TRADE AT HOME

If you spend a dollar at home you have some hope of getting it back; if you don't, you just spend a dollar.

The Gay Philosopher

By J. W. S.

SOME OF THE publicity people come out with some clever stuff. For example, a starch manufacturer's agent this week went out a piece that starts off like this:

Mothers! Put on your armor, marshal your defenses, and prepare for next week when 1,607,000 of the most violent savages this side of Borneo will batter the bastions of family life in Texas. As if you didn't already know the awful truth, this is to remind you that in most of the state's schools April brings the annual spring vacation, when the busy throng of sprouts will descend in legions on apprehensive mothers."

Pretty good, huh?
WE'VE GOT FISHING fever again. Our temperature started rising when we heard that Mr. Albert Hansen's trot line snagged a 34-pound catfish at Lake Cisco the other day. A picture of the fish with Mr. H. and Mr. E. C. Damron holding him up is in the Osborn window.

The fever hit the top yesterday when we started up the street and ran into Mr. George Swartz, tool dresser for Choate Drilling Company. He showed us a 4-pound bass that he and Mr. Ben Hamrick had just pulled out of Lake Cisco.

In addition, they had a nice string of sand bass.

The Spang fishing calendar says that your chances of good luck are 3 to 2. But you'd better hurry. There's not a chance to catch even a turtle next week.

OUR SCOUTS report that Mr. Hal Sledge would very probably have set a new record for the Cisco golf course the other day. He was well under par until he came to No. 7. And that was his score there. No. 8 and No. 9 also required 7's for a 39 for the round.

Mr. S. wouldn't be able to get any consolation from Mr. Gene Damron. The other day his tee shot landed on the No. 6 green. He was all set for an eagle. His putter balked and he finished with a 4. But par isn't bad.

They tell us that Golf Coach Stormy Davis of CJC has been showing the boys some things about the game lately. City Champ Norman Huston had two rounds the other afternoon. And he finished under par. He'll no doubt be ready come tournament time.

EVERYBODY knows that the recent livestock show was a big success. We heard some praise for a fellow who richly deserves it the other night. This fellow is Mr. W. P. Knight. He sold all advertising for the catalog, sold booths for the exhibit tent, and spent every spare moment for a month or more helping out. He certainly deserves your applause.

YOU NEVER know just what you'll run into or where. Dropped in at the Victor Coffee Shop yesterday late. And pretty music was coming from the dining room. It was Mr. Ray Judia and Mr. Ken Russ. Piano and trombone. Sounded very good, indeed.

TO UNDERGO SURGERY

Mrs. J. E. Burnam left Wednesday for Lubbock to be with her son Roy Burnam who was to undergo major surgery in West Texas Clinic there Thursday.

2,480 CISCO AREA RESIDENTS TAKE PART IN CHEST X-RAY PROJECT

A total of 2,480 Cisco area residents took advantage of the State Health Department's free chest x-ray program here through Wednesday, according to figures released today. The campaign ended here and equipment was

Conditions Given For Applications On Veterans Land

AUUSTIN, April 6.—Although the entire \$25,000,000 principal of the Veterans' Land Program was committed by March 18, Land Commissioner Bascom Giles stated today that additional applications are still being accepted under certain conditions.

"Where both seller and veteran understand that we cannot guarantee there will be money available to complete the purchase," said Giles, "we are putting the application on file."

The \$25,000,000 fund is a revolving one and thus additional purchases can be made from time to time as veterans make their semi-annual payments, Giles pointed out. Some veterans are also retiring their indebtedness at a faster rate than their contract demands. One tract in Dickens Co. has already been paid for in full.

"Also," Giles explained, "every withdrawal enables us to process one of the applications accepted on this conditional basis. We will act upon these new applications, if and when money is available, in the order they are received."

The down payments accompanying a "conditional" application will be deposited in the State Treasury, Giles said, and will be returned if the transaction is not completed.

No application has been accepted since March 18 except this "conditional basis," Giles said.

Bankline Well Completion Work Underway Today

The Bankline Oil Company No. 1 Mrs. Briggs Owens, wildcat oil test east of Cisco, was expected to be an oil well before the week ends as operations were begun today to complete it. Pipe was set last Monday to 3,953 feet in the Ellenberger.

It was understood that first efforts would be made in the Duffer line where a drill stem test had indicated the presence of considerable oil. Tests in the Mississippi and in the Caddo also held promise.

According to reports, the Ellenberger was tested with a show of oil and salt water. Due to the water, this formation was not expected to be considered for completion work.

POLLUTION CASES FEATURE FINE LEVIED BY STATE GAME AGENCY

AUSTIN, April 6 — Twelve pollution cases that produced \$1550 in penalties marked the March fine report of the Texas Game, Fish and Oyster Commission announced today. All but one of the cases involved ships' releasing water in coastal waters.

Two Norwegian and one British vessel were among those penalized. Two of the defendants were fined \$200 and costs on conviction. The remaining ten defendants were fined \$100 and costs. The twelfth pollution case developed at Woodson in Throckmorton County after an oil well released salt water into Bush Knob Creek.

The total of all March cases filed for offenses against wildlife in the state yielded \$4,235.72 in fines and costs. This compares with a grand total of \$5,948.40 for March, last year and with \$6,330.66 for the preceding month this year.

Twenty-six of the 156 cases reported by the enforcement division of the Commission for the month of March comprised carryovers from the recent hunting

being moved to Rising Star today to work there Friday and Saturday.

Elsewhere in the county, 1,113 chest x-ray pictures were made in Ranger and 1,475 in Eastland. Technicians said the Cisco turnout was the best they had encountered since leaving Austin for the current tour on March 2.

Everyone whose chest was x-rayed can expect to hear from the State Health Department in two or three weeks. In cases of suspected tuberculosis, cards will also be sent to the family doctor.

Mrs. Bill Kendall, vice chairman of the program, expressed her committee's appreciation to members of the arrangements committee, including P. A. Butler, Dr. Irvin Addy, and Wallace Smith, to the Lions and Rotary Clubs, to West Texas Utilities Co. for providing a place for the campaign, and to scores of volunteer clerical workers.

The work of Mrs. Kendall in the program was praised in a resolution passed by directors of the Cisco Chamber of Commerce this week.

Plans Complete For Poultry Day

Plans are complete for the Eastland County Poultry and Turkey Field Day and Clinic, to be held at the Livestock Barn at Ranger on Friday, April 14, according to J. M. Cooper, County Agricultural Agent.

The program will begin promptly at 10 o'clock that morning with a word of welcome by C. E. May, Jr., Ranger Jaycee President whose organization is cooperating in the affair.

H. H. Weatherby, Ft. Worth, will discuss Care & Management of the Laying Flock, followed by J. W. Elder, Ranger, who will talk and demonstrate on Culling & Testing Hens for Pullorum for Greater Production.

Dr. W. C. Banks, A & M College, Extension Service Veterinarian will discuss Parasites and Diseases of Poultry and will conduct a clinic on sick birds. Poultrymen from over the county with sick fowls are urged to bring them for free examination.

After a picnic lunch at noon, John G. McHaney, also of the A & M College Extension Service, will discuss the Poultry and Egg Price Outlook for the coming year.

A talk and demonstration on Vaccination of Pulletts for Fowl Pox will be given by Doyle Graves, Head of the Poultry Department, Tarleton State College, Stephenville.

Mrs. John Thurman, Staff, outstanding Eastland County turkey producer will conclude the all day program with a discussion on some phase of turkey production.

Those interested in poultry and turkeys are invited to attend, Cooper said.

FLYING NOW, FRYING LATER—The chick nestled in the palm of Stewardess Jean Clark is just one of 40,000 flown from Boston, Mass., to San Francisco, Calif., in a large cross-country air lift of poultry. The feathered fliers are destined to be future fryers at a chicken ranch near Modesto, Calif.

Precaution Methods Listed In Effort To Combat Increasing Fire Danger

In an effort to combat the ever increasing danger of fire, Mayor G. C. Rosenthal and Fire Chief Anderson urged citizens to take every precaution, particularly in the current dry season.

They urged citizens not to burn trash or start fires after sundown and not to burn trash on windy days unless they watch the fire until it has burned out.

They urged extreme care in burning off vacant lots and dry grass near fences or outbuildings.

Cancer Crusade Begins In State

COLLEGE STATION, April 6.—Cancer Control Month in Texas opened this week as the American Cancer Society began its statewide Cancer Crusade.

Gibb Gilchrist, chancellor of the Texas A. & M. College System and state Crusade chairman, said that county units throughout the state are beginning their annual campaign for two purposes.

"First," he said, "they strive to tell every Texan the true facts about cancer — that cancer must be discovered and treated in time if it is to be cured, and that cancer often gives warning signs which, if heeded, may save a person's life."

"Second, cancer control volunteers are accepting contributions with which to carry on cancer research, public education and service throughout the state."

Amateur Operators Plan To Organize

William A. Green, W5BHK, 1834 University Boulevard, Abilene, has been selected to set up an organization of Texas amateur radio operators prepared to furnish organized emergency communication during disaster, it was announced today by Communications Manager F. E. Handy of the American Radio Relay League, national association of radio amateurs.

Mr. Green's assignment, which carries the title of Section Emergency Co-ordinator, is to band together members of the amateur radio service in his area to perfect arrangements for emergency radio communication by hams in the event of natural disasters or other emergencies.

Mr. and Mrs. Jimmy Pollard of Abilene are expected here to spend the holidays with his mother, Mrs. Gorum Pollard; and will also visit relatives in Eastland while here.

Clean-up Campaign To Get Underway Monday

CITY GOLF TOURNAMENT BEGINS SUNDAY; BUFFET SUPPER IS SET

Cisco area golfers were playing qualifying rounds at the country club this week, and the annual city tournament will begin Sunday, it was announced today. All qualifying scores must be posted by Saturday night.

Golfers who aren't able to play qualifying rounds this week will be permitted to enter the tournament by posting a recent 18-hole score or use a score in relation to their standing on the club ladder. Entrance fee is \$1 for both members and non-members but this does not include green fees for the latter, it was pointed out.

Tournament Chairman Charles Graham will supervise the arrangement of flights after qualifying ends late Saturday. Each flight will contain eight players

7,271 Deaths In State Last Year Due To Cancer

AUSTIN, April 6.—Deaths from cancer in Texas reached a total of 7,271 during the past year, indicating that a warning against cancer quacks and so-called cancer cures is justified by the State Health Department. Early diagnosis and competent treatment could have prevented many of these deaths, states Dr. Geo. W. Cox, State Health Officer.

"There are but two ways of treating cancer. First, by surgery and second, by the use of radium or X-ray. Treatment must be started early and in the hands of a competent surgeon. Surgery is relied upon to remove cancerous tumors and is used in nearly two-thirds of the cases, X-ray or radium is used to advantage for the remaining group. Frequently the two methods are combined. Self-medication, serums, colored lights, pastes, salves, and diets are valueless."

"The great protection against cancer is early diagnosis. Every case is an emergency and it is unfortunate that the majority of those with cancer do not seek medical advice early in the first stages of the disease. No hope should be placed in fake cancer cures or treatments. Rather, the annual physical examination and an immediate reporting to your physician of any symptoms which may be suspected to be the beginning of cancer should be relied upon. These symptoms are: any unusual bleeding from any body opening, any lump in the breast or other part of the body, any persistent sore, particularly on the face or mouth, and chronic indigestion. These conditions may not be cancer, but sometimes they are forerunners of the more common types of this disease. Where cancer is suspected, do not delay, but consult your physician at once."

Lions Hear Talk On Education Aid

Members of the Cisco Lions Club were urged to take a keen interest in their community, in a talk Wednesday at the weekly luncheon meeting in the Victor Hotel Coffee Shop by Marvin Hannah, publisher's representative. Wallace Smith was in charge of the program.

Principal C. B. Midkiff of West Ward School was introduced as a new member. A visitor was Lieut. Gayle Bailey, son-in-law of Lion Dizzy Dean.

President Cye Karkalis announced that the club this week had purchased eye glasses for a small school girl in its youth activities program.

The students will return to their classes Tuesday and prepare for their six weeks examinations.

and as many flights as necessary will be used.

The club will hold a family night buffet supper Saturday at 7:30 p. m. for all members.

Scranton Gives Out More Awards As Season Closes

Scranton schools met at a special assembly program recently for the presentation of jacket awards to the last of the eligible girl basketball players and for a report of the financial success of the basketball season.

The jackets were presented to Joyce Trimble, Ida Jane Bailey, Mary Lois Horne, Patsy Naylor, and Ruth Page. A total of 14 jackets have been presented to the girls of the Scranton teams. Five boys received jackets.

From a financial standpoint, school officials said, the year has been very successful. Coach Donohoo reported that after paying all basketball expenses, tournament awards, and referees' fees the school was able to pay for all jackets in full and realized a small balance for other purposes. As for total games won and awards taken, the school received eleven trophies and 16 players' awards for sportsmanship and outstanding school play.

Earlier in the week Charles Ingram received a gold basketball from the Clyde tournament. In several other contests the teams took second places at Abilene, Baird, and Clyde.

Several of the Scranton boys plan to enter the Cross Plains contest Friday and Saturday. A squad of girls will enter the girls' division of the Bluebonnet Relays at San Angelo April 29.

Last Friday, March 31, most of the Scranton school took part in an all-day picnic at Lake Cisco.

Civil Service Will Employ Economists

The Civil Service Commission has announced that applications will be accepted until April 24, for the position of Economist at \$3825 to \$6400 per annum and Cartographer at \$4600 to \$5400 per annum.

Employment will be various Federal agencies in the state of Texas. Application forms and additional information may be secured from the post office.

Mrs. Ted Bacon is expecting her daughters and their husbands here for the Easter holidays. To join her here are Mr. and Mrs. A. W. Lanier of Brenham; Mr. and Mrs. D. R. Griffith and daughter Sarah Beth of Huntsville.

Moran Lets Contract For Dam On Battle Creek To Supplement Water Supply

Contract to build a coffer dam on Deep Creek one mile west of town was let at the regular meeting of the City Council Tuesday evening.

The check dam will be built at a cost of \$5,500. Austin Bridge Company, Dallas, was the successful bidder. Engineering matters will be handled by Freese & Nichols, Fort Worth.

Work on the dam, to impound water to be pumped into the municipal lake, is expected to begin within the next few days.

Mr. and Mrs. J. B. Montgomery and son Ross of Dallas were guests last weekend of her parents, Mr. and Mrs. B. A. Elliott.

W. W. Martin, Carl Hopkins, and Mr. and Mrs. Lawrence Martin spent Sunday at Sweetwater, guests of Mr. and Mrs. Frank Perdue.

Mayor G. C. Rosenthal announced this week that the annual city-wide cleanup campaign was scheduled to begin at 7:30 a. m. Monday, April 10, and urged all citizens to cooperate in an effort to rid the city of rubbish that constitutes fire and health hazards.

Mr. Rosenthal stated that pickup trucks will work the west part of Cisco on Monday, Tuesday, and Wednesday. Collections on the East side will begin on Thursday and the job will be completed Friday.

On Monday, the trucks will begin in the alley between Sixth and Seventh, west of Avenue D, and will work north and south for the first three days. On Thursday they will work the East side, from East 14th north. On Friday collections will be made south of East 14th through Humbletown.

In the event of rain during the week of the campaign it will be postponed one week.

Mayor Rosenthal urged all citizens to cooperate in the campaign. He stated that clean alleys would aid the city in doing a more efficient job of spraying and fogging this spring and summer.

Most Of State Needs Moisture

Dry soil over all the state excepting east Texas continued to hold growth of crop, planting and soil preparation at a near standstill in Texas this week.

Local weekend showers in a few central counties brought only partial relief in that favored area. Wheat continued to deteriorate with practically all areas badly in need of surface moisture.

The situation was particularly critical in the High Plains where infestation of green bugs remained heavy and where drying winds further depleted limited moisture supplies. Many irrigated fields were responding as expected because of severe green bug infestation.

Rain was urgently needed to revive dying plants and warm weather was needed for propagation of parasitic insects which will destroy the green bugs. Wheat was still holding up fairly well over much of the Low Rolling Plains although soil moisture was being rapidly depleted by winds and vegetative growth. Small grains in the northern Blacklands was also suffering from lack of surface moisture, and many fields were still heavily infested with green bugs. The prospects for south Texas oats remained poor.

Some cotton was planted in the central areas but most farmers were waiting until more surface moisture is available. The growth of early cotton in south Texas was retarded by dry soil. Most of south Texas flax crop was headed and some of the earliest crops were starting to mature. Moisture has been deficient in that area for some time and with immediate rains only could plantings show much improvement. Peaches were blooming in central and north Texas.

Growth of green feed was at a standstill over much of the state and dry cured feed was getting short on many western ranges as droughty conditions continued.

WHERE LIFE IS LONGEST

Life is longest in the English-speaking and Scandinavian countries, women live longer than men practically everywhere in the world except India, and Russia is at least a generation behind the United States in longevity.

These facts highlight a recent report upon steadily increasing longevity throughout the world by insurance company statisticians.

First as to the longevity is New Zealand, where the most recent data—that for 1934-1935—record expectation of life at birth of 67 years reached among white persons in the United States in 1945. Other leading records are: 65.3 years for Australia in 1932-1934; 66.5 for the Netherlands during the prewar decade; 66.7 for Denmark in 1941-1945, the time of war and occupation; 65.6 for Sweden in 1936-1940, and 65.3 years for France in 1947.

For Germany the figure was 61.4 years in 1932-1934, which is practically the same as for the United States near that time. A

der, showed an expectation of life of only 33.3 years in 1930, the latest year available. This is about the same figure as for our country at the time of its founding.

Generally speaking, the advantage of females in average length of life is greatest in countries where standards of health are high, and least where health conditions are poor. The advantage of women over men in life expectancy ranges from less than one year in Bulgaria and the native population of the Union of South Africa, to five and one half years among white women in the United States, and to six and a half years in Finland. In India the life expectancy is higher for men—although by only one third of a year—than for women.

Encouraging progress in increasing longevity throughout the world since the turn of the century is seen by the statisticians, and in some countries the gain has been substantial. In Chile the increase amounted to more than ten years between 1919-22 and 1939-42.

REMEMBER WHEN

Taken from the Files of The Daily Press

FIVE YEARS AGO

The campaign to increase the membership of John William Butts American Legion Post is progressing in a most satisfactory manner, according to officers in charge.

As a result of publicity in the Cisco Daily Press and letters sent out, more than forty names of eligible members from World Wars I and II have been submitted and every eligible man con-

tacted by the committees has promptly become a member. John Hart, Eastland county sheriff, and his son, First Lt. Billie Hart of the Army Air Corps and recently home from England for reassignment, were callers at the Press office today. Lieutenant Hart spent 11 months overseas and was pilot on B-24s.

The Harmony Girls of Miss Wilda Drago's music club went to Dallas today where they were presented in a program at the Adolphus hotel. Members of the group going from Cisco included Misses Kathryn Shepard, Donnie Jean Wilson, Billie Beals, Dorothy Jean Anderson, Billy Jean Hall, Linda Fee, Dorothy Nell

Pugh, Patsy Lois McCrea and Bettie Sue Armstrong.

NEWS FEATURES OF THE DAY

IS IT YES OR NO?—Hollywood rumors are romantically linking actress Shelley Winters and Gene Bearden, ace twirler for the Cleveland Indians. They are shown together in Tucson, Ariz., where Shelley is on location for a new film and Bearden is going into spring training. As usual, the rumors are being denied by both.

PASTURE-IZED COP—For 12 years Snippy, the police horse, and his boss, policeman Hanley, have stopped by the Argonne School in San Francisco, Calif., to greet the yearlings. Then, by turns, Snippy gave 15 to 20 of them a ride to the corner and back. Shown giving a ride to his young admirers, the 18-year-old Snippy has been retired to a farm in the country.

BUG-A-BOO—Decked out for the Negro folk dances in Havana, Cuba, this native parades the streets for the opening of the carnival season. He is dressed to represent a scorpion which gets killed in pantomime.

DESTINED FOR U.S.—Workmen apply a preliminary clay coating to a 20-foot-high chalk model in a bronze works in Rome, Italy. The statue, one of four executed in America, will be cast in bronze as a gift from the Italian Government for installation on the Arlington Bridge in Washington, D.C.

HOWDY, MA'AM—Officer D. C. Cunningham tips his cap to a pretty lady in a store window in Angeles, Calif., only she isn't pretty any more. She was the only victim with limbs in a \$5000 fire in a local fur store. Sixty-five adults and 40 children were evacuated from a hotel next door.

GAY STRIPES—This three-piece, red-and-white striped cotton ensemble combines a halter-necked bra and brief shorts with a button-front mid-length blouse. The patch pockets, cuffs and collar are also striped.

SMALL GIRLS AND LARGE SPONGES—These little girls examine the sponges brought to the Caribbean Sea village of Batabano, Cuba. Almost stamped out by a strange disease that killed the sponge colony before World War II, the industry is thriving again now that the sponges seem to have taken a new lease on life.

MY FOOT'S TOO SMALL—With major league spring training under way, little Charles gets into the spirit of things in Levittown, N. Y. The one-year-old tot got tangled up with wrong baseball cap, glove, ball and spikes. Anyway, they just won't fit.

Fred Heyser was in Putnam Saturday afternoon and in discussing a nail incident that was in the Putnam News, sticks to his story that the nail was 12 inches long. He measured it. He was questioned as to what he measured it with and he stated he had used Earl Brown's fishing rule. The incident will be dropped since in telling a fish story, the fish grows a pound each time the story is told. The nail was bound to have been a foot long.
