

## The Gay Philosopher

By J. W. S.

IN CASE YOU didn't know it, this is "Rural Mail Box Improvement Week" in the nation, and the Post Office Department is suggesting that rural box owners get the week to advantage. Boxes which are not properly erected in good serviceable condition tend to the delivery of mail and pose it to damage from the weather.

Mail carriers like for the post office boxes to be from three and half to four feet high with the owner's name painted on it. An attractive mail box adds to the appearance of anybody's property.

THERE WAS A picture of a ocean in an Abilene newspaper yesterday. The picture showed William R. Huber, son of Mrs. Sara Huber, of Cisco, who is among the U. S. Marines now at the Atomic Energy Commission Training Grounds for the latest series of tests. They're stationed at Camp Desert Rock, Nevada, and will witness an atomic explosion and then join in a mock ground-air assault on an objective near the center of the impact area. Private Huber's wife, Mildred, lived in Cisco until recently when she went west to be near her husband.

A FORMER CISCO resident is being well up in the state of Utah, according to a newspaper clipping sent to his mother, Mrs. Berta Carichael, has shown us. Her son, Joseph E. Wyatt, is the new manager of the Kool Breeze Awning Company at Provo, Utah, a city near Salt Lake City. The promotion came in recognition of Mr. Wyatt's outstanding record of service since joining the big firm a year ago. He has been a resident of Utah for eight years. He spent four years in the armed forces, including two years in India.

SOME OF THE prettiest white flowers we've ever seen are growing in the yard of Miss Alice Baker at 904 West 7th Street. . . . The yards and flowers look just pretty up on Front Street. There are beautiful flowers about anywhere you want to go and look around town.

HIS FELLOW Lions Club members honored Mr. Ralph Glenn at a luncheon Wednesday. He was called to the front and Lion Jackson presented him a certificate "good for ten free lessons in playing golf." The certificate was signed by Buddy Deen of the high school. The Lion friends of Mr. Glenn were kidding about his golf match the other day with Buddy, who won.

And Buddy is one of the best golfers we've seen play in long time. If his game continues to improve as it has in the past couple of years, he'll be hard on any amateur in West Texas.

WAS UP IN the Reynolds building yesterday and found a group of members of the Masonic lodge bodies in George Boyd's office. They are looking over plans and specifications for the proposed new Masonic building.

Mr. Walton Baum, the worshipful master, says they will likely be for bids very soon to see if the structure can be built within their means. They expect that it will be and that things will begin opening soon.

DOWN THE HALL, we dropped into Mr. W. B. Wright's office. And a visitor there was his mother, Mrs. Forest Wright, who has just returned from a tour of South America. Mrs. Wright and her Mary Jane Butts spent several weeks touring the various countries of South America. They have been there several times now, and Mrs. W. indicates that a future travels likely will be in a different direction.

WE'VE BEEN ASKED to announce that Friday night is family game night out at the Cisco Country Club. This won't be an "outing meeting," but there will be games for all members of the family.

**FARMERS' DAY**—The famed Piazza Esedra is changed into a rural fair as hundreds of tractors and other farm implements are put on display in Rome. The equipment was turned over to farmers from Southern Italy under a new government plan to split up large tracts of land. Some of the ancient walls of the city can be seen at left.

## Beware Of Ticks On Spring Picnic Dr. Cox Warns

AUSTIN, April 16.—The trouble with spring is that it is a season when most people's thoughts turn naturally to picnics and exploratory sojourns into the great outdoors.

At this time of year, such a turn of mind could, unless care is taken mean exposure to the fever-laden bite of a tick with a big name.

In scientific circles, one of these pernicious little parasites goes by the name of *Ornithodoros turicata*. It can bite you without your ever knowing it, so painless is his attack. He feeds so quickly before releasing his hold and dropping off that most of his victims never know they have provided him with a blood meal.

He belongs to the soft-shelled tick family, and is the most important transmitting agent of relapsing fever, a tropical disease well-known in Texas.

Technical workers in the Bureau of Laboratories at the State Department of Health go into all sections of the state searching for these little disease bearers, gathering specimens from their natural habitat.

State Health Department laboratory specialists have added many refinements to diagnostics relating to relapsing fever. The strange disease occurs all over the world, despite its being classified as a tropical disease. It has been endemic in Venezuela for many years and has become all too prevalent in the United States in recent years.

There is as yet no serum known to be effective against relapsing fever. While it usually can be successfully treated when identified, its diagnosis is often difficult. Many cases run their full course without the miserable victims ever knowing what caused their distress.

Soft-shelled ticks usually inhabit caves and old abandoned buildings, while their hard-shelled counterparts stick to the woods and fields.

And so wherever you go on that picnic or whatever you do to commune with nature, have fun—but be careful of those ticks.

House Will Get State Court Bill

AUSTIN, April 16. — A state-wide court restricting bill was unanimously approved by a committee of the House of Representatives here Wednesday night. The measure now is eligible for house action, which is expected in about ten days.

The state-wide restricting bill would eliminate Eastland County's 91st District Court and place this county with Stephens and Young Counties in the 90th District Court.

The Texas Senate has taken no action of a bill by Rep. Omar Burkett that would abolish the 91st Court. The state-wide court bill would go to the senate after house action. This is classified as "must" legislation by Governor Allan Shivers.

HEALTH TALKS

Prepared by the Texas Medical Association

The patient, the hospital, and the doctor might be thought of as forming a tripod to support an ideal goal: Good Health for the patient. Each part of the tripod is essential to the whole and to each other.

Close cooperation between the hospital and the doctor means more benefits at lower expense to the patient. The hospital has costly equipment available to doctor staff members; if the individual doctor had to buy and maintain duplicate equipment, the added cost to him has been estimated to be between \$65,000 and \$75,000, and his patients would have to help pay the difference.

Doctors serve the hospital in a closely knit staff and donate their services in this capacity. Through an organized staff, the hospital (and eventually the patient) benefits by having available for quick consultation specialists in many fields of medicine, one way in which it is able to maintain high standards of medical care. Also, the hospital by alternating periods of call service among its doctor staff can care for patients entering for emergency treatment twenty-four hours a day.

The doctor wants his patient to have the best care possible. Sometimes this means a trip to the hospital. The physician is not unmindful, however, that hospital costs at times may seem prohibitive to the patient. He likes to know that the patient will be able to pay his hospital bill by insurance, installment payments, or other means so that needed treatment can be given in time enough to do the most good. In most cases, patients

who are the sickest and need to be kept in the hospital the longest are those whose care has been neglected until too late.

One method of budgeting for medical care is through hospital and health insurance. The purpose of this form of protection is to help cover the costs of what is known as "catastrophic illness;" that is, illness requiring hospital care and often surgery or other forms of treatment which run the bill up high. Insurance may not cover the entire bill in all cases, but it helps to absorb the blow of unexpected, severe illness with its accompanying expenses.

HEALING FAITH MISSION

Several visiting ministers are due to take part in the program at the Healing Faith Mission, 7th Street and Avenue A, at 7:30 p. m. Friday, it was announced today. The public was invited to attend the service.

# SOCIETY AND CLUBS AND NEWS OF INTEREST TO WOMEN

## W.S.C.S. Circle One Has Meeting On Tuesday

Circle One of the W.S.C.S. of the First Methodist Church met in the home of Mrs. J. T. Anderson Tuesday for their monthly meeting.

Mrs. B. J. Osborn was in charge of the program which opened with the singing of the hymn, "Bringing In The Sheaves," with Mrs. W. J. Foxworth at the piano. Mrs. W. Z. Latch gave the devotional on the parable of the sower and led in prayer.

Mrs. R. L. Smith, former missionary to Korea, gave a talk on the Korean people and the Methodist missionary work in Korea. Mrs. Fields then conducted a short business session.

A refreshment plate of sandwiches, lemon mousse, and coffee was served to Mesdames Joe Lovelady, Crigler Paschall, M. D. Paschall, Bob Snoddy, F. J. Harrelson, S. H. McCanlies, B. J. Osborn, R. W. Merket, J. T. Fields, Mattie Cole, R. L. Smith, W. J. Foxworth, Ed Callarman, W. Z. Latch, and the hostess, Mrs. Anderson.

## First Baptist G.A.'s Hold Regular Meeting

On April 14, the Junior G.A.'s of the First Baptist Church met in regular session at the church.

The meeting opened with the group singing the G.A. hymn after which the watch word, allegience and star ideas were repeated. Mary Ann Moore led in prayer.

The secretary report was given and old and new business matters were transacted. Mary Wayne Huston and Patti Lou Wright said their thanks to the leader, Mrs. Collier, of being a maiden. The love offering was taken by Evelyn Bint and Mrs. Collier dismissed the group with prayer.

Those attending were Mary Ward, Barbara Jenkins, Linda Curry, Karen Taylor, Mary Ann Moore, Patti Wright, Camille Lee, Carol Kay Mayhew, Loretta Whitehead, Mary Wayne Huston, Judy Kay Slaughter, Mrs. Collier and Anna Jean.

## Presbyterian Women Hold Meeting Tuesday

The inspirational meeting of the Women of the Presbyterian Church was held Tuesday at the church with the president, Mrs. John Kleiner, in charge.

Mrs. W. W. Wallace opened the meeting with prayer and the minutes of the three previous meetings were read and approved and letters were read from the E. A. Jamison family, the E. L. Graham family, and from Mrs. VOLLIE MEYERS. Also letters from the Presbytery and Synod presidents were read.

Mrs. Glenn Dietaker, chairman of world missions, spoke of the annual birthday party in May and a motion was made to make it a night meeting with a pot luck supper. Mrs. Kleiner informed the women that Mr. James will teach the study in Psalms at the prayer meetings beginning in September.

Three cars, taking eleven people, were scheduled to go to the Mid-Texas Presbytery meeting in Hillsboro April 16 and 17. Mention was made of the money sent to the Goodland Indian Orphanage in Hugo, Oklahoma, as a memorial.

Mrs. Slicker announced that there were 26 charter members in Joe Slicker's new church in Dallas. The meeting then adjourned to the church for the program.

"My Church" was the theme of the program. Mrs. Kleiner stated that she hoped the group would learn to appreciate their church and its property more than ever as they studied about it. "Let us go into the house of the Lord

and take notice of it," said Mrs. Kleiner.

Mrs. Slicker gave the devotional using Psalm 122 for her scripture. The group then joined in the singing of "I Love Thy Kingdom Lord," and "The Church Is One Foundation."

The voice of Mrs. B. S. Huey from the back of the church told of "Our Building," followed by remarks by Mrs. Kleiner and the question, "Is this the case with my church and if so what can be done about it?"

The second voice from the rear of the church by Mrs. W. F. Watson asked the question, "who built the church?" This question was answered by Mrs. C. R. Baugh who sketched the church from its beginning in 1881, naming 22 pastors whom she knew personally with the exception of the first one and praised the civic work of these men as well as the spiritual.

The first voice said, "I Love To Go Into The House of The Lord." The second voice told of the pulpit; the third voice of the organ; the second voice of the communion table; first voice of the pews and recreation center and various groups of the church; second voice of the fellowship of God's building; first voice of offerings dedicated to God; and the second voice asked if "we are worthy of our parents who built the church."

Mrs. Kleiner asked if "we would just use the church and leave it to our children or share it with others." The first voice from the rear of the church ended

the program by asking for ways of improving the church, and coming to the front for a general discussion. Various answers were made and the president appointed Mrs. B. S. Huey, Mrs. Homer Slicker, and Miss Willie Word as a committee to try to have improvements made.

Mrs. Kleiner asked Miss Willie Word to come forward as she read the history of her life from the time her parents moved to Cisco and from when Willie was born to the present time presenting her with an honorary Life Membership pin and engraved certificate as a reward for faithful service rendered the church. Mrs. A. J. Olson closed the meeting with prayer.

Sixteen members attended the meeting.

# why Smokeless broiling?

Here is a simple demonstration that points the way to cleaner, cooler cooking.

SEE THAT SMOKE FROM THE CIGARETTE? Smoke also comes from broiling foods. For as they cook, fats burn and smoke. The high heat does it — whether it is flame or non-flame broiling.

SEE ANY SMOKE ABOVE THE FLAME? There isn't any because it was consumed by the flame. And you don't have any when you broil with gas. In gas ranges, as in this demonstration, the flame consumes the smoke.

Moreover, flame broiling is cooler, for the broiler door is kept tightly closed during broiling process.

### High School News Notes

By RHELDA REED

The time has come for us to take our tests again which will help determine whether we will pass or fail some doubtful subject. Most of the tests were scheduled for Wednesday and Thursday because the choir will be absent Friday. It won't be long until we will be taking finals, which we really dread. Oh well, it wouldn't be school without exams. I just hope we pass all of them.

#### Pep Leaders

The pep leaders were elected yesterday for the 1953-54 school year. The following were elected: Flora Jean Fletcher, Cindee Gallagher, Bobbie Ann Huffman, Dot Crofts, and Rhelda Reed. They will elect a head cheer leader some time in the near future.

#### Choir Contest

The Cisco High School choir will be entered in the interscholastic league contest at Abilene Friday, April 17. They will leave here Thursday at six o'clock. They will spend the night in Abilene. Here's wishing them the best of luck. We know they will come home bearing high honors.

#### Senior Play

The annual Senior Play will be presented in the High School auditorium Friday night, April 24. The play is entitled "Who's Batty Now?" There are twelve characters in the three act comedy. The cast is made up of Iva Dene Sublett, Bob Lloyd, Barbara Cousins, Kelly Coats, Mary Scott, Irv Brunkenhoefer, Sherwood Gaines, Neota Moad, Barbara Meglasson, Daniel Gray, Wanda Hailey, and Carl Ingram. There will be a full column about the play in Sunday's Cisco Daily Press.

#### Annual Staff

Mr. Owen King has announced that he will start work on reorganizing the annual staff for the 1953-54 school year. The members who worked on the staff last year will help in this project. The 1952-53 annual is expected in from the publishers some time this month for proof reading. Mr. King deserves a great deal of credit for this job he has undertaken. He has done a fine job.

#### Spring Training

The Cisco Lobos began their spring training last Monday. Coach Williams has a pleasing report for the first few days of practice. The first game of the 1953 season is scheduled for September 11 with Eastland.

**SOUNDS OF THE SEA**—Student nurse Lorraine Dellibovi is using a stethoscope as medical student Bud Appleton places the instrument on one of the shell animals he made in New York. **UNEXPECTED DISPLEASURE**—Because chorus girl Jan Hansen was curious to know what an atomic blast was really like, some photographers fixed a replica up for her in Las Vegas, Nev. This miniature bore faint resemblance to the original, but even this gave Jan enough annoyance to know she wouldn't like it.

**IT'S THE LAW**  
in Texas  
A public service feature of the State Bar of Texas

Why persons accused of crime are released on bail is a subject on which most of us have little knowledge but considerable curiosity, according to the State Bar of Texas.

In the United States a defendant in a criminal action is presumed to be innocent until his guilt is established beyond a reasonable doubt. His guilt or innocence is established at his trial — not when he is arrested.

With this concept in mind it is not hard to see why the right to bail in criminal cases is guaranteed by the Constitution of the United States, with the exception of capital cases. A capital crime is one which the punishment may be death. In Texas murder, treason, rape and robbery with firearms are capital offenses.

All prisoners are bailable in Texas except where the proof is evident that a capital offense has been committed and it is probable that a jury will assess the death penalty.

An officer making an arrest is required by law to take the accused promptly before a magistrate. It is the duty of the magistrate to examine into the truth of the accusation made. He determines whether the accused should be discharged or bailed or held without bail. If bail is set for the defendant, the magistrate must determine the amount. The law provides a procedure for reviewing these decisions before the Court of Criminal Appeals.

When an accused is on bail when his trial commences he has the right to remain on bail during the trial of his case. Where the punishment of a defendant has been assessed at confinement in the penitentiary for fifteen years or less the defendant has the right to remain on bail pending the appeal of his case. If the penalty is more than fifteen years the defendant is kept in custody from the moment the jury returns its verdict.

The Constitution also says that bail may not be set in excessive amount. What is considered a reasonable amount depends largely upon the circumstances and the risk involved. Bail must be set high enough to assure the court and the state that the person will not run away, but will return and submit to trial on the date set.

The judge usually will ask the prosecuting attorney for a recommendation as to the amount of bail. The accused's attorney may then ask that the amount recommended be reduced, giving his reasons. The judge will settle on an amount he believes reasonable to assure the accused's presence at the trial.

(This column, based on Texas law, is written to inform — not advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

### Peace Or A Sword

Are we on the road to peace—real peace? That is the major question before all of us.

The Russians have indicated a willingness to settle some of the questions that have kept the Korean War alive. Possibly there will be a Korean truce by the time this appears in print.

Of course, we are ready for a truce on honorable terms. Every American wants to end the Korean fighting at the earliest possible moment. We cannot, however, permit the prospects for a Korean truce to lull us into a false sense of security that will cause us to weaken our defenses.

We must be vigilant — ready to discuss and accept proposals that will lead to real peace, but refusing to let down our guard.

### Government Is Strong

Our system of government has weathered all the storms of its history. It is a system resting upon three pillars — a legislative

branch that is a deliberative body and not a grand jury; a judiciary that determines the guilt or innocence of those accused of breaking the law; an executive who conducts the business of the United States and its relations with other countries.

Let one wage guerilla warfare against the others, and our freedoms are weakened. Let one surrender its rights and authority to another, and our freedoms are gone.

Whether we be Democrats or Republicans, it will certainly serve none of us as Americans to use the tactics of the jungle against our fellow Americans. Still less will it serve us to use those tactics to tear down the great foundations of our government.

We cannot tear down the foundations without pulling down the house itself. If we pull down the house, we will all be buried in the ruins.
