The Lake Cisco water reservoir level was 36 inches higher at noon today as the result of a 3-inch rain in the city and watershed here Thursday night. And water was still pouring into the lake.

The rain, most of which fell in about an hour, caused considerable damage in the city and played havoc with rural roads in some areas. The rain was general over this section, although a survey indicated that the Cisco area regstered more than other sections

Norman Burrus, city water superintendent, said the city hall gauge registered an even three inches. The lake level was up 30 inches at 8 a. m. and had moved up another six inches by

gauge registered 2.7 inches at 8 e. m. He toured the watershed and went to Lake Birnie. Judia said Lake Birnie was full and water was pouring in a steady s:ream over the concrete dam into Lake Cisco. He estimated Birnie woul run off at least 18 incnes into the bigger reservoir.

Judia said al! water tanks in the area were full. Another rain in the immediate future, he said. would result in a larger raise in the Lake Cisco water level. Judia said this was the most water Lake Cisco had caught at one tune in ten years.

At Thornton Feed Mill on Ave. D in Cisco water was over two feet deep in the big warehouse shortly after the rain. The water had drained out today but considerable feed and seed were and Cisco Equipment Co. in the

Several streets, including an No serious damage, how-

ever, had been reported. Thursday night's rain storm began about 7:45 p. m., and rain fell until about 10 o'clock. Intermittent light rains fell during

the night and Friday morning. The three inch fall brought the month's total to 8.85 inches. Rainferred there by private physici- George Watts and Tommy Bacon fall for the month was reported as follows:

weekend in the home of his mother, Mrs. F. B. Blackburn.

BUILD VALUABLE CREDIT

As in the past two years, the ABC summer program is staged entirely under the auspices and

supervision of the club, with all experienced in planning and suschool age youths invited to participate. While the summer schedule is about ready, there are a few expected changes, and complete plans wil not be announced until the middle of next week Mr. Rosenthal said.

"Since both Buck and Paul are pervising youth sports, the boys of school age have a treat in store when they enroll in the gated by age, size, etc., so that they will be in a group best suited from a play, competitive and interest standpoint. Sportsmanship, teamwork, and fair play are a few of the points that will be stressed by the playground directors."

CJC Leads League

Rain halted the contest for the lead of the City League before Field. Also the Cisco All-Stars' softball game with Albany in Albany was washed out.

A good crow I had gathered to only game they haven't had raintotal of \$408,842,000 was paid in ed out. Heavy clouds and lighten-Lonnie Crosby said, "that's all."

ALMA

MATER

THE CHURCH FOR

ALL FOR THE CHURCH

ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and marterial support. Plan to go to church regularly and read your Bible daily.

It's None Of Our Business -

but we can't help noticing that the customer who is particular about the kind of abstract he wants usually gets his money's worth. Since there are as many different kinds of abstracts as there are companies producing them it stand to reason that some may be better than others. Main Points to consider are: Plant equipment, experienced personne and the degree of responsibility behind the abstractor's certificate. A combination of these factors will give the cus tomer reasonable assurance that he will get a dependable

T'S REALLY ALL RIGHT-Although it looks as if it might have irrived on one of those talked-about flying saucers, this is only maki, from French Madagascar. The little creature, now in Paris, resembles a common mouse and behaves like a monkey, and it may reach a height of five feet when it's fully grown.
