The Gay Philosopher

By J. W. S.

THE CISCO SCHOOLS have a very successful lunch program despite the high cost of living, according to reports that reach Health for the student is the primary objective of the lunch program. The child gets a well balanced meal at the lowest possible cost to his parents. Money accumulated in the lunch fund is either used to buy better food, better equipment or to lower the cost of the meals. The lunch fund is not allowed to exceed one month's operating expenses. All surplus must be turned back into the lunches. Thus, the patrons of the school are assured their children are getting the full benefit of the money spent in the lunch room. Profit is not the purpose of the Federal Lunch Program such as we have in our schools. The Department of Agriculture buys farmer's surplus products to support the prices and then donates these products back to the school lunch rooms. These products cannot be sold or traded by the school. They must go into lunches.

So far this year, the Cisco schools have received turkeys, cheese, canned peaches, peanut butter, fresh eggs, dried eggs, milk, canned peas and tomatoes, tomato paste, pinto beans and picnic hams through the government program.

The lunch rooms (the Cisco schools have three) make a considerable contribution to the needy. In 1951 and 1952, a total of 8,000 free meals with milk were given to underprivileged children in our town. A good service record, huh? Parents and patrons are always welcome to drop in at any lunch room occasionally and eat along with their child — to see what the lunch rooms are doing in the way of feeding healthy youngsters.

You can all be sure that if your child is eating at a lunch room he is receiving a well balanced meal — the kind of chow that school children need to do good work and remain healthy.

THE POLL TAX paying business is still very slow over at the Chamber of Commerce offices. Mrs. Peggy Gallagher tells us that only 120 poll tax receipts had been issued at the local office this morning.

A lot of people pay their poll taxes when they pay property taxes at the county office, but you're not required to pay the poll tax unless you want to vote. And if you don't vote in all elections you're forfeiting your right to a voice in government.

Saturday, Jan. 31, is the last date to pay poll taxes. Better hurry.

A LOT OF PEOPLE have told us that they like the idea of providing gifts for little Miss Lavella Louise McGough, 18-months old daughter of Mr. and Mrs. Pat McGough, who is a polio victim. The little lady is learning to walk on crutches.

It has been suggested that since we're all observing Polio Week, it would be timely to remember the little girl. If you want a part in the project, get in touch with Mrs. Gallagher at the Chamber of Commerce.

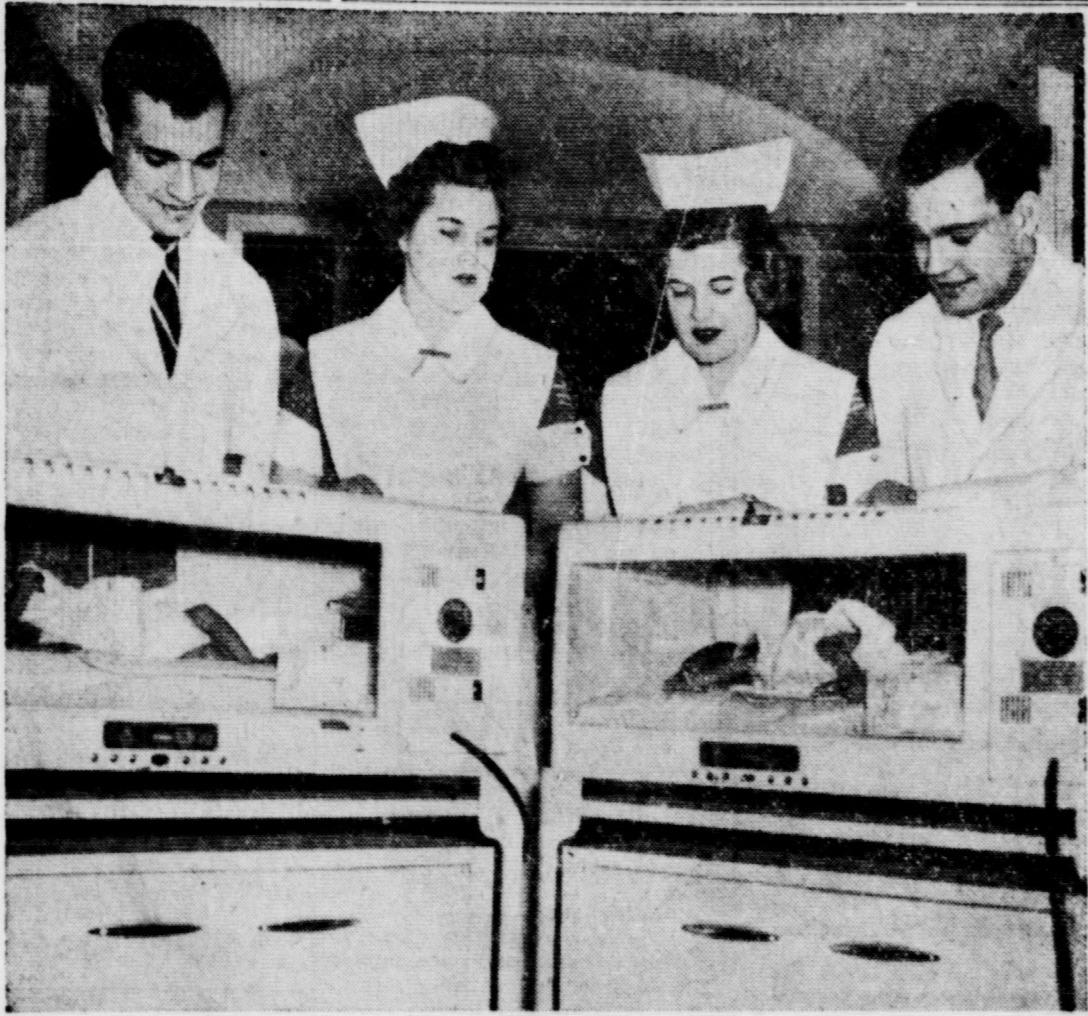

IN CASE YOU didn't know it, let us report that you now live on another U. S. highway. Since the first of the year, Highway 183 (north to south through Cisco) is now a national highway.

It begins up in South Dakota and runs through Breckenridge and Cisco and Brownwood on to Corpus Christi.

Highway 80, east and west, is a national route, of course.

QUOTING FROM The Lion Tale, Roy Killingsworth, editor: "A disgruntled school teacher handed in her resignation with the following comment: In our public schools today the teachers are afraid of the principals, the principals are afraid of the superintendents, the superintendents are afraid of the board, the board members are afraid of the parents."

Junior Quintets Will Take Part In Cage Tourney

Four Cisco Junior High School cage teams were entered today in the Eastland Junior High School Basketball Tournament being held in the Eastland gym this weekend.

The Cisco boys and girls "A" teams were assured of a place in the second round when Gorman withdrew from the tourney. The two Cisco "B" teams play Eastland "B" teams tonight. The games are at 6 and 7 p. m. Arrangements have been made for the Eastland and Cisco "A" teams to scrimmage following those two contests.

Principal Roy Killingsworth of Cisco Junior High School announced Thursday that plans were completed for the Cisco Junior High School Invitation Cage Tournament to be held at the junior high gym on February 12-13-14. Eight teams, including Albany, Moran, Putnam, Olden, Eastland, Carbon, Rising Star and Cisco, have accepted invitations to play in the tournament. Those schools have the leading teams in the area and the play should be fast throughout the tourney.

A trophy will be awarded to the winner, runner-up and consolation winner in the boys and girls divisions. No individual awards will be given it was reported.

GAME CARNIVAL PLANNED

The East Ward Mother's Club is sponsoring a game carnival at the school Friday, February 6, at 7 p. m. Games of "42," canasta and dominos will be played, with a picture show for the children. The club will also have a snack bar. Tickets are being sold by the children for 25 cents.

Mrs. B. S. Huey has returned from an extended visit in San Antonio with her son.

LEGISLATIVE FORUM PLANNED AT COFFEE SHOP FRIDAY NIGHT

A forum on pending school legislation and other matters confronting the present state legislature will be held in the dining room of the Victor Hotel at 7 p. m. Friday, with two members of the legislature from area districts on hand to explain pending bills and answer questions.

Omar Burkett, state representative from this district, and W. R. (Bill) Chambers of May, representative of the district just south of this district, will be on hand for the forum. Both men hold important posts on the House appropriations committee. Everyone in Cisco was invited to attend the meeting. A dinner will be served with each one at

TEXANS GET BACK ONLY THIRD OF FEDERAL ROAD TAXES PAID

(Editor's Note — This is another of a series of articles presenting information gathered by the Highway Policy Committee of the West Texas Chamber of Commerce.)

Reviewed in preceding articles of this series were three of the four sources of revenue for financing construction and maintenance of highways by the State of Texas. They were the motor fuel (gasoline) tax, motor vehicle registration fees, and the state's general fund.

This article deals with the fourth source — Federal aid. The Federal funds for state road aid come from a 2-cent per gallon motor fuel tax.

CJC Invited To Send Delegates To April Parley

COMMERCE, Jan. 29. — Cisco Junior College of Cisco has been invited to send delegates to East Texas State Teachers college for "Future Teacher Week" observance. The conference will be held April 13-18.

Designed to interest college students in teaching as a profession, the meetings will be under direction of education majors of East Texas State college.

As part of the program a Mr. and Miss Future Teacher will be named from candidates nominated by colleges of Texas. These candidates must have completed one or more professional courses in education, have good scholarship rating, be in good standing in the offices of the dean of men and the dean of women, above average in appearance and grooming and of good character and personality.

taxes during the last fiscal year was a total of \$196 million.

During that year Texas actually received a little less than \$30 million in Federal highway aid. Thus, the state received slightly more than one-fourth as much as it paid into the Federal treasury in Federal gasoline taxes. The state contributed \$96 million more than it received in aid.

All Federal funds must be matched by state funds, dollar for dollar. Projects to receive federal aid are selected on basis of merit and need.

The U. S. Bureau of Public Roads allots money to the states for the primary highway program, the city primary program and secondary or Farm-to-Market roads.

The allocations to the respective states are made on basis of their area, population and road mileage. One-third is allowed for each.

In fiscal 1951 Texas received \$29,681,979 Federal aid. Of that sum, \$14,305,046 went to the primary system, \$5,799,612 to the urban system and \$9,577,321 to the secondary of Farm road system.

Texas will receive approximately \$34.2 million in Federal aid under provisions of the Highway Act now in effect.

Of that amount, approximately \$1,580,000 has been allotted for inter-state highways, which is a new category.

The allocation to Texas for this year will be approximately 10 per cent higher in each of the other classifications of roads than that of last year.

RANGER TO MEET WRANGLERS AT COMMUNITY GYM TONIGHT

The Ranger Junior College Rangers will be at community gym tonight for a game with the Cisco Junior College Wranglers, it was announced by coach Red Lewis.

The game was originally scheduled for play in the Ranger gym but conflicts caused the Ranger

school to ask that the game be changed to Cisco.

It will be the second time the two schools have met this year on the basketball court. The Wranglers downed the Rangers here on January 17 by a 58-54 score.

David Anderson led the Ranger attack at the first meeting by sinking 14 field goals and three free throws for 31 points.

The game tonight will be a non-conference affair as Ranger plays in the Pioneer Conference and the Wranglers in the Texas Junior College Conference.

Former Ciscoan Is Questioned In Hit-and-Run Case

A former Cisco man was questioned in Fargo, South Dakota, this week in connection with the hit-and-run death of Sampson Van Zandt, 74, on a downtown street here last December 17, Constable Allen C. Jones reported today.

Constable Jones said the man was picked up and questioned by Fargo officers and released without formal charges being filed. The investigation is continuing Mr. Jones added.

The aged retired farmer was fatally injured when an old model car hit him at the intersection of Avenue D and 14th Street.

Auto Plates Will Go On Sale Soon

Automobile license tags for 1953 will be placed on sale in Cisco at the Chamber of Commerce Monday, February 2, it was announced Thursday by Stanley Webb, Eastland county tax assessor-collector. Mrs. Peggy Gallagher will have charge of the local sales.

Mr. Webb urged everyone in the Cisco area to purchase tags in Cisco from Mrs. Gallagher in order to avoid congestion at the tax office in the court house in Eastland.

Mrs. Gallagher has been assigned plates beginning with number CM 3500 and ending with CM 4999. She will be able to register passenger cars only. Pick-ups and trucks must be registered in Eastland.

Mr. Webb stressed the importance of each car owner bringing his title certificate and last year's registration receipt in order to avoid confusion. He said that the inspection certificate would not be required.

Drive Will Open At Seven O'Clock

All Cisco will take part tonight in an unusual experience in community participation when nearly 300 volunteers swing into action to stage the Mothers' March on Polio. Their objective will be to collect sufficient funds to assure all polio victims with needed care and to speed the research fight against the disease.

The mothers will visit every house showing a lighted porch or with a light in the window, indicating the occupants want to help in the fight against polio.

When the sirens blow and the bells ring at 7 p. m. the Mothers of Cisco, with their helpers, will begin their march. And all Cisco has been urged to turn on porch lights to indicate a willingness to participate in the all-out drive.

The workers will turn their proceeds in to their district leaders. The district officials will then take the funds to Treasurer Robert O. White, who will be at the Chamber of Commerce office to audit the receipts.

Leaders for the program have asked contributors to look for the proper credentials of the workers — a fruit jar with an official March of Dimes sticker.

IT'S THE LAW in Texas

Made your will? If not, the State of Texas may wind up as owner of your estate upon your death.

Such provisions have been carried over from the English common law. There, under such circumstances, the estate escheated to the British crown.

ereign (or State), having been the original owner of all lands before they were parceled out to individuals, is entitled to a return of such lands when the possibilities of legal inheritance have been exhausted.

This idea has been expanded to include personal property as well as real estate. It also applies in the case of a person absent for a term of seven years and not known to exist who leaves no heirs and no will.

Presumably, there is hardly a person who does not have some individual or charity that he would prefer to have his estate, rather than have it go to the State by default, so to speak.

Now, before you shrug the matter off with the idea that these statutory provisions could not possibly apply to you, better

think a minute. Suppose you and your spouse have no heirs besides each other and your children. Many people do fall into this category.

In event of a catastrophe resulting in death for you and your entire immediate family, no legal heirs would remain. Therefore if you had no will, your property would go to the State.

In this hypothetical case, you would probably want to designate some friend as executor, to take care of all necessary arrangements and then distribute the estate according to your wishes.

On the other hand, if you have plenty of possible heirs, a will could be used to designate which of them shall participate in the division of the estate. And, even if you wish your property to be distributed entirely in accordance with our statutes of descent and distribution as explained in previous columns, a will can perform useful functions. Among other uses, a will could provide for an orderly and economical partition of your property, preventing any waste of the assets by heirs impatient for a settlement.

What happens to property which escheats to the State? Following certain required legal formalities and court proceedings, all escheated lands are set apart to the Permanent Free School Fund of the State, and

Promotion Is In View For Omar Burlison

A slight shift in Congressional organization is soon likely to elevate Representative Omar Burlison (D—Tex.) to the top-ranking Democratic position in the House Committee on Administration.

The Seventeenth District Congressman is slated to step into the top spot on the Democratic side of the Committee table by February 3rd, when Representative Thomas B. Stanley (D—Va.) vacates his seat in the House to become a candidate for Governor of Virginia. Stanley was Chairman of the important standing committee of the House in the recent Eighty-second Congress, but lost his chairmanship when the Republicans gained control of the House in last November's election.

Should the Democrats regain control of the House, Burlison is in line to become Chairman of the Administration Committee. He is also eighth ranking Democrat on the Foreign Affairs Committee.

Second only to the Virginian as ranking majority member of the Committee in the last Congress, Burlison was Chairman of the active House Subcommittee on Elections. Comprised entirely of former judges and attorneys, this body controls Federal elections laws and regulations and serves as a court of last resort in deciding contested Congressional elections.

The Administration Committee is one of 19 standing committees of the House established under the Reorganization Act of 1946. Combining the functions of 10 pre-organization committees, it has cognizance over a broader variety of legislative matters than any other House committee.

In addition to its control over election matters, it administers all

the myriad Congressional house-keeping affairs, including the multi-million dollar contingent fund of the House. All Congressional investigations are subject to the Committee's action in that the Administration Committee controls investigative funds.

It administers the affairs of the Library of Congress, the Government Printing Office, the Smithsonian Institution, the Botanic Gardens, and all Federal memorials.
