NATURE'S DEODORANT

A boon to millions who are handicapped by halitosis or B. O. is a newly discovered use of chlorophyll, ancient chemical of nature that makes grass green and gives trees their verdure. Hailing nature's deodorant in The Reader's Digest for August, Paul de Kruif says the new remedy is "safe and simple, is taken in the form of a pill by mouth, and costs only a few cents quent bathing, volunteered as hu-

a day." The green medicine, in concentrated form, has been available by prescription since March, and is now sold in drug stores with no prescription necessary.

The ability of chlorophyll to stop unpleasant odors was a chance discovery. Doctors experimenting with the substance as a healer of wounds found that it would sometimes close injuries that had resisted sulfas, penicillin and other medicines. The discovery was a by-product: the odors issuing from certain wounds were disap-

To put this finding to a controlled test, Dr. F. Walter Bowers and his associates at a U. S. Army In another form the green subhospital in wartime applied chlo rophyll ointment to odoriferous, wide-open wounds of certain men in a ward, leaving others without the chlorophyll dressings. Within 48 hours all odor had faded (), should get the advice of denfrom the chlorophyll-treated tists and doctors. "It is better, wounds. ONE GOOD TERM DESERVES ANOTHER VOTE FOR

ALLAN SHIVERS

Governor Of Texas

We urge your support of Allan Shivers for Governor in the July Democratic Primary because:

1. He is asking for his FIRST ELECTIVE TERM while serving the Unexpired Term of the late Beauford Jester. It is a Democratic rule that a public official who has given good service is entitled to at least a second term.

2. Allan Shivers has measured up to a big job in a fine way. He has earned the confidence of the voters as a capable administrator and a prudent manager of the State's affairs.

3. His leadership was demonstrated during the Special Session of the Legislature when he was able to put through his legislative program in record time by maintaining the respect and confidence of the members of that body.

4. While he was a member of the Texas Senate in 1935, Governor Shivers wrote the first Old Age Assistance Statute to go into the law books of Texas, and he has consistently supported the maximum payment to the aged within the means of the state.

We believe that Allan Shivers has demonstrated his right to an Elective Term as Governor of Texas, and we earnestly commend him to the voters of Cisco and the surrounding territory.

Given by order of the City Commission.

HAL LAVERY, Secretary.

ELECT L.R. PEARSON Representative 107th District

My name has been filed by petition with the County Chairmen of Eastland and Callahan Counties for a place on the official ballot in the approaching Democratic primary as a candidate for Representative of the 107th Legislative District. This was done without my knowledge or consent.

For this expression of confidence I am truly grateful. I have concluded to let my name remain on the ballot, and will appreciate any consideration my candidacy may be given. I have no easy political promises to make. They are usually of little or no value. I represented the 107th District in the 49th and 50th sessions and my record in the Legislature reflects my philosophy of State affairs.

The big problems, in my judgment, facing the 52nd Legislature will be water, soil and money, but the greatest of these is money. Runaway government spending, which has increased over 500% in the last 14 years, and threatens to increase even more, will be the No. 1 concern of the next Legislature. This money problem can be solved in only one of two ways - by eliminating useless and excessive appropriations or by levying new and additional taxes. I favor the former. I have yet to vote for a tax bill of any kind. I will strive to preserve this record.

The present level of State spending, according to the Comptroller, will create an annual deficit of \$76 million in the State General Fund. I will strive to balance the budget and prevent this deficit by rigid economy, instead of by new additional taxes. However, if it develops that taxes are "must" legislation and additional revenue is absolutely necessary to operate the State government efficiently, I will not sidestep the responsibility, however painful. If new taxes must come, I would favor placing the new levies on present sources which are now escaping taxes. However, I will not support a general sales tax or State income tax.

Also, redistricting, following the new census, is a constitutional mandate. If elected, I will support it.

On other issues coming before the 52nd Legislature, I will vote for what I consider the best interest of my State

Paid for by taxpayers who know L. R. Pearson's qualifications

Back in the Early Days -

this county was surveyed in most part by the railroads into uniform and regular blocks and tracts. Tracts not so surveyed are usually irregular in size and description and are far more difficult to abstract and more expensive. But whether your property be a ranch spreading across the hills or a cottage by the side of the road, we find it by a system of abstracting unexcelled in this area. And by getting the best you also have the cheapest.
