NUMBER 246

## The Gay Philosopher

By J. W. S.

**YOU CAN'T WIN.** That has been proved by the Breckenridge football teams. The Bucks have been winning their conference just about every year, and the conference has voted them out. Under the rules of the Texas Interscholastic League, schools must have 500 students to be in the AAA circuit. If they don't have that many, they can be admitted by a vote of approval by the other schools in their conference.

Yesterday, Breckenridge's conference met and voted to include the Bucks out next year. The Bucks have now made application for membership in another AAA circuit. If this is voted down, they'll go back into AA and will play with District 10 composed of Cisco, Stephenville, Ranger and Comanche.

Weatherford was voted out along with Breckenridge. The officials at Weatherford doubted if they're situated right to get into another circuit, so they'll probably be in AA-10 next year.

**A VISITOR IN OUR OFFICE** Monday was Mr. Omar Burkett, who has been elected as state representative of the new 76th District, composed of Eastland, Callahan and Shackelford Counties. He's now working with the state land office in Austin and will be until the Legislature opens up for work next January.

Mr. Burkett came to Eastland County in 1892. His father was the late J. H. Burkett, famed pecan grower, who died in Baird in 1945.

The Burkett pecan was named for him. The original Burkett pecan tree was located on a creek near Putnam. From this tree, Mr. Burkett grafted trees for his first Burkett. The first tree, by the way, is no more. It was on the banks of a creek, and big rains finally caused a cave-in that toppled the tree.

Mr. Omar Burkett was a member of the Legislature from 1939 to 1945, serving the old 17th district (Eastland and Callahan Counties). He and Mrs. Burkett live on Highway 80 between Cisco and Eastland.

**THEY'RE DRILLING** a water well on the courthouse lawn over in Eastland these days. The hole was about 120 feet deep Monday and still no water was in sight. Didn't find out how deep they planned to go.

The county decided to drill its own well due to the water shortage in Eastland. The county uses considerably water at the courthouse. The building is steam heated, necessitating quite a volume of water. And they want to keep the lawn and shrubbery pretty.

**COUNTY CLERK** Virgil Love told us that all of the general election votes have now been counted. General Eisenhower received 4,518 votes and Governor Stevenson got 3,386. The general won by 1,132 votes. The two candidates received a combined 7,904 votes. With scattered other votes and ballots voided for one reason or another, the total vote went well over 8,000.

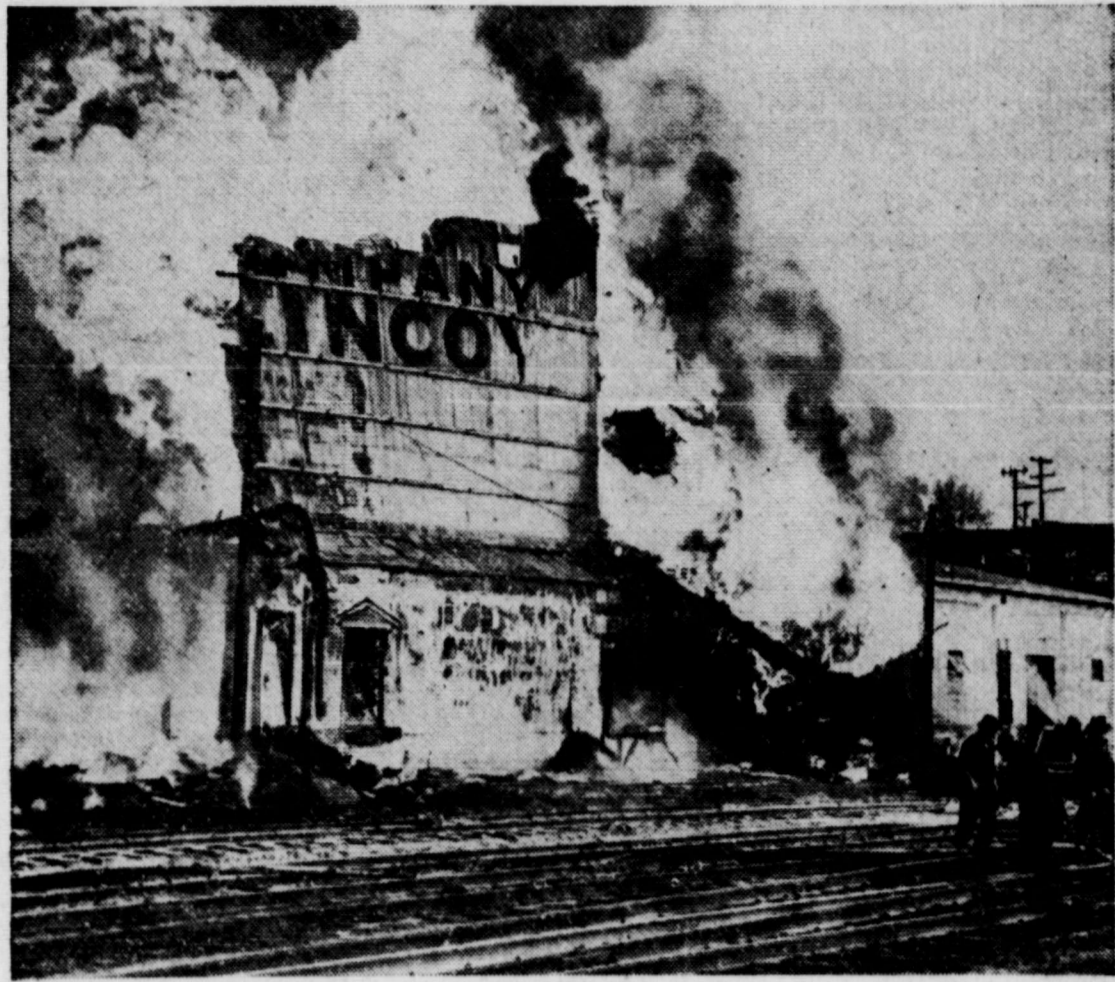

The county approved the insurance amendment, 2,483 to 1,904, and was opposed to the medical school amendment, 2,549 to 1,839.

**CONGRATULATIONS** are in order for Mr. A. Z. Myrick, Cisco farm and ranch leader for many years. He has been re-elected president of the Eastland County Farm Bureau for another year. At the recent meeting, Mr. Myrick was also presented a certificate for singing up 25 new members. He was elected a delegate to the state convention which was to have opened yesterday in San Antonio.

Mr. Myrick deserved this fine honor and many others for his splendid work over the years. We never heard of an instance when he didn't respond enthusiastically when called upon for civic work.

**SEE MR. JOE** Comingore back in town. He's the Humble gent who has been down in Houston for the past several months doing vacation relief work. And now, Joe is back in Cisco on vacation. Understand the Comingores are back here to stay. Welcome home.

FIRE AND THEFT PROTECTION Is Per Day For Safety Deposit Box 1ST. NAT'L in Cisco—Mr. F. D. L. C.

**HOTTER THAN HOT**—Part of a wall of a grain elevator in Omaha, Nebr., is buckling from the intense heat as firemen move to safety, right. Thousands of bushels of grain were lost in the blaze, with damage estimated at approximately \$500,000.

## NTSC Group Will Present Concert Here On Friday

DENTON, Nov. 11.—Concert works, Elizabeth numbers, and a performance of Menotti's one-act opera, "The Telephone," will be included in the "Candlelight Concert" at 2 p. m. Friday, November 14, the Cisco Junior College Auditorium, sponsored by the Music Club.

The "Candlelight Concert" features four students from the North Texas State College School of Music. The concert is sponsored by Music Club, and tickets are 35 and 50 cents.

Student musicians are Pat Porter of Shamrock, soprano; Ted Vestal of Sherman, bass; Claude Kenneson of El Paso, cellist; and Elaine Weick of Henderson, pianist.

Cast for "The Telephone" stars Miss Porter as Lucy and Vestal as Ben. Kenneson, a scholarship student at NTSC, will play a group of cello solos. As a special feature of each program, he will use a machine to record his own piano accompaniment.

In addition to accompanying, Miss Weick will be presented in piano solo. A scholarship pupil of Dr. Eilvio Scionti, resident pianist at NTSC, the 18-year-old pianist has won the highest division of the National Piano Guild contests for three years.

## JEWEL FAY WRIGHT

Mrs. Clyde Wright has announced the arrival of a daughter, Jewel Fay, born November 7 in the Ranger General Hospital and weighed five pounds and fifteen ounces. Jewel Fay has two sisters.

## FOOTBALL DOUBLEHEADER WILL BE PLAYED HERE ON THURSDAY

Another football doubleheader is in store for local fans this week when the Lobo "B" team and the Midgets of Cisco Junior High School meet the Eastland "B" team and the Eastland Junior High School Dogies at Chesley Field Thursday night.

The Lobo "B" team defeated the Eastland team handily in Eastland earlier in the season but will be looking for a harder contest Thursday night.

## Inch Of Rain Falls Over This Region

Approximately one inch of rain fell in the Cisco area Sunday as a cold front moved through this West Texas region. The rain was general over West Central Texas.

## Legion Auxiliary Poppy Sale Nets \$221 On Saturday

Saturday's Poppy Sale was a big success with gross proceeds of \$221.55, it was announced today by Mrs. Beatrice Guthrie, president of the Cisco Unit of the American Legion Auxiliary. About \$120 of the proceeds will be retained in the Unit's treasury for use in helping the families of veterans.

## Ministers Hold Called Meeting

The Cisco Ministers Association met for a called meeting Monday morning at the First Christian Church with the president, the Rev. H. Grady James, presiding. The date of the meeting was changed to the first Tuesday of every month at nine o'clock in the morning at the First Christian Church.

The association voted to invite the Rev. H. M. Ward, pastor of the First Baptist Church, to preach in the community Thanksgiving service to be held at the First Presbyterian Church Thursday November 27, at eight o'clock in the morning. The group also discussed the matter of a united effort in Christian Stewardship.

## IN FORT WORTH HOSPITAL

Billy B. Hart of Fort Worth, son of Mr. and Mrs. John Hart of near Cisco, was in the Harris Hospital at Fort Worth this week for treatment of a stomach ailment. Judge and Mrs. Hart went to Fort Worth on Monday to be with him, and Mrs. Hart remained for a few days. Billy B. Hart is employed by the Sinclair Oil Company.

## County Federation Will Meet Saturday

The Eastland County Federation will hold its regular meeting Saturday afternoon, November 15, at 2:30 o'clock at the Womens Club in Ranger. The 1920 Study Club, Mrs. C. B. Pruett, president, will host the meeting.

An interesting program has been promised and it is hoped that each federated club will have representatives present, states Mrs. Bill Tucker, Federation president.

## Cisco Seaman Goes To Naval Air Center

U. S. NAVAL AIR STATION, ALAMEDA, CALIF. (PHTNC)—Recently reporting for duty was Harold G. Jones, seaman, USN, son of Mr. and Mrs. William R. Jones of Cisco, Texas. The air station is the jump-off terminal for daily flights to Hawaii and the Far East by the huge Martin "Mars" seaplane.

## MEETING DATE CHANGED

The Merry Wives "42" Club will meet November 21 instead of November 14 due to conflicts in dates.

## CHAPTER WILL MEET

The Cisco Chapter No. 190, R.A.M., will hold a called meeting for work in several degrees at 7 p. m. Wednesday, Nov. 12, High Priest Joe Brown announced today.

## Mr. and Mrs. R. V. Rendall had as dinner guests Sunday, Mr. and Mrs. Bill Latch and children of Montana, Mr. and Mrs. E. C. Lloyd of Waco, Mr. and Mrs. Robert Rendall of Wichita Falls, Mr. and Mrs. Richard Carey of Dallas, Mrs. G. P. Rainbolt, and Mrs. W. Z. Latch of Cisco.

Miss Freda Grist underwent major surgery in the Hendricks Memorial Hospital in Abilene Monday and is reported as doing nicely. Her room number is 343.

Green, release of vendor's lien. E. D. Posey, Sr. to Charles S. Sandler, MML. J. R. Pearce to G. Bond warranty deed. E. D. Posey to Archie C. Posey, warranty deed. Mrs. Millie O. Penn to Southwestern Bell Telephone Company, right of way. F. W. Roberts to M. O. Proctor, warranty deed.

State Reserve Life Insurance Company to G. G. Crowell, release of deed of trust. James Sparks to H. R. Tye, warranty deed. Bertha I. Schwartz to F. W. Roberts, warranty deed. Martha Sutton to A. H. Bibby, release of vendor's lien. George M. Stephenson to Mrs. Helen Jackson, extension of lien. R. D. Sterling to C. V. Welch, assignment. D. A. Toliver to D. D. Allen, warranty deed. H. R. Tye to First Federal S & L Assn., deed of trust.

William E. Taylor to Huey Green, quit claim deed. Truck Equipment Company to West Texas Transportation Co., release of judgment. Eldred Thomas to Robert Eddins, warranty deed. E. T. Thomas to Robert Eddins, warranty deed.

Turn to Page Four

## Prospects Appear Good For 2 New Oil Wells In This Area

**LADY LIEUTENANT**—Climbing aboard an F-94 jet to act as radar observer in Detroit, Mich., is WAF Lt. Zilpha T. Bosone, the only woman in the 61st Fighter Interceptor Squadron at Selfridge Field. The 22-year-old brunette's primary duty is squadron intelligence and she's believed to be the only woman assigned to a combat squadron in the entire Air Force. Lt. Bosone is also a squadron security officer, squadron classified documents officer, and a member of the base's court-martial board.

## LOBEES BEGIN WORK FOR GRID CONTEST HERE FRIDAY NIGHT

The Cisco High School Loboes were licking their wounds and taking it comparatively easy Monday in workouts following their game Friday night in Ranger. Things were due to pick up, however, when they report for practice Wednesday in preparation for their second conference game which will be played Friday night at Chesley Field.

The coaches planned a stiff workout Wednesday in setting up a defense they plan to use Friday night against the potent Indians who lost their conference opener last week to Stephenville. Both the players and the coaches were taking the rest Tuesday.

On the injured list were Guards Jim Reynolds, Mac McCauley and Sonny McCrea and Backs Bob Lloyd and Bob Black. Reynolds, one of the defensive stars of the Ranger game, was nursing a knee injury but was expected to be ready for the Comanche game. McCauley received a bruised hip last week but will play in the game this week. McCrea reinjured his knee following the Ranger game and may see limited action against the Loboes but may have lost some of his drive.

Mrs. Betty Johnson of Big Spring visited her mother, Mrs. Thurman, over the weekend.

Mrs. Ethyle Berry, Mrs. Dorothy Jones, and children of San Antonio visited relatives in Cisco over the weekend.

FOR GOOD SERVICE on your Olds and Cadillac Osborne Motor Co. — Eastland

## Bankline Begins Fee Ranch Test

Prospects for two new oil wells for the Cisco area appeared bright today as pipe had been cemented after drill stem tests had indicated good possibilities, according to a survey of operations. Several other projects were being drilled.

The Big Six Oil Company's No. 1 Wright and Harrell, two miles north of Cisco, set pipe on top of the Lake Sand at about 3,600 feet after a test and indicated good prospects for a well. The well is an offset to Mississippi lime production in the Kleiner pool in Section 498, SP Survey. Five miles northwest of Cisco, the Kupp and Dickson No. 1 Linnard set pipe Monday on a prospective Duffer lime well. Drilled to the Ellenberger lime at about 4,100, the pipe was set to about 3,950 to include a section of Duffer which had an oil and gas show on a test.

The Roy Eidal and Bob Tennin et al No. 1 McCrea-Thornton, located on Lot 9, Block 5, Mancill addition, City of Cisco, was testing today in the Lake Sand pay section. The well was about 3,500 feet deep and the outcome was expected to be known late today.

In the same area, the Connally-Jackson No. 3 Theresa Weddington was drilling below 2,000 feet in a Lake sand test.

A new area project was the Bankline Oil Company No. 2-B George P. Fee, a 4,000-foot wildcat four and a half miles north-east of Cisco. Location is on a 177.6 acre lease 2,246 feet from the north and 2,490 feet from the west lines of Section 65, H&TC Survey. Surface pipe was set Monday and drilling was to begin today. The Stewart Drilling Company of Cisco has the contract.

Two miles northeast of Cisco, the Kupp and Dickson No. 1 Cheshire was being given the sandrac treatment in an effort to increase production. The well was completed as a small Lake sand well several months ago. It has been pumping around five barrels per day.

Seven miles southeast of Cisco, the McElroy Ranch Company No. 1 Wright was still undergoing completion work. The well blew in as a big Mississippi lime gasser, and was shut-in after two days by a Houston firm. Considerable work was necessary to clean out the hole and repair the gas damage before further completion work. A substantial producer from the Mississippian at about 3,400 feet has been forecast. McElroy Ranch Company has permits to drill two other tests on the Wright ranch property, including a diagonal offset to the Mississippi prospect.

The Bell Petroleum (D. D. Feldman) No. 1 Bill Childress, five miles northeast of Cisco in the Bankline-Owens pool area, has been reported as a failure, having been plugged and abandoned after failing to find Lake sand production. Location was in Section 67, Block 4, H&TC Survey.

## Most Of City Closes For Holiday Tuesday

Tuesday was a holiday for Cisco, and most business firms were closed for Armistice Day observance. City and county offices joined the business firms in the holiday, suspending activities for the day.

The holiday was a quiet day in the absence of any planned program or special events. It was also a holiday for the city schools.

J. W. Nichols of Texas City is visiting in the home of his daughter and husband, Mr. and Mrs. Con Collins.

OUTLOOK CALLED 'FAIRLY GOOD' FOR DEER AS SEASON NEARS

AUSTIN, Nov. 11.—As the November 16 opener for the general Texas law on deer approaches, reports indicate fairly good prospects, according to the Executive Secretary of the Game and Fish Commission. The wild turkey outlook likewise is better. He said an on-the-spot check for an article in the November issue of TEXAS GAME AND FISH MAGAZINE credits a fine acorn crop as the principal reason for optimism. "Texas' acorn crop, in all-important factor to deer in most areas, generally is well above average," states the magazine. "With the extended dry weather creating havoc among Texas wildlife species by dissipating natural foods, this has come as quite a surprise, although a most pleasant one. The flush acorn crop means that as the open season approaches, deer in those fortunate sections are fat and healthy. It means, too, that the new crop of fawns in the lush areas is off to a good start." Here is a summary of the statewide survey based on reports from wildlife biologists and game wardens: "Mason County — Hunting should be about the same as last year. A good acorn crop is reported in the eastern part of Mason County. Although live oak mast in the southern part appears fairly plentiful, these acorns are falling prematurely. A good crop of Mexican persimmons benefited deer in the late summer. "Travis County — Deer reported in good flesh with prospects for fair hunting. Excellent acorn crop with large amounts of live

oak, Spanish oak, and black jack acorns present. "Gillespie County — Estimates indicate more bucks than last season. Deer in good condition. Best turkey crop in several years. Area benefited by September rains. Acorn crop good. "Kerr County — Both deer and turkey reported in good condition with substantial increase in turkey population. Pretty good acorn crop overall. "Kendall County — Deer crop about normal. More turkey by September rain generally reported in fine shape. Acorn crop extra good. "Llano County — Deer looking good. Reports indicate more bucks. Only few turkeys in this county. Acorn crop spotted. "Panhandle — Prospects for deer and turkey appear about the same as last year. Deer in good condition near streams which is only area reporting deer to any extent. Good fawn crop. Turkey hatch definitely lower than last year. "East Texas — Deer generally in fair to good condition. Local areas may produce some fat deer and turkeys where mast is adequate. Good fawn crop. Black-jack appears best bet for acorns. "Possum Kingdom area — Not as many deer as last year. Deer in pretty good condition despite poor range. Few acorns. "Colorado and Wharton County area — About same number of deer as last year. Deer all fat. Big acorn crop. "South Texas Brush Country — Probably a few more deer this year. Ranges exceedingly poor due to dry weather but deer surprisingly in good shape. Coyotes trans on fawn crop. "Travis-Pecos Region — Deer fewer than last year which was below average. Best fawn crop for three years. Best ranges are in Davis Mountains where white tailed deer are fairly numerous. Acorn crop spotty.

HEALTH TALKS

Prepared by the Texas Medical Association

Aside from a black eye, no eye trouble causes so much glee among your fellow men as a sty. And, as with a black eye, well-meaning friends are likely to suggest many remedies to bring puffiness lids back to normal.

A sty (or hordeolum, medically speaking) is an infection of some of the lid's glands. The entire lid becomes swollen, red, and painful, and pus from the infection may localize at a yellow center. The treatment advised is hot wet packs. If the sty doesn't improve but steadily grows worse, it should be lanced by a physician. This procedure should never be tried by an unskilled person, as even under the most favorable conditions it can be painful, and infection can be spread unless great care is taken.

Styes may be connected with infection or inflammation of the eyelids (blepharitis). A crop of styes calls for a complete eye examination. The physician may treat the eyelids, prescribe eye drops or ointment, or recommend glasses. He also may advise the correction of bad hygiene, such as poor eating habits.

A condition that may be confused with a sty is a chalazion (pronounced ka-la-ze-on, accenting the second syllable.) On first glance this term looks pretty bad, but what it means is a small growth on the eyelid resulting from a long lasting infection of one or more of the lid's glands. Adults have chalazions more often than children. The patient feels as if there is something in his eye, but usually he has no pain. Unless the chalazion grows very much, it may not be bothersome. In fact, since a small chalazion is often hard to find during

surgery, the doctor will not operate unless it is large enough to be disfiguring. A few of these growths disappear by themselves. The eyelids are covered with thinner skin than any other part of the body. Therefore, the skin here, especially at the edges of the lids, is likely to show allergic reactions. The lids appear red and scaly, and there may be itching and burning. The doctor has to find out to what substance the patient is sensitive, and the search may be long and tedious. Some of the most common offenders are cosmetics, face lotions, soap, and certain foods. The solution, of course, is to try to get rid of the irritating substance or substances. Some cases of lid inflammation are stubborn, lingering on in spite of treatment.

He Even Hates to Stop for Lunch!

Put a man behind the wheel of a Golden Anniversary Cadillac—point it to a destination some hundreds of miles away—and try to stop him! And small wonder! In all the world, there is no finer relaxation for a work-weary man than a day's drive at the wheel of a Cadillac. Try it sometime, and see for yourself. The moment you slip into the driver's seat, you'll sense that something extraordinary is about to happen to you. The car has a "feel" to it—even when it isn't in motion. You sit right. The wheel falls naturally into your hands. You look out through the big curved windshield—over the beautiful hood and into the distance—and you know that "this is it!" And then you turn the key and the great engine whispers into action—and the day's fun begins. First, there's the silence—only the sound of the wind

—and the occasional tick-tick of the electric clock. And then there's the comfort—the easy, soft, steady ride over almost any type of road. And next, the handling ease! The steering wheel moves with the weight of the hand. There is remarkable steadiness on straightaway and curves. And the brakes give added confidence each time you touch the pedal. So the miles go by and the miles go by. Towns and villages appear and disappear. "What's that? It's time for lunch?" "Okay—but let's make it something quick and easy. We'll have a big dinner tonight." Don't you think you'd like to own the car that can make a journey such a great delight? If so—come in and see us—any time.

# SOCIETY AND CLUBS AND NEWS OF INTEREST TO WOMEN

### Plenty's Program Theme At WMU Meeting

A program on "Plenty" was presented at the regular meeting of the East Cisco Baptist W.M.U. on Monday morning, November 11, at the church with the program chairman, Mrs. Thelma Bosworth, in charge.

The meeting opened with the singing "Faith of Our Fathers," with Mrs. Carlton Holdard at the piano and Mrs. J. O. Warren leading. Mrs. Bosworth in prayer and the group sang "Dear the Cross."

Cecil Adams brought the devotional on "Harvest is Plenty," taken from Matthew 9:37 to Psalms 130:7. The program is as follows: Plenty to Do, Mrs. E. Shirley; Plenty People to It, Mrs. F. C. Bradley, Jr.; and Plenty To Do It With, Mrs. Bosworth. The program closed with a benediction prayer.

## Religious Event

ABILENE, Nov. 7.—The Rev. Don R. Davidson, pastor of the First Methodist Church in Levelland, will serve as speaker for the annual Religious Emphasis Week at McMurry College, Nov. 11-14.

Rev. Davidson, a '34 graduate of McMurry, will deliver two addresses daily for the four days, besides offering personal counseling to the students.

Other than the Levelland pastor, Rev. Davidson has served churches in Hereford, Munday, White Deer, Idalou and Westover. He is conference director of Golden Cross, and a member of the Board of Trustees for Ceta Canyon Camp.

A graduate of McMurry, he has also attended Scarritt College and the University of Arkansas.

Rev. Davidson was chosen as the Religious Emphasis Week speaker for McMurry due to his particular interest in intermediate and youth work. He is a former district director of youth work for the Vernon district and has served often as director of worship in district youth rallies, summer camps, and conference assemblies.

## Civil Service Will Fill Jobs In Texas

The Fourteenth U. S. Civil Service Region has announced examinations for Typist, Stenographer, Dictating Machine Transcriber (For the Blind), and Clerks, for filling Federal jobs in Texas paying \$2500 to \$3795 per year.

Further information and application forms can be obtained from the Commission's local secretary, Sam King, at the Post Office.

## Briefly Told

Mrs. Gorum Pollard spent the weekend in Santa Anna with her son and family.

Mr. and Mrs. Bill Latch and children and Mrs. W. Z. Latch visited Mr. and Mrs. E. C. Lloyd in Waco Saturday and attended the Baylor-Texas football game.

Mrs. Ben Parker has returned from a few days visit in Fort Worth and Odessa.

**NOTHING TO WORRY ABOUT**—Shapely Rhoda Wetz is surprised that anyone should be around with a camera just when she has to adjust her Bikini bathing trunks at Miami, Fla. With the rest of her looking so very nice, Rhoda wanted her swimsuit to be just as attractive when she goes for a stroll along the beach. And it was!

**NOTE:** This is the first in a series of articles on our State Hospital System, prepared under the supervision of Dr. George W. Jackson, Medical Director of the Board for Texas State Hospitals and Special Schools, and sponsored by the Hogg Foundation for Mental Hygiene, University of Texas.

Mary L. was a pretty girl. Her dark hair was always freshly brushed, and there was an excited look that often sparkled in her eyes and made her look like a kid at a pony ride.

Her eyes had that look the day she got the job with the social service department of a Texas State Hospital. She hadn't hoped to find work the week after she graduated from college.

She sat in the kitchen the night before her job started, watching her mother roll pie crusts, tasting the sugared cherries, and talking. "I'm so excited, Mom," she said. "This is just the kind of job I wanted. I like to feel useful and helpful to people."

That's what Mary thought. It took her a month to realize that the feeling of usefulness was soon mixed with a sense of frustration. The social service department numbered eight - eight workers and a director. Nine workers. More than three thousand patients. That meant that 340 patients looked to Mary for help in working out their problems of adjustment, for aid in getting furloughed, for help in placement work after discharge.

As Mary recognized how much training was necessary to do her job well, she enrolled for several courses at the University School of Social Work. She soon learned that willingness and desire could not replace professional training.

This case load was more than the social workers could handle adequately, but Mary tried - just as all of them did. She made her little office as pretty as she could; she tried to see patients and relatives, tried to keep her records of contacts with patients, families and community agencies up to date. The one secretary used all her time writing the required histories and letters.

Mary worked with Herman R., the fellow with baby curls and football shoulders, the man whose liquor bottle had become a crutch. She was delighted the day the doctor permitted Herman to take the job she had found for him, stricken the day they brought him back from the police station too drunk to know her. And Mary blamed herself for Herman's relapse. She had known he would need encouragement on his new job, but she had not had time to keep in touch with him.

Mary wrote careful notes about Willie J., the sixteen-year-old kid whose dark eyes spoke to her of hidden fears and deep, shaking misery. In the interviews with Willie, she could see him looking at her with hope and pleading. She thought of Willie often. He was the boy to whom

be furloughed. And it was she who had to face that questioning look, who had to meet those miserable eyes, who had to tell Willie that his father didn't want him to come home and bother the younger kids. She had too many patients to be able to get out in the community and find a family who would take Willie into their home. Finally, it was she who wrote in Willie's record, "Patient more disturbed. Privileges removed."

Before long Mary was seeing fewer and fewer patients. Routine jobs, paper work, letters and records ate up her time. She wasn't able to keep complete records, those vital notes so necessary to understanding and aiding patients.

When the director informed them that the social service department would cut their recording to the minimum, the inevitable happened. Working without good records was like trying to fight an opponent in the dark. Records were so sketchy that Mary couldn't even review them to help her grow professionally, to help her in helping others.

The social service department is only one bolt in the big engine of the State Hospital System. Doctors need records; so do the research workers. And compiling the information takes man hours.

A hospital cannot plan for the future without comparative records of the past. Doctors cannot know case loads without statistics. Gathering information for weekly statistical reports takes vital time away from patients.

Black words on a piece of paper. Important words. Words that record job placements, discharge number of patients, results of treatments.

IBM machines can speed the work process immeasurably, can free doctors, nurses and social workers for their job with patients.

Knowing all these facts, the Board for Texas State Hospitals and Special Schools has planned better record keeping as the first step on the list of 14 improvement points.

A statistical department was set up in August of 1951 and is now compiling case histories on 20,000 patients, gathering material for a comprehensive annual report. That much has been done. BUT it takes many people to keep records. And people cost money.

The need is great. Ask Mary L. She knows!

### What's the Use of an Abstract -

... if it doesn't cure the title? is another puzzling question to some abstractors, but we have never worried much about this one. Neither does the doctor's prescription cure human ills in all cases, but it may help. The abstract never was designed to cure anybody's title, but the better type of abstract will reveal the condition of the title and place it in position where it may be perfected, if necessary, by the examining attorney.

## Dairying Company Names President

Lindsley Waters, Jr., 35, has been named president of Tennessee Dairies, Inc., the firm which his family has built from a few cows and a horse-drawn dairy wagon in 1908 to an operation covering three-fourths of Texas today.

This announcement was made today by C. D. Pierce, field manager for the Glen Pierce Company, distributors of Tennessee Dairies products here.

Waters' election as head of the pioneer dairy firm follows the retirement of his mother, Mrs. Lindsley Waters, who has been president of the company since 1944. From March, 1945, until his election as president of the company, Waters had been vice president and general manager.

Other officers of the corporation are his three younger brothers, W. E. Waters, vice president in charge of sales, K. L. Waters, vice president in charge of production, and Dan C. Waters, assistant secretary-treasurer.

In taking over as president, Waters announced Saturday that through an exchange of stock Tennessee Dairies, Inc., has affiliated with Foremost Dairies, Inc., one of the largest members of the American dairy industry.

## Social Security Man To Be Here

A representative of the Abilene office of the Social Security Administration will be at the Chamber of Commerce office in Cisco at 2 p. m. on Thursday, November 13 and 20. This announcement was made today by Ralph T. Fisher, manager of the Abilene office, who invited persons to call at that time who need assistance in connection with retirement claims or death claims under the Social Security Act.

Fisher called attention to a recent change in the law that will make it possible for certain persons over the age of 75 to have their retirement payments refigured. Any worker who is 75 years of age or over, who has filed a claim for his retirement payments before April 1952, and who has continued to work in 1951 and 1952, should rerecheck with the social security office. Some of these workers have previously been told that no refiguring of their amounts was possible, but there is a special provision in the 1952 amendments that changes this.

Persons who are 75 years of age and over may now receive their old-age and survivors insurance payments whether or not they have retired. Any such persons who have not checked up on their rights should do so as soon as possible. Even if the worker is still on his regular full-time job, he can still draw his regular monthly social security benefits.

People in this area who cannot call to see the representative at the time and place shown above may write the Social Security Administration, 308 Post Office Building, Abilene, Texas.

Mr. and Mrs. Bud Essl visited relatives in Bastrop over the weekend.

Mr. and Mrs. D. N. Morrison and Mr. and Mrs. Austin Flint attended the Texas-Baylor football game in Waco a Saturday.

An Electric Freezer saves time and trouble in many different ways, and provides better meals. For the holidays, mince, puddings and the like can be baked in advance and frozen. Chili con carne, spaghetti and chop suey can be packed in meal-size containers, and frozen for future use.

With an Electric Home Freezer you can shop every couple of weeks instead of every day or so. Buy meats, fruits and vegetables when they're on sale; save money that way. You simply freeze and store until needed.

A complete Sunday dinner, prepared weeks in advance and stored in the freezer, is ready to heat and serve when needed. Hamburgers, wieners, and lunches for picnics can be frozen in advance.

# Fresh from the Freezer

"Life is simpler, Judy, since we've had this Electric Home Freezer, full of fresh frozen things to eat — and the meals are better! Look at the variety in there! Corn on the cob, strawberries, peaches, snap beans — meat, cakes all baked and ready to warm in the oven — your school lunches for a week, all wrapped and frozen so I just have to take a package out in the morning when you leave for school.

"And we're never 'out of things'. When they have bargains at the stores — in frozen foods or in meats — I can stock up on them. I never have to throw leftovers away — just freeze them to use weeks later. So you see, this freezer saves me time and saves you Dad money, too!"

## DID YOU KNOW...

with an Electric Home Freezer you can:

- Freeze bread slices until you need them, keeping them fresh and soft.
- freeze large quantities of beans, stews, etc., and later use... freeze and store.
- freeze waffles, cakes...
- electric range oven as needed.
- store ice cubes for party.
- save enough on food to pay for the freezer in a relatively short time?

**MOTHER KNOWS BEST...**  
of course, it's *Electric!*

**West Texas Utilities Company**
