Survey Of City Water Needs Will Be Made

Mother of Local Woman Dies In Midland Recently

Mrs. Kate C. Hunter, 86, of Midland, mother of Mrs. Raby Miller of Cisco died in Midland Wednesday morning, Oct. 12 after a critical illness of about two weeks.

Sweetheart of the Aggies - Miss Jeannine Holland, 20-year old brunette, was presented October 15 at the A&M-TCU football game in Fort Worth.

Harry P. Burleigh, engineer in charge of the Austin office of the Bureau of Reclamation will be in Cisco Monday, Oct. 24, to discuss plans for increasing the water supply for the city and to discuss the best method for obtaining an increase if needed.

The engineer will be in Cisco at the invitation of Mayor G. C. Rosenthal, who will have charge of the meeting at the Chamber of Commerce Tuesday night.

Other business coming before the Chamber of Commerce meeting was a report from the Christmas lighting committee. It was reported that merchants had contributed \$1,332.50 to the project, exclusive of the Chamber of Commerce contribution.

It was also announced that efforts were being made to pave the road leading to the Cisco Hydrocarbon Corp. plant north of Cisco and that the committee was awaiting a report from the district engineer at Brownwood.

B. A. Butler, Dick Lauderdale, Mayor Rosenthal and S. H. Nance, local members of the committee on the Youth Dairy Program, were expected to attend a meeting in Eastland Wednesday night to assist in working out details of the program and some of the Chamber of Commerce members indicated that they would attend the Eastland County Livestock and Dairy Associations annual barbecue to be held in Eastland Thursday night.

Eastland County Exes Invited To San Marcos Event

SAN MARCOS, Oct. 18.—More than 15 ex-students of the Southwest Texas State Teachers College now living in Eastland County this week were invited to attend the college's annual homecoming in San Marcos on Nov. 4 and 5.

Attracting 2,500 alumni back to College Hill this past year, homecoming this year may well establish an attendance record, Morris Willson, chairman of the alumni committee, predicted this week, explaining that many requests for reservations have already been received.

Features of the program will be a drama and a pep rally-bonfire Friday night and a barbecue and a football game Saturday. The grid contest pits the Southwest Texas Bobcats against their arch rivals, the East Texas Lions.

Following the game will be the homecoming dance where the college favorites are to be presented.

Guests in the home of Mr. and Mrs. W. M. Isenhower Sunday were their children, Mr. and Mrs. Bill Fetterly of Midland, and Mr. and Mrs. Bill Jackson of Brady and Wesley Isenhower of Texas A&M College.

Mrs. Paul M. Woods went to Lubbock for a weekend visit with her son, Paul Harlan Woods who is a student there at Texas Tech.

The Gay Philosopher

By J. W. S.
LOOKS LIKE we'll be buying the mayor a few cups of coffee on account of we were directly responsible for the traffic tie-up caused by his car taking bumpers with little McCauley's ancient Lafayette in front of the post office late Tuesday.

So at press time yesterday, we removed Mr. McCauley's pick-up truck (the gas tank was empty) and took the page forms over to Ranger where the boys are good enough to print the paper for us.

WHEN WE weren't back by press time, Big Mack started to take home with Little Mack in the Lafayette, which Little Mack's grand dad gave him some weeks ago. They got as far as the post office and the engine died. Mayor Rosenthal came along and told them he'd give them a push to get the engine running again.

The bumpers got locked solid. Traffic was snarled. Peepers offered advice. Finally, a jack was produced and raised the Rosenthal car up so as to free them.

Little Mack knew how to start Lafayette all the time, anyway. He merely went back and threw into the gas tank. And it started right up. Slick, huh?

OUR PRESSES are back in operation, thanks to the fine work of Reynolds Manufacturing Company and Mr. A. Sandefer.

OUR OLD FRIEND, Mr. W. P. Knight, comes up with a new recipe for catching rats. He reports that you can catch more mice with gum drops than with cheese. The gum drops are used in ordinary traps. When the mouse hits the confection it gets it in his teeth—and wham, he gets it in the neck. Knight went about a man who caught 17 mice in one hour—on one gum drop.

Mr. and Mrs. G. L. Stephenson of Rankin were recent visitors in the home of her brother and wife, Mr. and Mrs. Bill Price.

Mrs. Joe Hall and daughters, Janet and Joan, returned to their home in Abilene today after a pleasant week's visit here in the home of her parents, Mr. and Mrs. Richard Thomas.

Junior High Midgets Win Over Baird 15-0

Coach Bill Sledge's Junior High School Midgets put on the steam at Chesley Field Tuesday night and completely outplayed their opponents from Baird Jr. High School. When the final whistle sounded the Midgets were the victors, 15-0.

The running of Kay Johnson from his quarterback position and Sonny Bosworth on end around plays was little short of sensational for boys with their experience. Brown, who was playing his second game for the Midgets after a late start, also

showed up well in the backfield as did Coleman Alsop and Sonny McCrea, who doubled at guard on defense.

In the line McCrea, McCauley, H. L. Coats, Melton, Stone and Farley played fine defensive ball and Thurman and Mosely filled their center position well.

Cisco scored late in the first quarter when Alsop took the ball around his own right end and ran some 29 yards to the goal. The try for point was no good. In the third quarter, Jackson, on a keeper play skirted through the Baird right tackle and was brought down on the enemy 12 yard line after a run of 20 yards. Brown hit the same spot and carried the ball over the goal line for a extra point. A few minutes later, a Baird back was tackled behind his own goal line for a safety which brought the score to 15 for the Midgets.

The Midgets made two touchdowns that were nullified due to offside penalties.

The Midgets showed great improvement since their last game and Coach Sledge was working hard to round his team out for the remainder of the season.

Girl Scout Week To Be Observed By Local Troops

Girl Scout Week, October 30 to November 5, will find eight troops in Cisco again joining more than a million and a half members of this organization celebrating the memory of Juliette Low, founder of the movement in the United States, thirty-eight years ago. Girl Scout Week always included October 31, the birthday anniversary of Mrs. Low.

Celebrating of Girl Scout Week this year calls for a new emphasis on the values of Girl Scouting to the young women of Cisco. Mrs. Bethel Gallagher, President, pointed out. It is the time also when new energy is needed to complete projects of the year—such as clothes of Friendship, etc.

Special activities are designed for each day of Girl Scout Week and the troop members expect to follow this schedule. Sunday is Church Day; Monday, Home-making Day; Tuesday, Citizenship Day; Wednesday, Health and Safety Day; Thursday, International Friendship Day, Friday, Arts and Crafts Day; and Saturday, Out of Doors Day.

Plans for a barbecue to be held at the Frank Harrell Lake just west of the city limits on Sunday, November 6, were prepared. All members were urged to make arrangements to attend. A membership drive was discussed and it was decided to announce the starting date at a later date. Members of the club will meet Tuesday night, Oct. 25, at the city hall auditorium.

The club was organized at a meeting held at the city hall on the night of October 7. The first meeting was attended by 17 horse lovers who became charter members.

Ted Hale was selected as the president and C. A. Dittmore was named vice president. Lo Ann Holder is secretary and Charles Cpears is treasurer. Directors are Carl Lamb, Roy C. Davis, Carlton Holder, L. M. Threat, and A. J. Sanders.

OLD STOVE ROUND-UP TRADE-IN SALE

Biggest Sale ever sponsored on a single appliance

Now On at Gas Range Dealers and Lone Star Gas Company

You get everything in the New Automatic Gas Ranges!

Absolute Heat Control from a tiny keep-warm flame to a high-speed flame. There's no limit to variety of cooking speeds. No other range cooks as fast. No special pans needed.

Circulated Fresh Air Baking — Breads, cakes and pastries bake uniformly, brown evenly, without moving pans from one rack to another. Circulating heat does it. Gas alone, gives you it.

Smokeless Broiling — Only the live gas flame instantly consumes greasy vapors produced in broiling.

New gas ranges cost less installed than any other fully automatic cooking appliance. There is no expensive installation charge. New gas ranges operate for one-fourth the cost of non-flame method.

There's no method any cooler. No method any cleaner. No other method is as fast—absolutely none!

During the nationwide Old Stove Round-Up you can get a new gas range with the biggest trade-in allowance, the smallest down payment and the easiest monthly payments in 10 years! See your Gas Range Dealer or Lone Star Gas Company today.
