WHAT'S YOUR PAY?

American workers may be richer than they think. For only part of their pay shows up in the pay envelope. Some of it goes into a variety of benefits they're likely to forget when they count their cash wages. The first specific figures on this fascinating subject of "forgotten wealth" have been published by the Chamber of Commerce of the United States. They turn up some surprising facts about the size of "hidden payrolls" and their rate of growth since 1947.

For example, the average of 736 employers surveyed by the Chamber paid \$644 per employee in 1951 over and above cash

per employee. These fringe benefits include social security, unemployment and workmen's compensation, sickness accident, hospitalization and death benefits; terminal pay; discounts on goods purchased, free meals, pensions; savings and stock purchase plans; paid vacations, holidays, rest and lunch periods; profit-sharing and bonus arrangements.

Most of these fringe benefits are paid voluntarily by companies. Only such benefits as unemployment and workmen's compensation, old-age and survivors' insurance and off-the-job disability insurance (in effect in four states and on the railroads) are required by law.

Fringe benefits do not include extra pay for night shift and Sunday work or straight production bonuses, all of which are considered part of the regular payroll.

Incidentally, the amount of fringe benefits varies widely from company to company and from region to region.

But if a given company pays less than the average that doesn't mean it is laggard. The Chamber points out that often both employer and worker prefer to see wages reflected chiefly or entirely in the pay envelope, rather than in "fringe" benefits. However, there is one big

Advertisement for U.S. Series E Bonds with text: 'This means more money to you! NOW YOUR U. S. SERIES E BONDS CAN EARN INTEREST 10 EXTRA YEARS'

ALL YOU WISE and patriotic people who bought United States Series E Bonds ten years ago and have held them can benefit by this new law! For according to this law the bonds you expected to mature finally in 1952 can now continue to earn interest every year for ten more years—till 1962—without your even lifting a finger!

To get this extra money, there's absolutely nothing you have to do. Just hold your bonds and let them go on earning!

You may still cash any Series E Bond at any time after you've owned it for sixty days. But you'll be better off to hold your bonds, just as you're better off to hold savings in any form.

Cash in the pocket melts away fast—often with little or nothing to show for it. But cash in bond savings is always there—growing steadily toward the big sum which can buy something really worthwhile. . . . And remember—the interest rate on Series E Bonds has been increased to 3% compounded semiannually, when held to maturity.

So if you have bonds coming due, why not just sit back and let them go on making more money for you? And meanwhile keep adding to your cash savings by buying more bonds regularly—through the Payroll Savings Plan where you work. It's the easy, systematic saving plan that's so helpful because it lets you save before you even draw your pay. Thousands say it's the one sure way to save.

3 new money-making opportunities for you! New Series H, J, and K Defense Bonds pay 2.76% to 3%!

If you want to get the interest on your bonds in the form of current income, or if you want to invest more than the annual limit for E Bonds, ask at any Federal Reserve Bank or Branch about these new bonds:

SERIES H. A new current income bond, available in denominations of \$500 to \$10,000. Sold at par. Matures in 9 years 8 months and pays approximately 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Annual limit, \$20,000 maturity value. Issued only by Federal Reserve Banks and Branches and at the Treasury.

SERIES J. A new 12-year appreciation bond, available in denominations of \$25 to \$100,000. Sold at 72% of par value. Pays 2.76% compounded semiannually if held to maturity. Annual limit, \$200,000 issue price jointly with Series K Bonds.

SERIES K. A new 12-year current-income bond in denominations of \$500 to \$100,000. Pays interest semiannually by Treasury check at the rate of 2.76% per annum. Sold at par. Annual limit, \$200,000 issue price jointly with Series J Bonds.

Working Their Way Thru College-USA

Dreams came true for 66 girls—all members of the biggest sorority without a college campus. Last week these members of Sigma Alpha Sigma—Midwest sorority for working girls only—took over the business, scenic and night life of New York City. On a sailor's holiday they observed careers in action of 106 food specialists in the General Foods Consumer Service Department kitchens at 250 Park Avenue. Typical of the group is Jeannette Gryzwana, (extreme left in the first row, top picture). Jeannette is a clerk in the advertising department of a national mail order house and had never been to New York before. Her SAS membership made it possible to have a week in New York with total train, hotel, food and expenses for around \$150. Left middle picture shows Jeannette, Nancy Muhull of Chicago and Donna Johnson of Racine, Wisconsin, learning all about recipe testing from Vera Swope, GF

home economist. Right, Ginny Mahoney describes technology of jolly recipe testing to Jeannette and Nancy. The girls took part in the actual recipe testing of a new minute rice product, as seen in the bottom picture.

Sigma Alpha Sigma, or "the miracle of Jackson Boulevard" sprang from an idea of Muriel Davis (second from left in bottom picture). It was Muriel who conceived the idea of a non-profit organization of working girls, which would give them a chance to explore the country at cut rates from a handful of girls in 1946. SAS now has 2000 members and a long waiting list. Most members are in their twenties. It operates on the idea that a group can get better rates for travel—transportation, meals and rooms. The idea works. On top of it all the State of Illinois granted Muriel a charter in 1948. Now there are SAS chapters all over the middle west—and the idea is spreading fast.

MEADOLAKE IS THE BETTER SPREAD FOR OUR DAILY BREAD

What about your civilian affairs if you are called into military service? You may save yourself and your family a great deal of difficulty and worry by considering right now some of the problems that may arise.

All during World War II and in the present Korean conflict, a special committee of the State Bar has handled literally thousands of disconcerting legal entanglements for servicemen. Members of the group say that many of these difficulties could have been avoided if the soldiers involved had taken a few simple precautions before leaving civilian life.

After you enter the service, keep in mind that this group, the State Bar committee on Legal Assistance to the Armed Forces, stands ready to help when necessary. Every county in the state has a Legal Assistance Chairman whose responsibility is to look into local matters when requested by a serviceman. The committee and the county chairman may be contacted through State Bar of Texas, Austin, 15, Texas.

But before going into service, here is a partial list of things to do to protect yourself and your family:

Execute a power of attorney in recordable form if you want someone to be able to act for you in your absence.

Rent a safety deposit box, collect your important documents and store them in it.

Have a will prepared, or revised to suit any changed conditions.

Arrange for payment of outstanding bills or loans. The Soldiers and Sailors Civil Relief Act protects you against entry or judgment while in service.

Check your life insurance. Be sure the beneficiaries are correct — if the beneficiary is to be paid in monthly installments, is the amount now adequate in the light of the present deflated dollar? Arrange for premium payments.

If you have a lease on your business or residence arrange to cancel or sublet; provide for getting premises back when you return. If you give proper notice the Soldiers and Sailors Civil Relief Act may save you from further liability under leases after your departure.

Check your fire and personal property insurance policies for expiration dates, proper coverage and address. Get a rebate if you cancel.

Be sure your automobile license and insurance are available and in the name of the proper person. If your car won't be used for business purposes you may be entitled to a reduced premium.

Leave with some person, other than your wife, complete data as to yourself, where you are, how you are to be reached. Keep that person informed of changes while you are away, so he can reach you in an emergency.

Consolidate your bank accounts and open a joint account. Arrange for statements, allotments, etc. Check your credit resources and arrange for your family to obtain credit or loans in emergencies.

If you are under 26 and called in the reserves, notify your draft board. File a change of address card with the post office and have your mail forwarded to some responsible person.

If you have a mortgage or land contract arrange with the lender for deferment of principal payment, if necessary. Check GI loan provisions and the Soldiers and Sailors Civil Relief Act.

The Next Best Thing —  
... to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then becomes the most important item to be considered when purchase of real estate is contemplated. So be careful to buy only good titles based on an abstract of title.
