THE CITY GOLF tournament lidn't get any new customers Thursday afternoon because of the high wind. Some 15 or 20 players had planned to play their qualifying rounds for the annual Cisco Country Club tournament, but the wind discouraged them. Some 35 players have posted qualifying scores.

Sunday is the last day to qualify. The various flights will be organized at a 6 p. m. Monday covered dish supper at club. All members and tournament players are invited to bring a covered dish to the Monday event.

The regular square dance class will meet at 8 p. m. Monday and those who wish may join the class or watch.

PROFESSOR P. O. Hatley of the Scranton School tells us that the good people out his way have decided that they'll throy their luxe chicken dinner for Cisco business men on April 20. So let's all mark our calendars and get set to buy a ticket and go see our good neighbors on that night.

GOOD NEIGHBORS will be your title if you go out to the tock show grounds for tonight's horse show arena program and all go out and admire the pretty ivestock and the top horses of his whole area.

WE SPENT AN hour or so at the show grounds late Thursday The club boys were there grooming their stock. Many of them had bed rolls and planned to spend the night to keep watch over their stock. This is very serious business, indeed, with the youngsters. And we should all applaud their efforts.

ONE OF THE prettiest sights you'll see in all the show are the some 25 registered Jersey heifers that county business and civic leaders gave to the boys. They all look like twins. Many of them have their first calves, and the Texas cotton which was up to a calves are there, too. From The Seller's Point Of View -

... he may earnestly believe that just any kind of an abstract will do, but it makes a lot of difference to the buyer as to the kind of an abstract he gets. There is as much difference in the quality of title information as there is in people and personalities. Most attorneys try to protect their clients against the hazards of irresponsible and sub-standard abstracts, and they should. Waiting for the best, where waiting is required, will pay big dividends in the long run.
