Nimrod Man Dies In Truck Mishap Near Here Thursday

A truck accident between 6:30 and 7 p. m. Thursday on the Nimrod road seven miles south of Cisco took the life of Troy Solomon Stevens, 35 year old farmer of the Nimrod community. The mishap occurred when the truck Stevens was driving failed to negotiate a curve and overturned.

Highway patrolmen stated investigation showed that the

truck, which was loaded with fertilizer, failed to make the turn at the top of a hill, rolled down the grade and apparently threw Stevens out of the cab, rolling over him.

Stevens moved to the area in 1947, coming here from Big Lake where he had lived for a number of years. He was born on Feb. 19, 1914, in Taylor County. The body will be carried by Thomas Funeral Home to Big Lake where services will be held in the First Methodist Church at 3:30 p. m. Saturday. Rev. O. F. Kattner will be in charge of the rites. Midgets Take Two Football Games

Coach Bill Sledge guided his Junior High School Midgets to two victories in successive days this week when they won over Baird Tuesday night by a 7-0 score and defeated Cross Plains Wednesday afternoon 13-0.

In the Baird game Sledge used most of his smaller players and saved his larger boys for the Cross Plains game.

Coleman Alsop made the lone tally for the Midgets against Baird and Alsop and Jimmy Reynolds teamed up to score the two touchdowns against Cross Plains.

The defensive play was outstanding in the two games as the restraining wall kept the opponents away from Midget territory for most of the games.

Gary Walker, who plays in the backfield for the Midgets, was injured in the Cross Plains game when some tendons were pulled in his knee. He was reported at school Thursday without his crutches.

The Midgets were trying to match a few more games before the season runs out. They have yet to play a return match with the junior Bucaros from Breckenridge. The game will be played in Cisco soon.

Cisco-Clifton Grid Game Cancelled As Player Dies

The Cisco-Clifton Junior College football game scheduled to be played at Chesley Field at 2:30 p. m. today was cancelled late Thursday by Clifton authorities due to the accidental shooting of a Clifton player.

Dead from gunshot wounds was Ronald Nelson, 19, tackle, who had been listed in the starting lineup. A native of Fort Worth, Nelson's body was found at 1:30 p. m. Thursday in his

trailer home on the Clifton campus. A 12-gauge single barrel shotgun was found beside his body.

A verdict of accidental death was rendered by a justice of the peace, who said that Nelson was working on the gun when it went off. His body was found by Morris Reed, Nelson's roommate. Reed plays left tackle for the Cowboys.

Young Nelson had been study-

ing to be a minister and was said to have been an excellent student.

Coach Don Hightower notified Wrangler Coach Stormy Davis of the tragedy and of the decision to forfeit the game. The Wranglers will be declared the winner of the game under conference rules.

Cisco Junior College officials made every effort to find another opponent in order that

the Armistice Day program, which featured the game, could be carried out. It was impossible, however, to match a game on such short notice, particularly when most schools had already dismissed students and players for the weekend.

Next week, the Wranglers are scheduled to pay Weatherford Junior College here in a non-conference game.

He gave a resume of the requirements for membership term of duty, and other points of interest to those desiring membership.

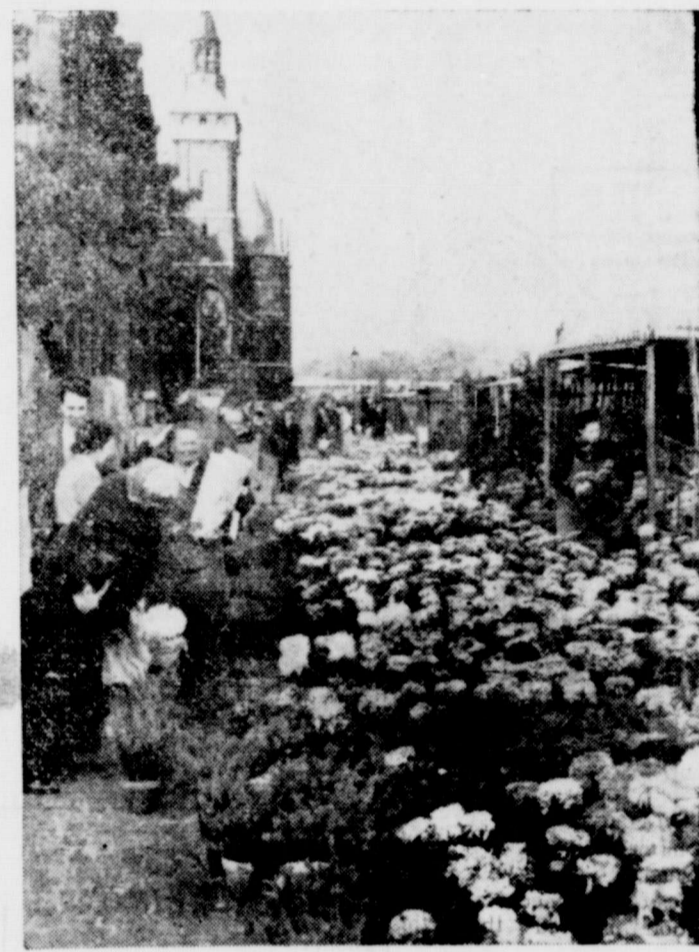

Huffman appeared on the program as a guest of Doc Cabaness, program chairman for the day.

Visitors included Rotarians Ellis Ganey and H. E. Strickland of Abilene; Pearson Grimes, Guy Parker, Rev. J. B. Blunk, and Dr. J. H. Caton of Eastland; H. Y. Robertson of Denver, Colo., was the guest of W. C. Hogue.

The Gay Philosopher

By J. W. S.

I LIKE TO SEE a man proud of the place in which he lives; and so live that the place will be proud of him. A fellow named Abe Lincoln said that.

MR. SHY OSBORN called to suggest that we read page 72 in the current issue of Capper's Farmer, a national magazine. We did and we'll quote the item as follows:

"Altho small in numbers, the Cisco home demonstration club of Eastland County, Texas, with 13 members, sets a busy schedule for itself. To illustrate, we cite their schedule of last May: Members made and equipped sewing boxes, added aprons, towels, water glasses fill baskets that went to families in a nearby tornado Struck area. Next on their list was a cooked food sale to raise money so the club might assist with a PTA project and contribute to the Red Cross. As if this weren't enough for one month, the club entertained 100 other demonstration clubs and a luncheon on its regular meeting days."

How many of you realized that this little club was so active? Doesn't it make you wish a lot of other organizations were as busy making our town a better place in which to live.

EVERY ONCE in a while we remember to old days when we lived in a little town where one telephone operator practically ran the town. She was the company's only daytime employee. They had a night operator, too.

What we liked about the deal was the service the lady could give. When we needed news for the paper, we'd call her and she'd have all the dope. If we needed to go out of town, we always reported to her first and, arriving back home, all we had to do was call the operator to find out who was hunting us and why.

Sometimes we think the modern telephone companies are too formal. They aren't even supposed to give you the correct time when you call information.

Some time back when the telephone operators were on strike, we got a man operator once when we asked for a number. The conversation went something like this: "You want a number? ... Let's see here, now ... that number ought to be easy to find ... Ah, here it is! ... Thanks, brother."

We're not complaining about the telephone service. And we're sure Mr. Bell has the best system. But, as a paying customer we would enjoy hearing the operators argue with you once in a while.

Breeder Tulip, Cottage Tulip, Darwin Tulip.

## Of Many Tulip Clans, Each Has Gift for Your Garden

Darwin tulips are so popular nowadays, many amateurs do not realize there are other tulip clans with colors and qualities which Darwins lack, which can prolong the tulip season and enrich the garden display. Take the point of earliness, which is so important in the spring. Three weeks before any Darwin blooms, the species tulips are out. These are wild kinds, originating in Asia, from which the various garden tulips are supposed to have been bred. Red Emperor, most widely grown, is one of the largest and probably the most vivid red tulip in existence. Its huge flower is borne on an 18-inch stem though it seldom stands up straight. Next to bloom are the early tulips which, forty years ago, were the favorites for planting in this country and continue to be so in continental Europe. They were bred for planting in formal arrangements, such as round beds and straight borders, beside walks and in front yards. They have the bright, clear colors of the species group and amazing uniformity, standing on short, stout stems, all flowers of a variety the same height and flowering at the same time. Some early tulips should be planted if only to enjoy their bright colors, including red, pink, orange and yellow, for two weeks before the late tulips bloom. For suburban gardens the early variety Gen. DeWet, a deep orange with rich fragrance, is excellent. The tall, late tulips include the Darwin, Cottage and Breeder clans. Of these the breeders are the oldest, the other two being bred from Breeder varieties, though their exact parentage is not known. Darwin tulips are characterized by soft coloring, with a white overblow giving the effect of a pastel picture. Originally they had no yellow varieties and only poor whites, but these lacks have been made up by later introductions. Cottage tulips have bright, clear colors, like the early kinds, but blossom at the same time as the Darwins and stand on tall stems. Each of these late flowering clans can contribute to a garden display something which the others lack; and all should be represented in the garden. Tulip growers are crossing these three types to produce new varieties and have met their greatest success with the Cottage tulips, which now have the largest yellow varieties, Golden Harvest and Mrs. Scheepers. Breeder tulips, oldest garden type, have rich, dark colors and huge flowers. The variety Dom Pedro, a coffee-colored brown, is one of the most fragrant of all flowers.

missionary lesson from the book "Missions at the Grass Roots" using the subject "Adults." A short business session followed with minutes and membership roll read by the leader. The group planned refreshments to be served at the church next Sunday evening. A letter from Mrs. J. R. Wright was read, after which the meeting was adjourned by all joining in the Missionary benediction. During the social hour that followed refreshments of cherry pie, cheese and coffee were served to Mesdames Mobley, R. L. Clark, Billy Bacon, Callie W. McAfee, D. E. Waters, Fleming Waters, Joe Tullos, Alsop, W. R. Huestis, H. R. Garrett, Misses Esther Hale, Olga Fay Ford, Ethel Mae Wilson and Dorothy Jo Garrett.

## Fewer Accidents But More Deaths

According to the report of the Texas Safety Department, fewer fatal accidents but more deaths are occurring in 1949 in the Abilene District, Sgt. Luther Moore announced Saturday. Deaths in the district for 1949 reached 58 as compared with 47 reported to the same date in 1948. The October report just issued in Abilene, shows during the month five fatal accidents costing six lives. During that period there were 33 persons injured and 38 property damages reported making a total of 76 accidents with 66 injuries and property damage reaching \$46,240.

## Daniel McClure, 4-H Club Boy, Is Named Callahan G. S. Boy

Daniel McClure, 4-H Club boy from Eula, has been named gold star boy for Callahan Co. for 1949. Daniel, or Buck, which is the name most people know him by, has been in club work four years. During these four years he has carried on demonstrations with beef cattle, swine, and poultry. He is the son of Mr. and Mrs. Austin McClure of the Eula community. Buck's main project during the past year has been with swine. He won a pig in the Sears program of 1948. He did an excellent job of feeding and caring for his pig and when she farrowed her first litter in March of this year there were ten pigs. Buck had his farrow shed fixed up so good and did such an excellent job of managing these pigs that he raised and sold all ten pigs. When these pigs were 56 days old they weighed a total of 437 pounds or an average of 43.7 pounds per pig. This was good enough for him to win first place in the heavy litter weight contest against competition from four counties—Waskell, Taylor, Jones, and Callahan.

Ask the Pilgrims, who braved the ocean and the wilderness and death to secure it.

Ask the people of the thirteen original states who refused to ratify the Constitution until it was guaranteed in an added Bill of Rights.

Ask the soldiers who fought in both World Wars that it might be established everywhere as one of four freedoms essential to man.

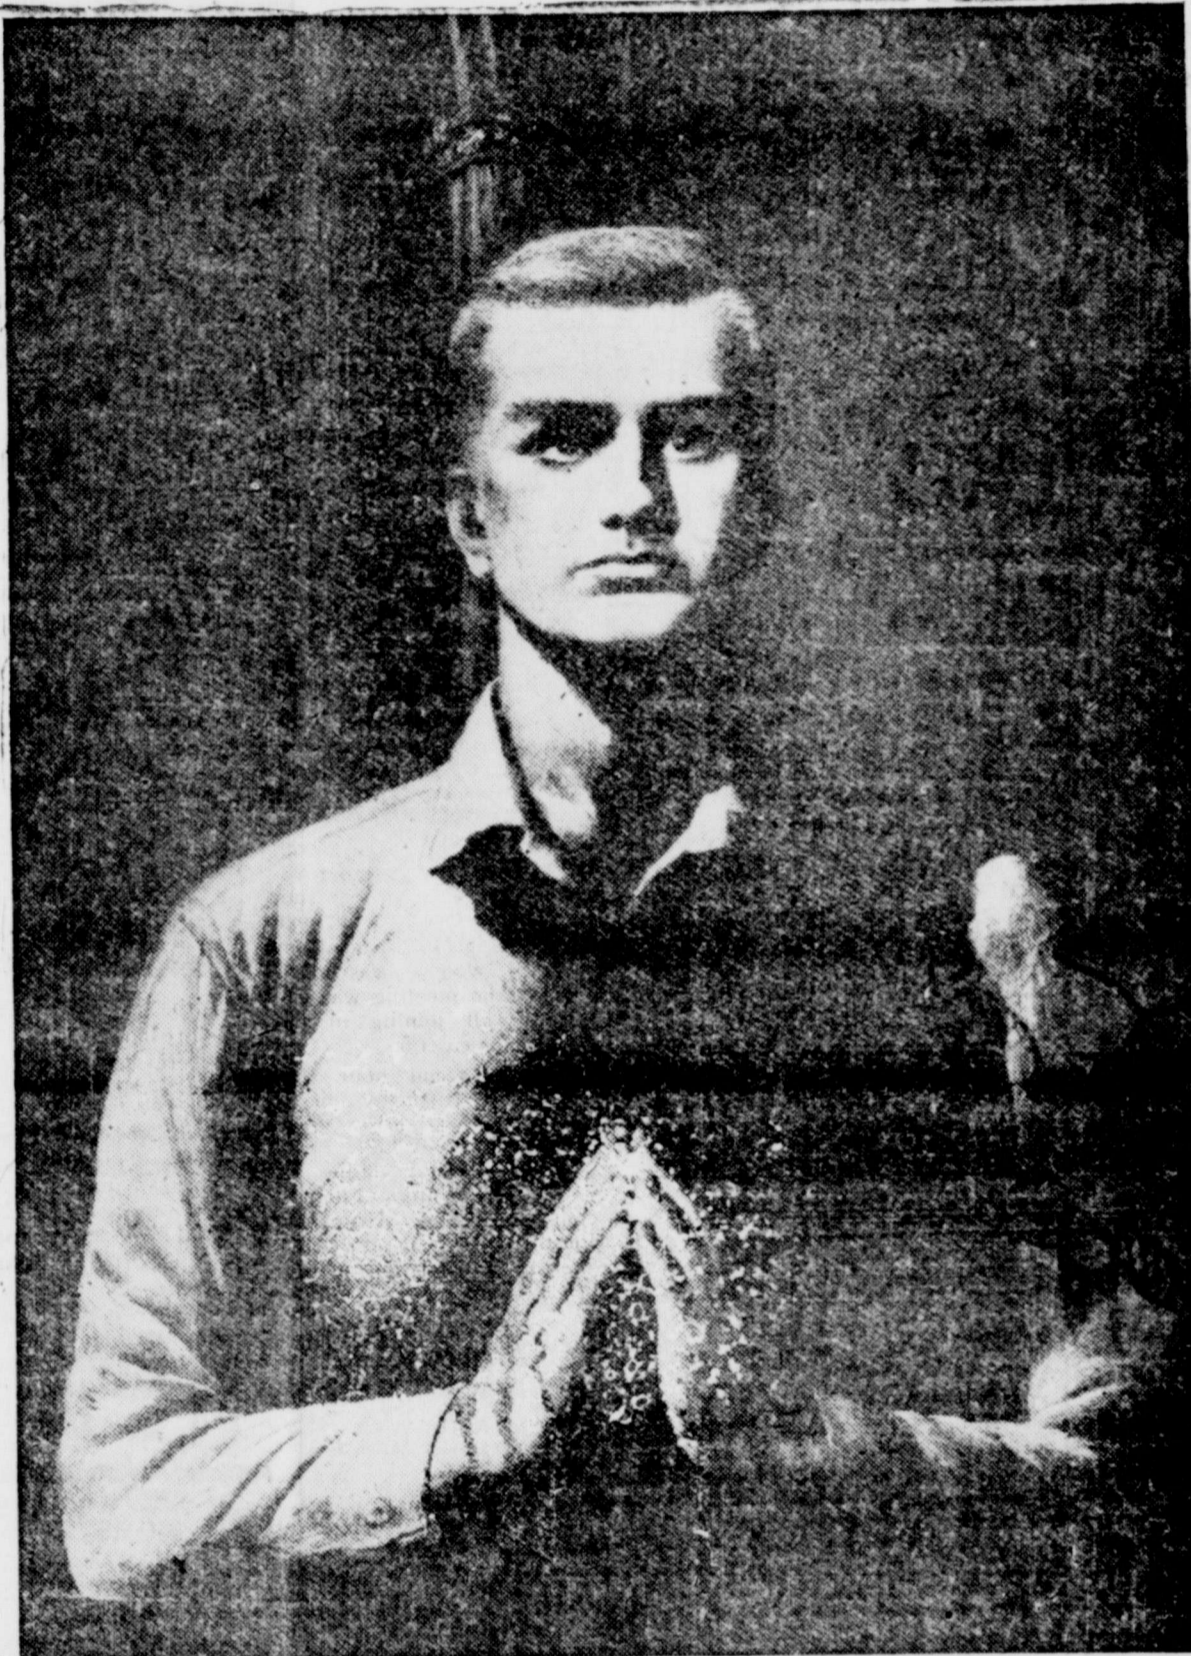

Ask the framers of the United Nations Charter who placed it high in the Declaration of Human Rights.

Ask the millions of people in other lands who even now struggle and suffer to wrest it from their rulers.

Then ask yourself. Is religious freedom worth enough to you so that you guard it by using it?

Are you among the Americans who worship regularly . . . each in his own church and according to his own conscience . . . yet all united by a common faith in the brotherhood of man under the Fatherhood of God?

Much depends upon your answer, for in this common faith our nation was founded and upon it all our freedoms rest. If enough of us should let it rust away, all that we mean by America would crumble with it.

Dale Carnegie: "I spent several years writing a book on How to Stop Worrying and Start Living. After years of research, I am convinced that the best possible method for conquering worry is prayer and religious faith."

Find yourself through faith—

## Gas Has Got It!

### KITCHEN MEMO

By JEAN CLARKE

For those vitamin-conscious cooks who are always looking for a recipe jam-packed with nourishment, here is one called Raisin-Carrot Muffins. Cream 1/2 cup sugar into 1/4 cup shortening, creamed. Add 1 egg, lightly beaten, and beat together until blended. Mix 1 cup shredded carrot with 3/4 cup milk and pour into the batter. Sift together 2 cups flour, 3 tsp. baking powder, 1/2 tsp. salt. Add 1/2 cup raisins and stir into batter until barely moistened. Do not beat. Put into gas oven at 375° F for 25 minutes. Me is about 12 muffins.

Delicious addition to pork chops: Top with orange slices before putting into the broiler about 4 inches from the flame.

Before you start using your gas space heater again, check the burner ports for scaling. A wire brush will clean them so that the flame will not be obstructed.

When starching curtains, make enough starch for all curtains in one room so they will have identical crispness.

You can save gas by turning down the flame to center simmer whenever you're boiling food because boiling point is 212° F and the water simmer gives enough heat to reach boiling point.

To blanch almonds: Cover with cold water, heat just to boiling over center simmer burner, drain, slip off skins.

Sour cream, instead of the usual milk, sharpens the flavor of mashed potatoes. Mash, add sour cream, sprinkle with chopped chives or parsley.

## MEDICAL MIRACLE

Today Your Pharmacist Drops A Few Facts About...

**ASPIRIN**  
Acetylsalicylic Acid, first produced in 1853, appeared to be a worthless drug and until 1899 it was just "another" chemical. Everybody ignored it except Felix Hoffman, a chemist. Tests proved its value as a pain killer in Neuralgia and Rheumatism, but the name was too long. So Hoffman shortened it to Aspirin, the drug which everyone knows as a means to ease pain.

The big difference was proved by Purina in a ranch feeding test. 50 cows winter-fed on Purina Range Breeder Checkers weaned 48-lb. heavier calves than 50 cows fed on cake. Both groups were fed exactly the same amount. The 48 lbs. difference in weight per calf meant about \$9.00 extra income per head.

Here's why Purina Checkers do the job—correct protein percent (not too high)... more carbohydrates... more calcium and other minerals... more vitamin A. See us now for your winter feeding needs.
