Don't Keep Your Home Too Hot Is Dr. Cox's Advice

AUSTIN, Nov. 20. — It is an ... illogical fact that many people ... complain about the heat of Tex- ... as summers and yet sit indoors ... during the winter months in a ... temperature about as high as that ... about which they complain in ... the summer season, is the view ... of Dr. Geo. W. Cox, State Health ... Officer.

"If the average person would ... realize the definite hazard in in- ... developing and maintaining an in- ... door temperature about 70 de- ... grees, or at most 72 degrees, when ... the outside thermometer registers ... around freezing," he said, "there ... would be fewer colds, less bron- ... chial conditions, and less pneumo- ... nia than there are today.

"Fresh air is one of the body's ... basic needs and no amount of ... luxury or artificial pleasure can ... be substituted for it. It may be ... a comfortable feeling to be warm, ... especially with the consciousness ... of the tough weather outdoors, ... but it is quite another matter to ... achieve this comfort at the prob- ... able cost of health.

"Winters in the Temperate ... Zone are sufficiently trying upon ... the human system with their sud- ... den and sharp temperature chang- ... es, without adding to the bur- ... den by making a hothouse of one's ... home. Of course, colds and other ... respiratory affections can be ac- ... quired in many different ways, ... but one of the easiest methods of ... becoming victims of such hazards is ... the overheated house.

"To become overheated and ... perspire, though the latter condi- ... tion may not be perceived, and in ... this softened state to brave the ... cold winter blasts, is to take a ... thoroughly unwarranted chance ... with health.

"The wise householder there- ... fore will check up on his artificial ... heat problem. He will resolve to ... keep thermometer within safe ... limits."

ANNUAL FOOTBALL BANQUET SET FOR DECEMBER 4th AT CITY GYM

The annual Cisco football ban- ... quet will be held Thursday night, ... Dec. 4, at the Community Gym ... and Backfield Coach Jack Wilson ... of Baylor University will be the ... principal speaker, according to an ... announcement today. Motion pic- ... tures of the recent Texas-Baylor ... football game will be shown as ... an added feature.

D. N. Morrison, chairman of ... the arrangements committee, ... completed the program plans to- ... day.

Various committees to handle ... details of the banquet will be ... named in the near future. Tickets, ... which will cost \$1 each, will go ... on sale Monday, Mr. Morrison said. ... Planning of the banquet menu ... will be handled by a committee ... headed by Gene Abbott.

Mr. Morrison said that the ban- ... quet will honor all of the city's ... football teams — the Cisco Jun- ... ior College Wranglers, the Cisco ... High School Loboos, and the Jun- ... ior High Midgets. Fathers of ... the grid players will be given an ... opportunity to buy tickets for ... their sons. Tickets for boys ... whose fathers cannot attend will ... be sold to business men and ... others who desire to attend.

"We are endeavoring to hold ... the banquet as soon as possible ... after the close of the football ... season," Mr. Morrison said. "With ... something like 100 football boys ... plus their dads and other sports- ... men who will want to attend, we ... are looking for a pretty good ... crowd."

The banquet will be served and ... arrangements for it will be made ... by members of the John William ... Butts Post 123 of the American ... Legion. Mr. Morrison noted that ... the Legion members are contrib- ... uting their work in order to hold ... the price of the tickets to a ... minimum.

Farming Activity Increases After Recent Rainfall

Farming activities increased ... sharply during the past few days ... in northern, eastern and coastal ... counties of Texas where rains a ... week ago replenished surface ... moisture. In those favored areas ... dry-planted small grains, winter ... cover and pasture crops were ... sprouting. Seed bed preparation ... and planting of additional acreage ... of winter growing crops was be- ... ing rushed as moisture in that ... area was adequate for germina- ... tion and early growth.

In parts of the northwest the ... very light rain was germinating ... dry sown wheat but moisture was ... generally insufficient for young ... plants to develop root systems ... and become established. These ... light rains only temporarily re- ... vived the small acreage which ... was up since most of the moisture ... was dissipated by the end of the ... week and the crop was again ... suffering.

Cotton harvest in the north- ... west with mechanical strippers ... continued active. Flax planting ... was active in south Texas with ... near ideal moisture conditions for ... germination and early growth. ... Pecan harvest continued active ... as strong winds dislodged nuts ... from the trees.

Good progress was made in all ... fall-crop and winter commercial ... vegetable areas. Rains of the ... previous week interrupted har- ... vest of tomatoes and other ten- ... der vegetables at Laredo and the ... Winter Garden but stimulated in- ... terest in planting in the non-ir- ... rigated sections.

Green feed was starting in ... northern, eastern and coastal ... counties where rains a week ear- ... lier replenished surface moisture. ... Additional moisture will be need- ... ed, however, to assure develop- ... ment of this urgently needed feed. ... In the west and northwest less ... sufficient to bring on vegetative ... growth to provide pasture.

Dry range and pasture feed ... continued to deteriorate. All ... classes of livestock were losing ... flesh in spite of widespread sup- ... plemental feeding. Marketing in- ... creased again to about late Oc- ... tober levels as farmers and ranch- ... men further reduced herds.

County Agent Is Speaker For Club

Eastland County farm and ... ranch owners are making prog- ... ress in their efforts to develop ... new income crops and sources ... despite the prolonged drought, ... County Agent J. M. Cooper told ... members of the Cisco Lions Club ... in a talk at the weekly luncheon ... meeting at noon Wednesday.

A diversified farm income is ... highly desirable due to the ... drought threats and to the fact ... that agricultural subsidy pro- ... grams may be terminated in the ... future, Mr. Cooper said. County ... agricultural leaders have long ... studied the probable effects of ... stopping the price support pro- ... gram, he added.

The county's major crop has ... been peanuts since 1929 and some ... 1,200 land owners depend on ... peanuts as the principal source ... of income, Mr. Cooper said. The ... two-year drought has caused ... many of them to seek other ... sources of farm revenue. ... Mr. Cooper noted that dairying ... is on the increase. The number ... of grade "A" dairy farms has in- ... creased in ten years from three ... or four to some 40, and the need ... for milk is growing.

Turkey raising is proving a ... profitable venture for a growing ... number of county residents, Mr. ... Cooper said. The county's tur- ... key population has increased from ... around 9,000 in 1944 to more than ... 50,000 this year. While the price ... is lower than last year, some ... owners now are reporting profits ... of more than \$1 per bird, Mr. ... Cooper said. He believed the tur- ... key population could increase to ... 250,000 within a few years if the ... present trend continues.

WTUC Is Winner National Fleet Safety Contest

In acknowledgement of its na- ... tional standing in the Driving ... Safety Contest, the utility com- ... pany was presented with a bron- ... zed plaque, mounted on walnut, ... and bearing the inscription "Winner, ... Public Utilities Division, National ... Safety Council's 1951-52 Fleet ... Safety Contest."

From July 1, 1951 to June 30, ... 1952, West Texas Utilities em- ... ployees drove company vehicles ... a total distance of 3,399,000 miles ... and achieved the excellent acci- ... dent rate of .09 accidents per ... 100,000 miles. This rate was far ... below that of the nearest com- ... petitor. Under the contest the ... slightest fender dent is considered ... a reportable accident. Before ... winners are declared in the con- ... test the accident record of the ... companies are carefully audited ... by a representative of the Na- ... tional Safety Council.

"The West Texas Utilities Com- ... pany," said Price Campbell, Presi- ... dent, "is striving in every way to ... be a good citizen in the commu- ... nity it serves. Certainly safe driv- ... ing is a vital part of good citizen- ... ship."

Group Four Has Meeting On Tuesday

Four of the Christian Fellowship of the First Methodist Church met Tuesday afternoon in the home of Mrs. Flournoy for their weekly meeting.

Rex Moore opened the meeting with prayer and Mrs. McCracken brought the offering. The theme of the evening was "The Holiness of the Holy Spirit" from the Epistle to the Romans, chapters 8 and 12. Mrs. Moore then presented the program on "Our Great Faiths."

Mrs. Flournoy presided during the business session. Plans were made to send the first box of gifts to their special project, the Julia Fowler Home. Arrangements were made for church members to provide sandwiches for the bloodmobile and members assembled their jellies, and clothes to be sent to the Julia Fowler Home. The meeting closed with the mission benediction prayed in the home.

... yet enjoy the richest coffee of all.
Smart housewives know that the true cost of coffee is measured by the number of cups a pound of coffee makes ... not by the price they pay for it in the store.
Good coffee today costs at least two cents per cup. But with Maryland Club, because of its extra richness ... you can use less to make each flavor-rich cup ... get 10 to 15 more cups out of every pound ... thus you can actually* save up to 25¢ per pound.
Try Maryland Club and discover for yourself how really good coffee can be ... and how economical, too! Buy coffee the smart way and save up to 25¢ a pound ... buy Maryland Club!

Cranbrook Club Coupe in Plymouth's 1953 Line

Dash and distinction are combined in the flowing lines of the Cranbrook Club Coupe, one of nine outstanding body styles in the new 1953 line of fine Plymouth cars. The new styling is combined with increased power and improved performance to make it more than ever the big car value in the low-priced field. Power has been increased to 100 horsepower with 7.1 to 1 compression ratio for finer response and efficiency. New suspension gives virtually gyroscopic stability under varying road conditions. Engine and rear axle relocation, coupled with easier riding, angle-mounted rear springs, provide the utmost in comfort. Plymouth engineers have designed more headroom, legroom and hip and shoulder space into the 1953 models.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

To many people, the call for jury service always seems to come at the wrong time. Just when plans for that hunting trip are complete, an inventory or other business problem is demanding special attention, or the best Jersey comes down with a serious ailment, a jury summons is sure to arrive.

In spite of the regularity with which unhappy coincidences occur to some individuals, no grem-lin is watching to see when you can least afford to be away from home and business. Being chosen for jury service at any particular time is largely a matter of chance.

Under Texas laws jury panels for District Courts are selected by one of two methods — the Jury Wheel or the Jury Commission. The jury wheel is a hollow metal wheel or container, so erected that it will freely revolve on its axle.

In counties using a jury wheel, a list of all qualified jurors is prepared from the official tax lists in August of each year. Taking part in the ceremony are the County Tax Assessor, the District Clerk, the County Sheriff, and the County Clerk. Each prospective juror's name is written on a card of uniform size and placed in the metal container.

Then the wheel is locked with two separate locks, the key to one lock being kept by the District Clerk and the other key being kept by the Sheriff. As jurors are needed, the wheel is revolved to mix the names and the required number drawn for preparation of jury lists.

Three persons must be present when the wheel is unlocked and the names drawn therefrom — the Sheriff (or one of his deputies), the District Clerk (or one of his deputies), and the District Judge. Upon completion of currently required jury lists, all names are returned to the container, which is again double locked.

Later, when the time comes around to prepare a new set of lists, some of the same names will very likely be drawn again. Others may never be drawn.

In counties not operating under the jury wheel system, the District Judge at each term of his court appoints from three to five persons from different sections of the county to act as Jury Commissioners.

Using the county tax assessment roll, these men follow the Judge's instructions as to the number of jurors to be selected for various weeks of the court term. The lists of names prepared by them are sealed in separate envelopes and delivered to the Judge. He, in turn, turns them over to the District Clerk or one of his deputies in open court, who immediately files the envelopes away in a safe place in the Clerk's office.

Although ordinary inconveniences are not usually sufficient to gain an excuse from jury service, emergency or hardship is a different matter. If you face such extreme circumstances in your business or personal affairs that your mind cannot freely reflect and meditate upon the important issues to be tried, call this to the attention of the judge.

Courts try to be reasonable in granting excuses. The judge will consider your situation carefully and thoughtfully, and may determine that your service should be deferred.

What's the Use of an Abstract -

... if it doesn't cure the title? is another puzzling question to some abstractors, but we have never worried much about this one. Neither does the doctor's prescription cure human ills in all cases, but it may help. The abstract never was designed to cure anybody's title, but the better type of abstract will reveal the condition of the title and place it in position where it may be perfected, if necessary, by the examining attorney.

HEALTH TALKS

Prepared by the
Texas Medical Association

How can you find out whether or not your hearing is normal?

Hearing tests are of many kinds, and they may be performed by a doctor or by other trained persons. Fairly simple tests can be used to separate those with normal hearing from those whose hearing is less than normal. In one, a test which uses the spoken and whispered voice, the person being examined is seated so that the ear to be tested is toward the examiner; the patient blocks the opposite ear off by putting his finger into it. The examiner, standing 20 feet away, speaks words (usually combinations of numbers), asking that they be repeated; then he moves to 15 feet and whispers numbers, again asking that they be repeated. If the spoken numbers can be heard at 20 feet and the whispered ones at 15 feet, the patient is said to have 20-20 and 15-15 hearing, respectively, which is considered normal. If not, the examiner moves up until the patient is able to hear, say to 15 feet for the patient for the spoken voice, and the subnormal hearing is recorded at the new distance as 15-20.

It has been recognized that a person with normal hearing may hear the spoken voice at 40 feet and the whisper at 30. However, half those distances have been accepted as standard for testing. If the hearing is not normal, more accurate tests are indicated to find out what type of defect is present, and in some instances to find out exactly where the hearing trouble lies. The tuning fork, used to tune musical instruments, can help to find out how high and how low the person being tested can hear. It is moved about to different positions on the head and around the ear.

Highly accurate testing can be done with the audiometer (a machine to test hearing). The audiometer is about as big as a medium-sized radio and even resembles a radio with its many dials and knobs. Since it was first used about 1920, it has been much improved, and it is now made in models for individual and group testing.

Usually only one or two hearing tests are needed, but sometimes a
