Brother of Local Teacher Buried

Notice was received in Cisco of the burial in San Francisco Monday of Floyd C. Britton, former resident, and brother of Mrs. Gorum Pollard, local teacher. Mr. Britton had been in ill health for several months. He was the son of the late Mrs. R. D. Vanderford.

He had retired from business recently to recuperate from an illness that was thought at first not to be serious. A week before his death he was advised to enter a hospital where his condition became critical. He lapsed into a coma Thursday and died at 3 a. m. Saturday.

Mr. Britton was born near Waco in 1890 and moved with his parents to Cisco when he was a small boy. At the age of 18 he began working for the Texas and Pacific Railroad and remained with them until entering business in California some 20 years ago. He was a World War I Veteran.

He is survived by his wife and a daughter, Mrs. Frank Fishburn, both of San Francisco; his step-father, R. D. Vanderford of Cisco; two brothers, Earl Vanderford of Mineola and Aubra Vanderford of Big Spring; and two sisters, Mrs. G. Pollard of Cisco and Mrs. Barney Gregory of Dallas.

Aubra Vanderford went to California by plane to attend the final rites.

Wednesday and will be taken to Long Branch by Thomas Funeral Home where funeral services will be held at the church there at 11 a. m. Thursday. The services will be conducted by Audie Moore of Long Branch. Interment will be in the Long Branch Cemetery.

Mr. Shirley was born in Alabama on August 16, 1872. He resided in the Long Branch community for a number of years before moving to Oklahoma. He had been in California since 1923.

Survivors include his wife and five sons. The sons are Elmer of Temple, Seth, Carl and M. C. of San Pedro and L. D. Torrence of California. Also surviving are seven grandchildren.

BETA UPSILON CHAPTER OF DELTA KAPPA GAMMA HOLDS INITIAL MEET

The Clyde Members of Beta Upsilon Chapter of Delta Kappa Gamma were hostesses at a luncheon given in the home of Mrs. Jewel Swanzy, at 1:00 p. m. Saturday, September 24.

The menu consisted of a very attractive salad plate, hot rolls, pie a la mode, and iced tea. Members were seated at quartet tables in the living room with the officers and post presidents at the dining table, which was centered with a bowl of red roses, the official flower of the society. The other rooms had attractive arrangements of giant marigolds that, with the red roses, carried out the Delta Kappa Gamma colors.

Miss Ione McIntyre, the new president, was in charge of the business meeting which followed the luncheon. At roll call each member gave an account of how she had spent her summer, and some very amusing and interest-

It will be the Wranglers vs. the Wranglers at Chesley Field Thursday night at 8 o'clock when the Wranglers from Cisco Junior College play hosts to the Wranglers from Odessa Junior College.

It will also be the Blue and White vs. the Blue and White since both schools have chosen that as their colors. The visiting team will be wearing solid blue helmets jerseys and pants while the local eleven will wear white helmets, blue jerseys with white inserts and shoulders, and white and blue pants.

Though the above description could be taken for a report on a social event, the activities on the field will be anything but that. Coach Stormy Davis of the local Wranglers is grooming his boys for one of the toughest assignments of the year. This is the first season the Odessa school has fielded a team Coach, and Jack (Red) Coats has gathered an aggregation or some of the finest football players in the state.

The Odessa held the highly touted San Angelo Junior College Rams to a 26-20 score last week and when the game ended Odessa was hammering at the Rams goal line. They played a listless first half but came alive in the last half and whipped the Rams all over the field. The locals held San Angelo to a 0-0 tie in the rain the week before.

Sparkplug of the Odessa Wranglers is Loy Mead of Odessa who formerly played with Breckenridge. The 145 pound back made one run for 82 yards and one for 55 in the game with the Rams.

Another peculiarity of the game is that two brothers will be pitted against each other. J. B. Milsap of Phillips will play for the Odessa team at backfield position and Gene Milsap will be in at center for the Cisco Junior College Wranglers. Milsap scored two of the touchdowns against the team from San Angelo last week.

In to bolster the local eleven will be John Spencer at an end position. Spencer, former all-state end with the Breckenridge Buckaroos, will be playing his first game under C. J. C. colors. He came to the Cisco school after a short stay in the Army.

The two teams will go onto the field almost evenly matched as to weight. The locals will average approximately 190 pounds per man in the line and 159 pounds per man in the backfield.

Starting for the Cisco team will be Spencer and Lee, ends, Kite and Price at tackles. Flood and Moore at guards and Millsap at center. Crosby will be in at quarter, Garner and Varner at half backs and Sides at full.

The visitors will be using a variety of formations and play a wide open brand of ball. They use the T-formation and a spread similar to Dutch, Myer formations. The Wranglers will use the Davis version of the T.

## Gas Kitchen To Be Shown By Lone Star Gas

All-gas kitchens accenting color and providing maximum comfort, convenience and efficiency features for housewives pursuing culinary duties will be among the highlights at the Natural Gas

Building during the State Fair of Texas in Dallas, October 8-23. They will include the "Pink of Perfection Kitchen" for small homes by interior decorators of the Ladies Home Journal and the "Holiday Kitchen" by American Gas Association interior decorators. The latter is particularly adapted to large homes.

Both Kitchens will be complete in every detail, from the gas range and refrigerator to new floor coverings and ventilated drawers for vegetables, sliding shelves for utensils and other

STATE FAIR 'ATOM PILE'—This model of a uranium pile is a small segment of one of the dramatic exhibits in the "Man and the Atom" show coming to the 1934 State Fair of Texas Oct. 8-23 direct from the famed American Museum of Atomic Energy at Oak Ridge, Tenn., cradle of the atom bomb. Admission to exhibit will be free.

features that provide "new freedom" to homemakers.

The "Pink of Perfection Kitchen" was designed for a one

story house with a combination living-dining room. The eating area is roomy enough to be complete for an extra couple, and

set off from the work centers by the use of washable but dramatic flowered wall covering. There is just an echo of paper in the work side of the kitchen to keep the room a harmonious unit.

The working area is U-shaped with a corner sink set under a big picture window overlooking the garden terrace. The gas range is at the left of the sink, and the gas refrigerator is at the right, with the door opening toward the spacious work counter for easy unloading.

Cabinets in the working area are rosy pink and the serving unit cabinets are sea-foam green. The pink cabinets have green plastic counter tops and the green cabinets are topped with rosy pink. The glass doors of the wall cabinets open on a pink lining, like the inside of a shell.

A new kind of soft green linoleum covers the floor with a tilelike design, and the ceiling echoes the green in a softer tone. The dark green background of the wallpaper is repeated in the painted surfaces, and the curtains framing the wide window are washable pink cotton. In daytime the kitchen is a symphony of color and at night it is every bit as attractive. Recessed ceiling lights diffuse a clear glow over the main counters and a lamp which is a part of the gas range gives a special light on the cooking.

The serving counters are rounded so the housewife will not encounter sharp corners en route to the living room. A tall cleaning closet fits in this kitchen by the gas refrigerator and holds all the supplies in an accessible spot for the one-story
