The Gay Philosopher

By J. W. S.

MET UP WITH the new pastor of the East Cisco Baptist Church yesterday, and he is happy to become a citizen of our town. He is the Rev. F. C. Bradley, Jr., and he and family are now happily situated at the church parsonage, 1100 Avenue G. The Bradleys have two children, Dale, 7, and Phyllis, 5.

Rev. Bradley is a native of the Brownfield area. He is completing his college work at Howard Payne University, Brownwood, and goes over there three mornings a week. He was pastor of the Midway Baptist Church near Gorman before being called to the local church.

The young minister is a veteran of four years in the U. S. Naval Air Corps. He flew the big Navy 4-engine patrol planes all over the Pacific during the last war. He is a member of the Masonic Lodge and is a former Lions Club member.

COMES A LETTER as follows:
Editor:

Why do the Cisco people ignore the need for a gathering place for the teen-agers? We know the school and churches have places, but what about the ones that don't go to church.

Isn't there enough people who are interested in the young boys and girls, other than their own, to look into this? We owe it to the future citizens of tomorrow to encourage them to live morally clean.

Please don't ignore this. As a good citizen yourself you should see the need for a place for the ones who can't have a home to gather in. Looking around town, late at night, we find things that make this need more important. A place with some older responsible people to help steer those wonderful kids, who could be good Christians with a little help and guidance.

(Signature withheld.)
COMMENTING ON the above, it has seemed to us that Cisco youngsters are pretty fine people. But if there is something missing, maybe a committee should be organized to study the situation and find the right answer. The future of our city, our state and our nation is tied up in our young people.

SERGEANT Vernon L. DeLong of the National Guard Armory tells us that the boys of his outfit have a pretty good basketball team and a dandy volleyball team. As a matter of fact, they hereby issue a blanket challenge to any organization that has similar teams for a game. Just call the armory.

The sergeant tells us that the boys at the Armory are going to have a party at 7:30 p. m. Thursday for members and guests. There will be a game hour, and music will be provided by Sgt. Al Anderson, Doc Horn, Sgt. Billie Kendrick, Pfc. Paul Huffman and Pfc. Royce C. Mitchell. There'll be a cake walk and games.

WE'RE GOING over to the Legion Hall tonight for the Lutheran chili supper. It will start at 6 p. m. and our scouts report that Lutheran chili is very, very good chili.

COMES A POSTcard from Mr. Bill Dill, pro at the Live Oak Country Club, Weatherford, to say that all golfers are cordially invited to attend a pro-amateur sweepstake there on Saturday, Feb. 2. Play begins at 1 p. m. Lady golfers are also welcome to take part.

TOMORROW IS THE last day to pay your '52 poll tax. Mrs. Peggy Gallagher still has a lot of poll tax receipts for sale over at the Chamber of Commerce office. Business was right brisk over there today and it should be. Every citizen should be ready to vote in every election this year.

Tiajuana's Mother Knows ...

Thursday Night Will Be Big Night For March Of Dimes

Thursday night will be the big night for the March of Dimes drive in Cisco. Beginning at 7 p. m., the Mothers Club of the Junior High School will tour the city to stop wherever a porch light shines to accept Polio benefit donations.

At about 8:30 p. m., the annual March of Dimes dance will be held at the City Country Club with Mel Sandler's orchestra furnishing the music.

The importance of the polio campaign is reflected in a letter written to county March of Dimes officials by the mother of Tiajuana Alford, 13, Cisco girl who was stricken with polio last July. The letter tells the story of the organization's work. It follows:

My daughter, Tiajuana Alford, 13 years old, became very ill on the morning of the 7th of July, and complained of a stiff neck, high fever and difficulty in swallowing. I knew she was sicker than I had ever seen her. On the way to the Graham Hospital she said, "Mother, I just know I have polio."

After examining her the doctor said he felt sure she was right about it being polio and told me to rush her to Hendricks Memorial Hospital in Abilene, where she was observed by specialists, who closely watched her suffer with muscle spasms which caused her breathing to become more and more difficult, until finally she was placed in an iron lung July 9th and she stayed in it for two months and one day. She was afraid I could not stay with her, but I assured her I would be with her every minute day and night.

The days that followed were horrible, to see her suffer with muscle spasms and being unconscious, not knowing whether she was living or dying. After about a week her fever went down and the special duty nurses, who were with her 24 hours a day, began giving her hot packs that helped relieve the pain of the spasms. This treatment continued until she could stay out of the iron lung long enough for the Physical Therapists to give her treatments in the pool.

These treatments were very painful, but she looked forward to getting them because she knew how much they were helping her

College Girls To Play Breckenridge

The Cisco Junior College girls basketball team will go to Breckenridge tonight for a game with the Breckenridge High School girls, Mrs. Stella Lisenbee, coach of the junior college sextet announced today.

The college girls have lost only one game, Ranger High School defeated them early in the season. Due to the fact that there are only two junior colleges in the conference playing girls basketball the schools are forced to play high school teams.

Making the trip to Breckenridge with Coach Lisenbee will be Mickie Burnett, Mary Nell Clardy, Carmilita Dickerson, Virginia Spence, Pearl Ezra, Mary Eubanks, Pansy Pippen and Henri Lou Sharp.

to improve. She was beginning to wiggle her toes and was very happy about this. Each week the time was increased gradually, until finally she could stay out of the lung altogether. She was especially happy about this because she was hoping she would be out of the iron lung for her 13th birthday party, on the lawn at the hospital.

She was then ready for Gonzales Warm Springs Foundation for Crippled Children for further treatments. During her stay at Hendricks Memorial Hospital, which was two months and ten days, the following amount of money was spent by the March of Dimes, Eastland County Fund-Special duty nurses — \$ 800.64 Hospital services rendered — 1,174.64 Dr. bill (sinal test) — 135.00 \$2,109.68

On Sept. 17th, Tiajuana was admitted to Gonzales Warm Springs Foundation. Specialists there examined and made X-rays and said she had been stricken with polio all over her body. At that time she had very little movement from her waist down, her hands, shoulders were very weak, and her abdominal muscles were so weak (and still are) that she was unable to cough.

The first two weeks she was there, she was fitted for corset, had splints and braces and made wonderful progress, due to the excellent treatments she was receiving from Physical Therapist, who told me that they had never seen a patient quite like her, because she smiled while getting her treatments, even though they knew they were painful and it made them feel so insignificant, but were very proud of her determination to get well.

She was sitting in her wheelchair on my first visit to see her and she looked wonderful and happy, had even gained weight. The soreness had just about left her muscles and her treatments did not hurt her anymore. She was the happiest I had seen her in months. She began telling what a wonderful place the Foundation was, how much she had improved and just loved being there. She was so excited about the fun they all were having there, about the recreations provided for them, how well she liked the nurses and Physical T., and how many new friends she had made in the short time she had been there. She was the happiest about being able to sit in her wheel-chair thirty minutes a day.

On my next visit, two weeks later, she was sitting up one hour a day and was going to school.

February Scout Program Studied At Meeting Here

Scouters from Breckenridge, Eastland, Ranger, Brownwood and Cisco met at the Hotel Victor for dinner Monday night and then went to the First Presbyterian Church for a business meeting to map plans for scouting in the Comanche Trail area for the month of February.

The meeting was attended by 32 troop leaders, committeemen and executives from the area office in Brownwood. Homer Smith of Eastland presided at the meeting as district chairman. The main issue coming before the group was the preparation for observance of National Boy Scout Activities Week to be observed February 6-12. Complete details of the program for the week is to be released later.

Attending the meeting were W. B. Pickens, John Kilgore, Homer Smith, Bill Brown and Arthur Murrell of Eastland; Carvis Beck, Willis Clark, Nolan Butler, Arthur Defflebach, H. A. Shockey, Keith Langford, Charley Sutton and Dwaine Dennis of Ranger; Homer Tudor, John Bailey, Ernest Maxwell, John Arthur, Dewey Masner, Hubert Tolle, J. C. Paek, Dr. J. L. Provenza, Garth Bills and W. W. Rogers of Breckenridge; Charles Graham, Ace Lucas, J. V. Heyser and the Rev. H. Grady James of Cisco and Scout Executive Guy Quirl, Field Executive Brantley Hudson and C. L. Burns of Brownwood.

ACC Team Defeats Wranglers, 93-75

The Abilene Christian Wildkittens outtraced the Cisco Junior College Wranglers to take a wild scoring basketball game by a 93-75 score in Bennett Gymnasium in Abilene Tuesday night.

Vob Moran of ACC took scoring honors with 26 points and his team mate Tommy Johnson, with 21 points, was in second place. Bobby John Huffmeyer and Bobby Gibson of the Wranglers tied for third place with 18 points each.

The Wranglers have two days of rest before resuming their conference race against Blinn Junior College at the local gym Friday night. The Brenham school is leading the Texas Junior College Conference and boasts an earlier win over the Wranglers.

Saturday night the Allen Academy quintet will be in Cisco for a conference game with the Wranglers. The Bryan team also has a win over the Wranglers and is in second place in conference standing.

LOBOES TRIM DUBLIN TO KEEP CAGE SLATE CLEAN FOR SEASON

The Cisco High School Loboes continued undefeated in the 1952 District 10-AA basketball chase by virtue of their 36-29 defeat of the Dublin Lions in the Dublin gym Tuesday night. The Tuesday game ended the first round of play with only Comanche in a position to challenge the Loboes for the district crown.

In an earlier game the Lobo Queens lost to the Dublin girls by a 27-24 score to eliminate themselves from a chance at the title. Williamson of Dublin took scoring honors with 11 points. Kitty Pippen of Cisco and Jones of Dublin were tied for second place with 10 points each. Wynlene Birt and Marie Borst of Cisco were in a tie for third place with seven points each.

In the Lobo-Lion game Traywick of Dublin led the scoring chase with 12 points. Alvarado of Dublin, Jim Webb of Cisco and Doug Johnson of Cisco were in

second place with nine points each.

At the end of the first round of play Cisco was on top with four wins to no losses. The Loboes have wins over Comanche, Eastland, Ranger and Dublin. The Comanche Indians were in second place with three wins and one loss, their only loss being to Cisco on January 11 by a 31-25 score. Eastland, Dublin and Ranger were tied for the cellar position with one win and three losses each.

Cisco meets Comanche in Comanche Friday night in a game that will have a lot of bearing on settling the district championship. If Cisco wins the game Friday they are practically conceded the championship. Should Comanche win it will throw Cisco and Comanche in a tie for the lead and there will be the possibility of a play off to decide who represents district 10-AA in regional play.

The standings in conference play as of Wednesday is as follows:

Cisco	4	0	1.000
Comanche	3	1	.750
Eastland	1	3	.250
Ranger	1	3	.250

Poll Tax Office Will Be Open Late Today

A total of 612 poll tax receipts had been issued at noon today at the Chamber of Commerce office in Cisco, Mrs. Peggy Gallagher, deputy collector, reported. And business was good, she added.

Mrs. Gallagher planned to keep her office open until 6 p. m. today to accommodate poll tax payers, and she will be on the job Thursday night as long as poll tax payers keep coming in.

Thursday, January 31, is the deadline for paying poll taxes.

W. F. Dunn Dies In Dallas Early Today

John Dunn and B. T. Dunn of Cisco were called to Dallas today because of the sudden death of their brother, W. F. Dunn, who died at 9 a. m. after suffering a heart attack at his home there.

Funeral services will be held Thursday afternoon in Dallas, it was announced.

New Location Is Made Inside City On Bailey Tract

The area southwest of Cisco had a new Mississippi lime producer and a possible Caddo discovery well, and a new location was made in the south townsite field today as the highlights of area oil developments.

The new producer was the Haynes B. Ownby Drilling Co. No. 1 Mrs. J. W. Brown Estate, located in Section 110, Block 3, H&TC Survey. The Mississippi lime pool has been designated as the Grover Hartt Pool by the Texas Railroad Commission.

The well flowed 80 barrels of 42 gravity oil during a 24-hour potential test through a 16-64-inch choke with a packer on the casing and 225 pounds of pressure on the tubing. Production was from 65 perforations at 3,842-60 feet. Total depth was 3,940 feet.

The potential was slightly better than the pool's discovery well — the Ownby No. 1 Mrs. Effie Brown.

The possible Caddo discovery was the D. W. Henke No. 1 Brown Estate located in the same area in Section 118, Block 3, H&TC Survey. The Caddo lime was topped at 3,022 feet and saturation was encountered at 3,052 feet. Total depth was 3,175 feet. A drill stem test showed 100 feet of oil cut mud with 91 feet of gas cut mud. The test was run after cutting 14 feet of the saturated Caddo. Pipe was to be set today for completion work probably next week.

Ownby Drilling Company's No. 1 B. A. Brown, an offset to the two Mississippi lime wells in that area, was drilling at about 3,500 feet today. It had a good show in the Straw sand, below 2,000 feet. It is a Mississippi test.

Equipment was moving in to begin drilling the Grover Hartt Jr. No. 1 J. W. Brown Estate located 330 feet from the north and west lines of the southwest quarter of Section 102, Block 3, H&TC Survey. This is a 160-acre lease taken by Hartt as a farmout from Hickok & Reynolds, Cisco operators.

Ten miles south of Cisco, the Slick-Moorman Oil Company No. 1 A. A. Stephenson was preparing to begin completion operations. Pipe was set some ten days ago and the rig has been moved off. The test is seen as another probable discovery well for the area.

In the south Cisco townsite, a new location has been staked at the Feland No. 1 M. D. Bailey et al, an offset to the Sam Baugh discovery well. Other details were not available.

Jack Hailey's No. 1 Thelma Richardson was drilling at about 2,000 feet in the city pool. Five miles northeast of Cisco, the Bankline Oil Company No. 7 Evans Estate was testing in the lake sand at 3,324 feet. Observers believed that possibilities for a producing well were good.

In the same area, the J. P. Lohan et al No. 1 Sam Hart was preparing for completion. The hole has been cleaned out to drill the plug and, if necessary, to give the formation the hydraulic treatment. Lohan is expected to move one location west for another well on the Hart tract.

The J. E. Connolly No. 1 Mrs. Pearl McMurray, one and a half miles southwest of Cisco, has been completed as a gas well with a potential of about 5,000,000 cubic feet per day with no oil. Completion was in the Lake sand.

In the Dethan area, west of Cisco, the D. D. Feldman Oil and Gas No. 1 G. S. Pruet has been plugged and abandoned as a dry hole after extensive testing in the Ellenberger lime failed to yield oil. Location is in Section 3106, TE&L Survey.

The Star Oil Company (D. L. Rose) No. 1 James Turner was drilling at about 1,800 feet in a new deep test some six miles west of Cisco in Section 8, BBB-&C Survey. Proposed depth is 5,000 feet.

Texas Collection To Preserve For Posterity Papers Of Late Pat Neff

WACO, Jan. 29.—A division of Baylor University's Texas Collection will preserve for posterity the papers and personal items of the late Pat Morris Neff.

Prof. Guy B. Harrison, curator of the Texas historical library, revealed that Neff had been working with him since last August in the arrangement of important documents and memorabilia which chronicle the former governor's life from boyhood until death at the age of 80.

"The preservers of history are as heroic as its makers," Neff used to say. He had those words carved on the exterior of the Baylor building which bears his name.

A glance at his collection convinces one that he was both a maker and preserver of history. He meticulously saved memorabilia of his public life which began with his election to the Texas legislature in 1901. Included were practically complete files of his four years (1921-25) as governor of Texas, his 15 years as president of Baylor University (1932-1947), his service as president of the Baptist General Convention of Texas (1927-29) and later of the Southern Baptist Convention (1942-45), his term as Grand Master of the Grand Lodge of Texas (1946), and service on the U. S. Board of Mediation, the Texas Railroad Commission, the State Parks board, the Centennial commission, and other civic and church responsibilities.

Also included are hundreds of pieces of furniture, tools, kitchen utensils and other materials which his parents had used in their Texas homestead during the mid-19th century. There are approximately 100 scrapbooks containing news clippings about him. A final volume now being prepared preserves details of his death and funeral.

Harrison believes it to be one of the most complete collections ever gathered on any individual.

Neff had moved to a downtown law office following his retirement from the Baylor presidency in late 1947, but he returned to the campus last August to occupy a room on fourth floor of Pat Neff Hall. Almost daily since then he has worked with Harrison in setting up the historical materials, which fill three rooms.

News of the collection had been kept secret except to friends, because Neff planned a formal open house for it this Spring after its organization was completed.

His death broke the need for secrecy. The Neff family announced that any persons or groups desiring to establish memorials to him should designate them for the collection. Members of the family have also endorsed a suggestion that donors endow a chair for Texas history to be known as the Pat Neff Professorship of Texas History.

"Mr. Neff enjoyed that work immensely," Harrison said regarding Neff's last five months of work preparing the collection. "But every now and then he'd stop what he was doing and say, 'Old Gabriel's going to blow his horn one of these days pretty soon and I won't be here to enjoy this collection any more.'"

Hill is currently serving as vice president of the state lawyers' association, while Turner is serving as Director from the 5th Congressional District.

Nominees for the office of vice-president during 1952-53 include Traylor Russell, Mt. Pleasant; Everett L. Looney, Austin; and C. A. Williams, Childress. Current chairman of the Board of Directors, Russell represents lawyers of the 1st Congressional District, while Looney serves as Director from the 10th Congressional District. Williams, former Director from the 18th Congressional District, was chairman of the Board during the year ending June 30, 1951.

State Bar Officers and Directors are elected by mail each year. Ballots will be mailed May 15th to the 11,000 Texas lawyers and votes will be counted June 5th. Those elected will assume office at the close of the annual convention shortly after July 1st.

In addition to the president and vice-president, State Bar members will also elect Directors from the 1st, 2nd, 3rd, 9th, 10th, 14th, 17th and 20th Congressional Districts for 3-year terms. One-third of the Board's membership is elected each year.

HELPFUL HINTS—British clothiers in London have their own idea how President Truman should dress and one magazine printed these models with Truman's head dubbed in. At left, the model wears a dark double-breasted suit with bowler hat and carries gloves and rolled umbrella. A similar composite picture shows how the magazine thinks the President would look in a medium-shade overcoat and bowler, plus a dapper cane.

NOT FOR FLYING PURPOSES—Not satisfied to rely on his super-keen sniffer, King, a Cleveland, O., Police Department bloodhound, shows off his king-sized communications system. The sad expression comes from worrying about staying out of strong breezes which might lift his 24-inch wing spread and carry the pooch halfway across the state.

AT HOME WITH THE GIBBONS

APPE FAMILY—A female white-handed gibbon, top photo, swings on the bar in her cage at the Bronx, N. Y., Zoo, with her offspring clutched tightly between her crossed legs. Born last March, zoo officials still don't know the baby's sex. Cradled in mama's arms, left, below, they share a piece of lettuce for lunch. Father, right, is in charge of lice-hunting as he goes over mother's face. These gibbons, from southeastern Asia, are worth \$1000 a pair.

FIGHTER'S SON LEARNS TO FIGHT—Pvt. Gene Lauder Tunney, son of former heavyweight boxing champion Gene Tunney, follows instructions at Fort Jackson, S. C., as his company commander, Lt. James H. Emmons, right, explains the use of rifle sling while firing from standing position. Young Tunney is now undergoing his basic training. (U. S. Army Photo.)

HAPPY FAMILY—Mrs. Mona Lutz watches as her husband, Walter, shows their two daughters how he snips bamboo with shears in a workshop of his bamboo specialty shop in Cleveland, O. Mrs. Lutz is a Japanese war bride who came to the U. S. to take up a new life with the ex-GI.

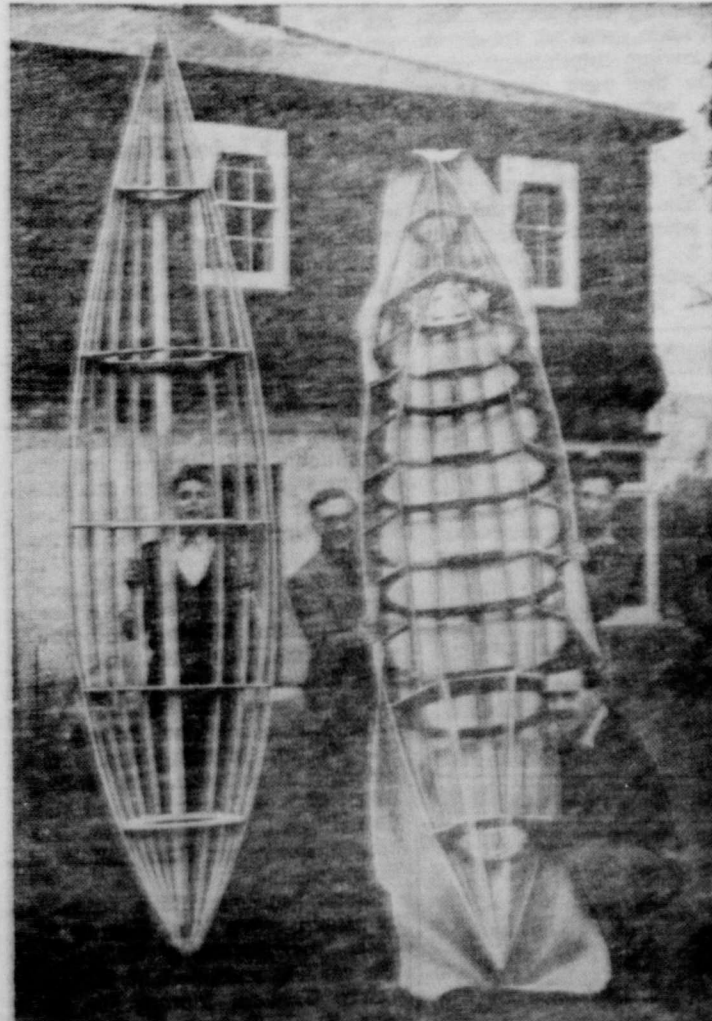

SPANISH OLYMPIC SKIERS—Members of the Spanish Olympic ski team are training at Bad Gastein, Austria, getting in shape for the forthcoming Winter games in Oslo. Here, left to right, are: Francisco Viladomat, 19, who is Spain's champion in slalom and giant slalom; Luis Arias, 20, champion in downhill and slalom; Poni Puig, 20, and Luis Molne, 22.

DESIGNING YOUTH—El Gee Bove, left, at 17 is believed to be the youngest dress designer in the country. He's shown fitting dancer Helen Wood for one of his stylish and expensive evening gowns in New York. A year too young to join the costume designers union, Bove, a high school senior, gets \$500 to \$1000 apiece for creating eye-catching dresses for Broadway stars. He recently held his first one-man fashion show.

SIGNING UP—Former United Press correspondent Charles Collingwood signs papers in Washington, D. C., relating to his appointment as special assistant to Averill Harriman of the Mutual Security Agency, while his wife, actress Louise Albritton, looks on. Collingwood will assist Harriman in coordination of information activities relating to the Mutual Security Program.

PLAN CHANNEL CROSSING—Members of a Boys Club in London display two of the four canoes under construction for an attempt to cross the English Channel. The canvas-covered wooden framework craft will cost about \$30 each and will be tested on the Thames River before a crossing is attempted. It is to be hoped that the attempt is made in favorable weather conditions.

Thursday Night ---

(From Page 1)

She was using her hands more freely and also moving her legs a little more. She was so overwhelmed about her progress that she had to perform for me to show me how much she had actually improved.

Each time I go down to visit her, she has something new to show me that she can do, such as sitting up by herself on the bed, of course she wears a corset to brace her back, and moving her legs more and her hands and shoulders getting stronger.

She has certainly come a long way. At the present she sits in her wheel-chair one hour and 15 minutes, three times a day plus meals. She stands up on her legs once a day for five minutes with someone holding her up. She wears braces on her legs and can use her hands almost normally. She is wheeling her own wheel-chair and is looking forward to square dancing in her wheel-chair soon. The foundation has a square dance once a week for all of the children who can wheel themselves. She is waiting for her crutches which they have ordered and will be there soon. They will then start teaching her to use them and Tajuana feels that sometime in the future she will walk again.

Tajuana makes the remark, "this is home." She enjoys every minute there because they provide entertainment for them. She sings in the choir, and goes to Chapel every Sunday morning. She realizes she is improving exceptionally well and owes her life to the iron lung, which was bought by the March of Dimes, and also the help of God.

The amount spent since Sept. 17, the day she was admitted to the Foundation is \$2,105.50, the total amount spent the six months she has been ill amounts to \$4,215.18, which has been paid by the Eastland County Public Fund.

Sincerely yours,
Tajuana's Mother

CITIZENSHIP BEGINS AT HOME

The first lessons of human relations must be taught to little children by their parents at home. There they must learn that while democracy allows every individual his right to certain privileges, it also requires certain obligations to others.

ery qualified voter has the right and the duty to attend this precinct convention of his party and have a voice in electing the delegates to the county convention, who in turn elect the delegates to the State convention, who in turn name delegates to the National convention, who nominate the President.

The most important business you have as a citizen is to inform yourself of public issues and to instruct your children in the principles of our system of Government. How long has it been since you

talked to your own children about these basic, vitally important matters? Don't wait too long. Citizenship, like charity, begins at home. — H. M. Harrison in East Texas Magazine.

Parents who think that they can leave all instruction about citizenship to school teachers are making a grave mistake. The good teacher has a marvelous opportunity to teach little children the fundamental principles of our American form of government and the history of the men who fought and died that we might have freedom. But the parents must begin, even before school age, to teach in simple terms these basic principles of human behavior. Our National policies are controlled by sentiment development at the community level. J. Edgar Hoover, director of the F. B. I., said recently in Washington to the Senate crime investigating committee: "Crime is a problem to be met and solved in each city, town and hamlet. In those communities where public opinion is enlightened and aroused, crime is at a minimum. In such communities crime has not become entrenched, it does not enjoy unholy alliances with those in public office." Mr. Hoover also said: "The experience of people in other lands who suddenly found
