A TRIBUTE DESERVED

This is, perhaps, the first time that anyone has ever bought space in The Cisco Daily Press to pay tribute to the Cisco ABC Club, and we believe the tribute is deserved. Here is an organization that is beginning its third year of service to a large community.

The ABC Club is an organization of sports minded persons who live in Cisco and want to see something done for the youngsters of Cisco. Their money provided personnel and equipment with which a large summer playground program is carried out. Every youngster of the entire area is invited and urged o participate in this free program. Various sports are on the program for this summer - enough to appeal to any youth.

To those who are contributing their time and money to make the project attractive to our young people, we say "well done." They are contributing a great deal more than they realize, for an investment in youth is more important now than ever before.

Most of us are contributors to this worthy proposition. And we are genuinely grateful for the opportunity thus afforded us to be of service to our community.
