## The Gay Philosopher

By J. W. S.

HAVING SPENT some time in the Pacific country during World War II, we've decided that perhaps the South Koreans are fussing about the Armistice because they're reluctant to see the GIs go home. If the U. S. soldiers in Korea are spending their money as freely as the boys did in the Philippines during the last war, the Korean people never had it so good.

If the Koreans want to continue the war, we would like to see them do so with their own soldiers and their own money. It seems to us that the U. S. has spent enough in lives and money in that country.

ENJOYED A FEW minutes of "Navy flying" with Mr. Billy Calloway of Longview here the other afternoon. Mr. Calloway is a pilot for the Humble Pipe Line Company. He flies the line to spot leaks. And he's in Cisco to relieve Mr. Roy Fonville, Jr., the regular local pilot, while the Fonvilles take their annual vacation. Mr. Calloway spent World War II aboard Navy carriers and was in a lot of the fighting.

SHOWING MR. Calloway around town was Mr. C. M. Townsley of El Rancho Townsley, chinchilla ranchers. Mr. T. reports that they have twins at the rancho — little female chinchillas. They're getting set to go over to Abilene on Sunday for a meeting of chinchilla ranchers. The tornado up at Flint, Mich., this week was in the old Townsley home country, he reports.

SPEAKING OF twins, we met up with Masters Michael and Phillip McNeely again this week. They're the twin sons of Mr. and Mrs. Clifton McNeely of Pampa and the grandsons of Mrs. Peggy Gallagher of the C of C.

Mr. McNeely, whose basketball team won the state championship last spring, is working on his master's degree at TCU and Mrs. McNeely and the lads are spending a few weeks with Mrs. Gallagher. Mr. McNeely spends the weekends here.

When we last saw the twins, who are 17 months old, they were coming out of the C of C office with their mother. One started east and the other west, leaving Mrs. McNeely to go in both directions. They're handsome little fellows.

WAS BY THE Cisco Ice Company last evening and all hands were swamped. With 100 plus temperatures, people seem to start thinking about ice and Mr. Jess Proctor runs his machines full blast. He stopped waiting on customers long enough to tell us that business was brisk, as we could already see. Mr. Crigger Paschall of the fruit stand out south of town tells us that he's more comfortable than when the thermometer stands at 104 degrees. He ought to be very comfortable these days, wouldn't you say?

OUT AT MR. W. B. Starr's place in the Mitchell Community, something new has been added. They've fixed up a poultry yard with all things modern and 2,000 baby turkeys now live there. Understand the Kincaids have nearly 15,000 turkeys at their Breckenridge highway ranch now. Mr. P. W. Campbell, West Texas Utilities Company official at Abilene and formerly of Cisco, business visited here Thursday.

HIS GOLFING PALS tell us that Dr. Jim Lawrence is living up to his reputation as city champion. He trims one and all just about everytime they play. Hear that the employees of the Cisco Post Office have presented Mr. L. H. McCrea, the out-going postmaster, with a handsome pen and pencil set. The O. J. Russells are on vacation.

HAD A CHAT with Mr. Lawrence Davis of the Sandler Company this morning. He reports that he can't understand why so many people would build big buildings and industries in Chicago — so far away from Cisco. He recently attended a meeting up there. The big hotels aren't air-conditioned there, and you burn up in the day time and wear an overcoat at night, he says. Sounds like a good place to be from.

FIRE AND THEFT PROTECTION  
1¢ Per Day For Safety Deposit Box  
10¢ NATL in Cisco—Mr. F. D. L. C.

**TEENY WEANER**—With a contented look in its big dark eyes, a 73-pound baby camel gulps down the last drop of milk from a bottle held by little Wilma England, of Richmond, Calif. Wilma was visiting a zoo in San Francisco when she made the acquaintance of the two-day-old camel that had been taken away from its mother who had killed her last two offspring.

## Second Week Of Boy Scout Camp Opens On Monday

The second week period of Camp Billy Gibbons, the summer camp of the Comanche Trail Council, Boy Scouts of America, will begin June 15. The camp is located on Brady Creek, southwest of Richland Springs, Texas. The first week session of the camp began last Monday, June 8. Over one hundred boys are now engaged in the camp activities of swimming, hiking, fishing, boating, archery, marksmanship, and so forth. The camp is rated one of the best wilderness Boy Scout camps in the southwest.

Many hundreds of Scouts have attended the camp since the first summer in 1931 when Uncle Billy Gibbons gave permission for the camp privileges. The late John Gibbons and his wife gave the present site of the camp to the Scouts.

The Scout Troops bring their own tentage and bedding, but eat in a central mess hall. The food is prepared by professional cooks and a well-balanced diet is maintained.

The first week period camp will end next Sunday at noon. Visitors are invited to attend the church services scheduled for 9 Sunday morning and the water carnival and dinner which follow. The first meal of the second week period will be served Monday evening.

Major Beany Hill and family of Castle Field, California have returned home after a few days visit with Mrs. Minnie Hill.

## GIANTS SCORE SIX RUNS IN 1ST FRAME TO DEFEAT CARDINALS

The Little League Giants scored six runs in a big first inning against the Cardinals in a league contest at ABC Field Thursday night, and went on to down their rivals 11-8 in the six inning contest.

The Giants made their 11 runs off nine hits, six walks and eight Card errors. Dal Elder started as pitcher for the Cards but was replaced on the mound, after pitching two thirds of an inning, by Charles Lavery. Lavery allowed five Giant runners to cross home plate after he took over in the first.

The Cards made their eight runs off the combined pitching of Blackwell and King who allowed eight hits and walked four. The Giants made only two errors. The Cards had a big five run third inning but were powerless for most of the other stanzas.

## REV. SCAER WILL REPRESENT AREA LUTHERANS AT MEETING

According to James F. Hennig, pastor of Grace Lutheran Church, the Lutheran Church-Missouri Synod, of which his congregation is a member, will hold its triennial convention in Houston from June 17 to 27.

The delegate from Cisco is the Rev. M. J. Scaer, pastor of Christ Lutheran Church. He will represent 12 congregations in this area. He will be accompanied by his wife, who will also attend the convention.

"The Lutheran Church-Missouri Synod is one of the larger theological conservative bodies of the world. By accepting the invitation of the Texas district and the twenty-three congregations in Houston, to hold its convention in that city the Lutheran Church recognizes the importance of the South in its program," Rev. Hennig said.

## Officials Report Leon River Lake Work Progressing

Work on a Leon River dam that will provide lake water for the Cities of Eastland and Ranger is progressing on schedule, the Eastland County Water District reported this week. The lake is being built by a \$1,500,000 bond issue.

Plans call for the dam to be completed in the fall. The recent heavy rains delayed the work slightly, washing away a small portion of the dam. Workers are now pouring cement, hauling rock and dirt and completing carpentry work.

While the lake will begin filling in the fall with adequate rainfall, use of the water will await completion of a filtration plan and pipelines to the two cities. Work on these projects is due to be started this summer.

With good luck, the two cities may be drinking water from the new lake before the close of the year, water district spokesman reported.

## Callahan Reunion To Be At Cross Plains

Plans have been made for the Callahan County Old Settlers Reunion to be held at Cross Plains on Friday, August 14, according to an announcement by Mrs. B. L. Boydston of Baird, secretary. The 1952 reunion was also held at Baird.

Committees have been named to handle the various details of the program, and they are to meet at 2:30 p. m. on August 1 at the Callahan County courthouse at Baird to make final plans for the event.

Association officers include Will Boydston, president; Mrs. L. L. Blackburn, first vice president; Mrs. John Jordan, second vice president and Mrs. B. L. Boydston, secretary.

**CARNIVAL IS BOOKED**

Lake Cisco Park has booked a carnival to be here during the July 4th weekend, Manager W. P. Knight of the swimming pool reported today. The carnival will feature a number of rides and side shows. The American Legion's swimming pool committee has arranged for a big fireworks display at 9 p. m. on July 4th.

## Former Residents Complete School And Get Awards

Two former Cisco people were awarded graduation certificates in exercises held in Eugene, Oregon, recently.

Mrs. Jesse Himmelsbach, the former Miss Kathleen Bailey, daughter of Mr. and Mrs. M. D. Bailey of Cisco, received her graduation certificate from University High School in Eugene, and Mr. Himmelsbach received his bachelors degree in Law at commencement exercises at the University of Oregon.

The couple plans to remain at the university for two additional years while Mr. Himmelsbach completes work on his L.L.B. degree. His wife will continue her studies at the school.

While in Cisco Mr. Himmelsbach was employed by Lee Geophysical and Exploration Service. He resigned his position to enter the Oregon school to continue studies that were interrupted when he enlisted in the Air Force.

## Lockjaw Cases Due To Increase During Summer

AUSTIN, June 12 — Increasing numbers of lockjaw will develop between now and fall, State Health Officer Geo. W. Cox warned today, despite known measures of prevention.

Lockjaw, or tetanus, cases jump in summertime because exposures in the form of cuts, scratches, or puncture wounds are more frequent in warm weather when people are out-of-doors.

The germs of lockjaw are commonly found in soil — especially manured soil. They enter through a skin break and emit a deadly toxin which causes jaw and neck muscles to constrict so severely that jaws involuntarily close, vice-like.

Slowly, the muscle constriction spreads to other body muscles, until the victim is bent like a bow. A fatal case of the disease has been traced to a scratch from a rose thorn.

Lockjaw germs are spore-formers, which means they can live for years outside an animal body. Its life processes lie dormant in a tiny seed-like pod, sifting about on the ground until finally, perhaps through a sliver or nail scratch, it gets back into live tissue.

The wound may heal, but inside, protected as it is from the air, the spore will begin "re-vegetating" and emitting deadly toxin.

Farmers are especially vulnerable to lockjaw, Dr. Cox cautioned, because the primary source of lockjaw germs is the intestinal tract of farm animals. They're passed onto the ground in animal dejecta, easily available for re-entry into a human body when that body is cut or scratched or otherwise wounded.

Exposures to lockjaw are so common that it is mere common sense for everyone to maintain a high level of protection via immunization. Dr. Cox called this method of gaining immunity "simple and convenient." He said immunizing shots should be given children early in life, at the discretion of the family physician.

"You can't go to a doctor with every little scratch," he emphasized, "so the best way to handle it is to take an immunizing series of shots, and keep the immunity level high with periodic 'booster' shots."

## Little Leaguers Plan Two Games

Two Cisco Little League teams will play visiting Little Leaguers Friday and Saturday nights at ABC Field.

Friday night (tonight) the Cisco Braves will meet a visiting nine from Stephenville. Game time has been set at 8 p. m. It will be the first appearance of a Stephenville Little League team on the local field.

Saturday night the Cardinals play a Negro Little League team from Brownwood. The Brownwood Little Leaguers are strong contenders for the Brownwood title. Small charges will be made for admission to the two exhibition games to help defray expenses.

## New Officers Are Elected By Three Local Masonic Bodies

### COUNTY ATTORNEY'S PROBLEMS OUTLINED IN ROTARY ADDRESS

The problem facing the county and district attorney's office were outlined in a talk by District Attorney Joe Nuessle to Rotarians at the regular weekly meeting of the club Thursday at the Hotel Victor Coffee Shop.

Mr. Nuessle told Rotarians that where a district court served only one county the size of Eastland, the district attorney also handled the post of county attorney. He said that the duties of office were not confined to criminal prosecution but covered a multitude of things. He listed some of the duties as the prosecution of felony and misdemeanor cases, lunacy cases, juvenile cases, civil cases, advising county officers on problems, and many others.

He said that while he was allowed an assistant the work was handled as it came in, and that the docket was not crowded. Recent action by the county commissioners' court abolished the office of assistant and the work was beginning to run a little behind. He said that there were only four felony cases, on which the grand jury had returned indictment since 1952, still on the docket, and that in each of those four

cases the defendant had not been located.

The program was in charge of Rotarian W. B. Wright.

Visitors at the meeting were Rotarians C. R. Owen of Graham, John Cornell of Mineral Wells, Preston McWhorter and Lester Barry of Abilene, Cyrus Frost and Bernard Hanna of Eastland and John Hicks of Hobbs, New Mexico.

J. J. Porter, recently appointed postmaster of the Cisco office, was welcomed as a new member. Rotarian Charles Graham introduced Mr. Porter to the members.

### Hunting Outlook Seems Varied In Prospect Survey

AUSTIN, June 12 — As successful coastal fishing continues to highlight outdoor activities, reports from the wildlife front indicate varied fall harvest prospects, according to the Executive Secretary of the Game and Fish Commission.

The outlook for hunting of both mourning and whitewing doves is considered fairly good. At least a part of the big game empire in the Hill Country is described as favorable for deer and turkey chances.

Reports from Canada reflect some concern over the effect of late spring storms on the waterfowl situation. But it seems certain that the large population that migrated north presages a good hatch despite occasional setbacks.

One bright light on the wildlife picture concern the quail, which slumped badly last year. While it is too early yet to get an accurate population check, the Executive Secretary observed that field reports generally are pessimistic, because of the prolonged drought.

For example, the Panhandle which two falls ago had a record quail crop, is now described as being in short supply. Paul Timmons, outdoor editor of the Amarillo News Globe, wrote in his column that quail were depleted, adding that nesting was being curtailed by lack of cover and predicting a heavy toll by predators.

An innovation to the Panhandle harvest is expected this fall through a limited take of pronghorn antelope for local hunters. An aerial census indicated sufficient herd strength to warrant the first open season. A curtailed season on antelope may also be held West of the Pecos.

### Vacation Bible School To Begin

Registration will begin at 9 a. m. Saturday for the annual Vacation Bible School at the First Baptist Church, according to an announcement today by Mrs. H. M. Ward, superintendent. A downtown parade will be staged at 10 a. m. at the close of registration.

Classes will begin at 8:30 a. m. Monday and will meet from 8:30 to 11 a. m. daily, Mondays through Fridays, from June 15 through June 25. All children between the ages of 3 and 16 have been invited to enroll in the classes.

### Ciscoans Attend Board Meeting

F. E. Shepard and Dr. H. M. Ward of the First Baptist Church in Cisco attended a meeting of the State Executive Board, Baptist General Convention of Texas, in Dallas last Tuesday. Mr. Shepard is a member of the board.

Purpose of the meeting was to accept the resignation of Dr. J. Howard Williams as state executive secretary. Dr. Williams has been named president of the Southwestern Baptist Theological Seminary at Fort Worth.

The board will meet again on July 9 to select a successor to Dr. Williams.

**RURAL APPEARANCE**—What may look like a small town in Holland is actually a flower-lined street in the American sector of Berlin. The scars of war and the ever-present political struggle between East and West seem far removed in this peaceful view of the German capital.

### Installation Will Be In Near Future

Cisco Masonic Bodies have completed the election of new officers for installation in the near future, Secretary L. D. Wilson reported today. New officers have been elected by the Blue Lodge, the Chapter and the Council.

New Blue Lodge officers were named as follows: Travis Parmer, worshipful master; Joe Brown, senior warden; J. L. Stafford, junior warden; Hayward Cabanes, treasurer; L. D. Wilson, secretary; and Walton Baum, tiler.

The Blue Lodge is due to install the new officers at the regular meeting on June 25. Mr. Baum is the retiring master.

New Council officers have been elected as follows: Carl Gorr, thrice illustrious master; Clyde Cooper, illustrious deputy master; C. F. Coats, illustrious conductor of the work; Hayward Cabanes, treasurer; and L. D. Wilson, recorder.

Mr. Baum is the retiring thrice illustrious master.

The Chapter has elected new officers as follows: Carl Gorr, high priest; Hershel Penn, king; Walton Baum, scribe; George Boyd, treasurer; and L. D. Wilson, secretary. Joe Brown is the retiring high priest.

The Council and the Chapter will hold installation services in July. Several officers are to be appointed to posts in the three bodies, and they will be announced at a later date.

Mr. Wilson reported that the Blue Lodge is due to hear a report from the building committee at the June 25 meeting. Bids for the construction of a new Masonic Temple were opened recently and the committee has been studying them to make a recommendation.

The Chapter has scheduled a meeting for Monday night at 7:30 o'clock for degree work, Mr. Wilson said.

Other meetings scheduled include the Blue Lodge on June 19 and June 22 for degree work.

### Santa Fe Offers 4-H Club Awards

Texas Extension Service has accepted for 1953 the Santa Fe Railway System's offer to provide a National 4-H Club Congress award equivalent to \$175.00 each to the 15 boys or girls in the State with top ranking 4-H records. In addition, one 4-H boy and girl will be selected to receive a \$250 college scholarship.

Participants must have passed their 14th and must not have passed their 21st birthday on January 1, 1953, and must have completed at least three years of 4-H Club work, including the current year.

Last year's winners of the Club Congress awards in the Lone Star State were Bill Arrington, Freeport; Tommie Kelle, Inez; Eddie Mae Gembler, San Antonio; Cynthia McKethan, McGregor; Martha Jane Brandon, Quanah; Yvonne Allen, Argyle; Jack P. Acker, Nazareth; Ricks Pluenneke, Carrioz Springs; Allene Bailey, Bastrop; Obie Dee Bradford (boy), Winters; Januce Lobban, Justiceburg; Toby Thomas, Sweetwater; Vivian Braupe (boy), Seguin, and Nancy Adian, Fisk. The last two also received the scholarship award.

This program is supervised by the Cooperative Extension Service.

### Church Secretaries Course Is Planned

BELTON, June 12—A course for church secretaries, one of the few in the Southwest, will be available at Mary Hardin-Baylor College beginning with the fall semester of 1953-54, Dean John C. Abbott has announced.

The curriculum will lead to the B. S. degree with a major in business. In addition to the usual business subjects, students will take courses in allied fields.

Positions as church secretaries offer excellent opportunities to young women interested in Christian service combined with a secretarial career, Dean Abbott points out.

## Sow Early Varieties for Fall Home Garden Crops

Beets Are Best for the Table and for Canning When as Large as Golf Balls.

In selecting varieties of vegetables to sow late, for fall harvest, the first step should be to check with the local weather office. The average date of the first killing frost in the fall in your locality may determine the variety which you will sow.

If 100 days of frost-free weather remains, you will have a wide range of vegetables you can sow, but do not start those which take 90 days to mature, unless they will survive early frosts. To mature Chinese cabbage takes 90 days, brussels sprouts, one of the hardest vegetables, takes 80 days, but both these will survive several freezing nights and yield a welcome harvest weeks after tender vegetables have been killed.

For winter greens, sow kale which will be improved in flavor by freezing and may often be harvested as late as Christmas even in northern states.

Though you are sowing late, remember in the case of tender vegetables to choose "early" varieties, which means they mature early. Early beans will mature in 60 days, lettuce in 45 days, beets in 55 days, carrots in 70 days, cucumbers in 45 days, radishes in 20 days, peas in 60 days. So all these can still be sown for the fall harvest.

It is a great mistake to neglect the fall harvest from the vegetable garden, since in many ways it is the best of the year. Some crops difficult for the amateur in the spring are easy in the fall. Take cauliflower for example. In order to mature heads in the spring before hot weather spoils the crop, plants must be set out in the garden before most amateurs spade up their soil. But plants set out now will mature in the autumn weather and give a long harvest of excellent quality with no danger of going to seed.

Head lettuce is easier to grow in the fall, and endive is at its best, improved in flavor by frost, and surviving until hard freezing weather comes. If you plan a special crop for canning or for storing in a root cellar, sow beans, beets and carrots.

The British are in trouble in Egypt; the French in trouble in Indo-China; the entire Middle East is unsettled; and most of all, even with a truce in Korea, the overall situation is a long way from being solved.

With all these uncertainties, it seems to me that we should wait a little longer before we appropriate another 5 to 6 billion dollars to help people who may not be doing all they can to help themselves.

It was a pleasure to see in my office this week the following visitors: Mr. and Mrs. Carl Colwick, and niece, Susan Chandler of Stephenville; Mr. B. R. Gambelin, Abilene; Mr. R. D. Collins, Mineral Wells; and Mr. and Mrs. T. J. McMahon of Abilene.

A separate news article is being furnished this paper on the final results of my annual questionnaire. I hope you will find it of interest.

# SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

## Webb Family Holds Annual Reunion Past Weekend At Lake Cisco Camp

The annual reunion of the Webb family was held at the Presbyterian encampment in Cisco Saturday and Sunday with approximately 127 persons attending.

Those attending were: Mrs. Gela Fore, Healdton, Oklahoma; Mr. and Mrs. Rich Holder, San Antonio; Mrs. Mertie Pinkston, Abilene; Mrs. Rosa Gooch and Agnes, Abilene; Mrs. Minnie Little, Cross Plains; Mrs. Jack Lay and Jack of Cross Plains; Mr. and Mrs. John Holder, Stanton; Mrs. Fay McClain and Sandra, Stanton; Mr. and Mrs. L. P. Holder, Vernon; Mrs. Nina Burns and sons of Jackson, Mississippi; Mr. and Mrs. M. L. Pinkston and sons, Abilene; Mr. and Mrs. J. Y. Robinson, Comanche; Mr. and Mrs. J. Y. Robinson, Jr., and Sherry, Comanche.

Mrs. Sybil Grisham and children, Irving; Mr. and Mrs. Bill Cummins, Kermit; Mr. and Mrs. C. L. Webb and family, Cisco; Mr. and Mrs. Bernard Holder and girls, San Antonio; Mr. and Mrs. Ural Holder and girls, San Antonio; Mr. and Mrs. Raymond Pinkston, Odessa; Mr. and Mrs. Bert Clemmer and family, Abilene; Mr. and Mrs. Carlton Holder and girls, Cisco; Mr. and Mrs. Wayne Webb and son, Grand Prairie; Mr. and Mrs. Harlon Lacy and girls, Dallas; and Mr. and Mrs. C. C. Webb and sons, Cisco.

Mr. and Mrs. Lendon Newton and family, Vanderbilt; Mrs. Opal Bratcher, Carlsbad, New Mexico; Mrs. Betsy Little and Ann, Rising Star; Mrs. C. B. Attwood and Donna, Kermit; Mrs. Vida Pinkston and children, Odessa; Mr. and Mrs. Russell Riddle and girls, Odessa; Mr. and Mrs. Bert Young, Abilene; Floyd Gooch and David, Abilene; Mr. and Mrs. James Parker and son, Mr. and Mrs. C. J. Jackson and son, Wichita Falls; Mr. and Mrs. Ernest Clemmer and girls, Abilene; Mrs. Mina Ogletree and Susan, Sterling, Kansas; Mrs. Marie Ralston and girls, Healdton, Oklahoma; Mr. and Mrs. Dee Gooch and family, Abilene; Mr. and Mrs. Bill Bailey and family, Dallas; Mrs. Lorene Windho and children, Abilene; Mr. and Mrs. Rex Robinson and family, Dallas; Mr. and Mrs. Kenneth York and children, Wichita Falls; Mrs. Amanda J. Webb, Cisco; and Mr. and Mrs. Dell Farney, Healdton, Oklahoma.

**GETTING AN EYEFUL**—Some curious youngsters in London got right down to earth on their hands and knees to get a better view of the celebrities who were arriving at a garden party at Buckingham Palace. The social events which preceded the Coronation have not subsided, and these tots, peering through the legs of a horse, are witnessing the beginning of one.

## HEALTH TALKS

Prepared by the  
Texas Medical Association

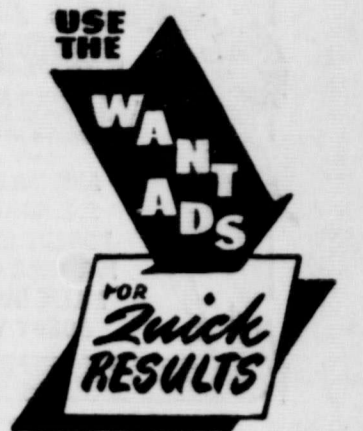

A \$64 question in medicine is the cause, and consequently the right treatment, for hardening of the arteries.

Arteriosclerosis, as doctors term this condition, might be compared to a change in the pipes of a water system; in a way, the arteries are pipes carrying blood from the heart to all parts of the body. If rust or scale collects on the inside of a pipe, the amount of water that can get through and the rate at which it flows is reduced. This is exactly what happens in the type of arteriosclerosis considered most dangerous. There is an important difference in the water pipe-blood vessel comparison; it is that a blood vessel is not likely to burst unless another disease like syphilis weakens its wall. The danger enters when the blood supply to a vital organ like the brain, heart, or kidney is cut off, even temporarily, and death can result. Victims sometimes have trouble with circulation in their feet and legs, and pain, ulcers, and gangrene may be undesirable complications.

Some people have the condition and never suffer any ill effects; in fact arteriosclerosis is

considered a natural part of aging. However, the disease has been reported as present in infants and children and may be almost totally lacking in some aged persons. People who develop hardening of the arteries early in life are likely to pass this trait on to their children. Scientists also have noticed that arteriosclerosis often is connected with diabetes and high blood pressure.

Right now, the total answer to the treatment of arteriosclerosis is not known. Medical science sometimes can slow down its development. Hardening of the arteries, as one of the three main causes of heart diseases (the other two being rheumatic fever and high blood pressure) is the target for attack in many research projects all over the world.

**ON HER WAY**—Actress Maria Riva, daughter of Marlene Dietrich, waved hello when she arrived by plane at Orly Airfield in Paris. She is on her way to Israel, with her husband and two small sons, to shoot a series of TV films. But first, she'll make a visit to home before she settles down to shooting the scripts.

**WHAT'S THIS?** — Why, it's two oddly-paired statues which are welcoming visitors to Ponce de Leon Springs, Fla. The ancient Spaniard, clothed in the dress of his day, escorts a modern day bathing beauty. The combination represents historical significance and the beauty of the gardens in the Springs, one of Florida's newest tourist attractions.

## Rebekah Lodge Holds Meeting On Tuesday

The weekly meeting of the Goodwill Rebekah Lodge was held Tuesday evening at the lodge hall with Mrs. Meda Strawn presiding.

The meeting opened in regular form and routine business matters transacted. Pal gifts were exchanged and the meeting closed in regular form.

Those attending were Mesdames Laura Jensen, Lydia Krauskopf, May Kleiner, Edith Bragg, Connie Hyatt, Leah Bates, Ethel Moore, Pauline Taylor, Dee Clements, Iva Harper, Winnie Linebarger, and Meda Strawn.

## TO END MEETING

W. J. Leach of Quitaque will end the meeting he is conducting at the West Second Street Church of Christ with the service Sunday night. Mr. Leach began the meeting last Sunday. An invitation was issued to everyone to attend the remainder of the services.

Mr. and Mrs. E. Z. Drake and family have returned to their home in Kermit after spending a few days in Cisco with their aunt and uncle, Mr. and Mrs. Meda Strawn, and other relatives.

Ronald James and Beverly Ann Huddleston of Winters are visiting with their grandmother, Mrs. S. B. Parks.

FLOATING THROUGH PARIS—One of the idyllic warm-weather sights in the French capital is the Bateau-Mouche boat, as much a part of the traditions of the city as the more famous sidewalk cafes and Eiffel Tower. Photographed as it passes Notre Dame Cathedral on the Seine River, the slow, pleasant way of seeing Paris is a floating restaurant for visitors.

### Farmers Combine Grains; Planting Fall Row Crops

Combining small grains, baling hay, as well as planting, re-planting and cultivation of row crops was very active during the third consecutive week of hot, windy weather over most of the state. Cotton and feed crops continued to make good growth in central, northern and eastern counties but moisture was again needed to maintain development. Southern, western and most of the northwest continued critically dry.

Widely scattered showers in the northwest provided temporary moisture for germination of grain sorghums in favored localities. In the low rolling plains and Cross Timber combining of wheat was at a peak as the very hot weather speeded ripening of remaining acreage. The first wheat has been combined on the high plains but harvest is not expected to be active for 10 days or two weeks. In north Texas harvesting the bumper small grain crop was underway.

Corn prospects continued good in central, north and east Texas with much acreage in tassel. Surface soils dried rapidly, however, and crops were needing rain. In south Texas some corn was firing. Along the upper coast some corn was in roasting-ear stage. Sorghum planting in the high and low plains was further delayed except in some localities by dry soils, and early plantings in that area made poor growth. Sorghums made excellent growth in central Texas and was heading in south central counties.

Combining of early sorghum was underway in coastal bend. Cotton fruiting was slowed by dry weather in the coastal bend and southern counties. Early cotton in the blacklands, south central and upper coastal areas made rapid growth and was beginning to bloom in the more advanced areas. Late cotton in central counties was needing rain. Cotton was small and needed rain over the high and low plains and much non-irrigated acreage needed moisture before plantings could be made. Harvest of broomcorn is expected to start soon in the Karnes county area.

Conditions were favorable for active harvest of commercial vegetables in areas extending from the lower Rio Grande Valley to the East Texas tomato and North Texas onion areas. Cantaloups and tomatoes continued to move in volume from the Valley. Cantaloups and watermelons were moving from all early sections outside the Valley. Harvest of sweet corn has extended into central Texas areas.

Growth of summer range and pasture grass was being checked over the eastern half of the State by the hot, dry weather, and the abundant supply of grass over much of that area was beginning to cure. Droughty conditions continued in southern, western and most northwestern counties. Widely scattered showers in parts of the northwest should again start feed in those favored local areas but much more rain is needed. Movement of stock out of the dry areas was very heavy as hopes for summer feed faded. Marketing from the eastern half of the State was also heavy as the lush spring grazing season was ending.

LONG SHORTS — A novel once-piece beach costume by Jacques Heim in Paris features long shorts and thin-strapped bodice in black everglaze cotton, printed to look like moire embroidered with mimosa. A black patent leather belt and a bag of yellow cotton and black straw complete it.

Mr. and Mrs. Spurgeon Parks and children, Linda, Susan, and Breckenridge are visiting her parents, Mr. and Mrs. W. A. Watson, in Jacksonville, Florida and will visit with his mother, Mrs. S. B. Parks of Cisco over the weekend enroute to their home.

Mrs. M. D. Bailey has returned from Denton where she attended the commencement exercises of N. T. S. C. in which her son, Scott Bailey, received his Bachelor of Science Degree.

### Winners In TMA Industrial Week Contest Named

HOUSTON, June 10. — Houston, Amarillo, Texas City and Dumas were first place winners in the Texas Manufacturers Association's 1953 Texas Industrial Week competition with Amarillo, for the second consecutive year, winning the statewide grand award, it was announced today.

Chambers of Commerce in Abilene, Austin, Breckenridge, Coleman, Edinburg, Fort Worth, Quanah, Snyder, Sulphur Springs, and Tyler were awarded certificates of merit for "notable and distinguished" industry-emphasis program.

The statewide observance, which began in 1950, is coordinated by the Texas Manufacturers Association with Chambers of Commerce spearheading the programs in their respective cities. More than 100 chambers this year had observances of varying degrees.

This is the second year Amarillo and its Chamber of Commerce has captured the grand award which goes to organizations with the best program in Texas, regardless of population classification. Amarillo also won in the 25,000 to 75,000 grouping.

Houston and Dumas won in the more than 75,000 and under 10,000 groupings respectively after both Chambers had taken certificates of merits in 1952. Texas City, winner in the 10,000-25,000 class, entered competition this year for the first time.

Plaques will be presented first place winners at TMA's 31st Annual Conference of Texas Industry in Houston this October.

### Polio Chapters Are Invited To Panel Meeting

Chapters of the National Foundation for Infantile Paralysis in Texas, Arkansas, Louisiana and Oklahoma have been invited by Basil O'Connor, president of the Foundation, to participate in a one day workshop meeting in Houston on June 17. Based on the very successful chapter workshops of last year, the Houston meeting is the first of eight similar panels scheduled for the United States this summer.

Assisting Mr. O'Connor will be George P. Voss, director of chapter for the Foundation and chairman of the workshop; Dr. Kenneth Landauer, assistant medical director for the Foundation; Miss Elaine Whitelaw, director of Women's Activities; Miss Dorothy Ducas, the Foundation's director of public relations, and Mr. Charles L. Massey, director of Region V.

The workshop meetings were inaugurated in 1952 to permit the discussion of common problems informally between chapters and Foundation officials. The results were such as to substantially improve chapter operations and administration, as well as to enlarge the public education program which is so great a part of the Foundation's mission.

Every phase of the chapter work will be discussed, with the floor open to questions for solution by the panel members. Dr. Landauer will lead the morning session on the topic "Toward Better Medical Care." To be covered are "What National is doing in care, treatment and prevention research," "What the chapters can do" and "What the chapters ask National Foundation Headquarters to do."

The afternoon session will be devoted to the main topic "Toward Better Chapter Service," and will include the best means of telling the polio story through local publicity and public education volunteers.

### Ever Thought of This?

... If you buy real estate without an abstract the chances are good that you will be required to furnish one when you sell or borrow money. It is customary for seller to furnish buyer with an abstract as he usually adds cost of same to the sale's price. So for many reasons all in your favor get an abstract and have it examined by your attorney when you buy real estate.
