Hollander Reunion Held Sunday, August 20 At Lake Cisco Park

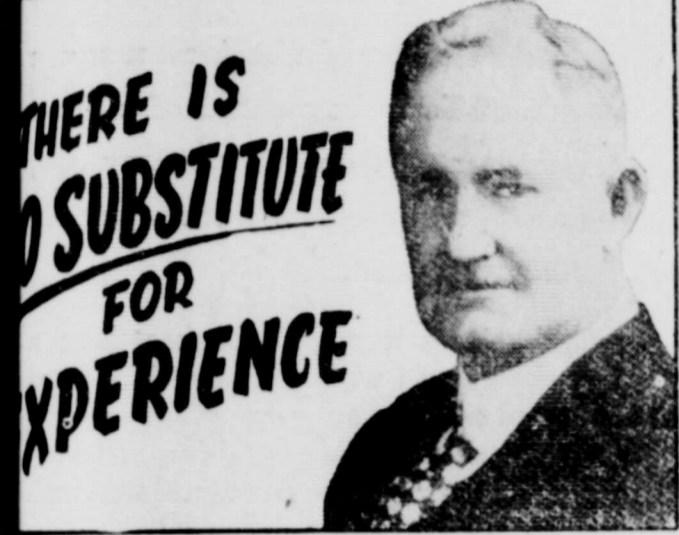

A family reunion at Lake Cisco Sunday, August 20, honored Mrs. T. C. Hollander, who passed her 80th birthday on January 1, 1909. The aged lady has 12 children, 53 grandchildren, 49 great-grandchildren and seven great-great-grandchildren. Sixty-four of her descendants were present Sunday at the reunion.
 Officers for the next reunion, to be held the second Sunday in July, 1951, were elected. Those chosen were: President, B. E. Tomasson, Arlington; corresponding secretary, Mrs. E. A. Hollander; secretary-treasurer, Mrs. R. A. Coats, Cisco.
 Those present included the honoree, Mrs. T. C. Hollander; children and grandchildren as follows: Mr. and Mrs. B. E. Tomasson, Connie, Eddie and Jerry of Arlington; Mr. and Mrs. E. A.

CASTLE HOME—Chicago machinist Ted Bettendorf believes the old saying about a man's home being his castle. When he ran across a large bed of rock while excavating a basement for his wooden shack at Fox River Grove, Ill., he decided to convert the shack to a real 20th Century Castle. Bettendorf, a 61-year-old bachelor, spent 19 years on his project, moulding cement blocks and setting each stone by hand. He was born in Vianden, Luxembourg.

Mrs. J. M. Flournoy Had Happy Surprise On Birthday Tuesday

Mrs. J. M. Flournoy, popular Group leader who has recently returned from a vacation trip, was a surprised honoree Tuesday afternoon. It happened that she was taking her afternoon rest and was reading when a group of ladies came to the front of her house singing "Happy Birthday to You."
 She immediately arose deciding that she didn't need a nap anyway; and welcomed the group up with a very happy smile pleased to know that they wanted to visit her on her natal day. After a period of conversation a show of pretty handkerchiefs was presented to her. Ice cream and cake was passed to the honoree and members after which games of forty-two were played as the afternoon entertaining feature.
 Those present were Mrs. J. M. Flournoy, the honoree, and Mesdames F. E. Shockley, J. R. De Armond, James Latimer, J. F. Benedict, James Haynie, G. W. Troxell, Willrue Logan, O. W. Kean, J. E. Elkins, W. R. Huestis, Edward Brown, A. L. Clark and P. L. Cagle.

FARM AND RANCH CHATTER
By LAYNE BEATY

People we talk with about it think the future looks good for ranching and farming.
 One ranchman north of Fort Worth said he had to go all the way to New Mexico to buy some beef cows for his surplus grass, and the best he could get them for was about \$275 a head.

Ruth Circle Meets For Mission Study At Church Monday

Ruth Circle of East Cisco Baptist church met Monday afternoon in the Educational building of the church for a Mission program on "Stewardship". Mrs. Carlton Holder, Mission program chairman, was in charge and called the meeting to order for prayer by Mrs. Joe O. Harris.
 The meeting was then turned to Mrs. V. H. Bosworth who presented a splendid lesson, using selected scriptures to emphasize the importance of her topic discussion on "Treasures to be Desired."
 In a short business session the name "Ruth" was chosen for the Circle number One. The meeting adjourned with prayer by Mrs. J. D. Hall.
 Members present were: Mesdames J. D. Hall, Carlton Holder, R. C. Smith, D. N. Busby, A. W. White, B. F. Thomas, R. O. Fenley, Joe O. Harris, V. H. Bosworth and J. E. Shirley.

Forced Air Central Gas Heating makes summertime out of Winter

Winter preys on your children's health. Its dangers lurk in drafts... on chilly floors... in unheated rooms. Now, with the many new types of forced air central gas heating systems, any home can be as healthful in winter as in summer.

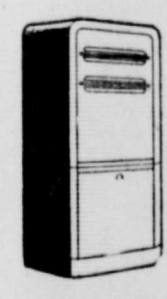

Through a system of ducts and registers, forced air central gas heating delivers fresh, warm air to every nook and cranny... and returns cold, stale air to the out-of-doors. There are no chilly floors or drafts which cause discomfort and may cause dangerous colds. No heat hangs at the ceiling or wastes itself when you are asleep or away. There's no overheating when "just a little heat" will do.

Forced air central gas heating gives your children the health protection at home that authorities insist they have at school.

You have only to talk to a heating contractor or a Lone Star Gas Company heating specialist to see how practical and how little it takes to put one of the new forced air central gas heating systems in your home. See him—won't

Some of the hog men we know are hanging onto their gilts.
 O. V. Wells, chief of the Bureau of Agriculture Economics thinks prospects for agriculture for the next twenty-five years are good.
 Population growth accounts for part of this viewpoint. Rising standards of living, and increasing farm efficiency are other reasons.
 Also, he says, farmers are learning how to work together in farm programs.
 But he wants to know whether this country can maintain maximum employment, or something close to it. He says he believes we can.
 Foreign markets may drop off because of paucity of dollars there, and increasing production in other countries, but their populations are growing, too.
 A devastating war could do a lot to change the picture all around, and it isn't possible to tell exactly how.
 But, war or no war, the people who are in a position to produce food for the war's survivors, are going to be pretty important folks.
 Among the heavy equipment we have seen moving west on rails lately were three mechanical cotton pickers mounted on a flat car one day last week.
 You can bet these weren't headed for Korea.
 We have heard that the cotton industry is moving west, and that's a good indication of it.
 Meanwhile, we hear of a banker who says next year he won't lend any money to a cotton farmer who won't control insects by early season poisoning and following it up.
 And he says he'll finance that, too.

More and more bankers in Texas are getting hep to modern agriculture methods for increased efficiency, leading to better buying power, and better security for loans.
 Maybe there is something after all to this business of cross breeding beef animals for better gains, and perhaps cross breeding our established dairy herds with others for resistance to parasites but that shouldn't be of too much concern to the purebred breeders.
 Someone has to keep those blood lines true in order that other breeders can make the desired crosses.
 The increased production of livestock in the southeast is the topic we have assigned Channing

Cope of Georgia (Author of "Front Porch Farmer") when he speaks at the big Livestock Marketing Meeting in Fort Worth on November 2.

da of Vernon, are expected to arrive for a weekend visit with Mrs. Griffiths' parents, Mr. and Mrs. H. S. Stubblefield.

Mrs. Stella Clark, 1026 Cornell Ave., Indianapolis, Indiana, who was suffering from deficiencies of Vitamins B, B₁₂, Iron, and Niacin, thinks a vigorous appetite, fine food and lots of good, sound sleep are the keys to health and happiness. All of these were made possible by the blessings of HADACOL when HADACOL overcame these deficiencies.

Here is Mrs. Clark's statement: "Before I started taking HADACOL I was troubled with nervous indigestion. My stomach was just tied in knots when I would sit down to eat. You can imagine how I enjoyed my food and how much good it did me. It affected my sleep, too—there was many a night I lay awake for hours and hours. I heard about HADACOL and have been taking it ever since. I have no more stomach distress. I enjoy my food and I sleep like a top every night of the week. I started my husband taking HADACOL and he, too, says that now he has never felt better in his life. I just can't thank HADACOL enough—and, of course, I recommend it to all my friends."

HADACOL works . . . in helping to build up the hemoglobin content of your blood (when iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs, even to the eyes, hair and nails. Countless thousands whose systems were deficient in Vitamins B, B₁₂, Iron, and Niacin are benefiting from HADACOL . . . even hundreds of doctors have recommended HADACOL to their patients.

Give HADACOL a Chance Yes, give HADACOL a chance to help you. Refuse substitutes. Don't let anyone tell you something else is "just as good." Insist on genuine HADACOL. You risk nothing because HADACOL is sold only on a strict money-back guarantee. You'll feel better with the first few bottles you take or your money back. Trial size only \$1.25. It Was an Error in Judgment
... when the rejected candidate was led to believe that he had his race in the bag because every voter he met told him so. And about as disillusioned is the person who is convinced that an abstract is a lot of extra expense. There's another error in judgment. He stands to lose more, perhaps, than the candidate who lost the election. A winner always insists on an abstract when he buys real estate, and you can't beat that for good judgment.

IT'S TIME FOR BROOKS
BECAUSE
Only by the election of a business man can the people of Texas be assured of a direct and vigorous attack on the runaway cost, useless waste, and needless extravagance in our State government.
Only a business man who has not been a part of the system which spawned this era of waste and extravagance can give the problem that searching inquiry and impartial analysis needed now. Pierce Brooks is that man.
