Lake Custodian Ray Judia reported that less than two inches of water came into Lake Cisco and Lake Birnie due to the rain. At Ranger in eastern Eastland County an 80-mile wind struck and toppled an oil derrick in the

business district. The derrick had stood in the street since 1919, and plans were begun to re-erect it. Several business firms there reported storm and water damages. Eastland reported nearly two

inches of rain and that city's lake, which had been dangerously low, benefitted materially.

Although the rain was too late to help crops, it will be of considerable benefit to land owners. It will reduce grass fire hazards and benefit range land. Fall plowing and grain planting will be possible as a result of the rain. Stock tanks were in good shape, particularly south and southwest of Cisco.

Temperatures tumbled to 53 degrees Monday night. Monday's high was 65 degrees. The forecast called for partly cludy with warmer temperatures Wednesday.

## Social Security Man To Be Here

E. Glen McNatt, field repreentative of the Abilene office of the Social Security Administration, will be at the Chamber of Commerce in Cisco at 2 p. m. on Thursday, October 25. Perons wishing assistance with retirement claims or death claims under the Social Security Act, or needing information about their social security accounts, should call at that time for necssary help and information.

Students who gave up their summer jobs to return to school should put their social security account number cards in a safe place until they are again needed. The card and number used this year, for perhaps the first time, will be the same one used for the balance oof the individual's working life," Mr. McNatt said.

"Next summer, or, during the Christmas holidays, the student asking for a job will again be requested by any possible employer to show his social security number. Many employers will not hire unless the number accompanies the work application," Mr. McNatt continued.

"A lost or misplaced account number card may mean delay n going to work and could mean the loss of a job opportunity. Our office can replace lost cards, but it takes time. The account number card should be safeguarded and shown too each new employer on the day the employee starts work. Correct benefit payments at old-age or visiting officials talked on sales- at death depend entirely on correct reporting of the name, account number and wages by every employer," Mr. McNatt
