Wranglers Beat Decatur To Tie For League Title

In an action packed game at Community Gym Tuesday night the Cisco Junior College Wranglers defeated the Decatur Indians by the score of 69-45, and wound up the regular conference season in a tie with the Ranger Junior College Rangers for the championship.

Coach Stormy Davis announced following the game, that a free game play-off would probably be arranged and the details announced some time Wednesday.

The game Tuesday night was a slam-bang affair from the opening whistle with each team fighting hard for possession of the ball. The action under the lights was fast and furious, with the teams sometimes resembling wrestling matches.

Gunn was high point man for the Wrangler squad and for the game with 23. He hit the basket from every angle and his floor work was outstanding.

Despite other attractions the crowd was good and on its feet most of the game. There was a continual round of applause as both teams fought to the final whistle. The play was so fast that neither the players nor the officials heard the whistle ending the first half of play.

Funeral Services Are Set Thursday For Mrs. Erwin

Funeral services for Mrs. Nancy Erwin, 85, who had been a resident of Sabanno and Cisco for the past 64 years, will be held in the Sabanno Presbyterian Church at 3 p. m. Thursday with Rev. Arthur Evans of Cross Plains in charge.

Mrs. Erwin died at the home of her daughter, Mrs. J. B. Mashburn, 602 Ave. E., Cisco, at 2:45 p. m. Wednesday after a lengthy illness.

Mrs. Erwin is survived by three sons, five daughters, three brothers, 21 grandchildren, 26 great grandchildren. The sons are Edwin Erwin of Nimrod, Everett Erwin of Midland and Finis Erwin of Sidney. The daughters are Mrs. R. A. Goodrum of Rotan, Mrs. D. A. McDonald of Breckenridge, Mrs. H. E. Minnix of Abilene, Mrs. Eddie Little of San Angelo and Mrs. J. B. Mashburn of Cisco. The brothers are W. J. Wampler of Norman, Oklahoma, Charles Wampler of Duncan, Oklahoma and Tinnie Wampler of Weatherford.

Burial will be in the Sabanno Cemetery with Thomas Funeral Home in charge of the arrangements. Her grandsons will serve as pallbearers.

LET ON BASKETBALL

Coach Stormy Davis was to meet officials of Ranger Junior College in Eastland at 1:30 p. m. today to make arrangements for a play-off for the championship of the junior college basketball league. The two clubs tied for the crown, necessitating a play-off.

DENNISON WELL HAS GAS SHOW IN LIME; SECOND TEST TODAY

Lone Star Production Company was running a second drill stem test today in their J. W. Dennison No. 1, wildcat oil test five miles southwest of Cisco, after deepening the hole some 50 feet to 4,054 feet Tuesday night.

An Ellenburger drill stem test Tuesday produced a small gas show in one hour. Recovery was 100 feet of drilling mud cut with gas. No salt water showed in the initial test.

There was a possibility that the hole might be deepened more if no water develop in today's test.

Two miles southeast of Cisco, E. C. Johnston was expected to resume efforts to free No. 1 Eppler of wedged tools today. Tools became wedged last week during completion work with cable tools. The floor was cleared for heavier equipment, which was being installed Tuesday.

Two Dallas men, Louis W. Watson and Frank H. Heller, and Frank E. Issett of Brownwood spudded in early this week on a 3,000 foot Caddo test in Southwest Eastland County.

The test is the No. 2 Gage, two miles north of the Pioneer Field. Conn Drilling Company of Abilene had the drilling contract.

Losses From Hot Checks Increase, Garrison Warns

AUSTIN, Feb. 14 — The Special Session of the 51st Legislature is presently concerned with the request of the State Board of Hospitals and Special Schools for funds in excess of \$18 million to finance operation of our eleemosynary institutions over the second year of the current biennium.

Colonel Homer Garrison, Jr., director of the Texas Dept. of Public Safety, pointed out today that the majority of this money could have been raised in 1949 if the funds filched from Texas merchants by means of forgery and "hot checks" during the year could have been diverted to that worthy cause.

Garrison attributes this increase to the fact that many people became familiar with the procedure of doing business by check during the peak employment years of World War II and became aware of the ease with which checks may be cashed.

Grocery stores, particularly the larger chains, said Garrison, are the most frequently victimized.

Garrison gave us these pointers for everyone to remember when dealing with checks:

- 1. Know your endorser. 2. Require positive identification. Don't accept social security or similar identification cards. These as well as drivers' license, work badges, etc., may be stolen or faked. 3. Get a reliable person known to you to identify the passer if at all possible. 4. Beware of the purchaser who seeks to make payment of a small account with a larger check. 5. If in doubt, forgo the profit on the sale for which the check is tendered. Better to lose a sale than a greater amount equal to the profit on many legitimate deals. 6. If you use printed checks, keep them secure. Treat them as if they were cash even though they are blank. Many of today's burglars enter an establishment and take only those blank checks. Their subsequent use has proven more profitable and less risky. 7. Finally: Remember that a check is only as good as the endorsement! And remember, too, that an honest person tendering a valid check will not be offended at your inquisitiveness; but beware of the person who feigns anger when you ask for further identification or details.

Mr. and Mrs. Marvin Johnson of Hawley visited briefly in Cisco with relatives Friday night as they went to Eastland for a weekend stay at the bedside of their brother-in-law, Thomas Terry, whose condition is still unimproved.

Murray Pleased With Response On Oil Imports

AUSTIN, Feb. 11 — "The response to my suggestion that Texans unite to form a Citizens Committee to seek a solution to the oil import problem, which at present is so adversely affecting the economy of our state, has been most gratifying," Railroad Commission Chairman Wm. J. Murray, Jr., said this week.

"Within the next few days committee members will be notified of the time and the place of their organization meeting by the committee chairman, E. J. McCurdy of Fort Worth and Dr. T. S. Painter, president of the University of Texas.

"I had expected Texans in all walks of life to respond patriotically to a request that they serve on such a Citizens Committee, but, frankly, I have been somewhat surprised to learn how acutely aware so many citizens are of the impact of this problem and how eager they were to work toward its early solution.

"In naming the more than 100 members to the Committee, it was my earnest intention to select a fair and impartial representation of Texas citizens, choosing wherever possible those upon whom their communities publicly have bestowed confidence. It will be my hope that this body will see fit to conduct its own investigation, with each member weighing carefully in his own mind the facts, and in democratic tradition arrive at a course of action which will be in the best interests of the state and nation.

"I think there can be no question about the economic and military necessity for a strong and healthy domestic petroleum industry. Any factors of what ever nature tending to undermine this objective pervade our entire economy and endanger our security as a nation. We would be derelict in our duty as citizens first affected by such factors were we not to give our immediate attention to the problem and relentlessly pursue a solution through coordinated effort.

"It is with that firm conviction that I have asked this group of responsible Texas citizens, representing almost every segment of our economy, to organize in just such an endeavor."

Sandler's Revue Praised In Austin

In a musical revue Friday at the University of Texas given at Saturday nights, Mel Sandler, son of Mr. and Mrs. Charles Sandler of Cisco, was given high honors as musical director. The production number of the show, called a good example of effective simplicity, was "I Only Have Eyes for You."

The show was sponsored by the Capital Kiwanis Club and proceeds went to its fund for underprivileged children.

Young Sandler is a graduate of Cisco High School and has been attending the University two years. He is a music major. He was a member of the Lobo band and has appeared in many local programs.

Regarding the production, an Austin newspaper said: "Florenz Ziegfeld and George White may have done this sort of thing better in their way; but they aren't around any longer. Until they return, 'Encores of '50' will do for an evening of song, dance, and some humor."

Rise In Benefits Shown In Texas

Texas families received \$44,804,000 in life insurance death benefit payments during 1949, compared with \$43,552,000 in the previous year and \$27,945,000 in 1941, the Institute of Life Insurance reports.

"The death benefit payments in this state last year were made under 33,194 policies, compared with 31,362 policies in the previous year and 23,128 policies in 1941," the Institute reported. "Of the aggregate 1949 payments in the state, \$32,310,000 was under 11,905 ordinary policies; \$8,157,000 was under 3,509 group life insurance policies; and \$4,337,000 was under 17,780 industrial policies."

These payments were \$16,859,000 greater than the corresponding payments in 1941, representing increased funds for family income, educational needs, mortgage payment, retirement income and other protection uses. In addition an even larger sum was paid to living policy holders by their life insurance companies.

Activity On Farm Is At Standstill

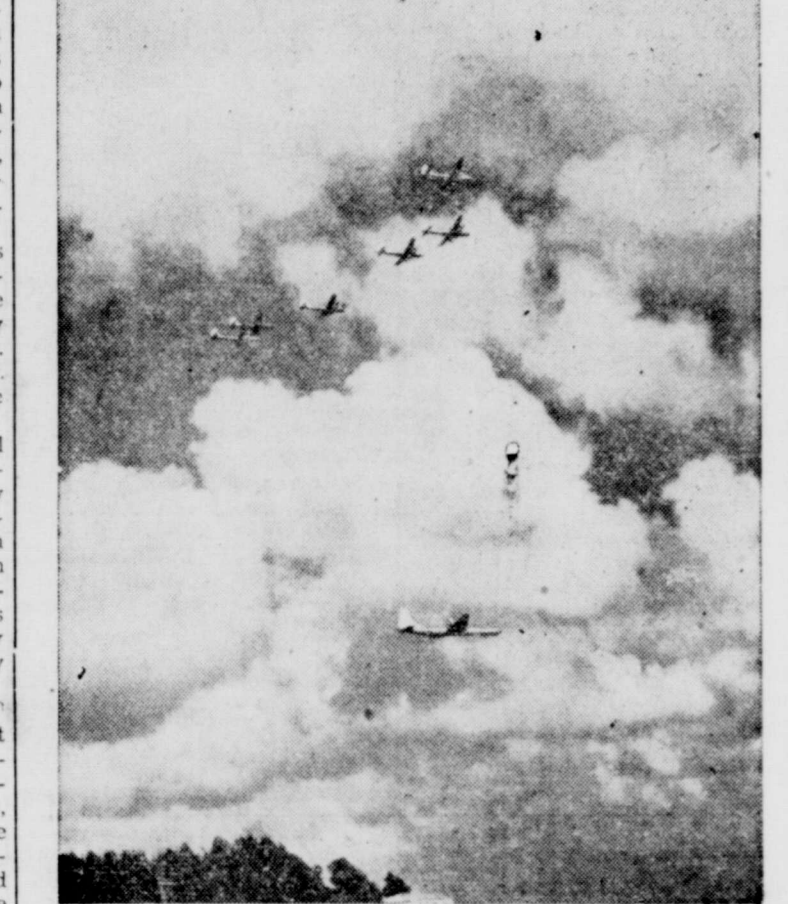

Field work over most of the northcentral, central, eastern and upper coastal areas of Texas was at a standstill, during the past week, except for bedding sweet potatoes and planting tomato hot beds. Preparation of land for spring planting made limited progress in the northwest as temperatures moderated. Weekend rains covered most of the State except in the High Plains where wheat was critically in need of moisture. Small grains were making very little development in northcentral counties, although some green bug damage was still evident in that area.

The non-irrigated commercial vegetable areas in south Texas received good rains over the past weekend. This is the generous rain reported for the Corpus Christi area (Coastal Bend) since the week ending December 19.

Livestock continued to hold up well over the entire state. Oats, fescue grass and clovers were making a rank, sappy growth in central, southcentral and eastern counties where moisture is plentiful to excessive. Light rains over the weekend in the northwest were generally very light. Moderate rains in extreme southern counties will temporarily relieve dry ranges in that area. Heavy rains in central, eastern and coastal counties added further to excessive moisture supplies in those areas. Lambing was progressing. Mohair contracting was becoming active.

Both the highest and the lowest points from sea level in the U. S. are in California.

At least ten countries use the eagle as the symbol of supremacy.

AIR MANEUVERS—This formation of B-29 bombers joins a B-36 in an exhibition flight over the Opa-Loeka Airport in Miami, Fla. The planes were participating in a three-day, all-American Air Maneuvers that took place in that city.

NEW STATE TAX BILL SEEN AS THREAT TO EVERY MERCHANT

A new state tax bill aimed at so-called "big" retailers actually is a double-edged dagger threatening the spending power of the state's small consumers, according to Mrs. Lucille Huffmeyer, secretary-manager of Merchants Credit Association.

The measure affecting merchants doing more than a million dollars business a year is only an entering wedge for a state sales tax which would hit at the pocketbooks of all Texans, big and little, she said.

The bill could not constitutionally tax only those retailers doing business totaling a million dollars a year or more, and would have to be broadened eventually to tax all merchants—the one man grocery store and small clothing store as well as the big-city department stores and chain stores, she contended.

"Such a bill could add pennies, nickels, and even dollars to the cost of the necessities of life—already at the highest level in history," Mrs. Huffmeyer said.

"Texas consumers and retailers must be on their guard against such capricious tax schemes, as well as attempts to burden the taxpayers of the state with a sales tax and a state income tax. These attempts are bound to become more frequent as the cost of state government increases.

"It is time to curb state spending which could lead to new taxes of a nature to depress all business. It is alarming to think that the cost of our Texas state government has increased 207% in the past ten years—since 1945 state expenditures have swollen from \$186 million to \$514 million in 1950."

ABC Club Plans Annual Election

Officers and directors for the ABC Club for the coming year were selected by a nominating committee at a luncheon meeting Tuesday at the Steak House. The report of the committee will be announced at a membership meeting at 8 p. m. Thursday at the Chamber of Commerce.

Under the by-laws, the committee will give its report and other names for the various posts can be nominated from the floor. Hold-over directors are Troy Powell and Ralph Glenn.

President Felton Underwood presided at the luncheon. Present were Glen Boyd, E. L. Jackson, Ronald Rhodes, H. O. Anderson, O. L. Stamey, Edward Lee and Ralph Glenn.

The Gay Philosopher

By J. W. S.

WE'RE GOING TO have a 200-foot tree out at our house one of these days. And that's pretty high. It's a tulip tree. Right now it's just two feet. But the man who sold it to us gave his solemn promise that it would eventually be 200 feet high.

And there's to be a 120-foot Red Maple tree beside it. It's only 18-inches high now. But it'll stretch up.

ONE OF THE best piano players we've run into lately is Harold Hammett, 12-year-old son of Mr. and Mrs. C. H. Hammett. He plays like a veteran. The other night he played the piano while the men sang at the First Baptist Church. Mr. Hammett is an employee of the Humble Company.

SOME TIME AGO a fellow came to Cisco. He represented a company that produces home-talent plays. They send a director with a script. The idea is to get as many people in the cast as possible so all their relatives will see the play.

Anyhow, Cisco organizations turned the deal down. A few local home-talent plays are good for the community. But we don't see any reason for importing directors when there are people entirely capable of doing this sort of thing right here in Cisco.

We'd like to see Cisco organize a little theater to stage three or four plays a year. This Central Texas region needs something like this. And Cisco could very easily take the lead.

Besides giving the area some good entertainment, the movement would give valuable experience to youngsters—actors—directors, and so forth. If you're interested in a deal like this, let us know and we'll see if something can't be done.

AS CISCO Basketball Fan No. 1 we nominate Mr. E. A. Grigsby of Floydada. He's the father of Leonard Grigsby, Wrangler star, and last night he decided to see the game. He drove to Decatur, not knowing that the game had been moved here.

Arriving at Decatur five minutes before game time, he started to Cisco after finding out what was cooking. He got off on the wrong road and had to go back and start over again. It was midnight when he finally arrived in Cisco. When we saw him early today, he was planning on sticking around to see the playoff with Ranger.

A READER CALLED in to say that he tried out our suggestion on how to torture your wife — say to her "Wish all I had to do was to stay home and look after the house." He reported that it worked in an explosive way.

This fellow was so enthusiastic about it that we've decided to conduct a contest. We'll give an appropriate prize to the best entry. Just send us a note with a suggestion on "How to Torture Your Wife." Mr. R. W. McCauley is the judge.

To keep the peace, when this contest ends we'll run another on "How to Torture Your Husband."

FAMILY NIGHT will be resumed at the Cisco Country Club this Thursday night. A fine entertainment program will be ready. Maybe they'll have an old fashioned spelling bee. Anyhow, bring a covered dish and the whole family. All members were urged to attend.

Mrs. Paul Woods has just returned from a three weeks' absence from the city. She accompanied Dr. Woods to the dental convention in Louisville, Ky., and went on to Lexington, Ky., with him, where he attended a dental clinic. Dr. Woods then returned to Cisco, but Mrs. Woods went to Anniston, Ala., where she spent a week with an aunt before returning to Cisco.

Poll Is Set For April 4 - Date Of Council Election

An election to determine whether or not parking meters will be removed from streets in the business district was ordered at a meeting of the City Commission at the city hall Tuesday night, Mayor G. C. Rosenthal reported today.

The election was set for Tuesday, April 4, to coincide with the regular city council election to avoid the expense of an extra poll, Mr. Rosenthal said.

The council was presented with ten petitions containing the names of 264 persons asking that an election be called on the parking meter question. City officials said the petitions were not examined to determine their legality, but that the election was ordered by the Commission as a means of "settling the issue once and for all."

According to the election order, persons interested in running for the three places on the City Commission must file their intentions by March 4 — one month before the election. Commissioners whose terms of office expire are Chief Brown, Olin Odom and J. L. Stafford.

Forms for making application for a place on the ballot may be obtained from Mayor Rosenthal. Under new laws, it is not necessary to have a petition signed for a place on the ballot. All candidates, however, must sign a loyalty affidavit.

The Commission also adopted an ordinance on rodent control. Under this ordinance, the U. S. Public Health Service and the Texas State Health Department will cooperate. Teams to conduct a survey and handle details of the project are expected here in about three weeks.

School Systems Costing Little More In Decade

AUSTIN, Feb. 11 — Texas' rapidly growing public school system is costing only one twelfth more of every tax PENNY than the total expended ten years ago.

The surprisingly small increase in apportionment of the tax dollar in the decade starting with the 1939-40 school year is due to several factors, Chas. H. Tennyson, Director of Public Relations of the Texas State Teachers Association, pointed out today.

The total government cost for all purposes has increased tremendously in the decade, Tennyson noted, but said that the percentage of total government cost for public schools jumped only from 30.31% in 1939-40 to 30.42% for the present school year.

Public schools this year will cost an estimated total of \$155,213,552 in revenue derived from state and federal funds. The total cost of all governmental services including education is estimated at \$513,000,000.

During 1939-40, which was the last normal year before the war, Texas had 1,073,847 children attending school. This year there are, preliminary reports show, 1,181,103, an increase of 107,256 students.

"That huge added enrollment, plus better school facilities and more capable teachers, account for a great part of the added cost of operating our schools," Tennyson said. "In addition the dollar of today has a 1939 purchasing value of 59 cents."

"Texans indicated their desire for better schools when they approved the Gilmer-Aiken bill which reorganized our school system and set higher standards, but I am pleased that the increased cost takes so little more of the total tax dollar than it did ten years ago."

Teddy Tripplett, son of Mr. and Mrs. Tripplett, is out of school this week, being victim of a case of mumps.

HOW EDISON STILL SERVES

With a wry flicker in his eyes, Thomas Edison once remarked that "instead of learning to drink in joy through their minds," some people "try to find it through their eyes and their ears—and sometimes through their stomachs." They "fail to adopt the right spirit toward their life work, and consequently fail to enjoy the satisfaction and the happiness which comes from doing a job, no matter what it is, absolutely in the best way within their power."

His birthday, February 11, is a good day to look to Edison for light on a pressing modern problem—how to find peace of mind.

Edison was not satisfied to help humanity in a physical way

His belief in work for fun spared him much of the mental misery which blighted others' lives. At the same time it drew the sting from trouble he could not avoid. "I have always found," he said, "when I was worrying, that the best thing to do was to put my mind upon something, work hard and forget what was troubling me. As a cure for worrying, work is much better than whiskey."

Another current matter which Edison illumines is that of a longer life span. No man showed more impressively than he how to make long life worth living. The great inventor was nearing eighty when he tackled the systematic study of botany to help him find the best native American plant from which to produce rubber! He who heeds Edison's example of continuous curiosity of mind need never dread old age.

From this discussion of how Edison's work-spirit may be borrowed to advantage by any individual, there emerges the matter of what such a work-spirit means to society. It is clear that a man made happy by practical work is a useful man to society.

Edison's enjoyment of the daily challenge of his work, and of his achievements as he reviewed them over the years, spurred him on and on. His being allowed free rein to his genius, we should note, not only enriched the life of the man himself but resulted in scientific advances which have enriched the lives of everyone. If Edison had not been permitted to release his creative powers full flow by free work the world would be less well off; the world's standards for the good life would sag far below those we follow.

Because Edison got the chance to realize his individual potentialities, society today stands immeasurably better prepared to realize its total potentialities. With such tools as the electric light, motion pictures, and hundreds more we can promote this cheerful task two ways: First, by educating as to what is good in life and as to how to get that

which is good. Second, by producing what is good in life. Edison died 19 years ago but the benefits which spring from his work live on. Edison still serves both through his scientific developments which prop up further developments, and with his example which sparks new efforts. As individuals, though we can't all be Edisons in ability

the extent to which we can follow his example of work goes a long way to determine the extent to which we get things done and get a kick out of life. Socially, the extent to which the world follows Edison's example of work will determine the extent to which it builds itself a higher, happier civilization.

Real Estate

- 5 room Brick Veneer, on pavement, a lovely home.

It's the better

Everything about the '50 Ford spells quality. The quiet, "sound-conditioned" interior... the low, level comfort of Ford's "Mid Ship" Ride... Ford's 35% easier-acting King-Size Brakes... the 50 new quality features.

It's the buy

Only Ford in its field offers you so much quality for so little money. Ford's "hushed" V-8 engine is the same kind of engine now used in America's costliest cars, yet it's yours for hundreds less than most "sixes."

Conoco Announces New Motor Oil

NEW MOTOR OIL IS INTRODUCED TODAY BY CONTINENTAL CO.

Continental Oil Co. today revealed development of a new motor oil — the result of eight years laboratory research, two winters of testing in Montana and Colorado, and a 50,000-mile road test along the Mexican border, according to Claude Wilson, local agent for Conoco.

The new oil called "Conoco Super Motor Oil," will be made available in the Cisco area beginning Wednesday, Feb. 15, he said.

The remarkable performance of the oil under severe and extensive road testing, plus the fact that it has met every challenge of the laboratory for preventing wear and keeping engines clean," said Mr. Wilson, "convince all of us with Continental that this new super motor oil is as nearly perfect as it is possible to develop a lubricating oil."

Each of six cars and four trucks, during the 70-day road test along the Mexican border, covered more than 50,000 miles at an average speed of 60 miles an hour for the cars, and 50 miles an hour for the trucks. The cars were run for 14 hours a day, six days a week, in sizzling South Texas heat that at times reached 110 degrees in the shade. Eight hundred miles per day were logged up on the speedometers of the test cars, and 690 miles a day on the trucks.

run, equal to five years' mileage for the average family car, engines of the cars showed no wear of any consequence. In fact, by actual measurement with highly sensitive instruments, wear was an average of less than one thousandth of an inch on cylinders and crankshafts. Original factory machining was still visible on piston rings.

The road testing results are certified by the Southwest Research Institute of San Antonio, and Norman Penfold, of the Institute, under whose certification the test run was made. Mr. Penfold is acknowledged as the outstanding independent authority on oil testing.

According to Mr. Wilson, the new oil for local automobile and truck owners represents another long step forward in the method pioneered and developed by the Continental Oil Co. for using additives in mineral oils to increase effectiveness against wear and assure longer life for motors.

Claude Wilson Is Conoco Dealer In Eastland County

Claude Wilson, youthful Continental Oil Company distributor for Cisco and Eastland County, came to Cisco in 1932 from Collin County to enter Randolph Junior College and liked it so well he remained to become one of the town's leading business men.

He finished school two years later and worked at various jobs until 1937 when he took over the Continental agency from J. H. Mitchell.

At the present time he serves all of Eastland County and a part of Callahan County from the local warehouse. Wilson operates his one tank truck while his father takes care of the office details. His duties sometime keep Wilson on the road until after most business men have closed their stores to go home and relax with the evening papers.

His warehouse serves some 200 farmer accounts in addition to nine service stations and oil accounts.

Despite his duties, Wilson finds time to participate in some four hobbies which include golf, hunting, Mink raising and yard work. Even though he is what is termed as a week-end golfer, he is a consistent par shooter as can be affirmed by Norman Houston and the other players who are always "after" him.

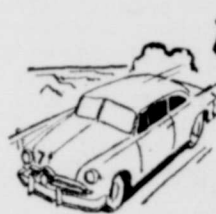

Wilson started out about a year ago in the Mink raising business with one animal and now has five of the fur bearing aristocrats in their neat individual pens. His love for flowers and a pretty lawn is evidenced at his home at 201 West 18th which he shares with his wife, the former Ila Parmer, whom he married in 1946, and their two daughters.

Mayan agriculture was very ruinous, as they cleared land by burning off the timber.

The ostrich can run a great deal faster than the best race horse, and farther.

50,000 Miles - No Wear!

1. Driven "Twice Around the World!" For 50,000 killing miles, six brand-new cars raced over the hot desert along the Mexican border . . . testing the wear-fighting qualities of amazing Conoco Super Motor Oil. At the end of 50,000 miles of continuous driving, engines showed no wear of any consequence . . . in fact, an average of less than one one-thousandth of an inch on cylinders and crankshafts. Startling proof—factory finishing marks were still visible on piston rings!

2. New-Car Mileage for 5 Years! This punishing road test—equal to 5 years' normal mileage—proved, as nothing else could, that Conoco Super Motor Oil, with proper crankcase drains and regular care, can keep your new car new! Gasoline mileage for the last 5,000 miles of the test was as good as for the first 5,000 miles . . . actually there was an average difference for the fleet of only 4/100 of a mile per gallon!

3. New-Car Power! Quicker Starts! Yes—the extra protection of Conoco Super Motor Oil keeps that factory flash . . . that showroom smoothness . . . year after year after year! Conoco Super Motor Oil's exclusive ability to OIL-PLATE metal surfaces makes your engine last longer, perform better, use less gasoline and oil! Conoco Super Motor Oil virtually stops wear before it starts . . . keeps your engine new and clean. Conoco Super Motor Oil has proved itself to be the great new modern wear-fighter!

SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

General Meeting Held By Women's Society Tuesday

All Circles of First Methodist Women's Society of Christian Service met at the church Tuesday in separate business meetings. At the close of the business periods they assembled in the auditorium for a general meeting and to hear the final chapters of the mission study book. The meeting was called to order by the president, Mrs. John Shertzer. The song "Tis So Sweet to Trust in Jesus" was sung by the group led by Mrs. C. A. Shockey with Mrs. Claude P. Jones at the piano. The devotion "Walking in a New Way," was brought by Mrs. Shockey, using the scriptures from the third chapter of the Book of John; and closing with prayer by the leader. "Wonderful Words of Life" was then sung by the group following which the meeting was turned to Mrs. J. E. Crawford who presented the final chapter of the book, "Missions at the Grass Roots." A general discussion followed after which the meeting was adjourned with prayer. A social hour was then held

and a refreshment plate, carrying a valentine motif was served by the committee with a cup of hot spiced tea.

The following were present: Mmes. G. P. Mitcham, R. S. Elliott, W. L. Boyd, William Joyner, M. D. Paschall, Crigler Paschall, C. A. Shockey, W. W. Moore, Zed Kilborn, R. W. Daniel, A. R. Westfall, B. E. Morehart, S. H. Nance, J. T. Fields, Celia McCrea, Joe Wilson, T. J. Dean, John Shertzer, Claude P. Jones, Sam King, Elva Moad, O. C. Lomax, Ed Aycock, O. H. Doss, F. J. Harrelson, Ora Mae Davis, Stella Wilson, Leo Clinton, C. M. Pogue, Lucile Kelley, J. E. Crawford, Ed Huestis, and Carrel Smith.

Mrs. H. H. Tompkins Hostess To Group

Mrs. H. H. Tompkins was hostess when Group Three of the Women's Council of the First Christian Church met Tuesday afternoon in her home with Mrs. Sam Kimmell presiding. The meeting was opened with prayer by Mrs. Maurice Swisher. The devotion was presented by Mrs. James Latimer who based her talk on scriptures

from the ninth chapter of the Book of Luke. Mrs. W. J. Armstrong gave the interesting missionary lesson which followed. A short business session was conducted by Mrs. Kimmell with the hostess acting secretary in the absence of Mrs. Ace Lucas. Routine business was transacted after which a social hour was enjoyed. Refreshments were passed to a visitor, Mrs. Grace Pulley of Dallas; and Mmes. W. J. Armstrong, Sam Kimmell, J. R. De Armand, James Latimer, Carl Lamb, Maurice Swisher, Alex Ward, C. R. West, W. R. Winston, and the hostess, Mrs. H. H. Tompkins.

XXth Century Club Hears Discussion Of Immigration

The XXth Century Club met Friday afternoon at the Library club room with Mrs. Celia McCrea presiding. A short business session was held wherein minutes and membership roll were read by Mrs. J. T. Anderson. Response was "Important Foreign Leaders."

The afternoon program on "Immigration" was then heard. "Regulations Needed to Safeguard the Well-being of Americans" was presented by Mrs. Wright; "What Shall We Do About Displaced Persons?" was given by Mrs. J. E. Spencer; "Desirable Immigrants" were discussed by Mrs. John Shertzer. A round table discussion of "The Value of Restricted Immigration" led by Mrs. Wright. Others joining in the discussion were Mrs. C. R. Baugh, Mrs. J. T. Anderson and Miss Marie Winston. Members present were: Mesdames J. T. Anderson, C. R. Baugh, E. P. Crawford, T. J. Dean, C. H. Fee, Charles C. Jones, Edward Lee, Celia McCrea, John Shertzer, Eugene Shockley, Alex Spears, J. E. Spencer, C. R. West, F. D. Wright, Miss Helen Crawford, Miss Effie Moore and Miss Marie Winston.

GOODBYE AND GOOD LUCK—Charlie Grimm waves goodbye to Vrigley Field in Chicago, Ill., after resigning as Vice President. Twice manager of the Chicago Cubs, Grimm had been with the club almost continuously since 1925. He signed up with the Dallas team.

BRIEFLY TOLD PHONE 37

Mrs. Ora Straussel spent the weekend with relatives in Abilene.

Mrs. J. T. Anderson, accompanied by Mrs. Bob Anderson and her mother, Mrs. Trevarrow, who had been visiting here with her daughter and husband, went on a trip to Dallas Monday. While there Mrs. Anderson attended the funeral of Mrs. L. B. Platt, a former Ciscoan.

Mrs. C. H. Fee has been enjoying a visit of her niece and husband, Dr. and Mrs. Kraut, of Denton, this week.

Mr. and Mrs. Charlie Pence of Childress spent the weekend in

Cisco visiting with their parents Mrs. Mattie Pence of Cisco and Mr. and Mrs. Warner of the Pleasant Hill community.

Mr. and Mrs. Martin Parish spent Sunday in Abilene where they were guests of their son and wife, Mr. and Mrs. J. P. Parrish.

Mrs. Cecil Adams, Mrs. Aline Farr, Mrs. Jay Warren, and Mrs. M. P. Farnsworth were in Moran Tuesday to attend the Workers' Conference of Cisco Baptist Association.

Mrs. Grissom of Eastland was visiting and transacting business in Cisco today.

Mrs. Frank Bond plans to depart Thursday for Hillsdale, N. J., where she will visit her daughter and husband, Mr. and Mrs. Richard Duxia, and their infant daughter, Wynema Jane.

A. W. Tripplett is reported on the sick list this week.

Mrs. Bill Hoffman of Eastland visited here the first of the week with her mother, Mrs. Myrtle Anderson. Mr. and Mrs. Hoffmann had just returned from a pleasant visit in Kansas.

Mrs. Bert Herridge and children of Breckenridge visited here Tuesday with her grandmother and aunt, Mrs. S. W. Altman and Miss Edith Altman.

Mrs. O. G. Lawson plans to leave Thursday for a weekend visit at Lubbock with her daughter and son-in-law, Mr. and Mrs. Eldon Anderson, and their sons, Michael and David Dean.

Marine Corps Plans Training During Summer

Plans for the greatest over-all training program in the history of the Marine Corps Reserve have been announced for this summer by Headquarters Marine Corps, Colonel E. L. Hutchinson, USMC, director of the Eighth Marine

Corps Reserve District, announced here today.

Colonel Hutchinson said the training program would be conducted at Marine Corps installations of both the East and West Coasts during the months of June, July and August, and is designed to bring the advantages of intensive up-to-date training to the members of the Volunteer Marine Corps Reserve. Training for Organized Reserve Units will also be conducted.

Officers and enlisted men personnel of the Volunteer Reserve may apply for the two-weeks active training duty at any of several locations. More than 150

GREAT ADVANCES

Great advances have been made during the past 12 years in the treatment of infantile paralysis. In 1923 when the National Foundation for Infantile Paralysis was formed, a physician and a nurse usually comprised the polio care team. Today's team may include as many as 13 professional workers. This expanded care has required the expenditure of millions of dollars through the years. Last year the problem of rising medical costs was more acute than ever before because of the record polio epidemic which swept the land. You can help uphold high standards of care for the victims of this disease by contributing today to the 1934 March of Dimes.

AUTO OPINIONS

The carburetor should mix your motor a drink that will put you over the road quickly, smoothly, economically. If your carburetor is not mixing a snappy mileage cocktail, come in. We'll tune your motor so it will sing "Home on the Range" with or without the yodel. Sweet, eh? Then come in any time.
