

The Gay Philosopher

By J. W. S.

COMES A POST card which reads as follows: We notice in your Wednesday's paper where Tuesday's election gave G. C. Rosenthal 391 votes and J. W. Slaughter 351 votes. This totals 742 votes. And you report a total of 776 votes cast. There is 34 votes missing if you add the votes given each of the candidates. Who was the third candidate? The card was signed "A Voter." We checked into the situation and wish to report as follows: Of the 776 votes cast, six mutilated ballots were thrown out. Two voters left all names open — scratched none — so the votes didn't count. Two voters scratched all names on the ballots and wrote in one name. The remainder of the 34 voters whose ballots didn't count, didn't care for either candidate and scratched both names or liked both candidates and didn't scratch either name. Obviously, if both names were scratched or if neither name was scratched, the ballots couldn't be counted.

THERE WILL BE another election in town Saturday. The annual school board election takes place at the city fire station. Since there are only two candidates and two vacancies, we doubt if there will be more than 0 votes cast.

Let's all make an effort to vote.

THE LUTHERAN Church here will lose Pastor Harold G. Lohrman soon. He has been ordered to report for active duty with the army chaplain's corps late this month. His church has asked the powers to give him a month's delay in reporting for duty in order that he might finish the school year at the Lutheran school. We are to see him leave as he is a very good citizen.

MR. BEN F. SMITH, the express man, appears to be getting ready for spring and the fishing season. He's working over a boat out beside his house.

THIS IS TO report that Mr. Milton Underwood knows his business when it comes to scouting officers. He didn't steer us wrong, or Mr. Ray Clark eliminated us from the city golf tournament yesterday. We could use the wind as an alibi, but we'll just say that Mr. Clark is the best flyer. The only consolation we have is that we were eliminated in the first round and we can only play in the consolation.

Ray, who used to be one of the top tennis players, will play the winner of the Bob Elliott-Buddy Deen match. They played half of it yesterday, and today was one down. We would like to nominate Bob as one of the longest drivers we've seen at the Cisco course.

MR. RUSSELL JOHNSON, son of Mr. and Mrs. Edgar Johnson of Cisco, is stationed with the army at Fort Bliss, near El Paso. And he has just sent us word that The Press is the best paper in the world and he realizes that he is covering a lot of territory.

"I read every word of it, including the advertisements," he says. "The Press is even better than a letter from home, because he letters do not carry all the things the paper does." He says Cisco is the best place in the world and that he needs no pictures of the town because he can see every nook and corner of the city in his dreams. He is in a replacement outfit and will probably be going overseas as soon as his training is over.

And, of course, The Press will allow him — like it does many other Ciscoans in the armed services.

Bible Baptist Churchearing Completion

Members of the Bible Baptist Church were at work this week in their meeting house at the corner of 17th and Avenue E. The white stucco building will have a concrete floor and will be ready for use soon.

At present, the congregation is meeting in the American Legion downtown.

Rev. L. J. Wilson, pastor, will speak at all services Sunday.

Red Cross Drive Is Completed In Rural Sections

The women of the Eastland County Home Demonstration Clubs have completed work in the rural areas of the county in campaigning for the 1951 fund raising drive for the American Red Cross and have turned up with the total of \$610.94 as of Monday. This was more than the rural areas have ever turned in as their contribution in previous years.

Last year was the first time any of the clubs ever solicited for the Red Cross, and in the county three new clubs have been organized within the last few months and they worked for the first time in the communities of Colony, Pleasant Hill, and Carbon.

Mrs. M. W. Greiger has acted as chairman for the rural areas and she and her workers have done a particularly good job Mrs. John Love, 1951 fund raising chairman said this week.

Workers in the rural areas of the county include: Pioneer, Mrs. H. C. Fridge, Mrs. Will Foster, Mrs. A. J. Freeman, Mrs. B. B. Rody; Sabanno, Mrs. J. L. King, Mrs. A. H. Gage; Nimrod, Mrs. Ed Townsend; Salem, Miss Allene Fonville, Mrs. D. Rodgers, Mrs. Electra Haddock, Mrs. Bill Tucker, Cheaney and Staff, Mrs. A. H. Dean, Mrs. B. B. Freeman, Mrs. Thebert Jones, Mrs. F. E. Ferrell; Olden, Mrs. J. F. Moseley; Colony, Mrs. L. B. Gordon; Flatwood, Mrs. J. S. Turner, Mrs. Ola Wilson; Desdemona (Howard Club), Mrs. J. E. Heeter, Mrs. Hattie Tate, Mrs. Doyl Johnson, Mrs. Tom Stacy.

Lake Cisco, Mrs. Nellie Housh; Crocker, Miss Vera Masbeth; Word (which includes the Word, Reich, Lutheran, and Shady Grove communities), Mrs. Bill Bacon, Mrs. Ernest Schaefer, Mrs. Rudolph Schaefer, Mrs. Theodore Reich, Miss Willie Word; Morton Valley, Mrs. Raymond Beck, Mrs. C. T. Brockman, Mrs. D. D. Franklin, Mrs. John Nix; Okra, Mrs. Jim Ray Cox, Mrs. Vernon Walker, Mrs. Paul Cawley, Mrs. Carl Burns, Mrs. Robert Burns, Mrs. Douglas Burns; Scranton, Mrs. J. L. Gattis; Carbon, Mrs. C. W. Stafford, Mrs. Ray Wood, Mrs. Wade White; New Hope, Mrs. Joe Bob Browning; Pleasant Hill, Mrs. Marshall Berry.

Some of these workers report that they have driven as far as fifteen miles to solicit for the Red Cross this year besides working their immediate neighborhoods.

CLARK AIR BASE, P. I. — Mrs. Gladys Blackburn of Cisco, wife of Robert M. Blackburn, is among those who completed American Red Cross first aid and water safety courses, given to Far East Occupation military and civilian personnel.

Mrs. Blackburn successfully completed the first aid instructor course, according to reports from Red Cross officials.

School District Voters Will Elect Two Trustees Saturday

Light Vote Seen For Annual Poll

Voters of the Cisco Consolidated School District will go to the polls Saturday from 8 a. m. to 7 p. m. to select two trustees to serve three-year terms. A light vote has been forecast due to the fact that there are only two candidates for the two vacancies.

The two candidates are Ralph Glenn, local furniture dealer, and O. L. (Bill) Lee, manager of the Cisco Steam Laundry. Their names were filed for the places on the school board now held by Dr. Paul Woods and J. L. Thornton, who did not seek re-election.

Voting will take place at the fire station with E. G. Damron of Cisco, Henry Reed of Long Branch and Miss Mina Robinson of Cisco as the presiding judges.

All residents of the Cisco Consolidated School District who hold poll tax receipts or exemptions are eligible to vote in the election.

Hold-over members of the school board are G. R. Nance, N. C. Huston, Travis Farmer, Jess Hagan and Wesley Smith.

EASTLAND COUNTY NEAR QUOTA IN ANNUAL RED CROSS ROLL CALL

Eastland County was very close to making its quota of \$6000 for the 1951 fund raising campaign for the American Red Cross this week when an accounting was made. Mrs. John Love, campaign chairman, announced, and every indication showed that the quota would be reached when a few outstanding reports came into the county office.

Earl Woody, county treasurer reported \$4454.69 in the bank Tuesday, and reports coming in showed a further total of \$5893.12. A few workers have not yet turned in their reports.

Cisco had gone over its quota

last week with a total of \$1809.63 turned in and accounted for. Eastland went over its quota with a report of \$1568.94 and perhaps a little more to come. Ranger reported \$919.75 on Tuesday with expectations of some more to come. Rising Star sent in a check for \$507.90. Gorman told the office by phone to record \$500 for them.

In the rural areas reports were almost in and finished. Desdemona (Howard Club) reported \$114; North Star, \$16.50; Carbon, \$27.10; Cheaney and Staff, \$76.55; Colony \$10.00; Flatwood, \$26.55; Lake Cisco, \$16.50; Morton Valley, \$41.50; Nimrod, \$21.10; Reich, \$9.85; Sabanno, \$5.45; Salem and Alameda, \$22.50; Olden, \$25.87; Crocker, \$11.00; Pleasant Hill, \$9.75; New Hope, \$9.00.

A final check will be next week when all reports are turned into the county office.

LIKE THE WEATHER

The current discussion over government economy is reminiscent of Mark Twain's famous remark about the weather. Everybody seems to talk about it, but nobody does anything about it.

If this anomaly puzzles you, it would be a great idea to read a piece called "Economy Inertia," by Alan Otten, which appeared in a recent issue of the Wall Street Journal.

Mr. Otten cited the records of the shipbuilding states want appropriations for maritime activities. Westerners want Federal aid for their mines and new Federal reclamation and power projects. Practically every congressman works on the assumption that the money is pouring out, and his district might as well get as much as it can.

Elsewhere in his revealing article, Mr. Otten said, "This fact emerges clearly as the Federal budget keeps pushing higher: There will be no real economy, whatever the form of the bills before Congress, so long as the legislators themselves preach economy but refuse to practice it."

In other words, the legislative attitude, with a few rare and honorable exceptions, is "plenty of economy for the other fellow and the other district — but none for me and none for my district." To make matters worse, we seem to have a national administration which is determined to keep domestic spending at an ever-increasing level and to pile the defense spending on top of it.

And so the dollar gets cheaper, the savings of the people are reduced to a fraction of former levels, and inflation runs like a race horse. What is the cure? Primarily, it lies in a public understanding of how unbridled spending can destroy a free nation as surely as a war — coupled with the strongest kind of public demand for economy no matter whom it hurts.

That means that every avoidable expense — whether it be for a great tax-exempt government power dam or some little pork barrel project — be ruthlessly cut from the new and future budgets.

Help Garden Seedlings to Break Through the Soil

It's a Big Job For a Young Sprout to Force Its Way Up Through the Soil, as These Bean Seedlings Prove.

Seeds sown in the open garden encounter many dangers. They or their seedling plants may be attacked by insects and diseases, drowned by floods, eaten by birds, injured by animals, or buried alive by a crust which forms on the soil through which they cannot penetrate.

By dusting the seed with a disinfectant, the moulds and fungi which cause disease may be prevented; and this is especially advisable in sowing early when the ground is cold. If there is any suspicion that the soil may crust above the seeds, it will be wise to use a special soil to cover them.

If your garden contains clay, a hard rain may compact it sufficiently to imprison the seed. The tiny sprout often faces an impossible task in attempting to break its way to the sunshine. The illustration shows two bean seedlings, one of the varieties most likely to suffer from crusty soil. The bean seed swells with moisture, and a sprout emerges which pushes the seed itself—twice as large as when planted—through the soil surface. This takes enormous power, and it is no wonder that a compacted or crusty soil may prevent it.

If you have a compost pile, there is no better way that you can use the humus from it than in preparing a special soil with which to cover seed. This should be mixed with sand, half and half. In addition to

Cover Seed Only With Porous Soil; It's the Best Way to Use Humus From the Compost Pile.

making sure that the seed sprouts will be able to emerge, this loose soil will hold moisture and keep the soil beneath it from drying out. It is therefore especially desirable in hot weather.

Most stores dealing in garden supplies carry modern seed disinfectants which can be used in either liquid or powder form. There is no danger to the seed in using these materials provided the simple directions furnished with them are followed, precisely. Never use any disinfectant in greater strength than recommended. It is remarkable what a small amount will do.

TAKING IT ON THE LAMB—Out on his first sightseeing tour is this one-week-old lamb in Bedford, England. This family is part of the sheep herd on a local farm, but the baby lamb is sticking mighty close to his woolly mama for he knows it's the safest place in the world.

The ADVENTURER

Human life is an endless chain of adventures, from the first timid steps of early infancy to the feeble shuffle of tottering old age. Human progress has followed the trail of the adventurer as man has explored new frontiers and pushed on in his conquest of the world.

Adventures in the realm of mind and spirit are as fascinating and fully as important as those on land and sea. They open up new fields of thought and new realms of spiritual experience. Thus man's inner life expands and is developed along with his body.

In all his adventures, man should have God as his guide and counsellor. Innumerable dangers lurk along the paths of life and pitfalls are on every hand. God is a light and shield to those who trust Him. He gives strength to the weary and faith to the discouraged.

Like the little boy in the picture, we walk in dangerous places. Let us go forth in the strength and courage of God.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For the children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

GOBS IN THE ALPS—Sailors from units of the Mediterranean naval forces, whose ships have put into ports like Cannes and Marseilles in southern France, take advantage of the proximity of the Alps for a skiing holiday near Auron. Posing here with skis instead of swabs, the seamen found it a most welcome change.

FOR EXAMPLE—Not all spring training is done on baseball diamonds, as John Lehman clearly demonstrates on a sand dune at Nags Head, N.C. As he does a split in mid-air, his wife, Charlotte, pays close attention. They're both dancers, training for a local folk drama.

SHELL REIGN—Pretty Barbara Allen, Queen of the 1951 Festival of States, introduced this lace swim suit in black over pink at St. Petersburg, Fla. It adds a touch of glamour to a gal who is neither tall nor petite.

... he may earnestly believe that just any kind of an abstract will do, but it makes a lot of difference to the buyer as to the kind of an abstract he gets. There is as much difference in the quality of title information as there is in people and personalities. Most attorneys try to protect their clients against the hazards of irresponsible and sub-standard abstracts, and they should. Waiting for the best, where waiting is required, will pay big dividends in the long run.
