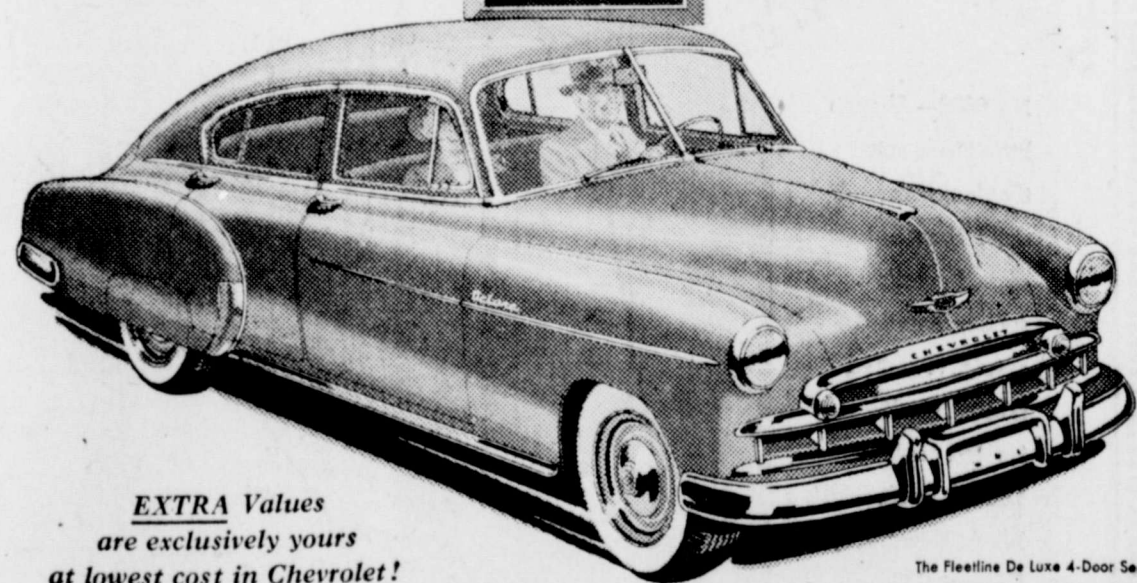

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

"... It is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would soon result in the complete nullification of the Railway Labor Act. . . ."

You don't have to be an expert to pick a good suit off Penney racks!

THERE'S NO MAGIC INVOLVED. WE SIMPLY SET ONE HIGH QUALITY LEVEL AND EVERY SUIT MUST MEASURE UP TO IT!

Penney's is more strict than a country school "marm" when it comes to quality of fabric. Every suit bearing a Penney label is 100% virgin wool worsted (the long wearing, hard finished kind).

And every suit is cut over our own generously full, exactly sized patterns. Penney suits are comfortable, follow the easy natural lines of a man's figure.

Only an expert can know for sure how solidly built a suit is on the inside. But in every Penney suit those important inside details (interlinings, hand basting and facings) are performed with the greatest skill. You can close your eyes and choose a good Penney suit every time.

Penney's has a big selection of all-new 100% virgin wool worsteds; sharkskins, gabardines and stripes. There's a wide range of sizes and models in this season's smartest colors. Now, there's all the proof you want waiting at Penney's that, "You don't have to be an expert to pick a good suit off Penney racks."

THINK OF THE NEXT GENERATION

Excerpts from
An Address By
HERBERT HOOVER
at the reception tendered by Stanford University on his 75th birthday,
August 10, 1949

No nation can remain static and survive. But dynamic progress is not made with dynamite. And that dynamite today is the geometrical increase of spending by our governments—Federal, state, municipal and local.

Twenty years ago, all varieties of government, omitting Federal debt service cost the average family less than \$200 annually. Today, also omitting about \$1,300 annually.

Beyond this is the alarming fact that at this moment executives and legislatures are seriously proposing projects which if enacted would add one-third more annually to our spending. Add to these the debt service and the average family may be paying \$1,900 yearly taxes.

Today, there is one government employee to about every 22 of the population. Worse than this, there is today one government employee to about 8 of the working population in the United States.

Today a little more than one person out of every 7 in the population is a regular recipient of government monies. If those of age are all married, they comprise about one-half the voters of the last Presidential election.

In the long run it is the Average Working Citizen who pays by hidden and other taxes. I have made up a little table showing the number of days which this kind of citizen must work on average to pay the taxes.

	Day's work

Defense and Cold War	24
