The Gay Philosopher

By J. W. S.

DROPPED OUT TO the Pearl
festivity oilwell prospect last
night. The well is being drilled
by the Cannon Drilling Company
or J. E. Connally et al. The loca-
tion is about a mile southwest
of town. They were due to hit
the pay zone level last night and
went out with Mr. W. B.
Wright, the attorney, to have a
look. Among other things, we
learned that it's hard to get any
information at the drilling rig.
The place to get your dope is
from the head man, and he's sel-
dom at the rig.

It was interesting to watch the
drilling crew at work. They
were bringing the string of drill
pipe out of the hole for some rea-
son or other. Three men were on
the floor of the derrick and one
high in the tower. They work
with a precision you seldom see
anywhere. The men never say a
word to each other and they're
busy constantly.

Teamwork is the word for it.
and it's a sight to watch.

We learned this morning that
they stuck some sand that looked
like oil sand, but it will be late
today before they're in position
to run a drill stem test. This test
will tell the story.

WITH OIL FLOWING in the
south part of town on both sides
of Avenue D and the Myrick
well flowing and prospects of oil
to the McMurray, we inquired of
Mr. Charlie Roberts as to what
he thought of the situation for a
well in the garden at our house
on Avenue N at 14th. Charlie
thinks that we'll get more out of
the ground there by planting a
good garden.

YOU'LL BE GLAD to know
that Mr. Carol Tatom, the assist-
ant football coach, will be with
us at least until school is out. He
went over to see his draft board
the other day and passed with
flying colors. But School
officials went over and suggested
that they ought to consider
how hard it would be to get a
science teacher this time of year.
The board considered it and hand-
ed Mr. Tatom a deferment until
the end of the school year.

SINCE OUR OFFICE is kind
of across the street from the
Union Station, we keep up with
the train and railroad business
pretty well. Yesterday, we noted
four or five cars gathered
near the crossing just before
rain time and we checked into
it. It was Mrs. T. R. Sharp and
her four children being given a
handoff by friends and relatives.
They were to ride the train to
New York and then go to Ger-
many to join their husband and
father.

WHILE CHECKING into this,
we noticed a man in uniform and
a lady. Mmmm, we thought, a
soldier is going away, too. After
a lengthy goodbye, we were sur-
prised to see the lady get on the
train and the soldier stay behind,
waving goodbye. It turned out
that he was from Brownwood and
was going home to Tennessee.
You never can tell by what you

FOR EXAMPLE, we had an
idea that we'd find a story with
pictures by Mr. Randy Steffen,
the local writer and artist, when
we picked up a copy of Zane
Grey's Western Story Magazine
the other day. Reading along, we
came across it. And it was a
delightful interesting story about
bananas with some attractive draw-
ings. It's the current issue, if
you want to get one and read
the piece.

WE'VE RUN INTO a recipe
we'll bet Mr. Roy Huffmyer
will want to try. Broiled Ban-
anas. Have you ever had a
broiled banana? The flavor is
deliciously different. It is mel-
low, slightly tart and creamy in
texture. You can serve it either
as a vegetable or as a dessert.
Use less ripe bananas — yellow
or slightly green-tipped.

Take four firm bananas, melt
butter or margarine and salt
and the bananas. Place on
broiler rack or into pan with
butter. Brush bananas with but-
ter and sprinkle with salt. Broil

Draft Board Hands Orders To 61 Area Young Men This Week

Arbor Day Will Be Observed In State Jan. 18th

Arbor Day will be observed in
Texas January 18, according to a
proclamation issued by Governor
Allan Shivers.

In this proclamation, Governor
Shivers said, "In full apprecia-
tion of the great value of our
Texas forests, shade and ornamental
trees, I hereby designate Friday,
January 18, as Arbor Day in
Texas, and urge Texans to ob-
serve the day by planting trees
and shrubs and otherwise mark-
ing the occasion in a proper man-
ner."

In Texas the need for observing
Arbor Day was first recognized in
1889 at Temple, a community
which had comparatively few
trees. This year Arbor Day offers
special opportunities for schools,
garden clubs, civic clubs, youth
groups, and other organizations to
recognize and observe January 18
as Arbor Day. The Forest Ser-
vice has arranged special Arbor
Day radio and television pro-
grams.

D. A. Anderson, head of Re-
search and Education Department
of the Texas Forest Service,
makes these suggestions: "There
are many ways in which Arbor
Day can be observed. It is not
essential to plant trees and
shrubs. Actually," he said, "It is
more desirable to protect grow-
ing trees than to plant additional
trees without providing adequate
protection. Any program design-
ed to acquaint Texans with the
economic value of forests would
be a creditable observance of Ar-
bor Day."

Arbor Day originated and was
first observed in Nebraska in
1872. J. Sterling Morton, then a
member of the Nebraska State
Board of Agriculture and later
United States Secretary of Agri-
culture, conceived the plan and
the name. This plan was adopted,
and on April 10, 1872, the first Ar-
bor Day was celebrated. Thus
Nebraska became known as "The
Tree Planter's State."

Junior High Cage Teams Divide Two With Rising Star

Cisco Junior High School split
two games with the Rising Star
Junior High School in the Rising
Star gymnasium Thursday night
when the local girls lost to the
host team 24-25 and the boys won
23-11.

The girls game opened the con-
tests at 7 p. m. and it was a
close game all the way with
Rising Star having the edge in
the first half and Cisco control-
ling the floor the last half. Cisco
missed an opportunity to win the
game when they missed a free
throw and a crisp shot in the wa-
ning seconds.

Coach Killingsworth played
every member of the team who
was in suit. Bonnie and Donnie
Owens, twin forwards, led in the
scoring with Bonnie accounting
for 12 points and Donnie making
five. Bobbie Lee Sublett made
four points and Loretta McKinney
three. Others playing were Beu-
lah Jean Smith, Rhonda Winches-
ter, Joyce Lancaster, Treca Ed-
wards, Anita Davies, Burnell
Evans, Patricia Mayer and Betty
Fern Watson.

In the boys game Coach Bill
Sledge played every man on the
squad in an effort to keep the
score down. The first team play-
ful less than a quarter while
second, third fourth team mem-
bers played the balance.

Harold Hammett with seven
points won scoring honors for
Cisco. He was closely trailed by
Tommy Reynolds with six. The
Rising Star team, playing against
Cisco first and second teams,
made only one point in the first
half.

The Thursday game was the
last game for the junior high
teams until after mid-term ex-
aminations next week, it was an-

Gideon Program To Be Explained At Churches Here

The work of the Gideons will
be explained in most Cisco
churches during the Sunday
morning worship hour, according
to an announcement here today.
This is an annual event in many
churches.

Gideons International is an or-
ganization of Christian business-
men who carry on a broad pro-
gram, giving freely of time and
money. Since 1908 over 3,069,
000 complete Bibles have been
provided for use in hotels, hos-
pitals, penal institutions, public
schools, trains-ships, airliners and
military installations.

Since 1941, the Gideons have
provided more than 10,343,000
copies of the New Testament with
Psalms for members of the armed
forces, and since 1946 the organi-
zation has given copies of the New
Testament to the youth of Amer-
ica.

These Scriptures are bought by
the Gideons with their own con-
tributions together with the free-
will contributions of Christian
people of many different
churches.

It was understood that repre-
sentatives of the Gideons organi-
zation would be here to appear
at local churches.

the Comanche girls team. The

Livestock Care Is Main Activity On Texas Farms

Caring for livestock was the
main farm activity being carried
on as chilling wind, sleet, snow
and drizzling rain moved across
the State on New Year's day. A
two inch cover snow, sleet, and
ice in the High Plains will benefit
the dormant wheat crop. Driz-
zling rain was very light and pro-
vided only temporary relief over
a wide area covering about the
central third of the State from the
Red River to the Rio Grande, and
also westward over the Edwards
Plateau and Trans-Pecos.

In east Texas and along the up-
per coast, where heavier rains
fell, surfact moisture was ade-
quate for small grains, clovers
and other cover crops. Subsoil
moisture, however, was
still insufficient even in these fa-
vored areas.

Conditions in commercial vegeta-
ble areas continued favorable for
most growing crops and for the
planting of early spring vegeta-
bles in the Lower Valley. Very
light showers were received in the
Coastal Bend, where surfact
moisture was needed. Subsoil
moisture was still satisfactory in
most non-irrigated vegetable
areas.

Unprotected livestock suffered
in the chilling wind, sleet and
snow which covered the north-
west early in the week. Ice,
sleet and snow still covered
wheat pastures and ranges over
most of the Plains forcing all
livestock to be fed. In east Tex-
as and along the Coast, cold wea-
ther retarded development of
small grain and clovers but
these feed crops will respond to
improved moisture conditions as
soon as temperature moderate.

Leroy Pierce Accepts Job In Fort Worth

Mr. and Mrs. Leroy Pierce will
leave Cisco soon to make their
home in Fort Worth where Mr.
Pierce has accepted a position as
accountant for Central Air Lines
in the Fort Worth general office.
Mr. and Mrs. Pierce have been
in Cisco for about four years,
coming here from Eastland. He
has been employed with Tomp-
kins Broom Factory and Graves
Butane Company as accountant.

Library Receives New Sports Books

I have some very important news for you sports lovers at CJC. The college library has just received several sports novels which indicate some very good reading.

One of the best just received is John R. Tunis's "All American." It is a fine football story and portrays democracy in its true sense. "You will find it an exciting story and a timely one, firmly grounded in a liberal conception of the meaning of democracy," is the comment of

one outstanding literary critic, John Horn.

"Iron Duke," another college story which does not follow the usual formula, is the story of Jim Wellington who enters Harvard from a small middle-western high school and finds it a different world, far from simple and not always agreeable. In his junior year he wins fame by breaking the intercollegiate record for the two-mile race.

Jackson Scholz, author of "Pigskin Warriors," has produced another thrilling sports story, "Goal to Go." "Goal to Go" tells of Jeff Craig's life in the U. S. Naval Academy, his struggle to make the first eleven and the conflict of college life. "Goal to Go" gives a vivid, authentic picture of life in the great Naval Academy today, and a story of breath-taking excitement as Jeff Craig learns a lesson of sportsmanship.

Many other sports books have been received at the Cisco Junior College Library and you are always welcome to check out these books to read in your spare time. Of course I know the boys in the dorm could never find time to read — they stay busy!

Sailboat Completion Next Month

The boats for the sailing club are being built at a rapid pace. They should be completed by the middle of next month although sailing weather will not be around for two or three more months yet. The boats are being built by the members of the sailing club.

The work is altogether voluntary. Not knowing anything about sail boats, I wouldn't know just how much the boats lack being finished; but I understand from the members of the club that they are coming along very nicely. The members of the club are being aided by Mr. Jack Chambliss and Prof. Matthews who know the art of sailing quite well.

Congratulations on the fine work and I sincerely hope you have fun sailing across the wild blue yonder of lake Cisco or wherever you might find a puddle large enough to sail on.

Paul Mosley

Paul Mosley, assistant football coach at C. J. C., is a real Ciscoan. He attended C. J. C. three years — participating in football and boxing. He received his degree from McMurry College in Abilene. He has been at C. J. C. two years and teaches P. E. and Education. He is also head boxing coach.

Paul served two years in the Marines during the war. He is married and has two children.

HEALTH TALKS

Prepared by the Texas Medical Association

Blood pressure is the force exerted by the flow of blood within the arteries. The pressure depends upon the strength of the heart beat, the elasticity of the walls of the arteries, the resistance of the capillary bed (the tiny bridge that connects arteries to veins) and the amount and thickness of the blood itself.

The first reading in blood pressure (which is written as a fraction, such as 120/75) is the systolic pressure, representing the force of the blood when it pushes against the trapdoor leading into the second chamber of the heart (the ventricle). The denominator of the fraction, or the diastolic pressure, is measured by the flow of the blood into that ventricle after the trapdoor has opened and relaxed.

The difference between the systolic and diastolic pressure is the pulse pressure, the energy the blood possesses in the arteries of the body.

If you picture the blood stream as a river, the pressure of the stream when it hits the dam on the river would be the systolic pressure, and the pressure of the river as it flows through the opened dam would be the diastolic pressure. Further downstream from the dam, the pressure of the stream may be compared with the pulse pressure.

The pressure of the river at the dam would depend upon how much water was in the river due to recent rains or droughts, how much debris the river might have collected in its flow, what kind of riverbanks it flowed through (sand banks would absorb more water than clay banks.) and many other elements, not only in the course of the river, but such outside elements as wind, rain, and sun.

BOBBY JOHN HUFFMYER

Wrangler Personel

Bobby John Huffmyer, five foot-eleven inch guard, is the only returning letterman from last year's State runner-up team. He was voted on the all state team last year. John is leading scorer for the team this year with a twenty five point average per game. He was voted on the all tournament team at the Ranger Tournament.

John is from Carrizozo, New Mexico. He lettered four years in basketball and two in football there. He was a starting halfback for the Wrangler football team this year.

JAMES BARNETT James Barnett, six-foot one inch forward for the Wranglers, hails from Carrizozo High School. He is one of the tallest men on the squad.

Barnett lettered four years in Basketball and four years in Football in High School. He was also manager of the Wrangler football team. His most used nickname is "Hero".

faith
and friendship walk hand in hand

Millions of Americans this month are making it a special point to invite their friends into their churches and synagogues—as freely and frequently as they ask them to their homes. You'll find that sharing your faith does something for you, and for your friends as well... it grows when it's shared... and your friendships grow, too.

Take someone to church this week... you'll both be richer for it

BUFFALO DEBUT—At the recent International Live Stock Exposition in Chicago, 12 wild buffalo were included. Rounded up by jeep in Custer State Park, South Dakota, top photo, the even dozen were chosen from a herd of 1500 head. A closeup of a typical wild buffalo, lower left, shows almost blank expression. When they arrived in Chicago, right, the animals were eager to leave that box car and charged down the ramp as if they expected to be back in the state park.

A HELPING HAND—After a snowfall in Chicago, officer Edward Colseth came to the rescue of one of the pets in Lincoln Park. He decided this tame squirrel might not be able to find his food buried under the snow, so he offered it a welcome handout of bread.

Looking Back on 1951 —

... the inventory shows that the scales weighed out a good portion of the better things for us to enjoy. While the mistakes we made stick out like a sore finger and our failures almost overwhelm us, yet these discouragements are small indeed when compared to the unhappiness and tragic experiences of some who happen to live in other countries. We are glad we live in Eastland County where we have had the opportunity to serve a host of loyal customers for more than a quarter century.

A LITTLE CARE

Means A Lot of Mileage

There are cars on the road that have traveled hundreds of thousands of miles without giving their owners ANY TROUBLE. They're cars that were given regular service by experts such as those at our shop. We suggest you drive up right now, for important winter service!

MID WINTER CHECK LIST

- () Is anti-freeze still right?
- () Do tires have adequate road grip?
- () Are wheels properly aligned?
- () Are brakes properly adjusted?
