If you spend a dollar at home you have some hope of getting it back: If you don't, you just spend a dollar

VOLUME XXXII

CISCO, TEXAS, SUNDAY, AUGUST 31, 1952

NUMBER 195

## The Gay Philosopher

By J. W. S.

TODAY ENDS THE month of August, and we're not very sad about it. This August has been the most disagreeable month from the weather standpoint that we've ever known. Twenty-five days of the month had temperatures in excess of 100 degrees. It has been a month without rain.

SEPTEMBER WILL, we're sure, be welcomed by one and all. The days are getting shorter and it's just got to get cooler. Two weeks from now, we'll all be replaying the first football games. Both Cisco High and Cisco Junior College will have played their first games.

SPEAKING OF BUGS reminds us that we've been seeing some little "V" shaped gadgets on the hoods of a few cars around. The gadgets are installed near the front and in center of the hood. We've just found out that their purpose is to keep bugs off your windshield.

We're told that the "V" shaped gadgets cause the air to spread as you drive along and bugs and grasshoppers will miss your windshield.

MR. JACK EVERETT, the high school football coach, and family arrived home the other day after nearly three months in Colorado where he attended the UofC at Boulder. Jack reports that coming home was kind of like stepping into an oven after a summer of 50-degree nights and 80 degree days. He completed some work toward a doctor's degree and is all set for football come Monday morning, 8 a. m.

IT WAS GOOD to see Mr. Joe Comingore, the Humble man, back in town Saturday. The Comingores have been in Houston most of the summer while he did vacation relief work for Humble Pipe Line there. He's due to spend September traveling on an API assignment, after which he'll be home to stay.

While they were in Houston, it suddenly became necessary for the Comingores to move. So Mr. Ted Waters found them another house and had their household goods moved. When they arrived home Friday night, the Comingores didn't know where they lived.

HERE'S A BIT of statistics regarding the rural route exam given the other day by the Post Office Department to fill a vacancy here. Over 100 persons obtained the forms. Sixty people filled out and turned in the forms. Of the 60, a total of 43 were eligible to take the exam and of the 43 only 26 men and one woman showed up. The job will go to one of the three with the best exam grades. Will probably be three weeks or more before anything is known.

THE GEORGE FEES talked via telephone with their son, Pat Fee, in Guam the other night. He has been there about 21 months now and is due to be rotated back to the states, but as yet he hasn't heard just when. Mrs. Gladys Sharpe tells us that their son, Bill Sharpe, is due to sail for home any day now from Korea and Japan. And their other son, Stanley Sharpe, is expected home from Camp Chaffee, Ark., for the Labor Day weekend. Miss Jane Flint, daughter of the Austin Plints and Lions Club sweetheart, is packing her things to enroll at Baylor U. come Sept. 15. C. B. Midkiff has been vacationing in California, and we're told that he has some very fine tuna fishing stories to tell. A new air-conditioning machine has been installed over at the First Methodist Church parsonage. The H. L. Thompsons returned home Friday night after several weeks in Konowa, Okla., where he overhauled a peanut mill. He'll be back on the job at the Cisco Peanut Company soon. Mr. Ray Judia reports that fishing hasn't been worth much in these parts lately. Too dry and too hot even for the fish.

## Local Girl Wins Contest Award

Miss Darlene Parmer has arrived home after a seven-week vacation in Harlingen, visiting in the home of her cousin and husband, Mr. and Mrs. E. E. Black. While in Harlingen, Miss Parmer entered the Valley Beauty contest for "Miss Capital," baseball sweetheart. Thirty-four girls from surrounding towns entered the contest. Miss Betty Andrews won first place and received \$100 to pay her expenses to Dallas where she will enter the "Miss Texas" contest.

Miss Parmer, wearing a black velvet, one piece bathing suit trimmed in rhinestones, won second place and received \$30 for her prize. Miss Parmer plans to return to Harlingen next month where she will accept a position with a business firm there. She is a graduate of Cisco High School and was drum major of the Lobo Band during the 1950-51 school year. She is the daughter of Mr. and Mrs. Travis Parmer of Cisco.

## FIFTY LOBO TEAM CANDIDATES DUE FOR FIRST GRID PRACTICE

Some 50 candidates for the 1952 Cisco High School football team are expected to report Monday to Coaches Jack Everett and Jay Williams for the first practice sessions of the new grid year. All candidates for the team have been asked to be at the high school dressing room at 8 a. m. to be issued equipment. Nine lettersmen are expected to be among the 50 men reporting this week. These men include Ervin Brunkenhoefer, Jimmy Webb and Gerald Birt, ends; Sherwood Gaines, Daniel Gray and Jim Reynolds, tackles; Bobby Qualls, center; and Bob Black and Boy Gallagher, backs.

Squadmen and "B" team lettermen expected on Monday include Marcos Gallegos, Bob Lloyd, Andy Mosley, Carl Ingram, Monte Ingram, Sonny McCrean and Mack McCauley. The coaches will face a pretty thorough rebuilding job after losing so many men through graduation last spring. Two guards who had been expected back moved or left town. Coach Everett said he would install the "T" system and use variations of the double wing spread, discarding the single wing operation he has used for several years. Gallagher and Lloyd appear to be in line for the passing chores and signal calling duties at the moment.

Brunkenhoefer, who is regarded as one of the 2A-10 circuit's top wingmen, may be moved to the backfield, depending on how things shape up. Coach Williams, originally hired as a "B" team coach, has been given the line coaching assignment due to Carroll Tatom's departure for Army duty. Williams went to high school at Putnam and played football at Howard Payne. He had a highly successful 3-year coaching experience at Hermligh before coming here this summer. Everett said plans call for two workouts a day until school work begins.

## Failure To Dim Lights Is Costly To Abilene Man

The chances are good that M. M. Webb, Abilene, will dim his auto lights the next night he drives down a highway and somebody in an approaching car snaps a "please dim your lights" signal at him.

Webb was in trouble Saturday and it probably never would have happened if he had dimmed his lights like City Policeman Herschel Wooten though he should have done.

When Webb failed to respond to Wooten's signal, Wooten stopped him in West Cisco. And the officer found 41 cases of beer in Webb's car. A call to the liquor control board at Abilene brought an agent and he took Webb to Eastland early Saturday and filed charges against him for possession of too much beer.

What is more, the City of Cisco fined Webb \$1 for failure to dim his lights.

## Hobby Fair Seen As Huge Success

The Hobby Fair held Saturday in the old J. C. Penney Company building was a complete success both in the number and quality of exhibits and the number of visitors that attended the first of what Hobby Club officials hope will become an annual affair.

The Hobby Club, a Community Chest sponsored project, was begun to give teen agers something to work on during the summer months. The success of the program was evident by the number of exhibits in the fair and the quality of the work. It was reported that there was an average meeting attendance of 40 during the summer months.

More than 150 hand tooled leather belts and 75 billfolds were made during the meetings. In addition there were classes in metalcraft, woodcraft, Christmas and textile painting, etching and many others.

The fair Saturday was not confined to club members and there were hundreds of items made by adult hobbyists on exhibit. A complete list of the exhibitors and a final account of the fair will be in an edition of the Press this week.

## Highway Policy Group Will Meet

ABILENE, Aug. 30. — First meeting of the Highway Policy Committee of the West Texas Chamber of Commerce will be held here September 12 beginning at 2 p. m., Chairman Virgil P. Patterson of Amarillo has announced.

The committee has 100 members ten representing each of the WTCC districts. In a preliminary planning session recently, a steering committee voted to recommend that this committee conduct in West Texas a program of education as to highway problems confronting the state.

The steering committee also recommended that the WTCC refrain from making any suggestions as to how additional revenue for highway should be obtained. Patterson said the steering committee felt that policy should be adopted because Governor Allan Shivers had announced he will name a statewide committee to study highway problems and that the governor's committee should make decisions affecting financing of construction and maintenance of roads.

## Funds Allocated For County Road

Robert J. Milligan, district highway engineer of Brownwood, has announced that \$125,000 had been set aside by the State Highway Department for the improvement of some three and a half miles of Highway 36 from the Callahan County line to Pioneer in Eastland County.

Mr. Milligan said that it would probably be in the spring of 1953 before the contract could be let and the project started. Plans call for the widening of the stretch, the building of wider bridges and the elimination of dangerous curves. Here are some major provisions of the mourning dove regulations:

# High School Students To Begin Class Registration This Week

## Drill Stem Test Ordered For Oil Test Near Cisco

A drill stem test was scheduled to be run Saturday afternoon in the Connally-Jackson No. 1 Theresa Weddington, deep oil test just west of Cisco, after the Lake sand pay horizon was topped at 3,500 feet. Results of the test were not available in the afternoon Saturday.

According to reports, the test was ordered after drilling three feet into the sand. It was understood that plans called for installing a coring bit to carry the hole through the sand before setting pipe if it is decided that an oil well is possible.

A new location for the Cisco area was the Connally-Jackson No. 1 Albert A. Hansen, three miles northwest of Cisco. Location for the test was given as 330 feet from the north and west lines of the southeast quarter of Section 501, SP Survey. The permit calls for 4,400 feet.

It was understood that the test would be started within two weeks. This will be the first oil test on the Hansen property near Lake Cisco. Connally-Jackson, Abilene operators, were reported to have taken the lease under a farm-out agreement with the Bankline Oil Company.

## Baird Newspaper Has New Owner

The Baird Star, for the past eight years owned by Marvin Hunter, Jr., was sold last week to Charles M. Isenhower of Valley Mills who will take over ownership Monday, September 1. Isenhower, a Valley Mills rancher, will not move to Baird until he disposes of his ranch property. The paper will be run with Pleas Scott, a newspaperman with many years experience, in charge.

Mr. Isenhower was born in Putnam on August 29, 1916. He attended Abilene Christian College and Hardin-Simmons University and studied law at the University of Texas. Mrs. Isenhower is the former Miss Opal Lee Brown of Albany. They have one daughter, 11 year old Wanda Jean.

Mr. Hunter announced that he planned to devote full time to the publishing of Frontier Times magazine with his father and the publication of a number of books. He plans to move from Baird when a location for the magazine can be found.

## BILL ALLEN GRANTZ

Rev. and Mrs. Harry Grantz of Putnam announce the birth of a son, Bill Allen, born Thursday, August 21, in the Ranger General Hospital. The infant weighed eight pounds and twelve ounces at birth. The grandparents are Mr. and Mrs. C. E. Reynolds and Mrs. Eula Grantz, all of Cisco.

## DOVE HUNTING SEASON OPENS MONDAY; CROP IS PLENTIFUL

AUSTIN, Aug. 30. — The Executive Secretary of the Texas Game and Fish Commission said the Texas dove season opener September 1 is expected to be heavily patronized.

He said the fact that Monday is Labor Day and that mourning doves are reported plentiful in some areas could combine to produce a record turnout for the North Zone opener.

The North Zone season runs from September 1 through October 10. The South Zone runs from October 1 through November 9. The Executive Secretary said field reports generally indicate a good fall shoot on the fleet mourning doves.

He emphasized the fact that conditions change quickly as concerns doves, citing that the old saying "here today, gone tomorrow" best applies to these game birds. They are very sensitive to weather and food conditions.

## SAFETY INSPECTION IS YOUR PROTECTION

The Texas Department of Public Safety records show that 2,546 citizens were killed on Texas highways in 1951. About 13% or 300 of these deaths involved defective cars and trucks. The Texas Motor Vehicle Inspection Law is aimed at reducing this 13% by getting all motor vehicles in safe operating condition. Motor Vehicle Inspection will tell the automobile owner whether or not his car is in safe operating condition. The Texas Safety Association urges you to have your car inspected now — before the September 6th deadline.

## SEVERAL FAMILY REUNIONS ARE PLANNED HERE THIS WEEKEND

Lake Cisco Park will be the scene of several family reunions during the Labor Day weekend, according to reports Saturday. Monday will be a holiday for this area as virtually all business firms have announced plans to be closed for the day.

## Farm Bureau To Meet Here Soon

A. Z. Myrick of Cisco, president of the Eastland County Farm Bureau, will preside at the sub-district meeting of the Texas Farm Bureau Federation which will be held at the Victor Hotel here on September 8. The meeting will begin at 10 a. m. and will be concluded at 3 p. m. All interested farmers as well as Farm Bureau members are invited to attend.

Topics to be discussed at the meeting will be: Raising Money to Finance State and County Government, State and National Issues, and the Fall Membership Drive.

At the park, the weekend activities will include the annual Grindstaff Family reunion Saturday night and Sunday. E. M. Grindstaff, Ropersville farmer, arrived here Thursday to make arrangements for the reunion and to catch enough fish for his big party.

And it appears that the Grandstaffs will have plenty of fish to eat for Mr. Grindstaff's trotline had hooked five or six large catfish and at least one big bass by noon Saturday. He had several hooks straightened out, indicating that some big fellows got away.

Mr. Grindstaff is an irrigation farmer at Ropersville. He reported that his irrigated land will make a bale of cotton to the acre, as compared with a bale to 20 acres on land that hasn't had the benefit of irrigation.

The Grandstaffs have been coming to Cisco for their annual reunion for several years. Members of the family live mostly in West Texas.

The Lenham family, another annual reunion party at the lake, also has cabin reservations for this weekend.

More than 100 members of the Kidd family have reservations here for a Labor Day family reunion at Lake Cisco Park. Their reservations cover most of the park cabins and other facilities here. Waco members of the family are due early to arrange for a Monday noon barbecue.

There will be other gatherings in the park over the weekend. And the weather man has promised continued comparatively cool weather for the long weekend.

Coach Les Cowan of the Rising Star Wildcats has asked all candidates for positions on the Wildcat squad to report to him Monday in the equipment room at Wildcat Field.

At the first meeting equipment will be issued and a short workout will be held. Plans call for holding of two drills daily until school begins on September 8. Drill time has been set for 8 a. m. to 10 a. m. and 6 p. m. to 9 p. m. in order to take advantage of cooler weather.

## Teaching Staffs Complete To Open New School Year

High school students will begin registering for the 1952-53 school year Tuesday and will continue registration through Friday, it was announced Saturday by Superintendent Arlin Birt.

Members of the Senior Class will register Tuesday, beginning at 8 a. m. The school office will remain open until the registration is complete. Juniors will register Wednesday, Sophomores on Thursday and the Freshmen will register Friday. The office will open at 8 a. m. daily and the students may register any time during the day.

School will begin with a full day Monday, September 8, Mr. Birt said. It was decided to have a full schedule Monday due to the late date of the school opening. The opening was postponed for a week because of the hot weather, he added.

Many changes have been made since school ended in May and officials have been busy all summer preparing for the changes and getting the physical plant in top condition.

The principal change will be the utilizing of the facilities of the East Ward School. All children living in East Cisco in the first through the fifth grades will be required to attend school there. Mr. Birt pointed out that the building was one of the best in the system and that the decision to use the complete building was made to relieve the crowded condition at West Ward.

R. D. Holmes of Brownwood has been employed as principal of the East Ward School. He is a graduate of howard rayne college and majored in administration. Mr. Birt asked for the cooperation of all the parents in the schools' efforts to relieve the crowded conditions of other schools. The school board had not set the dividing line but planned to do so prior to the opening date.

Students in the sixth, seventh and eighth grades will attend classes in the new grammar school building which was completed during the summer vacation period. Roy Killingsworth will remain as principal of the school. C. B. Midkiff will serve as principal of West Ward and V. C. Overall will begin his second year as high school principal.

The schools will open with a full slate of teachers with the possible exception of a football coach for the junior high. All efforts to secure a coach for junior high have failed so far, but it was hoped that one would be employed by school opening time. Mr. Killingsworth will serve as coach until one is employed.

Paschal Goza of Fort Worth, a TCU graduate, has been employed as high school science teacher, and Owen King of Cisco has been named DE coordinator. Mrs. James Moore and Mrs. Edward Lee have been transferred from grammar school to high school where Mrs. Moore will teach English and Mrs. Lee will teach civics and social science. They will replace the former Miss Doris Joe Pyle and Doro Looney. Jay Williams has been added to the high school coaching staff replacing Carroll Tatom who entered the Army in August, and will teach in the math department. Mrs. Bill Bledsoe will be at grammar school this year since a drop in average daily attendance gave the schools one less teacher. There will be no regular PE classes for girls at high school during the coming school year.

Mrs. O. O. Odom, Jr., has been added to the staff of West Ward where she will teach the third grade and public school music. Mr. Birt pointed out some regulations and changes he wished called to the attention of parents and students. In a recent ruling the school board decided that married students would not be allowed to attend Cisco Public

PRESIDENTIAL CAMPAIGN OPENS

Some of the commentators have written that they don't expect General Eisenhower and Governor Stevenson to differ greatly on many of the campaign issues.

That remain to be seen — both candidates have said that they mean to make a top issue out of foreign policy so they must believe that they have a real cleavage of opinion when it comes to that all-important matter.

FOR SALE

- Beautiful garage apartment. See me today.
Nice 5 room house, 2 lots on E. 14th. Priced at a bargain.
Beautiful 2 bedroom home & garage on 10th. Bargain!

the Republicans will hit very hard on two issues. One is that 20 years is more than enough time for one party to hold power — that it must be turned out of office lock, stock and barrel if the government is to be cleansed, the corruption stopped, and the dead-wood eliminated.

These are very difficult charges to effectively answer, and Governor Stevenson obviously knows that. In his acceptance speech he made a point of saying that the Democrats must not try to excuse or belaud corruption and wrongdoing but must thoroughly clean house themselves.

Even so, and in spite of Governor Stevenson's excellent record of honesty and integrity in administering the affairs of Illinois, he has a hard job ahead. No one believes that he would countenance corruption, whether it be of the mink-coat, deep-freeze type or something much greater.

So it is quite likely that General Eisenhower's strongest talking point — unless the foreign policy debate is developed to where it overshadows everything else — will be in the nature of "turn the rascals out."

LADIES AND PETS

TO EACH HER OWN—At a zoo in London, six-year-old Rosemary Coppack is giving a friendly sheep a snack, top left, as little Gayle Christoferson finds room for herself and Shetland pony under an umbrella in Hopkins, Minn., below. Joyce Fernstrom, seven, is using an eye-dropper to feed milk to a bunny in Minneapolis, Minn., upper right, and Mrs. Betty Daly has her hands full in Fort Worth, Tex., with an assortment of pets.

How to Watch Football Games Explained by Famous Coaches

Watch the blocks and the actions of the kick-coverers if you want to appreciate the kick-off. Diagram from "How to Watch Football."

Do you know what to watch for at the kick-off in a football game? Do you know where to look for exciting action on a pass play? Do you know a T-formation from a Split-T?

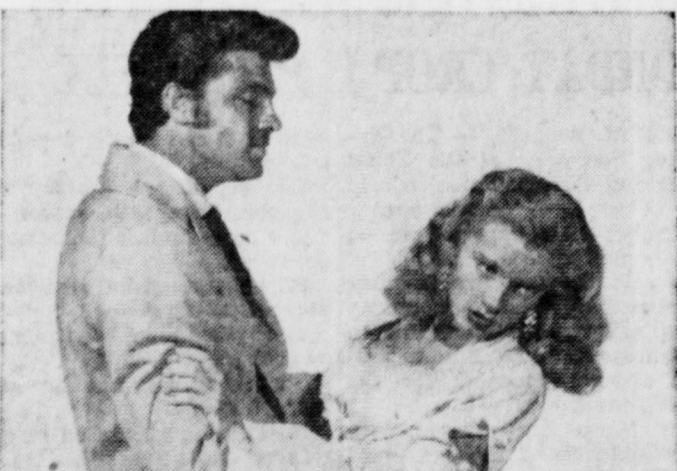

To get enjoyment out of a football game, you needn't know how to play, but you ought to know what to watch for. That's the consensus of eleven famous football coaches who have combined to write a new 48-page illustrated booklet on the fine points of being a football spectator.

Entitled "How to Watch Football," it is authored by top-flight mentors of the Big Ten and Big Seven conferences and carries the endorsement of The American Football Coaches Association.

The booklet may be obtained free of charge from Phillips' 66 Dealers in this area.

Ray Eliot, head football coach at the University of Illinois advises, "Don't keep your eye on the ball." If you want to appreciate football's most spectacular play—the kick-off. Instead, watch how the receiving team forms interference.

Small Concerns Exempted By OPS

DALLAS, Aug. 30. — Small manufacturing concerns that do less than \$25,000 gross business annually have been exempted from price controls, R. G. Berle, OPS regional manufactured goods chief, announced in Dallas. The exemption became effective August 20.

Specifically, the exemption applies to manufacturers whose gross sales did not exceed \$25,000 in their last complete fiscal year prior to July 1, 1952. A new manufacturer who does not expect to sell more than \$25,000 in his first fiscal year ending after July 1, 1952, likewise is exempt.

Heretofore, manufacturers subject to the GCPR were exempt only if they sold not more than \$1,000 monthly of products made in their own homes without the aid of hired employees.

The new exemption affects many small businesses manufacturing such items as hand and garden tools, fishing lures and other fishing and sports equipment, wooden-ware, cabinet work, toys, and numerous other articles made in small or part-time establishments.

NOTICE: Reimers Cleaners will be open for business after vacation TUESDAY, Sept. 2. We Will Appreciate Your Business.

# SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

## SPONGE CAKE DEMONSTRATION IS GIVEN BY COUNTY LEADER

"Sponge cakes are a problem in egg cooking rather than in cake baking," stated Mildred Daniel, County Home Demonstration Agent, at a demonstration in Eastland, Friday morning.

Food leaders from the various Home Demonstration Clubs in Eastland County met in the Christian Church Annex to watch a demonstration on the preparation and serving of sponge cakes. Each leader will then give the demonstration to her club at a meeting in September. The work done by the food leaders is important because it serves as a link to fill in the space between programs provided by the agent.

A legend of "where we got our idea of cakes" was told by the agent as an introduction to her demonstration. The introduction was followed by a discussion on the nutrients provided in the sponge cakes. A large per cent of the daily requirement of certain minerals and vitamins is provided in one ordinary slice of sponge cake. This is true because of the quantity of eggs used in the preparation.

Sponge cakes may be served plain or may be frosted. In her demonstration, the agent used a simple lemon frosting made with confectioners' sugar. She pointed out the fact that when a frosting is used it should be of a flavor

that will blend with the cake. Since the sponge cake is a simple or light dessert, it may be served with a heavy meal.

To close the demonstration, Miss Daniel pointed out these rules to be remembered in preparing sponge cake; Use accurate measurements, use eggs at room temperature, sufficient beating of egg yolks and sugar is important factor in making a good sponge cake, egg whites should be beaten stiff but not dry, cook at correct temperature, and use good quality ingredients.

After the demonstration each member was served a slice of sponge cake and was given the opportunity to ask questions about the procedure that she felt the need for.

Present for the demonstration were: Rising Star, Mrs. B. H. Hairren, Mrs. Clarence Stroebel, Mrs. Henry Scott, Mrs. C. M. Harris; Okra, Miss Winona Childers, Mrs. Gene Hill; Cisco, Mrs. A. J. Woolsey, Mrs. W. C. Clements, Mrs. D. Ball, Mrs. A. A. Hansen; Desdemona, Mrs. Geo. Moore, Mrs. J. E. Heeter; Ranger, Mrs. John Love. Two visitors were also present.

Mr. and Mrs. S. N. Poe have as their guests over the weekend, their son and wife, Mr. and Mrs. Robert J. Poe, of Beaumont.

## Approaching Marriage Announced

Mr. and Mrs. George P. Fee are announcing the engagement of their daughter, Linda, to Mr. Raymond E. Fairchild of Abilene, son of Mrs. I. E. Fairchild of Athens, Ohio, and the late Mr. I. E. Fairchild. The wedding has been planned for Saturday night, October 11, at the ranch home of Mr. and Mrs. Fee near Cisco.

Miss Fee is a graduate of Cisco High School and the University of Texas. Mr. Fairchild holds degrees from Ohio State College at Athens and the University of Missouri. Miss Fee is employed in the offices of Sun Oil Company in Abilene and Mr. Fairchild is with the Atlantic Production Company in their Abilene offices.

## Crops, Pastures Fade Further In Wake Of Drought

Crop and pasture prospects faded further as the serious drought with scorching 100 to 107 degree afternoon temperatures continued over most of the state during the past week. Scattered showers in the northern high plains and also along the upper coast lowered temperatures and gave temporary relief in those areas but soaking State-wide rains were urgently needed. Harvesting the short corn crop was moving at a fast clip and combining rice along the upper coast was gaining momentum.

Cotton prospects declined further throughout much of the state as damaging hot, dry weather continued. In east Texas and some Red River bottom areas conditions remained fair to good and good yields were being realized in the Coastal bend and upper coastal counties. In central and northern blacklands, however, growth and fruiting was stopped, shedding was excessive and picking of prematurely opened cotton was becoming general. Most of the extreme southern low rolling plains acreage was beyond recovery and prospects over the northern low rolling plains continued to decline.

Dry range and pasture feed was steadily diminishing as the severe droughty conditions continued. Supplemental feeding of hay and concentrates was necessarily increasing and becoming wide spread as dry grass supplies neared exhaustion. Many farmers in central and some eastern counties were depending on surface tanks at streams were out of stock water. Movement of cattle, calves and sheep off the dry ranges was very heavy.

### BOARD PLANS MEETING

The Advisory Board of the Order of Rainbow for Girls will meet Monday evening at 8 o'clock in the home of Mr. and Mrs. L. A. Hooker. Important business matters are to be discussed and all members were urged to attend.

### WILL ELECT OFFICERS

The Order of Rainbow for Girls will have election of officers at their regular meeting Tuesday evening at the Masonic Hall. All members are urged to attend.

Mrs. T. E. Lisenbee is visiting relatives in White Face, Texas.

Mr. and Mrs. James Bryant and son, Larry, of Midwest City, Oklahoma, are visiting in the home of his mother and husband, Mr. and Mrs. J. H. Hyatt.

Mr. and Mrs. Richard Carey of Dallas were expected for a weekend visit in the home of Mr. and Mrs. W. Z. Latch.

John Stansell, Jr., son of Mr. and Mrs. John Stansell of Houston, plans to leave for his home Tuesday after spending the summer in Cisco in the home of his grandparents, Mr. and Mrs. H. C. Nix.

Mrs. Cate Atkins arrived in Cisco Friday after a visit with her daughter and family, Dr. and Mrs. W. R. Walker and son, in Flomaton, Alabama. Mrs. Atkins made the trip by air.

Mrs. O. O. Odom, Sr., of Fort Worth was in serious condition in Methodist Hospital in Fort Worth Saturday. Her son, O. O. Odom, Jr., of Cisco planned to leave Saturday to be at her bedside.

Mr. and Mrs. E. J. Wende have returned from a weeks visit with their sons and their families in Houston.

When in Moran, you are invited to refresh yourself at our fountain and rest in the cool of our airconditioning.

Moran, Texas — Phone 138

## Paul Douglas Given Discharge By Army

Pfc. Paul R. Douglas was discharged from the U. S. Army at Fort Bliss on August 22 after serving for the past two years in Korea and Japan. He is the son of Mr. and Mrs. George Douglas Sr., of Cisco.

Mr. and Mrs. Paul Douglas and son, David, have been visiting his parents here. He plans to make his home at Kermit.

### FUNERAL RITES SUNDAY

Funeral services for Henry A. Cagle, 88, father of Mrs. Hardy Q. Evans of Cisco, will be held at 4 p. m. Sunday at Frost, Texas. Mr. Cagle died at 8:30 p. m. Friday in Three Rivers, Texas, at the home of his daughter, Mrs. B. S. Shumate. Born in Alabama in 1864, Mr. Cagle came to Texas in 1893 and lived at Frost until 1949 when he moved to Three Rivers.

### ENJOY PICNIC PARTY

The M.Y.F. of the First Methodist Church met at Breckenridge Thursday evening for a picnic and swim.

The group reports a very enjoyable time. Thirty attended from Cisco.

Mr. and Mrs. George Douglas, Jr., and son, Butch, of Kermit have been visiting in the homes of their parents, Mr. and Mrs. Geo. Douglas, Sr., and daughter, Jacqueline, and Mr. and Mrs. M. L. Preston and Marilyn.

Lieut. and Mrs. Cecil Halbert, Jr., are spending a few days with their parents. He is being transferred by the Air Force from Keesler Field, Miss., to Alexandria, La.

Will be closed from Tuesday, Sept. 2, to Monday, Sept. 8, while we re-decorate our building.

Our plans are to give you a more attractive and more comfortable place to eat away from home.

## IS YOUR CREDIT WELL GROOMED?

"or is it on the sloppy side?"

Have you ever judged a woman or a man by their appearance? Have you ever formed a prompt opinion about someone . . . just by their well groomed or "sloppy" look?

Your credit rating works the same way . . . it can be well groomed or droopy and straggling. Keep your credit appearance just as you keep up your personal appearance. A credit impression is just as important as a personal impression . . . spend some time on your budget . . . see that your bills are paid promptly by the 10th of the month following each purchase.

Training me was no problem. My Mom used the convenient

**"Big Bear-Little Bear"**

3 in 1 fixture

It was no trouble for Mom, because the trainer is part of the seat . . . always there when needed. It was great for me, too, with its comfortable back rest and handy safety strap.

When I grow a little, Mom's going to fold down the back rest and safety strap. Then I'll be able to use it by myself.

My trainer snaps neatly in the cover, leaving the regular seat for the grown-ups. It stays firmly in place, so the cover can be lowered as before.

You'll want to see the Big Bear-Little Bear for yourself. See it today.

**JAPANESE BREWERY**—Under snow-like yeastcaps in Tokyo, beer is being fermented. After a week in one of these vats at nine degrees centigrade, it's placed in storage vats where it matures in two months. The Japanese have been making beer for a wide market since 1872.

### Rising Star Youth Is Awarded Degree

Mr. and Mrs. Raymond Gray of Rising Star attended graduation exercises in Lubbock recently for their son, Kenneth, who graduated as an honor student in the division of agriculture.

Young Gray was among the top five per cent of his class and received a letter of commendation from the dean of the Lubbock school.

"Study needs Good Lighting!"

### Good report cards start with a ... "Light Conditioned" Desk

Brighten your boy by brightening his books! Light Conditioning helps you do it — by giving him the kind of light that's proved best for studying.

A Light Conditioned study desk makes homework easier, less tiring, and students happier. With scientifically planned light, eyestrain is reduced to a minimum. And since it's easier to study, it's easier to learn. Homework is finished faster.

Now is the time to Light Condition your home. We will be glad to help you select the right kind of lamps and fixtures and the right size bulbs to use in them.

Better sight with better light! Protect young eyes with proper lighting. Always be ready with a spare.
