the lowest priced power steering in its field ... and the finest in power steering at that!

We all know the advantages of power steering. Most of us would like it. And now many more of us can afford it! By spending testing time and development money, Ford brings you Master-Guide power steering for nearly three quarters the price of any other system in its field. For the facts, read the captions on this page. For a thrill, Test Drive Master-Guide power steering in the Ford!

*Suggested delivered price.

So Simple . . . So Safe!

Blowouts become less risky with Ford Master-Guide power steering. It helps you steer to a safe straight-line stop. And Ford Master-Guide power steering helps you park easier, too . . . does up to 75% of the work for your

No radical change in driving habits! Unlike many other systems, Ford's system gives you much the same "feel" of handling that you

get without power steering. Then, too, you always turn the wheel the same amount as you would with regular steering.

And, because Ford's Master-Gulde power steering has a more natural "feel" than many others, you don't have to change your driving habits radically. The steering gear ratio is the same as without power steering and the hydraulic system gives you just the right assistance when you need it.

Worth more when you buy it... Worth more when you sell it!
