

THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937. Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879. J. W. SITTON and TED READ Publishers Published Daily except Saturday and Monday at Cisco, Eastland County, Texas, by Free Press Publishing Corporation, incorporated under the laws of Texas. Editorial and publication offices at 304-306 D. Avenue, Cisco, Texas.

WHAT IS THE LIMIT

This year, the American people will feel the full weight of the tax bill passed during the last session of Congress. The new and higher levies applied to individual incomes only for the last two months of 1951. In 1952, of course, they will be in effect for the entire twelve months. It is probable that the President will ask that taxes, both individual and corporate, be increased once more—though it is highly unlikely that the present Congress will go along with that, save in the event of a major war.

The burden of taxation has increased at a very swift rate in this country. According to a new booklet on the tax problem issued by the Chamber of Commerce of the United States, the cost of government required only 7 per cent of the national income in 1890. When World War I broke out, the figure was still about the same. By 1940, it had jumped to 22 per cent. And now government is taking something like one-third of the income of the people.

As the Chamber's booklet says, "For a long time the 'ability to pay' theory has dominated tax discussions. This theory has merit, but unfortunately people have been led to believe that all government expenditures can be paid for by taxes on the 'rich'..." The popular case for welfare state expenditures is that they will redistribute income from rich to poor. This would indeed be a simple solution to the world's social and economic ills, if only it were true. But even if steeply progressive taxes had no undesirable economic effects, this would be impossible. There simply are not enough rich people!

It is clear, whether we like it or not, that any additional tax increases must fall primarily upon people of very modest means—for the reason that they have most of the money. According to Secretary Snyder, almost 75 per cent of all personal income available for additional taxation is actually in the lowest income bracket—under \$2,000. By contrast in the over-\$50,000 bracket, the income available for additional taxation amounts to less than one-third of one per cent of the total income! Fast as individual income tax rates have risen, corporation rates have risen even faster. The corporation rate was held to

SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

Miss Eudora Hawkins Talks At Club Meet

The Child Study Club met Friday, January 4, at the Club House for their monthly meeting. The meeting was called to order by the president, Mrs. Betty Odum. Routine business was transacted. Mrs. Zona Allen introduced Miss Eudora Hawkins of the West Texas Utilities Company in Abilene, who gave an interesting talk on Federated Clubs and showed the film of the State Federated Club House at Austin.

president and turned to the hostess, Mrs. Jeannie Taylor. Refreshments were served to Mrs. Alice Cameron, Mrs. Lucy Collier, Mrs. Mable Fletcher, Mrs. Betty Odum, Mrs. Evelyn McGuire, Mrs. Zona Allen, Mrs. Snookie Tipton, Mrs. Nell McAnally, Mrs. Ruth Young, and Mrs. Margaret McCanlies.

Ruth Circle Meets For Weekly Study

The Ruth Circle of the East Cisco Baptist Church met Monday afternoon in the home of Mrs. R. C. Smith for Bible Study. The meeting was opened with prayer by Mrs. J. E. Shirley. It was voted to use the Bible study book for the Bible studies for the next year. Mrs. H. H. Harrelson directed the Bible study and closed the meeting with prayer.

Those present were Mrs. H. H. Harrelson, Mrs. J. E. Shirley, Mrs. J. O. Warren and Mrs. R. C. Smith. Guests in the home of Mr. and Mrs. C. A. Morris over the holidays were their children, Mr. and Mrs. A. Z. Morris and children of Muleshoe, Mr. and Mrs. E. G. Morris and children of Shallowater, Mr. and Mrs. C. E. Morris and children of Shallowater, Mr. and Mrs. W. E. Morris and children of Cisco, Mr. and Mrs. J. C. Jarney of Dublin, and a niece and family. Mr. and Mrs. James Shafer of Fort Worth.

Mrs. Margaret Zander is visiting relatives and friends in Cisco over the weekend.

Mr. and Mrs. H. N. Lyle left Saturday for Sweetwater to visit their daughter and family after a stay of several days here.

20th Century Club Has Luncheon Meet

The annual informal luncheon of the Twentieth Century Club was held Friday, January 4, in the home of Mrs. F. D. Wright, 606 Ave. L.

The table appointments included arrangements of yellow and white chrysanthemums which carried out the club colors.

Each member answered roll call by telling her "New Year's resolution." The general theme of the resolutions was never to put off until tomorrow what can be done today.

After a short business meeting, Mrs. Pettit gave a talk on parliamentary law. Mrs. Pettit pointed out some of the common ailments of literary clubs. It can be said that many clubs are suffering from malnutrition due to a tired and worn out spirit — a down at the heel attitude. She gave helpful suggestions for correcting the malnutrition of clubs.

A discussion of the background and meaning of the club collect was given by Mrs. Pettit. The club collect was written by Mary Stewart as a prayer. This collect is often called the Woman's Creed.

The president, Mrs. H. N. Lyle, declared the meeting adjourned.

Woodman Circle Meets For Business Session

The Cisco Grove No. 356 Woodmen Circle met at the Woodmen Hall for a regular meeting Friday, January 4. Routine business was transacted. The social for the month was scheduled for January 18 in the home of Mrs. W. C. Clements.

Those present were: Mrs. D. R. Harper, Mrs. Leah Bates, Mrs. J. P. McCanlies, Mrs. W. C. Clements, Mrs. A. B. Cooper, Mrs. Effie Mayhew and Mrs. G. L. Bailey.

Guests in the homes of W. Z. Latch and R. V. Rendall during the week were Mr. and Mrs. Paul Latch and children, Paula, Barbara, and Charles of Sundown, Mr. and Mrs. E. C. Lloyd of Waco, Mr. and Mrs. Albert Gregory and children, Janice, Billy, and Frances of Brownville, Robert Rendall and Pat Moore of Wichita Falls, and Misses Pauline and Frances Griffin of Georgia.

Mrs. Ed Green of Kilgore has returned home after spending the holidays visiting her mother, Mrs. S. C. Wright, here.

Mr. and Mrs. Troy Rogers and daughter, Uvah, of Austin visited in the home of Mr. and Mrs. D. R. Harper during the past week.

Game Preserves On Increase For State's Hunters

AUSTIN, Jan. 5.—The growing number of shooting preserves in Texas reflects the increased competition for places to hunt, according to the Director of Wildlife Restoration for the Texas Game and Fish Commission.

He said for the fiscal year ending August 31, 1951, 4,212 shooting preserve licenses were issued in Texas. In 1935, there were 1,335 and in 1945, a total of 1,958.

The Director explained that the booming business has stimulated issuance of hunting leases, some by the season and some by the day, with the end not in sight.

"Shooting preserve areas," he said, "are most numerous in the Edwards Plateau where deer and turkey hold the stage. They are also very common on waterfowl ranges along the coast and even extend into the whitening country of Cameron and Hidalgo counties.

"Some now exist in portions of East Texas, as well."

The Director concluded that "whatever our other reactions may be, we can agree that in the space of 25 years, the pattern has become firmly established in Texas."

The original law covering these permits, passed back in 1925, provides that anyone acting as owner, manager or lessor of a shooting club or resort must secure a shooting preserve license costing \$5, from the Game and Fish Commission before making any charge for hunting privileges.

HEALTH TALKS

Prepared by the Texas Medical Association

Birthmark is known medically as nevus, a patch of skin marked either by pigmentation (coloring) or by tiny blood vessels.

Blackhead is an enlarged stopped oil gland, commonly on the face, chest and back during adolescence. The medical word for blackhead is comedo, which means glutton. This could be interpreted as a stuffed gland rather than reflecting upon the eating habits of the person with blackheads. These tiny glands get filled up with oil and dead cells and the opening forms a dark crust which is seen as a blackhead.

Bladder is an elastic pouch which serves as a reservoir for urine. It is located immediately behind the heavy pubic bone in the middle of the lower part of the trunk. The ureters, thin pipes from each kidney, feed into two corners of the bladder, and the urethra forms the third angle of a triangle by opening out of the bladder to carry the urine from the body.

The gallbladder is a pear-shaped

ped pouch under the liver which serves as a reservoir for bile.

Bleb is a skin blister or bubble which may be filled with yellowish serum or with blood. When it gets big, it is known as a bulla. Blepharitis is an inflammation of the eyelids, not to be confused with conjunctivitis (pinkeye), an inflammation of the inside part of the eyelids, the wet part that rubs against the eyeball. Blepharitis is a scalding of the top-side of the eyelids due to faulty vision, poor reading habits or a general health problem.

Blindness is the loss or absence of vision resulting in the inability to see. It may be caused by gonorrheal infection, injuries to the bony cavity that holds the eye (orbit), inflammation of all the tissues of the eyeball (panophthalmitis), injury from one eye creating a sympathetic blindness in the other, inflammation of the iris, hardening of the eye globe (glaucoma), changing of the lens from transparent to opaque (cataract), weakening of the optic nerve, inflammation of the retina, inflammation of the nerves behind the eyeball (retrobulbar neuritis), kidney trouble (uremia), methyl alcohol or quinine poisoning, brain tumor, malaria, hemorrhage, diabetes or hysteria.

Color blindness is the loss of ability to distinguish some or all colors, the most common colors being green and red, which look alike (grey) to the color blind person. Color blindness is inherited. A color blind father passes the lack of red-green distinction on to his daughter; the daughter isn't color blind but half of her sons quite likely will be. That same color blind father does not have color blind sons, unless his wife happens to be the daughter of a color blind man, too. All of which sounds like that song, "I'm my own grandpa."

Color vision tests are made by using a series of plates upon which are dots of various sizes and colors and combinations.

Blind spot is the place on the very back of the eye globe where the optic nerve enters the eye, the spot which is not affected by light.

Blinking is the involuntary opening and closing of the eye-
