A PROJECT THAT might be of interest to Eastland County farmers is the castor bean hulling plant that the government soon will erect at Brownwood. This being done because the government wants Brown and nearby counties to plant at least 20,000 acres in castor beans this spring. Contracts will guarantee land owners 10c a pound for hulled castor beans. A meeting has been set for Feb. 26 to allocate acreage to six or seven counties in the area.

Our research department reports that castor beans are needed for the oil. Castor bean oil is a valuable lubricant. And the hull is used for feed and fertilizer.

THE TEXAS Legislature's restricting proposition appears to be pretty well worked out. Under the plans that will doubtless pass both houses, Eastland County's state senator will be Senator Wagoner of Stoneburg. This senator will be added to his district, which is composed of ten counties to the north and east.

Instead of one full and one fractional representative, this county will be represented in the house by a man who will have three counties. Eastland, Callahan and Rockefeller counties will be grouped for the one representative.

Junior Teams To Play In Tourney

Friday night and Saturday the Cisco Junior High School Middlets and the girls team will be playing in the Moran grade school tournament. The first game will be at 6 p. m. when Cisco meets Putnam.

In Friday's game the Middlets will be playing without the services of Herbie Locke who will be unable to attend because of the coronation at the high school. Cindy Gallagher and Janice Hawkins of the girls team are also in the coronation and will not play in the opening contest.

It will be the last tournament for the junior high team before the Cisco grade school tournament scheduled for March 1, 2, and 3 in the local gym. Eight boys and eight girls teams have accepted invitations to play in the local tourney and pairings will be announced early next week.

Trophies and individual awards have arrived and will be presented to the winners, runners-up players receiving personal recognition.

Wranglers Ready To Meet Ranger In Cage Contest

The Cisco Junior College Wranglers will be seeking revenge and to even the count with Ranger Junior College when they play the second cage game of the play-off series in the Ranger gym tonight. Ranger won the first game in Cisco Tuesday night by a 65-60 score.

The two teams are playing a three game series to determine the winner of this zone of the T. J. C. A. C. They wound up the regular season in a tie.

A large number of Cisco fans were expected to follow the Junior college Wranglers to Ranger for the crucial contest. If the Wranglers win it will force a third game which will probably be played on a neutral court. If they lose it will give them second place in the conference standing.

Starters for tonight's game will be Bill Gunn, Doc Rainey, Bobby John Huffmyer, Charles Hutchinson and Bobby Travis.

Don't Forget 'Operation Old Clothes' At 9 a. m. Saturday

Myrick Calls On Bureau Members To Oppose Bill

A. Z. Myrick, president of the Eastland County Farm Bureau, today called on members of the local organization to contact Representatives L. R. Pearson or T. M. Collie in Austin and register their views on action of the state legislature in referring the Graham Bill, H. B. 266, from the Committee on highways and roads to the affairs committee. Last week, Mr. Myrick said, Farm Bureau representatives and County Judges and Commissioners from all over Texas appeared in Austin before the committee on highways and roads in opposition to the Graham Bill, which would take thousands of dollars out of the counties, heretofore used for rural road building purposes. The bill was killed in Committee by a vote of 15 to 3, Myrick said. Unknown to the opponents of the bill, a member of the legislature appeared before the committee in opposition to H. B. 226 and attacked Mr. Graham's integrity and made caustic remarks against his character.

In retaliation for the attack by one member of the House against another, the House as a whole the following morning suspended all rules and reported Graham's Bill out of the highways and roads committee to the state affairs committee of which Mr. Graham is chairman. This means that another hearing will be necessary, Myrick said, unless the House re-commits the bill back to the highways and roads committee, which may be done by a simple majority vote.

The Graham Bill was considered on its merits and reported out of the highways and roads committee unfavorably, Myrick declared. Now in retaliation against one member of the House attacking another, the house takes action which could not in any way be considered as punishment to the guilty party, but would result only in penalizing all of the people in Texas who are interested in a rural road program.

The Bill as reported by the committee should not be altered because of personal remarks as between members of the legislature, Myrick charged, and is requesting that all members of the Eastland County Farm Bureau contact their representatives requesting that he use his vote and influence to have H. B. 226 referred back to the Committee on Highways and Roads.

More Machines To Be Added To Hike Production

The Boss Manufacturing Company will take immediate steps to increase the output of its Cisco plant by about 25 per cent, Manager Anton White announced Wednesday. Mr. White made his announcement at the Lions Club luncheon, where he was the program speaker.

In stepping up production to meet a growing demand for Boss Walloper work gloves, it will be necessary for the company to install an additional 12 to 24 sewing machines and employ 12 to 20 more workers, Mr. White said. Twelve new machines will be installed in the immediate future, with the other to follow later.

The company now is running at full capacity to turn out 8,000 dozen pairs of canvass work gloves per week. Under the stepped up program, Mr. White said the company expects to manufacture 10,000 dozen pairs per week.

The new program was authorized by the home office following a recent inspection tour here by several Boss executives.

In discussing the company in his Lions Club talk, Mr. White pointed out that the Cisco plant has been in operation for nearly eight years. The plant now has 120 employees with a weekly payroll in excess of \$4,500. It has been operating 90 sewing machines.

The boss company is the oldest and largest manufacturer of work gloves, Mr. White said. He traced the growth of the firm from its beginning 62 years ago to the present time. Some 20 Boss plants are now scattered over the nation, making about 100 different styles of work gloves.

The Cisco plant operates a cutting room for the machines here and at the Breckenridge sewing room. More than 1,000,000 yards or 500 miles of flannel cloth passes through the cutting room each year, he said. In making 8,000 dozen pairs of gloves weekly, the machines here handle some 1-152,000 pieces of cloth each week.

Company employees receive paid vacations and six paid holidays each year. Many of the workers have been with the company five years or longer.

The Boss plant came to Cisco as a war plant in 1944, Mr. White said. The company is so well pleased with its operations here that it now is their largest flannel glove plant and a "very permanent part of the company."

"Our success in Cisco has been due in a very large measure to community backing and cooperation and to the splendid type of employees we have working for us," Mr. White said.

The company occupies a large brick building on the Breckenridge Highway which was formerly a railroad roundhouse structure. The fact that such a building was available here in 1944 played an important part in the company's decision to locate in Cisco, Mr. White added.

Lion Norman Huston was in charge of the program. Mr. White gave each member of the club a pair of canvass work gloves.

Oil Company Head Is Dead At Moran Webb Kerwood, president of the St. Mary's Oil and Gas Company, died Wednesday of a heart ailment at Moran, according to information here. He had been in Moran for several days on company business.

Wichita Falls Girl Becomes Bride

Cisco Man In Saturday Ceremony

The marriage of Miss Billie Walbrick and James Robert North was solemnized in a light ceremony in the West Baptist Church of Wichita on Saturday, February 10. L. Swanner, pastor of the church, read the double ring ceremony. Miss Walbrick is the daughter of Mr. and Mrs. W. C. Walbrick of Wichita Falls and the bridegroom is the son of Mr. and Mrs. Major Farnsworth, Sr., of Cisco.

The bride, given in marriage by her father, wore a traditional white bridal satin wedding gown with a sweetheart neckline, fitted elongated bodice and flowing skirt ending in a train. Her full length veil of lace was caught to a tiara of carnations. She carried a white Bible topped with an orchid surrounded by lilies-of-the-valley.

The program of nuptial music was provided by Miss Jessie Leverett, pianist, who accompanied Avery Timmons, of Fort Worth, who sang, "Because," and "I Love You, Truly." Miss Leverett played the traditional Bridal Chorus.

We Like to Talk About Abstracts -

because making abstracts has been our business for many years. And it is an interesting subject. Every day people come to us with their title problems. Some cases are tragic. Take the example of the couple who have spent their all for a home to find out later they have no title. Most title problems are simple and the abstract helps to make them simple. So before buying real estate of any kind have the title examined.
