VOLUME XXX

Henry Turney Discusses Importance of Grass in Farm Bureau Meeting

The Gay Philosopher

By J. W. S.

GIVING A list of scores of the boys shot at the golf Sunday, we didn't hear of the best one until yesterday. Gene Damron shot a 66 — strokes above the course and Russell Crowover of the club, we understand, holds course record here with a 64 on the annual tournament twice — in 1939 and 1940 for 18 holes is 70.

UNDERSTAND Country Club members will gather at the club Thursday night for a reg. family night supper. There are good things to eat (everything brings a dish) and a game

YOU WANT TO see something interesting, go by the Glenn Nature Company and see the Air Club's exhibit of airplanes. The models were by youngsters under the supervision of Richard Donovan, Lauderdale, Dr. Hugh Chief, Bill Huffman and others. These fellows are doing something worthwhile for the young, by sponsoring the project, and look it over.

AUSTIN Flint didn't believe the boys would believe his stories, so he brought home fish from last week's session along the gulf coast. He got 25 pounds of salt water, which he says he caught really. They're beauties.

FAMILY FRIEND brought a postcard she received from Gene Watson who is with husband at Marlin while he goes treatment for arthritis. The card reads as follows:

At last we seem to have positive results. Of course, he is not enough to walk alone yet, they are going to put him in a walker today. Have a lot of vigor to do and strength to, but the rheumatic pain is. He feels wonderful, is eating like a pig. You just have to see and see the wonderful results with the stronger patients realize what it really will do. This was written two or three days ago.

DON'T KNOW if it's true or not, but understand the Rotary has protested the softball game they played with the Lions Saturday night for the benefit of the Cisco Welfare Association. The protest was based on the fact that Lion Pitcher Arlin threw a painted grapefruit (substituted for a ball) to batter Charlie Graham. Charlie hit the grapefruit and it exploded.

Prepare E. L. Jackson got most the juice from the grapefruit maybe he is the one who provided.

any event, Lions and Rotarians had a good time and the ball was full. Haven't heard how money was taken in.

Saturday Last Day To File In County Election

Candidates for June 17, is the last day for candidates to file their names for county and precinct offices, Chairman Osca Lyman of the Eastland County Democratic Executive Committee reminded today.

Monday, June 19, is the date for the meeting of the executive committee to be held in the court room at 2 p. m. Lyerla requested precinct chairman to be present.

Candidates must pay their filing fees, which will be set at a meeting, by Saturday, June 24.

Lyerla reminded all candidates they must file their loyalty oaths with him before he can put their names on the ballot.

DAYS FLAG DAY
This is Flag Day and large flags were being displayed by business firms throughout the

"We must take care of our grass" was the subject discussed by Henry Turney of the Soil Conservation Service Thursday night, June 8, in the regular monthly meeting of the Eastland County Farm Bureau.

Turney explained how the lack of respect for grass in the past 50 years has practically ruined many ranges. "In the past we thought we had to take all the grass," said Turney, "but now we must leave approximately half of it for the grass to survive over a period of years and also to have a litter on the ground that will enable the soil to take in and hold more moisture."

L. R. Higginbottom, of Kokomo, presided in the absence of the president, E. E. Blackwell, and introduced Turney.

After Turney's speech, Higginbottom demonstrated a few slight of the hand tricks which were very entertaining and confusing.

At Higginbottom's request, J. M. Coper, county agent, appointed Mrs. Ben Freeman and Mrs. Howard Ingram as program committee for next month.

W. B. Starr made a motion that the Farm Bureau go on record endorsing the rural telephone coop movement. This motion was seconded and carried unanimously.

R. L. Palmer of Desdemona, one of the directors of the Eastland County Farm Bureau urged that all members be present at the next meeting to make preparation for the big membership drive.

There being no further business, the meeting was adjourned.

Texas Farmers Planting Crops As Rains Quit

Field work was resumed over practically the entire state by mid-week, and open weather of summer temperatures rapidly dried excess moisture in most eastern and coastal counties and stimulated rapid development of growing crops. Farmers kept tractors moving from early until late planting, replanting, and cultivating.

Wheat harvest was active in the north central and northwest counties, although some delays resulted from wet soils early in the week. Yields in many fields were turning out better than had been expected. Limited acreages remaining in the High Plains area were nearing maturity and a few fields were combined during the week.

Corn made good growth and prospects were generally improved by the warm open weather, particularly in East Texas where crops had suffered from excessive rains. Combining of sorghums was started in the Lower Valley and crops were nearing maturity in the Coastal Bend, where very good yields are in prospect. Seeding of sorghums was active in the late maturing High Plains area.

Cotton was fruiting heavily in southern areas and weather conditions favored plant growth in most of the state. Chopping made good progress over central, west and north parts of Texas. Seeding was rushed to completion in the High Plains where soils had been dry and there was still some planting and replanting in northern areas where rainfall had been excessive. Reports of insects were widespread and active controlling practices continued. Harvest of Lower Valley crops was expected to get underway within the next week or ten days.

Ranges and pastures continued supplying good to very good feed in practically all areas. Rains a week ago in eastern Trans-Pecos counties were bringing new feed along, however, were still dry. All classes of livestock were making good gains. Marketing of yearling good gains, marketing of yearling lambs was tapering off, with a large share of the offering carrying only feeder flesh. Marketing of spring lambs continued heavy because of the generally abundant green feed supply, the strong demand for stocker cows, calves, ewes and ewe lambs continued.

SEEING THE SIGHTS—Visiting the ancient Colosseum in Rome, Italy, like thousands of sightseers before them, are film stars Deborah Kerr and Robert Taylor. They are playing the leading roles in a picture being made in the Eternal City by an American film company.

John J. Haynie To Get M. S. Degree

John J. Haynie of Cisco will be awarded a Master of Science degree in music education in graduation exercises Sunday at the University of Illinois, it was reported here today. He is one of 4,000 candidates for degrees in the service.

Governor Adlai E. Stevenson of Illinois will be the program speaker.

Figures Given On Poultry Supplies

COLLEGE STATION, June 13 —The United States produces almost one half of the world's supplies of poultry products, Dr. J. H. Quisenberry told the Texas Conference for Veterinarians meeting at Texas A&M College today. "A better idea of the magnitude of this industry," Dr. Quisenberry, head of the poultry husbandry department of A&M, said, "may be obtained by visualizing the production of a carload of eggs (500 30-dozen cases) each three minutes, day and night, 365 days of the year."

The speaker pointed out that the poultry producers were the "first of the agricultural groups to face realistically the necessity for a post-war adjustment of production efficiency." He said that they have been able "through the elimination of wasteful and inefficient methods to take grains supported at 90% parity and feed it to their hens and continue to make a profit on their eggs supported at 70% parity."

The industry, Dr. Quisenberry told the veterinarians, "returns the farmers of this nation more than \$3 billion annually." The return to Texans averages nearly \$500 million cash each year. In 1948 we produced 17 million broilers in Texas; in 1949, 28 million; and at the present rate we shall produce 32 to 35 million in 1950. "The poultry producer," Dr. Quisenberry said, "may not be able to eliminate all complaints as to the quality of his product through the use of hormones, but results obtained to date indicate that he may, through harmonizing his birds, harmonize the commerce of his customers into a chorus of commendation."

The speaker said that the poultry industry ranks third as an income source from agricultural products in the United States.

GUARD MEETING OFF

Members of Battery A, 648th AFA Battalion, were notified that the meeting scheduled for Thursday night, June 15, had been cancelled and were asked not to report to the armory at that time for drill.

LUBBOCK AREA GIRLS ARRIVE AT LAKE CISCO FOR OUTING

Fifty-one girls and their sponsors from high schools at Lubbock, Roosevelt, Frenship, Idalou and Shallowater arrived at 2:15 p. m. Tuesday at Lake Cisco Park for a three-day encampment. The girls will stay at the Presbyterian Encampment grounds.

The sponsors include Miss Martha Graves, director of home and family life education at Texas Tech, Lubbock, who is a native of Cisco and the daughter of Mr. and Mrs. T. A. Graves. She formerly taught in the Cisco schools. After arriving at the camp, each of the Future Homemakers chapters elected a representative to serve on the FHA Camp Council. Camp chairman is Novella Crump of Shallowater.

Marian Hunt of Lubbock and Patricia Derrick of Idalou were named on the publicity committee. The maintenance committee is composed of Shirley Goodpasture of Frenship and Lahonda Keeler of Roosevelt.

The girls plan to visit in downtown Cisco, to swim in Lake Cisco, and to have FHA discussions.

Blackleg Danger Season Is Here, Officials Warn

The danger season for blackleg is here now, and cattle losses may be high unless herds are protected, livestock health authorities warned today.

The disease strikes swiftly, with a high death rate, an American Foundation for Animal Health bulletin explains. Blackleg is caused by a spore-forming germ which can live for years in the soil. It may enter an animal's body through small cuts and punctures in the skin, or through grazing. "Suspect blackleg," the bulletin urges, "if young cattle develop a high fever, lose appetite, become lame and show great depression. Typical swellings caused by the disease give off a crinkling, tissue-paper feeling when touched."

Since the disease is highly infectious among young cattle, and usually fatal, the Foundation urged owners to have a veterinarian check immediately if the suspect a blackleg outbreak in their herd. "Prompt treatment may save some of the animals," the bulletin says, "although it is usually best to have calves vaccinated at about three months of age if blackleg losses have occurred before in the locality."

Also of great importance, the Foundation adds, is to burn or bury deeply under lime the carcasses of animals which have died. Otherwise the carcasses may be a potent source of infection.

Test Indicates Johnston Well One Of Area's Best

Farmers Of The Week

Pictured are Mr. and Mrs. Bill Childers, ranchers and farmers northeast of Cisco, who were named "Farmers of the Week." A story on the Childers family appears on page three of this edition.

Thomas' Design Wins \$100 Award For Him

Raymond Thomas has returned to Austin following a brief visit here with his parents, Mr. and Mrs. Oliver Thomas. Thomas, who is a student at the University of Texas is one of the three winners of a \$100 prize in a state wide contest which was recently offered to architect students and designers.

The design has been released for manufacturing and as soon as a company can be found to produce it he will receive a royalty. He designed fixtures for the William Charles Music Company for their new store and the Commodore Perry Hotel, both of which held their formal opening last Sunday in Austin. He has also been doing other design jobs; and a commercial building, consisting of a restaurant, barber shop, beauty parlor and package store, designed by him for construction at Lake Buchanan, is to be built soon.

Serium Is Here For Pre-School Health Project

Free serums to inoculate pre-school children against smallpox, diphtheria, and whooping cough have arrived in Cisco at Lemore's Pharmacy and are available for immediate use, officials of the West Ward Parent-Teacher Association announced today.

The serum was ordered by Dr. W. P. Lee, city health officer, in a project sponsored by the PTA. It will be given to the parents of children who will start to school for the first time this fall for use by their family doctors. PTA officials said that local doctors had volunteered their services in the immunization program. They emphasized that there is enough serum for all children starting to school for the first time this fall, including Negroes and Latin Americans. Parents were asked to pick up the serum at Lemore's and take it to their family doctor.

TO ATTEND MEETING

Mayor G. C. Rosenthal, City Secretary Hal Lavery and several members of the city council and water department officials plan to attend a regional water meeting in Brownwood at 7 p. m. Thursday. A chicken barbecue will be served, following a program.

COUNCIL WILL MEET

Announcement was made Wednesday that the Girl Scout Council will meet at the Chamber of Commerce office Thursday at 7:30 p. m. All members were urged to attend the meeting.

FOR SALE — Water tank with Goat Clean. \$15. Also home. W. M. Ramsey, Victor Hotel Coffee Shop. 152

Mr. and Mrs. Hugh Wagner and son, Dan D'Spain Wagner of Odessa visited here last week-end in the home of Mrs. Wagner's parents, Mr. and Mrs. H. D'Spain.

Joy Theaters In 25th Anniversary Drive Contest

Cisco's two Joy Theater Circuit units—the Joy Drive-In and the Palace Theater — are competing with others in the organization in a 25th anniversary drive. The contest opened June 3 and will run through Sept. 9.

During the drive, 400 employees of Joy houses will receive an extra week's salary; seven employees will receive a trip to Hollywood with all expenses paid; one manager will receive a trip to the film capital with all expenses paid; one manager will receive an additional \$500 prize; two managers will receive additional \$250 prizes and 14 managers will get prizes from 14 film companies.

The concession girl who wins will get a free Hollywood trip, and runnersup will receive cash awards. Because some of the theaters are larger than others, for contest purposes they will work on weekly quotas based on past receipts for the individual houses. The Joy Drive-In is managed here by T. J. Edwards, and the Palace is operated under the management of Wallace Smith.

Work On Lodge Is Expected To Be Started Soon

Nick Crain, Albers stationery store owner, met with members of the city council here Tuesday night and told them that he plans to have an architect inspect the old lodge he recently leased at Lake Cisco for the early beginning of an improvement program. Crain discussed terms of his 59-year lease with the city. He expects to spend some \$10,000 in permanent improvements to the old lodge, which is located just east of the country club building. He said he hopes to have a contractor on the job in a week or ten days.

He told commissioners he also hopes to begin cleaning out the undergrowth in the old park zoo area, which, also was included in the lease. His plans call for erecting several cabins in that area. Crain plans to use the facilities here for entertaining employees and friends of his enterprises, which also include several drug stores.

Two Groups Enjoy Lake Cisco Outing

A group of some 30 Home Economics girl students from Stephenville arrived at Lake Cisco Tuesday and participated in recreation at activities throughout the day. Wednesday morning about 20 students from Leuders arrived to enjoy an outing here.

Other Wells In Area Are Expected To Be Drilled To New Zone

Results of a five-hour test Tuesday indicated that the E. C. Johnston No. 1 Mahan-Edwards well is one of the area's biggest oil wells, oil men reported today. The well is located just east of the Cisco city limits.

Deepened to the Ranger section after failing in the Lake Sand, the well came in Monday and flowed oil and gas over the crown block. During a five-hour test Tuesday afternoon, the well flowed into tanks at the rate of 10 barrels of oil per hour through a 2 3/4ths inch choke, with 880 pounds of flowing pressure. Gas flowing with the oil was at the rate of 3,600,000 cubic feet. Shut-in pressure was 1,250 pounds, and bottom hole pressure was 1,800 pounds.

E. C. Johnston, Longview oil operator and owner of the well, flew in Tuesday from East Texas to be here for the test.

He ordered a specialty company to complete the well, due to the high pressure. Tubing will be run and a packer will be set. Pipe was cemented to the Lake Sand in earlier tests, and the hole will be left open below that depth. Total depth is 3,618 feet.

Johnston's future plans in the area had not been decided. He holds leases on some 240 acres around the well. Hickok Producing Company has a good Lake Sand well that Johnston's well offsets.

South of Johnston's well, Chester Innes Drilling Company's No. 1 B. W. Patterson was drilled recently in the Lake as a small producer. It was reported today that Innes plans to deepen this hole immediately in an effort to seek Ranger pay.

In the same area, Gilchrist Drilling Company's No. 1 Waters was also expected to be deepened to the new horizon.

Johnston drilled the Mahan-Edwards well on a farm-out lease from L. A. Warren, local oil man.

Bankline Nears 3,000

Elsewhere in the area, Bankline Oil Company's No. 2 Mrs. Briggs Owens was drilling near 3,000 feet today five miles east of Cisco. This is an offset to production from the Lake Sand recently discovered by that company.

Hickok Producing Co.

Five and a half miles northeast of Cisco, Hickok Producing Company's No. 2 Childers was drilling at 2,200 feet on a permit that calls for an Ellenberger test. The hole is being drilled with cable tools. The No. 1 Childers, drilled several years ago by Hickok, is a gas well and still is producing.

NORTH OF CISCO

The Alex Phillips No. 1 Mitcham, seven miles north of Cisco on the Mitcham Ranch, was drilling at 2,280 feet today. This is an Ellenberger prospect located 900 feet from Lone Star Gas Company production. Gray Drilling Company of Cisco has the contract.

PLUGGED AS DRY

An Ellenberger test three miles west of Carbon, the C. W. Fair No. 1 Sessums, has been plugged and abandoned as dry at 3,686 feet, it was learned here today. A slight oil show was reported in the Ellenberger but failed to respond to acid treatment.

NEW STRAWN WELL

Trumpeter Petroleum Company has completed a new Strawn sand well in the area north of Putnam in Callahan County. Total depth was 2,200 feet.

NEW ELAM REPORTED

It was reported here today that Lone Star Production Company has staked location for a new well on the Elam land north of Cisco. It will offset the company's No. 8 Calloway.

MOVE TO CISCO

Mr. and Mrs. J. E. Doty have moved into their residence at 1300 West 15th and plan to make Cisco their home. Mr. Doty has been employed with an oil company in Monument, New Mexico, and has retired from service. They plan to make some repairs on their residence. They formerly lived in Cisco and have owned a home here for several years.

PROGRESS DOWN SOUTH

South American countries are ahead of the United States on many matters of pasture improvement, a top authority on agriculture for the Texas A. and M. College System told the Texas Conference for Veterinarians at the college recently.

D. W. Williams, vice chancellor for agriculture of the A. and M. System who gained firsthand information on the livestock industry in South America on a trip there this spring, said cattlemen of that continent are doing a good job in management of their pastures.

"They manage to give you the impression they could feed beef to the whole world," he said. "The carrying capacity of much

country, followed by Aberdeen-Angus and Herefords. The Herefords are gaining in popularity.

Argentina cattlemen fatten their steers on pastures, using a rotation system whereby the steers being finished are left on one pasture only long enough to get choice grass, Williams said. They are followed on the pasture by younger steers or cows. A mixture of alfalfa and grasses is widely used in pastures, while the cereal grains are often used for winter pasture.

Most South American cattle are bred for size, rather than compactness and fine quality as in the United States, Williams said.

Herefords are the leading breed in Uruguay, while most cattle in Brazil have Brahman blood. Four breeds of Brahmans are being used in that country.

The cattle in South America are extremely gentle, Williams said, because they are handled of-

ten and in a quiet manner. "They don't 'rodeo' their cattle like we do," he said, "and there are no ropes on the saddle. When they get ready to handle them they put them in the pen."

FARM NEWS

By The Hired Hand

This week, farmers all over Eastland County were busy taking advantage of the clear skies and warmth to harvest grains or get their fall crops.

D. G. Fambrough, who lives about five miles northeast of Cisco, was planning to move a combine into his fields Wednesday to harvest several acres of grain. He has 75 of his 180 acres in cultivation and plans to plant maize for his fall grain crop.

Tuesday was Fambrough's first day in the fields after a case of the mumps which kept him inside for about two weeks. Their cattle, hogs, chickens, and other interests around the farm kept Mrs. Fambrough and their son, Tim, mighty busy during Mr. Fambrough's illness.

Tim left early in the week to resume his duties with an oil exploration company near Hico. The family is anxiously looking forward to a visit by Mrs. Fambrough's mother, Mrs. M. A. Matthews of Colorado City, about the first of July.

Mr. and Mrs. Alvin Hyatt, who live about two miles down the road from the Fambroughs, are new in Eastland County, having moved here from Tyler several months ago.

They have one of the most beautiful gardens in the county. Beans, peas, okra, tomatoes, corn, squash, potatoes, onions, radishes, peppers, cucumbers, cantaloupes, and watermelons are all planted on the Hyatt farm. They also have a good crop of cane in the way.

Beside their cows and hogs, they have chickens of all sizes—baby chicks, fryers, and layers.

We found Mr. A. V. Clark busy harvesting about 70 acres of grain on his stock farm.

His wife seemed mighty busy herding some of their cattle into the lot near the house.

Most of the farm women in this area seem to know how to help their husbands in their farm and ranch duties.

In the article on the Childers ranch, we failed to mention that Mrs. Childers can take over and

FARMER OF THE WEEK... Childers Ranch Has One Of Section's Best Small Farms

On the thousand acres that make up the Childers ranch, located about five and a half miles northeast of Cisco, is one of the most successful little farms in Eastland County.

These 38 acres of farm land produce almost everything Mr. and Mrs. Childers need to eat—and more, too. When any farmer raises potatoes and onions as large as four and five inches in diameter, he deserves to make the "Farmer of the Week" column. Irrigation, fertilization, and planned cultivation are important factors in the success of this farm.

run their ranch when her husband happens to be away.

We also understand that Mr. Childers can take over the kitchen and cook some mighty good meals when his wife is away.

Aubrey Easter is working some very good looking land on the Eastland highway. At present his main crop is feed for his cattle.

Mrs. Easter told us that they have two new calves on the farm. They also have some pigs and chickens that help to keep them busy.

A mile and a half northeast of Long Branch at the W. L. Lewis ranch, there are 22 head of white face Herefords.

Mr. Lewis' annual crops include grain sorghums, vetch, and rye. This year he is also planning to plant 95 acres of peanuts.

In addition to his farm and ranch interests, he operates the Lewis & Miller Furniture Co. in Cisco.

While visiting east of town this week, we met a number of members of Corinth Baptist Church, located midway between Cisco and Eastland, who expressed regret concerning the resignation of their pastor, Rev. Howard Scott. Scott will preach his last sermon at the church Sunday.

He has accepted full-time duties as pastor of a rural church near Brownwood, where he is in school at Howard Payne College. In addition to the many varie-

ties of vegetables raised on the Childers farm, this couple raise and kill their own animal meat supply, which includes beef, pork, lamb, chicken, and turkey. A 16 foot deep freezer on the place helps them to have farm-fresh vegetables and meats the year around. They also make their own lard, and their 3 fine Jersey cows provide plenty of milk and butter for their daily needs.

Their 450 chickens provide plenty of eggs and fried chicken for both their immediate needs and their town neighbors. At present, there are also 50 turkeys on the poultry farm division of the Childers ranch.

There are also large herds of sheep and cattle on this progressive ranch. Last year, they had a 100 percent lamb crop, and this year they have already had a 100 percent lamb crop and are expecting a 100 percent calf crop. Although the Childers family are modest in telling how many cattle they have on their ranch, an observer has estimated that Bill Childers and his son, Victor, keep an average of about a hundred whiteface herefords on the thousand acres.

Childers and son raise all of their own hay and store it in the two big barns on the place. This fine hay and the five tanks of water on the ranch provide all that is needed for their livestock.

These tanks are reported to be excellent for fishing. Several months ago, one of the tanks was stocked with blue cat fish and the first one caught weighed five pounds.

The beautiful white home, in which the Childers live, together with its surroundings of large shade trees and shrubbery, would make an attractive and colorful picture to hang on the walls of town dwellings to make city folk long for life on the farm. This modern ranch home has all of the conveniences of town, including natural gas from a gas well on the place.

There is a possibility that some day the Childers ranch may become dotted with oil wells. A well is now being drilled on the ranch, and though there was not much sign of oil the first two thousand feet down, the Childers

family is still hoping that it will be a good well.

More than everything else, Mr. and Mrs. Bill Childers take pride in their three children. Helen, 22, is now Mrs. Cox of Vian, Oklahoma, and Dorothy, 27, is now Mrs. Chaney of Garden City. The two daughters attended Southern Methodist University. Their 22-year-old son, Victor, graduated from Texas Technological College last month with the degree, Bachelor of Science, majoring in agriculture.

Victor has his own bunk house on the ranch, 3 Palomino horses and one Arabian white mare. Upon graduation from college, his parents presented him with a new 1950 two tone blue sedan. According to his parents, Victor is getting mighty serious with an attractive girl at Rising Star.

Most people would never guess

that Mr. and Mrs. Bill Childers are grandparents. They have three grandchildren, Sharon, Elaine Cox of Vian, Okla., and Freddy and Sammy Chaney of Garden City.

land County for several years, Childers bought Greer's portion of the ranch. However, they still are very good friends, and the old gentleman makes his home with the Childers family.

A story on the Childers family would not be complete without mentioning their friend of many years, Mr. Samuel Greer of Cisco. Before coming to Cisco, they ranched with Mr. Greer at another ranch out west.

Both Mr. and Mrs. Childers were reared in Jones County, and they knew each other from their school days at the old Comper school house. They married young and together they have built a happy, Christian home for which they are grateful.

SOCIETY AND CLUBS AND NEWS OF INTEREST TO WOMEN

East Cisco W. M. U. Meets Monday P. M. For Mission Program

The members of East Cisco Baptist Women's Missionary Union met Monday afternoon at the educational building of the church for the regular meeting and Royal Service program. Mrs. Carlton Holder was in charge due to the absence of Mrs. H. H. Harrelson, president, who is out of the city. The meeting was called to order for prayer, led by Mrs. Marshall Ivie, following which Mrs. Don Rupe gave the devotion which was based on scriptures from chapter 21 of the Book of Genesis.

A short business session was held and at the close the meeting was turned to Mrs. B. F. Thomas who was leader of the program at which the topic "On This Rock" was discussed. Those assisting with program parts were: Mrs. M. C. Ivie, Mrs. R. C. Smith, Mrs.

Carlton Holder and Mrs. J. E. Shirley. The meeting was adjourned with prayer by Mrs. Joe O. Harris.

Members present were: Mmes. Claude Tucker, A. W. White, Joe O. Harris, R. C. Smith, Douglas N. Busby, B. F. Thomas, Don Rupe, Marshall Ivie, Carlton Holder, and J. E. Shirley.

Mrs. Paul Stephens was in charge of the Sunbeams at the same hour.

Merry Wives 42 Club Entertained In Home Of Mrs. A. J. Olson

The Merry Wives Club met in regular session Friday afternoon, June 9, at 3 o'clock with Mrs. A. J. Olson as hostess in her home at 601 West 9th. Arrangements of spring flowers, placed among the many unusual antiques, added to the attractions of the rooms.

After the usual number of games had been played a most delicious dessert course of lime sher-

bet and cake was served to Mrs. R. W. Daniels, Mrs. Sarah Winchell, Mrs. S. H. McCantles, Mrs. Philip Pettit, Mrs. John S. Stockard, visitors, and to the regular members, Mrs. C. H. Fee, Mrs. George D. Fee, Mrs. T. J. Dean, Mrs. W. W. Moore, Mrs. W. H. La Roque, Mrs. C. R. Baugh, and the hostess, Mrs. Olson.

Tr. Union Picnic Is Enjoyed Monday At Roy B. Farley's

The Young People's Department of the First Baptist Church's Training Union met Monday evening, June 12, at the home of Mr. and Mrs. Roy B. Farley, 900 West 6th St., for a picnic supper. The group enjoyed conversation while the meal was being spread on tables on the east lawn of the Farley home. The menu consisted of sandwiches, a variety of pickles, potato salad, potato chips, cookies and cold drinks.

The following members and their guests were present: Sonya Sims, Pat Tillery, Pearlina Farley, Wadell Rains, Pearla Farley, James E. Agnew, Earline Steel, Mary Philpott, Jack Kiser, Edwin Jackson, L. E. Sublett, Don Kent, Jim Ewell, Jack Leech, Carolyn Bell, Nada Wagley, Doug

Johnson, Darward Smith, Jane Houston, Rev. and Mrs. Charles W. Jones and Charles Bruce, Rev. and Mrs. Otis Strickland, Carlyle and Charles, and Mr. and Mrs. Farley.

The group dispersed early so that those who played softball and others wishing to attend the games could do so.

Mr. and Mrs. Eddie DuHammel and children of Abilene and Mr. and Mrs. George Fleming of Dallas were guests of Mr. and Mrs. A. B. Cooper over the weekend. Mrs. DuHammel and Mrs. Fleming are daughters of the Coopers.

Conway Duncan Tells How Hadacol Helps Tired, Nervous Men

whose trouble is caused by deficiencies of Vitamins B₁, B₆, Iron and Niacin!

Mr. Conway Duncan, Rt. 2, Box 426, of Blytheville, Arkansas, is a very thoughtful man. And due to his ability to sit down and think things out carefully, he is a much happier man today. This is Mr. Duncan's experience in his own words:

"I was working in my field early this spring and I got tired, nervous, so I sat down to rest. I began thinking of the past and my ailments. "I felt drowsy, sluggish, tired and was rather nervous most of the time. I didn't eat much of regular meals. My wife thought that she had lost her art in cooking. "I got to thinking of HADACOL, then using it. So I went to our country grocery store and bought myself a bottle. The third morning I ate 8 biscuits for breakfast. When I went for my second bottle, there were several of my friends buying HADACOL too. I bought 2 bottles for some friends and told them if it didn't help them, I wouldn't cost them anything. A week later I saw them and they paid me my money. "I would recommend HADACOL to anyone, regardless of age or ailment, who is suffering from such deficiencies."

Helps You Feel Wonderful!
Don't you think you ought to start thinking, too—especially if you've been suffering from neuritis aches and pains, indigestion, gas, heartburn, bloating, nervous weakened run-down condition because you have such deficiencies? Yes, if you are one of those people deficient in Vitamins B₁, B₆, Iron and Niacin and keep putting off relieving the cause of your trouble — take HADACOL daily to make sure your system gets more than its daily needs of these vital elements.

Let HADACOL start you on the road to feeling better within a few days' time. Know the joy of jumping out of bed morning after a wonderful night's sleep — full of the joy of being alive. Know the thrill of feeling physically fit, full of vim and vigor. No matter who you are — banker, lawyer, merchant, farmer, factory worker or retired — give this wonderful new HADACOL treatment a chance to help you feel like a million. Trial size bottle, only \$1.25. Large family or hospital size, \$3.50. *Photos by professional models. ©1950, The Lathrop Corporation

What was the **RIGHT** thing for this Driver to do?

Suppose you were driving the car in front. The driver behind wants to pass, and you see that he may run into a car coming from the opposite direction. If you are wise you will put out your hand and signal him not to pass. But, if he comes abreast of you too fast, keep to the right to provide clearance.

Drive RIGHT with Phillips 66

Phillips 66 Gasoline provides the fast, smooth response you want whenever you may be faced with a "ticklish" driving situation. Thanks to improved refining methods, this great motor fuel now gives smoother anti-knock performance, faster acceleration and greater power than it ever did before! It's right for safe, pleasurable driving.

You can get new, improved Phillips 66 Gasoline now, at your Phillips 66 Dealer's.

LISTEN TO the Rex Allen Show Every Friday Night Over C.B.S. at 9 P. M., C. S. T.

Phillips 66
