## Weake be direct with the Census-Gaker!

You'd BE FLABBERGASTED BY
some of the answers a Census-Taker gets. This is tough on everybody, for two reasons. First, it slows up the CensusTaker's job-and with 150 million noses to count, that fellow has no time to waste. Second, it results in an inaccurate Cen-sus-gives a picture of our country that's out of focus. Since Census facts and figures are needed by communities and business in planning all kinds of good things like new schools and playgrounds, new parks and
roads, new hospitals, better housing, a
better distribution of such services as telephones, electricity, gas and water-ar to allot new Congressmen according to
population changes-it is vitally important to get the picture into focus.
You can do your part by answering the Census-Taker's questions directly and honestly. Your radio and newspapers will do their best to tell you beforehand what answers ready!

Like other American business frms, we believe that business has a responsibility to contribute to the public welfare. This advertisement is therefore sponsored by

EARL BENDER \& COMPANY

If telephone union leaders are successful in their campaign for a fourth-round increase in wages, the money to meet their demands must be reflected in your telephone bill.
The company's position is this: It is in the public interest to pay fair and reasonable wages. It is not in the public interest to increase wages which are al ready fair and reasonable. If a wage increase were though it became necessary for the company to seek rate increases beyond those already needed.

There is simply no justification for a wage in crease at this time. Wages and working conditions compare favorably with those in other jobs in the community that require similar skills and experience

Basic wage rates have more than kept pace with the cost of living. They attract and hold the capable people it takes to give you good service. Employment turnover in the telephone company is less than half the average rate for all manufacturing industries

But telephone rate increases in the company's territory lag far behind rising operating costs and have even failed by a wide margin to cover the current cost of wage increases granted during and since the war. This has been a big factor in pulling the company's rate of earnings down to the lowest leve in its history.

Yet we are faced today with the job of raising millions of dollars in new investment money to meet the growing telephone needs of the communities we serve. This we can hope to achieve only with the
prospect of improved earnings - which means that higher rates are already a necessity.
Any fourth-round wage increases would mean rate increases in addition to those now needed. Premium wages for telephone work-above community levels-would place an unnecessary burden on telephone customers.

An increase of one cent an hour would add one and a third million dollars a year to present telephone costs. Union leaders' demands for $15 \phi$ an hour would add $\$ 20,000,000$ - an average of $\$ 8$ a year per customer.
 To grant such an unwarranted wage increase would not be consistent with our obligation to furnish the best possible service at the lowest possible cost.

HOW DO THESE EARNINGS LOOK TO YOU?
The real test of telephone wages is how they comrequiring similar skill and experience. Here are aver
res pare age weekly and annual earnings of telephone people FULIY EXPERIENCED PLANT CRAFTSMEN $\$ 75 \$ 3,915$ (Such as Repairmen) so,

Plant craftsmen with five years' service:
$\$ 61$ a week, or $\$ 3,184$ a year. One year's
FUIIY EXPERIENCED
$\$ 45 \$ 2,349$
Operators with five years' service: $\$ 42$ a
week, or $\$ 2,192$ a year, One year's serv
ce: $\$ 38$ a week, or $\$ 1,983$ a year
UILY EXPERIENCED
bUSINESS OFFICE WOMEN
$\$ 47 \$ 2,453$
Business Office women with five years One year's service: $\$ 37$ a week, or $\$ 1,93$ a year.
The above figures include basic wages for a 40 -hou week plus extra pay for overtime, night, Sunday, and
holiday work.
