The Gay Philosopher

By J. W. S.

FROM TIME TO time we've suggested that Cisco ought to put tongue in cheek and make like our town is the "home of the Cisco Kid." Do it as kind of a publicity thing. But we haven't arrived at first base yet. We still think it's a good idea and we submit for your consideration the following article we clipped the other day:

"The cowboy industry is big business today.

"And if you want to strike it rich you no longer have to discover oil — just sit down and dream up a cowboy character the kiddies will go for. He'll produce more lasting wealth than any oil well, because a good fictional cowboy never wears out or grows old.

"Take 'the Cisco Kid,' one of the leading rivals of Hopalong Cassidy. Both began mildly enough and now Cisco Kid is reaching epidemic proportions.

"He first spurred into public view as a minor character in a short story in a book by O. Henry called 'Hearts of the West,' in 1907. O. Henry probably got about \$100 to \$300 for the story.

"Today some \$5 million is invested in the Cisco Kid, now billed as 'The Robin Hood of the Golden West.' He is heard over 300 radio stations, he stars in six movies a year, and he is also making 52 television films. Thirty kinds of Cisco Kid merchandise, ranging from books to dungarees are being marketed.

"We expect to sell \$10 million worth of Cisco Kid merchandise this year," said a spokesman for the mythical border Robin Hood. "And we feel that in 1951 it may reach \$50 million. There doesn't seem to be any limit to the interest in Western characters."

"The Cisco Kid has been played by four different film actors. Warner Baxter won an Academy Award in the role in 1941. "He was followed by Cesar Romero and Gilbert Roland. The present portrayer of the durable kid is Duncan Renaldo, who speaks nine languages, has three children of his own.

"The formula of the Cisco Kid stories is simplicity itself. He and his comic companion, Pancho, played by Leo Carrillo, get involved in some adventure and are mistaken as villains. They always clear up the mystery, after some hard riding and bang-bang, and emerge as heroes."

MR. C. A. SHOCKEY, the telegraph instructor who has used a hobby to give a good many young men a vocation, tells us that Dail Page and Sherman Erwin left Wednesday to accept their initial assignments as telegraph operators for the MK&T Railroad at West Point, Texas.

Mr. Shockey, who has conducted his class here as a hobby for a long while, has students in all parts of the world.

THE CENSUS MEN tell us that in 1940 Cisco had an average of 3.1 persons for every dwelling. The average has gone down to 3.0 — which is somewhat below the national average. . . . Mr. Charlie Ellis is looking after the Victor Hotel Coffee Shop this week while the Ramseys are vacationing. . . . Mr. Bill Dill, the local golfer, is thinking of entering the Texas Amateur tournament this month.

Groups From Moran, Ipan Visit In Park

The closing of the 1949-50 school year has had little effect on the activities and entertainments at Lake Cisco amusement grounds. Wednesday the Baptist Social Class from Moran was at the lake taking part in swimming, skating and other amusements.

Today the senior class from Ipan was at the lake celebrating the close of their high school education.

Mr. and Mrs. Howell Sledge and daughter Patricia Jean left Thursday for a vacation trip. After a short stay with relatives in Ranger they will visit in Dallas, Fort Worth, and other points in the state.

Katy's Doodle Bug To Make It's Last Run Here Saturday

The Katy Railroad's famed "Doodle Bug" will become a casualty of progress Saturday, June 3, when it makes its last run through Cisco.

The little train, which consists of a motor car and one coach, will be retired after more than 20 years of faithful service on the Katy line between Stamford and Waco. Reason: not enough business.

Retirement of the Doodle Bug was not without a lot of red tape. Cities all along the line hated to see it go. Some protested rather loudly — others just hated to see it go. Farmers have set their watches and clocks by its daily appearance for many years.

The mayor of Whitney almost won fame by his protest against discontinuance of the train, which has brought that city all its mail for many years. Many of the cities on the route will be without regular train passenger and mail service.

It is understood that in the future the Katy will hook a passenger car on a freight train probably two or three times a week. Testimony offered at a Railroad Commission hearing recently showed that the Katy lost money on the operation for several years. And most business men will agree that nothing is good that loses money.

Vaccination For Diseases Urged By State Leader

AUSTIN, June 1 — How many people do you know that still cling to the old-fashioned idea that the sooner children catch the so-called diseases of childhood, the better off they'll be?

Take whooping cough, for example. Isn't it ridiculous for children to have to suffer with it when it may be prevented by simple vaccination?

Whooping cough goes by the scientific name of pertussis. Regardless of what you call it, it still means violent, painful wracking coughing that takes the breath and tears at the chest and throat walls.

Pertussis is prevalent among children everywhere. About 15 out of every 100 cases are in children under two. North America, from time to time, seems to have more than its fair share of cases.

Sometimes it's fatal, especially to very small children. About 25 out of every 100 whooping cough deaths are among two-year-olds and less. And, strangely enough, most deaths are among girls. In 1949 Texans had 46 whooping cough deaths. So far in 1950, an average of 323 cases have been reported every week.

Whooping cough is spread through droplet infection — that is, by breathing air contaminated by a sneeze or cough of an infected person. You can get it from using the personal things of an infected person, too. It is communicable from about 7 days after exposure until three weeks after the coughing starts.

The important thing about whooping cough is, the vaccine may protect against it. It's only thing that will. If an unvaccinated child gets the disease, he will thereafter have what is called a "definite and prolonged immunity." But the fact of the matter is that second attacks have been known to occur.

Vaccination of all preschool children is the answer to control. "Booster" shots may be advisable within a year after the initial vaccination. Your family doctor will make that decision.

Former Resident Claimed by Death

Mrs. R. C. Hayes, formerly of Cisco, died Monday night at the home of her niece, Mrs. John Walters, in Wakeman, Ohio, and funeral services were to be held there Thursday afternoon. Both Mrs. Hayes and Mrs. Walters formerly lived here, moving to Ohio some six years ago.

Mrs. Hayes, who resided here many years, was active in the First Presbyterian Church and has many friends in this area.

Survivors include her husband and three children. Two sons, Ross and Bill, live in Wakeman, and a daughter, Miss Phyllis Hayes, resides in San Antonio.

Golf Play Begins At Mineral Wells

Spud Cason, Ft. Worth, will defend his title as champion at the Mineral Wells Invitational Golf Tournament opening Thursday, June 1, he has advised Pro Jack Oliver, manager of the Mineral Wells Golf & Country Club.

Manager Oliver reports a number of top flight golfers already sending in reservations for the tournament.

Qualification starts Thursday, with the final 36 hole play Sunday, June 4.

A barbecue is on the program for Thursday night and the tournament dance Saturday night.

The 18-hole grass green course is in the finest shape ever, and is being groomed daily to keep it in excellent shape for the annual event.

Mrs. Paul Vogt and daughters, Betty and Carol were expected to arrive Wednesday from Alpine for a visit with her parents, Mr. and Mrs. J. T. Anderson.

F. H. A. HOME REPAIR LOANS Up To \$2500 For 88 Months 1ST NAT'L in Cisco—Mbr. F. D. L. C

A drill stem test was being run today in the Ellenburger lime formation in the Bankline Oil Co. No. 1 S. B. Mize, an offset prospect in the new Lake pool five miles east of Cisco.

Pipe will be set after the test is completed. If the Ellenburger shows promise of oil, the operators were expected to cement in pipe to the total depth of 3,955 feet. Otherwise, the pipe will be set on top of the Lake Sand.

A drill stem test in the Lake last weekend was run with little results. Cores of the formation, however, were described as good and the sand will be treated with hydrofrac if Lake production is sought, it was understood.

Business was not so good in the Lake pool just east of town. According to reports today, the Gilchrist Drilling Co. was not having much success with completion efforts in their No. 1 Waters. And the Chester Ines No. 1 B. W. Patterson was pumping around 10 barrels per day.

E. C. Johnston No. 1 Mahan-Edwards was out today after running packer. The outcome was expected to be known this week.

Oil men believed that future drilling in the area probably will be to the south and west, as wells have indicated little is to be gained from explorations to the north and east.

Rev. Swisher Is Lions' Speaker

Rev. Maurice D. Swisher, pastor of the First Christian Church, told members of the Cisco Lions Club how the U. S. Army's chaplains corps works in a talk Wednesday at the weekly luncheon meeting.

A former captain in the chaplains corps, Mr. Swisher told Lions there is a movement in progress to eliminate the body from the army. He expressed the hope that nothing comes of the move, pointing out that military chaplains come to occupy places of importance in the service.

He outlined the duties of chaplains from the Revolutionary War to World War II and told of several incidents to illustrate his belief that chaplains are worth a great deal to the welfare and morale of men in the service.

Guests included Haywood Cabress, Cisco, and Sterling S. Speake, who is conducting a course here in credit procedures.

The Soil Conservation Service

The people of our nation have come to know that we must conserve our soil, if we are to have continuous, abundant agricultural production.

In turn, soil conservation requires intelligent use, and maintenance of our land resources. This may mean terracing to hold soil and conserve rainfall — it may mean proper use of our pasture grasses, if we want to have and keep the good grasses which will produce the most pounds of beef, wool or mohair.

Soil conservation technicians realize that when a group, or an individual asks his soil conservation district for assistance, and the district in turn asks them to help him, that he has a problem, and a desire to do something about it.

showing what needs to be done, and what can be done in every field and pasture. It is at this point that effective planning takes place, by walking over the farm or ranch with the landowner, field by field, pasture by pasture, discussing each problem with him on the ground, and developing plans for treating each acre according to its needs, and the desire of the landowner.

The trained soil conservationist has learned that halfway measures will not do the job. Each conservation measure applied to the land is designed to support another one, and the conservation work on one farm is carried out with an eye to the next farm.

Mrs. Cheves Hostess Recently for 'Pioneer Party' in Her Home

Mrs. E. H. Cheves entertained the Double Octet Anniversary Club recently at her home in Humboldt. The hostess requested the members to come dressed as pioneer women. When they arrived much laughter and merriment took place over the costumes. There was much "backwoods" conversation with a favorite recipe of "corn pone" being exchanged.

The ladies were then invited into the dining room and were seated at three tables. The tables were designated for the land owners, share croppers, and hired help. At the center of the tables were placed old fashioned kerosene

lamps. In one corner of the room was a churn of buttermilk with a dipper.

After a delicious meal the ladies retired to the living room and played some lively games directed by Mrs. M. F. Underwood. The hostess was presented with a beautiful table lamp.

Present for this entertaining affair were Mesdames M. M. Tabor, Willie Frank Walker and the following guests: Mesdames C. W. V. Gardenhire, Harry Schaefer, Leon McPherson, Helen Pugh, Underwood, Mack Stephens, John Eva Laws, Mamie Walker, Miss Popalio, and the hostess.

Answering Questions On Varied Subjects Is Big Job For Agency

AUSTIN, June 1 — What can I feed my baby alligator? How old do I have to be before I can become a game warden? My little sister doesn't hunt or fish — how can she have some fun?

That is a cross section of the letters received daily by the Texas Game, Fish and Oyster Commission. The curious minds of young Texans present occasional dilemma to the most astute staff members.

The queries about what to feed pets are the most common. The lad ambitious to become a game warden is not conspicuously alone

but he is one of the more persistent types. He first wrote about getting a "commission as game warden" in the fall of 1943 when he was 14 years of age. He was advised then that the minimum age for game wardens is 21 years. His birthday is April 21 so he wrote back: "... and mark my word — six years from April 22 I will be in Austin to see you about the game warden job." He signed off by saying: "I'll be seeing you six years from now and goodbye and good luck."

Recently, after his 16th birthday the boy, who lives on a ranch,

wrote: "Yes, it's me again, and I am still waiting for my 21st birthday to be a Texas game and fish warden." He indicated that some of the folks were breaking the outdoor code and wanted to know what he could do to help while getting field training in advance. Then he added: "Please write and send me the game and fish law book. If it costs more than \$10, I will pay for it. I don't want money for what I do to stop game and fish violations now but it might help when I become an official game warden."

Another lad, in the seventh grade at school, wrote for material about reptiles and fish and added enthusiastically that his dad is teaching him to hunt and fish. The boy closed with this:

"He bought me a 22 and I know how to shoot pretty good now. I have a little sister and she does not like sports. How can she have any fun?" He got his data on the reptiles and fish, but unfortunately not much information on how to entertain his sister.

Mr. and Mrs. Laird Locke and daughter Sharon Kay, accompanied by Mrs. Locke's mother, Mrs. C. E. Allen, went to Norman, Okla., for a weekend visit with Mrs. Allen's daughter and husband, Mr. and Mrs. Ed Brown. Mr. Brown is a student at Oklahoma University.

Mrs. G. A. Fox and children of Dallas have been guests this week in the home of her mother, Mrs. Thomas Terry, and son Tommy.

Hospital Notes

The following patients were admitted or released at Graham hospital recently:

Sammy and Marita Webb, children of Mr. and Mrs. C. L. Webb, entered Wednesday for tonsillectomies.

Mrs. M. A. Clanton of Moran entered the hospital for treatment. Also entering for treatment was Mrs. Clem Gillespie of Throckmorton.

Mrs. Lawson A. Williams was still in the hospital as the result of injuries received in an auto accident Monday. Charles Preston, who was injured in the same accident, was released and is recovering at home.

Howard Barron, who was in-

jured several weeks ago in a truck crash on the Rising Star highway, was able to get around in a wheel chair this week. He will remain in the hospital for some time.

Released this week were: Mrs. Hand and infant, Mrs. Ben Wendt and infant, Cisco; Miss Lorita Parrish, Moran; Mrs. Frank Bond, Cisco; Mrs. Paul Lutzenberger, Cross Plains; Alvin Schkade, Albany; Mrs. B. B. McKelvin, Moran, and Charles Gabler, Midland.

and Mrs. E. T. Thomas, Sgt. and Mrs. Randolph Taylor and son Brady of New Rochelle, N. Y., left for a reunion of his family at Breckenridge. Two brothers who also saw overseas duty, one of whom was a prisoner of war, will be present. Mr. and Mrs. Thomas expects their daughter and husband to return here for a longer visit with them.

TEN YEARS AGO

A number of Cisco Lions are attending the three day state and district convention in Sweetwater, which began Sunday afternoon at 2 o'clock and will continue until Tuesday at 2:30.

Among the Cisco Lions attending are: R. W. McCauley, B. Dodd, Stanley Webb, Shy Osborn, R. I. Collier, W. H. LaRoque, Jack Anderson, A. G. Tuttle, E. L. Jackson, and O. L. Stamey.

Tonight's game between Cisco Canoco and Scranton promises to be one of the best. Smitty Huestis has his boys opened up now and it remains to be seen whether they will stall or go on.

Scranton has only played one game, which they lost to Red Front. They have promised to give a good account of themselves on the next trip.

On Friday night the Recreation boys meet Red Front. Recreation will try to win this one, while the school boys from Red Front will try to show the fans that they can win again.

Response to the appeal of the Cisco Red Cross chapter for voluntary contributions to their special war relief fund has been admirable, and if it continues at its present rate the Cisco quota will be exceeded in a short while. Mrs. Charles Sandler, chairman of the committee, said.

Misses Jo Ann Shelton and La Moine Lindsay of Brownfield have been visiting here this week with Mrs. J. E. Shelton of the Mabley Hotel.
