NUMBER 150

The Gay Philosopher

By J. W. S.

MR. GEORGE DAVIS and his Cisco Chamber of Commerce highway committee entertained Mr. Bob Milligan, district highway engineer; Mr. E. M. Prichard, assistant district engineer, and Mr. Gordon Smith, county highway engineer, at a Victor Hotel luncheon the other day. Special guests included County Commissioner Ed McCanlies, Mayor G. C. Rosenthal and others.

Mr. Milligan's state highway district office is at Brownwood and he supervises road building and maintenance in some nine area counties.

Purpose of the luncheon was to give the local committee an opportunity to discuss area projects with the officials.

Mr. Milligan reported to the committee that plans call for beginning work on widening Highway 80 from the four-lane road east of town into Cisco this fall. This project has already been approved and the engineering work now is being done by Mr. Smith and his county staff.

Since plans have been approved to widen Highway 80 through Cisco, this should eliminate all talk of re-routing the highway south of town. This has been talked from time to time but nothing has ever been done to indicate that it would actually be re-routed.

ANOTHER PROJECT that has been approved for early completion is straightening out the "S" curve in Highway 183 — the Breckenridge road — some six miles north of Cisco. Mr. Milligan reported that work is progressing nicely on widening Highway 80 between Eastland and Ranger.

THE RAIN THIS week did considerable damage to the new farm-to-market pavement out at Scranton way. Understand plans now call for another seal-coating job on the road to repair the damage and to make it better.

Dr. Davis and his committee plans to continue work to obtain more farm-to-market roads for this area. The committee has done a splendid job during the past year.

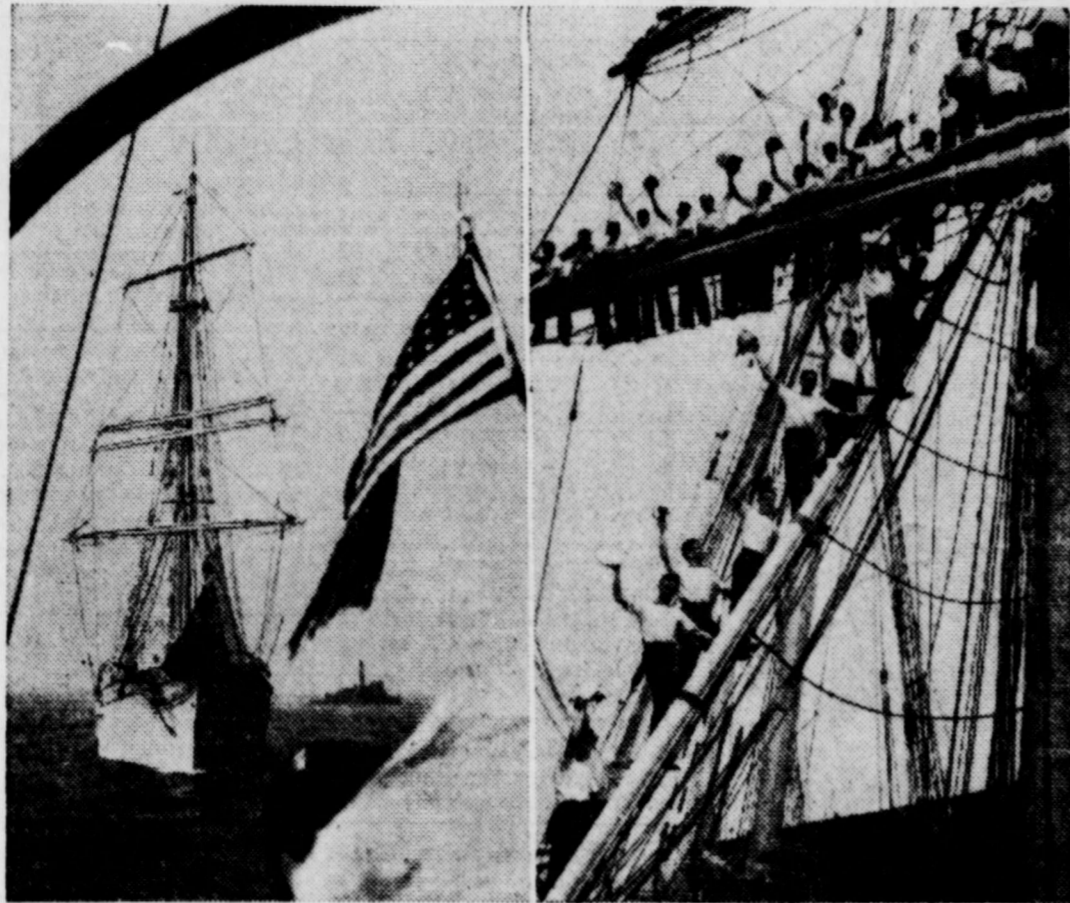

YOU'LL WANT to be at ABC Field at 8 p. m. Friday to see the final home game of Mr. D. N. Morrison's American Legion Indians. They play Mineral Wells here Friday night, and Indian Don Greenhaw is scheduled to be on the mound. The Indians have been doing a good job and they have a chance to win the district crown. Let's all go out and help them.

THE NATIONAL Guard boys are home from annual summer camp, and report enjoyable two weeks of work. The local guardsmen went to North Fort Hood again this year. They got home Sunday. All hands went through the 15-day training program without mishap. Some of the boys met up with a few mosquitoes and chiggers during maneuvers in the rough country.

MR. GEORGE IRVINE tells us that plans are now pretty complete for his annual invasion of the Colorado fishing country around Creed. His scouts report that fish are plentiful. Mr. Irvine spent some 15 years as a resident of the Creed country and he has many old friends in the region. They vacation there every summer, and from Aug. 1 to Sept. 1 his address will be General Delivery, Creed, Colo.

A NEW PRESIDENT took over at the Lions Club at the Wednesday luncheon. Mr. George Davis is the new boss. Mr. Gene Abbott, the retiring president, can look back with pride on a job well done as club president during the past year. Understand Dr. and Mrs. E. E. Addy and children were due home today from a vacation at Galveston.

Today was moving day for the Bill Berrys. They were moving from the Hickok Gasoline Plant to the new house on the company's property just off the Lake Cisco Road. Mrs. W. T. Chance and children have returned after spending several days with their husband and father at Pecos and El Paso. Mr. WTC is a Greyhound bus driver.

NAVAL GREETING—The Belgian training vessel Mercator is shown heading up the Hudson River on its way to dock in New York, left. Seamen crowd the yardsarms to wave a big hello as the vessel docks. The sleek, gray-hulled barkentine was scheduled to arrive under sail, but lack of wind caused it to use the power of its auxiliary engines to dock.

Take Care On 4th Of July Warns Health Officer

AUSTIN, July 2. — Taking note of the approach of the great patriotic national holiday, July 4th, which this country has celebrated for one hundred and seventy-seven years, Dr. Geo. W. Cox, State Health Officer, calls the attention of the citizens of Texas to some of the dangers of careless celebrating. Each year on the 5th of July, one always reads of the appalling number of accidents which occurred over the Fourth.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails and other penetrating wounds in which dirt may be carried into the skin, heighten the hazard of tetanus or lockjaw. Such wounds should be promptly treated by a physician.

If the day's pleasure includes a swim, caution should be used and no attempt made to do more than your strength will permit. If a drowning takes place, artificial respiration should be started at once and continued until a doctor arrives.

Automobile accidents have usually one of three causes — exceeding the speed limit, driving on the wrong side of or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgment of the driver. Caution should guide the holiday activities so that the day may be remembered with joy instead of sorrow.

Mrs. O. C. Lomax has returned from a ten day visit with her son, Alton Lomax, and family in Springfield, Missouri. She also visited Mrs. Homer Whittenburg in Niangua, Missouri.

CITY STUDIES PLAN TO RAISE TAX VALUES AND LOWER RATES

A study is being made by the City of Cisco of a plan to increase property valuations and to decrease the tax rate, Mayor G. C. Rosenthal reported today. The matter was discussed briefly at a recent commission meeting and city officials have been studying the proposition since that time.

At the present time, Mr. Rosenthal said, the city has property values for taxation purposes amounting to \$3,021,000. The present city tax rate is \$2.50 per \$100 valuation — the maximum tax rate permitted by law. The city tax rolls produce \$75,525 for budget purposes under the present program.

By increasing assessments 35 per cent, the city would have taxable values amounting to \$4,078,350. A \$1.90 tax rate would produce \$77,487 — nearly \$2,000 more than the present receipts of \$75,525.

Examples of how the new program would apply to the individual taxpayer were shown by Mayor Rosenthal. Property with a current assessed value of \$1,000 would be raised to \$1,350. Instead of \$25 in taxes as paid now the property owner would pay \$25.65 at the rate of \$1.90 or \$27 if the rate were boosted to \$2 per \$100.

HOWELL HURLS 3-HIT GAME AS INDIANS DEFEAT BRECKENRIDGE

Dizzy Howell, the Indian's leading pitcher, limited the visiting Breckenridge American Legion nine to three hits to win his eighth game of the season, 7-1, at ABC Field Wednesday afternoon. His record for the season is eight wins against no losses.

It was the Indians' 11th win in 17 starts and stretched the winning streak to four. It was the fifth conference win against two losses. If the locals win their next three conference tilts they have a cinch for at least a tie for the district crown.

The Breckenridge batters were held hitless for the first three innings. The visitors made their lone tally in the fourth when Carpenter, the pitcher, picked a fast ball to knock over the right field fence for a home run.

The Indians scored their seven runs off nine hits and two Breck errors. Dizzy Howell got two hits on three official times at bat to aid in the scoring. Ronald Jackson, Indian first sacker, continued to hit the ball well and got two for four. Weiser scored two of the Indian runs off one hit in three times at bat. All the Indians hit safely except Emsley and Greenhaw. Emsley scored one of the Indian runs when he got on base on balls and was batted around.

The Indians were to go to Ranger tonight for a non-conference game. Due to the conference schedule neither team will use regular pitchers. The Ranger Eagles will use James Pruitt, a Strawn High School pitcher who is too old for Legion ball. L. E. Sublett will be on the mound for the Indians.

Sue Harelson is visiting her brother and wife, Mr. and Mrs. Mac Harelson, and baby in Lubbock.

Mrs. F. J. Harelson visited her sister, Mrs. George Blarkwell, in Gorman Wednesday.

Wildcat Oil Test Will Be Drilled South Of Carbon

F. R. Jackson and A. H. Richardson, Jr., of Dallas have announced plans to drill a 3,600-foot wildcat oil test in the area six miles south of Carbon in Eastland County. It will be their No. 1 Annie E. Stapp and location was given as 990 feet from the south and 1,320 feet from the east lines of the Andrew Kent Survey.

Elsewhere, S. C. Thompson of Ranger has staked a wildcat location seven miles southwest of Ranger as his No. 2 L. A. Thompson. Location was given as 1,978 feet from the north and 700 feet from the east lines of Subdivision 49, McClennan CSL League 3 & 4. The test was spotted on an 88-acre lease, 500 feet northwest of Thompson's No. 1, which was a dry hole. Contract calls for 1,500 feet.

Pete Hall Drilling Company, Wichita Falls, has spotted their No. 1 W. B. Wright in the new Mississippi lime pool one and a half miles southwest of Eastland. Contracted to 2,000 feet with rotary equipment, location for the test was given as 450 feet from the south and 1,470 feet from the east lines of Section 28, Block 4, H&TC Survey. The location is on a 120-acre lease.

Standard Carbon Company of Dallas has completed their No. 1 G. H. Genoway in Section 13, SA&MG Survey, near Desdemona. Daily potential was 79.8 barrels of 43 gravity oil on pump from open hole at 3,047-65 feet. Woodson Oil Co. of Fort Worth has plugged their No. 1 Oscar Schaefer five miles south of Nimrod. Bottomed at 2,753 feet, the hole was abandoned as a failure. Location is in Section 13, ET Survey.

Pvt. Peck Hall, former Cisco Junior College cage star who is now stationed at Fort Hood, was visiting friends in Cisco Thursday while on 10-day leave.

"A maximum tax rate looks bad to anybody," Mr. Rosenthal said. "Our city has been operating under as low valuation and maximum rate situation for many years. We would like to know what the people think about raising values and lowering the rate."

Longhorn Cavern Is One Of Prime Tourist Centers

BURNET, July 2. — Texas Longhorn Cavern, third largest cave in the world, is finally about to come of age as one of the state's prime tourist attractions, H. H. (Hob) Galloway, manager of the cavern reports.

Cavern visitors will total more than 250,000 long before the cave's 21st anniversary as a public showplace, Mr. Galloway predicted after studying attendance figures for past years. In fact, the quarter-millionth visitor probably will pass through the famous Sam Bass entranceway some time in July, he said.

When the cavern was first opened for public inspection by the State of Texas back in the fall of 1932, after four years of development, few people even knew about it except the folks who lived in this area — like Mr. Galloway and his boyhood friends who used to play hide and seek in the dark reaches of the cave.

"We were a little bit off the beaten track then," recalled Mr. Galloway, who is also president of a bank, former mayor and a director of the Burnet Chamber of Commerce.

But today heavy tourist traffic streams down U. S. Highway 281, a direct Canada-to-Mexico route. And many tourists take time out to visit the cavern, reached by a paved road which enters Longhorn Cavern State Park at a point four miles south of Burnet.

"We're getting people from every state in the union now," Mr. Galloway said, "and you'd be surprised how many Texans visit the cavern and are amazed when they see what a spectacular natural wonder it is."

"We figure it's really unusual when a Texan is amazed at something that's in Texas."

This summer, Mr. Galloway estimates that more than 5,000 tourists and resorters a month will visit the cavern.

Two miles of the cavern have been developed and modern illumination installed to bring out all its natural subterranean beauty. Guides relate all of the cave's romantic legends of Indians, desperadoes and buried treasure.

Visitors are royally entertained and filled with cavern lore at the same time.

Beverly Jo Tipton Is Expected Home

Beverly Jo Tipton, six year old daughter of Mr. and Mrs. Hervey Tipton was expected home this weekend after being in Albuquerque, New Mexico, for the past month. She became ill while visiting her grandparents, Mr. and Mrs. Sam Baskin, in Albuquerque and was forced to remain for a month. She underwent a tonsillectomy and then was found to be suffering from rheumatic fever. Her condition was reported as improved.

Have Woolridge is a patient in the Hendricks Memorial Hospital in Abilene for treatment.

T. L. Crowder has returned to his Cisco home after an extended visit in Oklahoma City.

Mrs. J. D. Hitt of Cisco will complete her course in cosmetology, and as a "beauty specialist" at Abilene Beauty College on July 19. She is pictured at the extreme left on the back row with other members of her class. Mrs. Hitt entered the school in January. She plans to work at a local shop when she completes her course and obtains her license.

Local July 4th plans include a full program at Lake Cisco Park, climaxed by a 9 p. m. fireworks display. The swimming pool has a special program ready for the day, and a carnival was in operation for the balance of the week.

Most Business Firms Plan To Observe July 4th As Holiday

Swimming Pool Notes . . .

GROUP OF MEADOW FHA GIRLS ENJOY 5-DAY OUTING AT LAKE

By W. P. KNIGHT

For the third year in succession, the Meadow, Texas FHA girls visited the Lake Cisco recreational area this week. Headed by FHA teacher Miss Maude Alice Zerns, the girls included: Misses Ann Barron, Opal Blake, Kathryn Flewers, Jeann Hardin, Jackie Kennedy, Eloise Kiese, Glenda Knight, Betty Mason, Sally Rutledge, Wanda Terry, Jackie Tongate, Lee Nell Walker and Mary Helen Weaver. Mrs. Walker came along as a sponsor.

Coch Paul Mosley has taken over the life-guard duties at Lake Cisco swimming pool. Paul, who started Monday, is a McMurray College graduate in physical education. He played football there as well as at CJC from which he was graduated and where he was the conference's stellar punter. Paul will have an able group of assistants at the pool Saturday and Sunday, the 4th and 5th.

Presbyterian Camp has had as guests the past week a Mid-Texas Conference work group headed by Lewis Solomon and Fred Tyler. This party of 16 has enjoyed swimming in our big pool. They expect to leave Friday when a family group will move into the camp.

"Singing in the rain" may be something extra super, but swimming in the rain is something else. During the rainy weather, swimmers were rather scarce with but seven adult paid admissions Monday. Rain did not bother the attractive FHA girls from Meadow, 10 miles Northeast of Brownfield. They got in their swim regardless of the weather, after their long trip from about 40 miles east of the New Mexico-Texas line.

The team is powered by the hitting of Ronald Jackson, Don Greenhaw and Dizzy Howell. Howell and Greenhaw have pitched some impressive games. Greenhaw will probably start the Friday night game.

The two final games will be played away from home against Goldthwaite and Ranger. One was to Goldthwaite. They defeated Ranger in the first game.

Dr. Ward Better After Operation

Dr. H. W. Ward, pastor of the First Baptist Church, underwent an operation Tuesday at Nan Travis Memorial Hospital, Jacksonville, Texas, and his condition was reported as satisfactory today. He was expected to remain in the hospital through next week.

The pulpit of the local church will be filled Sunday, July 5, by Dr. James Leo Garrett of the Southwestern Baptist Seminary at Fort Worth. Dr. J. W. MacGorman of the Seminary will occupy the pulpit on Sunday, July 12.

Dr. Ward is expected to be back in his pulpit for the Sunday services on July 19.

Members of the Cisco Country Club will hold a family night covered dish supper at 7:30 p. m. Saturday, July 4, at the club, according to an announcement by the entertainment committee. All members were urged to attend and to bring guests.

It was pointed out that the Country Club would be a good place from which to watch the July 4th fireworks display that will be fired at 9 p. m. at Lake Cisco Park.

MRS. J. D. HITT of Cisco will complete her course in cosmetology, and as a "beauty specialist" at Abilene Beauty College on July 19. She is pictured at the extreme left on the back row with other members of her class. Mrs. Hitt entered the school in January. She plans to work at a local shop when she completes her course and obtains her license.

City And County Offices To Close

Most Cisco business firms will observe Saturday, July 4th, as a holiday, according to a survey of the city today. By falling on Saturday, the holiday will give residents a long weekend and many of them are expected to take advantage of the occasion for brief vacation trips.

Local July 4th plans include a full program at Lake Cisco Park, climaxed by a 9 p. m. fireworks display. The swimming pool has a special program ready for the day, and a carnival was in operation for the balance of the week.

Mayor G. C. Rosenthal announced that the city hall offices will be closed all day Saturday in observance of the holiday, and County Judge John Hart has announced that all county courthouse offices will close Friday until Monday morning. The Post Office and the First National Bank have announced that they will be closed Saturday.

Local grocery stores were holding their weekend food sales Thursday and Friday and announced that they will be closed all day Saturday. Most of the other business firms will either be closed or operate as the normally do on Sundays.

July 4th is one of six holidays that Cisco merchants designated for observance early in the year. The next official holiday will be Labor Day on September 7, followed by Thanksgiving Day on November 26 and Christmas on December 25.

City and County police have urged caution in holiday celebrating. State authorities have warned that highway travel will be heavy and have predicted that some 50 Texans will die in motor accidents.

Hospital News

Mrs. Amanda Webb of Cisco has been dismissed from Graham Hospital after receiving treatment for several days.

J. T. Thomas of Moran was referred to a veterans hospital in Dallas after being treated in Graham Hospital for 11 days. He was taken to the Dallas hospital by Thomas Funeral Home ambulance.

E. N. Woods of Cisco has been dismissed following treatment for a foot injury.

Others dismissed this week included Venita McCanlies of Moran, Mrs. M. C. Labella of Moran and Lavella McGough, Mrs. A. E. Campbell and infant son, Mrs. Lewis Starr and Miss Ruth Herring, all of Cisco.

Patients at the hospital Thursday included Mrs. J. G. Harris of Moran, Mrs. Robert Carille of Abilene, Emmatine Williams of Rt. 1 and Mack Smith of Cisco. All the patients were receiving treatment for illnesses.

Country Club Plans Covered Dish Supper

Members of the Cisco Country Club will hold a family night covered dish supper at 7:30 p. m. Saturday, July 4, at the club, according to an announcement by the entertainment committee. All members were urged to attend and to bring guests.

It was pointed out that the Country Club would be a good place from which to watch the July 4th fireworks display that will be fired at 9 p. m. at Lake Cisco Park.

STRENGTH FOR THESE DAYS
from the Bible

And Jesus answered him, saying, It is written, That man shall not live by bread alone, but by every word of God.—(St. Luke IV, 4)

We need not go beyond ourselves and our daily needs and desires to know the everlasting truth in the saying of Christ Jesus. Neither a million dollars of bread nor yet a million dollars can give us, in our anguish and distress, a single moment of peace of mind or soul. Only God, through His Son, our Saviour, can give us that blessing.

TAXES COST TYPICAL FAMILY ABOUT AS MUCH AS GROCERIES

DALLAS, July 2. — A typical Texas family of four persons earning \$4,000 a year now pays \$1,093 in taxes, which is nearly as much as it spends for food, almost twice what it pays for housing, and substantially more than double its expenditures for clothing.

This was disclosed here today by Chester L. May, vice president of the Lone Star Gas Co. in an appeal for a federal tax reduction.

For the same-sized city family

with an income of \$2,500 a year, or a little less than \$50 a week, May said the tax burden averages \$593 a year or about 60 per cent of the amount spent for food, \$86 more than its yearly cost of housing, and nearly two times the money normally spent for clothing.

Families with \$5,000 incomes pay on the average of \$1,528 in taxes, which is more than they spend for food, he said. Families in the \$7,500 income bracket pay \$2,766 in taxes of all kinds, which May said is more than such families spend on food and clothing combined.

"The bulk of this burden is in federal taxes, the utility executive explained. "By comparing taxes with the costs of the basic necessities, we get an idea of the higher living standards people could enjoy — regardless of their present income levels — if federal taxes were reduced."

May said a new study of the burden of taxes on Texas families of medium and lower incomes, made by the National Association of Manufacturers, shows that federal taxes take a much larger part of family income than is generally believed. He pointed out that even taxes which the government levies on corporations eventually come out of the family pocketbook in higher prices or lower return on investments.

May, NAM director, said the study showed the typical \$4,000-a-year city family pays \$1,249 for food, \$596 for housing, fuel, light and refrigeration, and \$445 for clothing. It spends \$304 a year on automobile cost and maintenance, \$240 on house furnishings and equipment, \$74 on tobacco, and \$774 on all other consumption expenditures.

In contrast, he said, this family has to pay \$1,093 in federal, state and local taxes, more than it spends for any other category of expense except food, an amount equal to 27.3 per cent of its total income. Of the total, state and local taxes take \$398 a year and federal taxes take \$795, of which \$271 is represented by its income tax payment, May said.

Tax cuts involving individual income taxes, corporation income taxes, federal excise taxes, and the elimination of the excess profits tax are scheduled within the next ten months.

"If all four tax reductions are permitted to take effect, it will mean a saving of \$77 a year for the typical \$4,000 family, according to the NAM's figures," May said.

This isn't much in relation to its total tax bill, he conceded, but emphasized that the saving amounts to a full week's earnings for a \$4,000 family. He said most families would find it "welcome" and the reduction would be a "step in the right direction."

A hair breadth is one forty-eighth of an inch. Jockeys stand in their stirrups to distribute their weight evenly. The Kentucky Derby has been run every May since 1875.

FOR SALE

Large house on 18th St. A wonderful buy.

Wonderful buy on 8th St. Corner lot. Needs to be sold at once.

HEALTH TALKS
Prepared by the
Texas Medical Association

How important are symptoms that you think may be caused by heart disease? They can be: (1) of little or no health significance, (2) of importance because they point to diseases of organs other than the heart, or (3) of importance because of heart disease, either beginning or advanced.

Thus, many persons who complain of rapid beating of the heart (palpitation) do not have diseased hearts, in spite of discomfort or nervousness they suffer. On the other hand, palpitation can accompany heart disease. Other signs which may or may not be evidence of a "bad heart" include tiredness which is brought on easily, shortness of breath, pain in the heart and stomach region, fainting, dizziness, trembling, loss of feeling or swelling (edema) of parts of the body, or cold, clammy hands and feet.

If you suspect you have a heart condition, there are several advantages to having a medical examination. First, if heart disease is not present, you can receive expert assurance that your heart is allright. Second, if disease

elsewhere in the body is discovered, it can be properly treated. Third, if heart disease is present, it can be cared for right away, possibly adding years to your life and preventing disability. Furthermore, after the acute stage of heart disease has passed, your doctor can guide you in leading as normal an existence as possible within the limits set by heart damage which may be present.

A patient with heart disease

should learn to rely on his doctor's advice. More often than not such a person will continue to live years after the diagnosis is made and with reasonable care can avoid being an invalid. In fact, the object of medical supervision and treatment is to keep him active by adjusting his job to his capacity for work, reducing the number of hours worked, scaling down the length and types of recreation if need be, increasing rest periods, supervising the diet, and encouraging him to lead a calm life.

NO FOOLIN'—Just because she's a lifeguard at a New Jersey amusement park is no reason for wolves to give shapely Chic James any nonsense. Chic is a veteran aquatic performer and she's still in the serious business of earning a living. A practical joker may go down for the third time if he tries any monkey business with her.

Ever Thought of This?

... If you buy real estate without an abstract the chances are good that you will be required to furnish one when you sell or borrow money. It is customary for seller to furnish buyer with an abstract as he usually adds cost of same to the sale's price. So for many reasons all in your favor get an abstract and have it examined by your attorney when you buy real estate.
