

The Gay Philosopher

By J. W. S.

ONE OF THE most enjoyable affairs we've attended in a long while was the chicken barbecue party staged last evening by the American Legion members and their families at Lake Cisco Park. Chef Marshall Jones, Fleming Waters and Gene Abbott fed something like 125 people a menu of chicken, potato salad and all the trimmings.

THE BOYS DOWN at the Lone Star Gas Company conducted their annual room of or test yesterday. In this test, they get four men in a room, turn on the gas and see how long it takes before they can smell it. This all is done annually to comply with the rules and regulations pertaining to putting odorant in natural gas, which otherwise couldn't be smelled at all.

Manager Joe Lambert obtained the services of Mayor G. C. Rosenthal, Pete Clements, A. G. Sander and Jess Proctor as his odor sniffers. They all went over to the Elwood Courts. Joe stationed them around the room and then opened the gas valve.

Mr. Clements was the first man to smell the odor, followed by Mr. Sander, Mr. Proctor and Mr. Rosenthal. Joe says they only burned out three tenths of a cubic foot of gas before it could be smelled.

The natural gas is treated with liquid Capitan to give it the odor. They use three tenths of a pound per 1,000,000 cubic feet. Bet this stuff would really pack a wicked smell if you got a whiff of it straight.

Gas companies weren't required to put odorant in their gas prior to the New London School explosion back in 1938. The school over in East Texas was hooked up direct to a gas well and an accumulation of gas in the basement blew up, killing around 300 children and teachers.

After that tragedy, which was no fault of the gas companies, the Legislature passed some laws requiring odorant in the gas and regulators if you used raw gas — that other than sold by commercial companies.

The gas companies regulate the pressure on their lines at all times and most of them already used the odorant before 1938. The laws as passed at that time mainly affected public places that might be hooked in to gas wells or lines directly.

COMES A POSTcard from Mrs. Minnie L. Hill to report: "We are waiting for our camels to ride to the Pyramids. (She's in Egypt.) Yesterday, July 24, we had breakfast in Naples, Italy, lunch in Rome, tea in Athens and dinner in Cairo, Egypt. It's a wonderful trip."

THEY'RE GROWING some mighty big cucumbers out at the F. J. Nuckolls house, 610 West 2nd Street. Some seed they imported from California has produced a lot of fine eating cucumbers this year, and they decided to let a few of the cucumbers ripen out for the seed. And the big ones now are about the size of small watermelons.

Mr. Nuckolls is still trying to find a Pekinese dog — a blonde sort of dog — that's missing out at his house.

WE KIND OF envy Mr. R. W. (Bob) Mancell after looking over his backyard up on 5th Street. The whole backyard is paved with concrete and there's not a sprig of grass to mow. Lovely trees provide plenty of shade. And you can sit there in comfort without having to look at grass that needs mowing.

THE LOCAL CALF ropers will be out at the Moran Highway arena at 8 o'clock tonight for another practice session, and they welcome one and all to drop out and watch. Elsewhere in today's Press you'll find the results of last Monday night's jackpot roping contest. . . . Out at the football stadium, the schools are drilling a water well with which to irrigate the turf. They're expecting to strike water around 130 feet. . . . Mr. Roy Westfall must have decided that he won't raise any more fish. See that he's tearing down his fish pond.

END OF LONG DAY AT THE OFFICE—Brumas, a polar bear in the London Zoo, has just told his wife that it's too hot, he's too tired, and it was an awfully hard day at the office. And so, Brumas has come out to swim back and forth in his cool pool at the Zoo, giving some spectators a mirror view of themselves. But while lucky folks can climb into their water tubes and float, Brumas has to hold on with teeth while he paddles.

Polio Isn't Running Wild, But It's Smart To Play Safe With The Kids

AUSTIN, July 30. — Polio isn't running wild in Texas this summer as it did in '52, but it is still smart to play safe with the kids, State Health Officer Geo. W. Cox will tell you.

There are several common sense items parents ought to keep in mind during the polio "season." Dr. Cox lists them like this: Don't get panicky. Keep in mind that half of all polio victims recover completely, and 30 percent of the other half recover with only slight weakness. Only 14 percent have lasting paralysis.

Realize that gamma globulin is not a cure for polio. There is no cure. GG is intended only as a temporary preventive against paralysis. At best it is effective only for 5 weeks, after which it has all been eliminated by the body.

Gamma globulin has been tested on more than 54,000 children and the results are now under study, but once the polio virus has reached the nerve cells, GG cannot alter the course of the disease.

You can find out whether or not your child is eligible to receive gamma globulin by asking the health officer in your county. He is familiar with the formula for GG distribution in effect in Texas.

Meanwhile, don't isolate your youngsters when you hear of a case of polio in the community. There is no point in letting them contact strangers, but they ought to be allowed in their usual circle of friends.

Keep them clean and see that they rest in the afternoon. A nap is fine, but even playing quietly part of the day will help conserve their strength.

Last, but highly important, call your doctor at the first onset of any of these signs: headache, fever, sore throat, upset stomach, stiff neck or back. The earlier a case of polio is diagnosed, the better are the chances for recovery without lasting damage.

Great strides are being made toward the development of a vaccine, but until it is finally developed Dr. Cox believes this opinion is still valid: "A high level of environmental sanitation and personal hygiene is the individual's best defense against polio."

Mr. and Mrs. Bill Alexander of Abilene are the parents of a daughter, Nanetta Jo, born Thursday morning, July 30 in an Abilene Hospital. The infant weighed seven pounds and ten ounces. The maternal grandparents are Mr. and Mrs. H. H. Notgrass of Cisco and Mr. and Mrs. R. C. Alexander of Amarillo are the paternal grandparents.

Mrs. Earl Key and granddaughter, Gaylon Alexander, of Fort Worth are expected Thursday for a few days visit in the home of Mrs. R. S. Elliott.

LITTLE LEAGUE TEAMS RESUME REGULAR PLAY IN PARK TONIGHT

Play in the Cisco Little League will be resumed at ABC Field tonight as the Giants and the Athletics meet in a double header.

Double headers will also be played Saturday night and Monday night, and a single game will be played Tuesday night to wind up the regular schedule.

Saturday night the Cards meet the Braves in the first game and the Athletics meet the Braves in the second game. Monday night the Athletics and the Braves meet at 7 p. m. and the Giants and the Braves play the final game. Tuesday night at 8 o'clock the Athletics and the Braves meet to wind up the season.

Pitching rules will be relaxed for the final games of the regular season so as to finish as quickly as possible in order to allow players and managers vacation periods before school.

The first games of the double headers Thursday, Saturday and Monday nights will begin at 7 o'clock. The second game will be played following that contest.

There will be no more night farm team games this season.

Eastland Lawyer Speaks To Lions

Frank Sparks, Eastland attorney, was the guest speaker Wednesday at the weekly luncheon meeting of the Cisco Lions Club at the Victor Hotel Dining Room. Lion Karkalits was in charge of the program.

The veteran attorney, who has lived in Eastland County more than 30 years, discussed the work of a lawyer and told of some of the interesting laws.

Touching on the problems of juvenile delinquency, he noted that "strong homes and strong parents produce good children. The people of the home should live close together for a happy, productive life."

Guests for the luncheon included A. Z. Myrick and Mel Sander.

BIRTH ANNOUNCEMENT

Mr. and Mrs. John Dudley are the parents of a daughter, Sharon Elizabeth, born Tuesday, July 21. The infant weighed six pounds and 12 ounces at birth. Mr. Dudley is stationed on Okinawa.

ANOTHER ROPING PROGRAM DUE AT LOCAL CLUB ARENA TONIGHT

The Cisco Roundup Club arena will be the scene of another top notch roping program Thursday night (tonight) when area cowboys tangle with the tough Brahman calves, according to an announcement today. This will be the fourth of a series of programs planned each Monday and Thursday night.

In preparation for tonight's show, which will begin at 8 o'clock, the arena has undergone improvements. Sand has been mixed with the earth on the arena floor to make all-weather surface and repairs are being planned for the chutes, pens and seating facilities.

A large number of cowboys were expected tonight to take advantage of the practice session with fast calves under actual rodeo conditions, for they work under lights with music. Weldon McConnell, the show director, handles the microphone.

With roping twice each week on the McConnell calves and roping Friday nights and Sunday afternoons on the Cisco Roundup Club stock, Cisco is becoming the roping center of this part of Texas. Next month, a series of cutting horse events will take place, along with the roping event and barrel races.

A large crowd watched 23 ropers in the arena last Monday night. In a one-calf jackpot, Burl Hitson of Breckenridge was the winner with a time of 14.2. Second honors went to Tommy Bacon, Cisco, with a time of 15.4, and Lester Ivy of Albany won third with 19.6 seconds.

In a matched roping event, catching four calves each, Johnny Parrott of Throckmorton bested Jack Newton of Abilene for a \$100 pot. Parrott had a total time of 71.8 seconds for four calves, while Newton's time was 103.6 seconds.

Four cowgirls entered a barrel race with Helen Bradford of Ranger taking first money with a time of 19.1 seconds. Others in the contest were Maxine McCotter of Olden, Joyce Boyd of Cisco and Bea Hill of Breckenridge.

In a second jackpot on two calves, winners and their times were: first go-round — 1st, C. C. Brown, Ranger, 13.0; 2nd, M. R. Kovar, Cameron, 15.1; 3rd (tie), Punk Sauls, Cisco, and Jack Newton, Abilene, 15.2; second go-round — 1st, Jack Newton, 13.0; 2nd, Johnny Parrott, 14.5; 3rd, Punk Sauls, 16.0; average — 1st, Jack Newton, 28.2; 2nd, Punk Sauls, 31.2; and 3rd (tie), Johnny Parrott and M. R. Kovar, 32.1.

There is no charge for spectators at the regular Monday and Thursday affairs, but there will be a nominal admission fee for the monthly roping and cutting jackpot contests.

See DON PIERSON Olds-Cadillac Before You Trade!

Growing Crops Released From Drought's Grip

Growing crops and pastures were further released during the past week from the grip of the critical drought as scattered light to heavy showers covered much of the state excepting in the southern counties where serious droughty conditions continued and high temperatures prevailed. This was the third consecutive week in which scattered showers have fallen in northern and northwestern counties.

Local areas, particularly in the southern high plains, however, still need much more moisture and additional timely rains are needed in all areas. In the north-west farmers rushed planting of early maturing grain sorghums, sweet sorghum and sudan as surface soils dried following the generous showers over much of that area. On the high plains some volunteer wheat was already up and wheat land was being prepared for early seeding.

Cotton picking moved northward into central counties and combining of early-maturing varieties of rice was starting.

Cotton development was generally satisfactory. In the plains country, irrigated cotton continued to make good growth. Prospects on dry-land acreage in many parts of the northwest were improved by rains. Some dry-land acreage, with thin stands, was plowed up and planted to feed crops. Blacklands cotton was blooming and fruiting heavily. Bolts were beginning in southern blacklands counties. Cotton fruited well in northeast and east Texas but insects, particularly boll weevils, were increasing. Harvest was at a peak in the coastal bend. Prospects remain favorable in the upper coastal counties and the tempo of harvest was stepped up. Picking the short south Texas crop continued active with about three-fourths of the lower valley crop already out.

Sorghum planting was rushed in many plains areas, with sufficient moisture now available for germination and early growth. Timely rains and a late frost will be needed to mature grain on these late planted feed crops in the northwest. Combine harvest continued in central and west central counties. A light harvest of corn was under way in southern and south central counties.

Broomcorn harvest continued in central Texas. In south Texas, harvest of early peanuts was under way. Northern peanut areas received helpful showers but the south Texas fall crop continued critically dry. Rice prospects continued favorable as a harvest of early varieties started. Cutting of hay made slow progress during the week but recent rains may produce an additional cutting in northern and eastern areas.

Ranges and pastures were greening up but still very short over much of the northwest. Supplemental feeding, however, continued as grass in that area was still far short of requirements. In south Texas, where critical droughty conditions continued, heavy supplemental feeding was necessary to maintain the critters. Pasture grass was generally adequate in east Texas and along the upper Coast. Improved prospects for late summer grass along with deliveries of drought disaster program feed has checked liquidation marketing of livestock.

Hobby Club Notes

Thursday was a very busy day at the Junior High Lunch room. There, children and grown-ups worked on baskets, billfolds, belts, purses, aluminum trays, and copper pictures. Several baskets were shellacked.

Mrs. Heyser gave a demonstration on how to make your own molds for dresden work which will be taught at Junior High luncheon soon. Mr. Stone, the new high school band director, was a visitor at the Hobby Club.

Mrs. Anton White, Janice, and Freddy, finished their belts. Robert Hodnett also completed a belt. — Mrs. R. L. Justice.

Mr. and Mrs. A. F. Ashenbush have returned from a vacation trip in Ruidosa, New Mexico, and Glorietta, New Mexico. They stayed in the Arrowhead Lodge and attended the Glorietta Baptist Assembly.

Swimming Pool Notes . . .

ABILENE BUSINESS MAN PRAISES FACILITIES AT PARK AND POOL

By W. F. KNIGHT

Nick Crain, prominent Abilene business, industrial and sports figure, entertained a party of eleven of his printing and lithographing establishment with a swimming party last Saturday afternoon.

This party included Mr. and Mrs. Crain, Mr. and Mrs. Ray Holt, Mr. and Mrs. Charles Majors, Mr. and Mrs. Hargrove, Mr. and Mrs. Milze Brown, Elman Stark, Morris Bantau and Miss Alverna Atkinson.

Mr. Crain leased the city-owned property close by the country club with a frontage on Lake Cisco several years ago. This recreational branch of the Crain drug stores and printing-lithograph holdings serves as a center where employees and officials can week-end the whole year round, in a quiet, picturesque setting, just off U. S. Highway 183, at the south end of the big Lake Cisco dam.

It is hoped that Mr. Crain's foresight in obtaining this well-located lake-side residence and boat-dock, is a fore-runner of other developments which can make Cisco the top recreation center of the entire southwest.

We recently learned that Mr. Crain was partially responsible for the annual return of the big Odessa band which annually spends a week-end at the Presbyterian Camp, and gets in a lot of swimming at our big pool.

Mr. Crain has a big drug-store chain in West Texas cities, and a large printing and lithographing establishment which also bears his name. He is a self-made man who worked his way through college. He believes that the Cisco area has a bright future along recreational lines, and he hopes that the pool and other outdoor fun spots are developed more every year. He said he would be glad to cooperate with any group of citizens in building up all the recreational facilities of the Lake Cisco area. He highly praised our swimming pool and said that he

RONALD DALE CLINTON

Mr. and Mrs. Robert Clinton are the parents of a son, Ronald Dale, born at 11:30 p. m. Monday in Graham Hospital. He weighed six pounds and 13 ounces. Mrs. Clinton and Ronald Dale were said to be getting along nicely. The Clintons have two other sons.

and his family, as well as all his employees, always look forward to a trip and stay at Lake Cisco.

Before Mr. Crain leased the city house and lake-front property, it had laid idle for a few years, like a diamond in the rough, awaiting someone to rediscover, and redevelop it to its present state of perfection. There are many other possibilities around

Turn To Page Three

New Period Set For Inspection Of Motor Vehicles

AUSTIN, July 30. — The new period, during which Texas motorists will be required to have their auto inspected under the new modified Motor Vehicle Inspection law which was enacted by the recent 53rd Legislature, has been unofficially set for September 15, 1953, through April 15, 1954, it was announced today by Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety.

Garrison said that the State Public Safety Commission has advised him that they will confirm the designation of the new period on August 26, the effective date of the new act.

The old law which aroused much controversial argument during the last session of the Legislature will expire at midnight August 25 and no inspections will be made under its provisions after that date.

Garrison explained that this means that no inspections of any sort will be made between that time and the beginning of the new period on September 15th.

The modified law calls for inspection only of brakes, lighting equipment, horns, rear view mirrors and windshield wipers. "In view of the fact that the inspection stations throughout the state are already set up and equipped to perform this work," Garrison said, "we feel that the full seven months of the new period will afford motorists ample time to have their vehicles inspected."

He urged, however, that car owners not wait too long lest they get caught in a last minute rush to meet the inspection deadline.

Local Team Takes Extra Inning Tilt

The Cisco All-Stars will play in the consolation finals of the Area Little League Tournament in Breckenridge Friday night after downing Olney in an extra inning contest Wednesday night. The Cisco team will play the winner in tonight's consolation game.

Olney got off to a fast start by putting across three runs in the top of the first inning. Billy Bass, Olney shortstop, got on an error at first Jerry Thomas walked and Philip Campbell, third baseman, hit one over the center field fence for a home run to score behind Bass and Thomas. Charles Lavery, Cisco pitcher, tightened up to strike out the next two batters. With two away, Joel Jackson, Olney left fielder, singled, then Lavery struck out Jimmy Hogan to retire the side.

Cisco struck back in the bottom half of the first to tie up the ball game at 3-3. Jimmy Dolgener, lead off man, walked. Charles Lipsey reached first on an error, but Dolgener was called out at second on the play. Jerry Blackwell singled to move Lipsey around to second. Dal Elder popped out to third for the second Cisco out. Dickie Bennie singled through the infield to score Lipsey and Milton King got on an error. Bobbie Dolgener came to bat with two on and hit a ball that was mis-handled. The error put Dolgener on first and allowed Bennie and King to score.

Olney scored in the second to go ahead 4-3. Cisco failed to tally in the second and third, but came back in the fourth to make a run to tie the game at 4-4. Cisco scored again the fifth to go ahead 5-4. Olney came back in the top half of the sixth and final inning to tie the game 5-5. Cisco failed to score in the bottom half of the inning to force the game into an extra inning.

In the top half of the seventh inning Lavery retired the Olney batters in order. In the bottom half of the inning Lavery got a single, but was thrown out at second when he attempted to stretch the hit to a double. Dickie Bennie singled, then stole second and third with the help of an overthrow. Johnny Richardson, Cisco first sacker, came to bat and won the game by laying down a perfect bunt to bring Bennie home from third.

Lavery was the winning pitcher. He struck out 12 batters, 11 in the regulation six innings. He gave up only six hits and two bases on balls.

Hospital News

E. C. Clemmer of Cisco was improving Thursday from injuries received in a recent fall. He was at Graham Hospital for treatment.

Mr. and Mrs. R. E. Bradshaw are the parents of a daughter born at the hospital Wednesday.

Mrs. Robert L. Clinton and infant son were reported as doing nicely Thursday. The baby was born Monday.

J. W. Kornegay of Fort Worth was improving at the hospital following surgery.

I. J. Henson was also reported as improved Thursday.

Mrs. Jesse Reynolds, Jr., entered the hospital Thursday.

Mrs. Bryan D. Moore and infant son of Cisco and Mrs. John Dudley and infant daughter of Cisco were released this week.

Carl Stroebel, Jr., of Nimrod was dismissed this week following a tonsillectomy.

Mrs. Annie L. Cogburn and Miss Kay Wallace were dismissed recently.

W. A. Harder was referred to an Abilene specialist by Dr. E. L. Graham and Dr. Jim Lawrence. He will receive treatment in an Abilene hospital for a few days. He was taken to Abilene by Mrs. Lennie Mancell and Mrs. H. S. Drumwright.

R. L. Mashburn of Cisco was released from the hospital following treatment.

Miss Ancanetta Hooper of Dallas is visiting her aunt and uncle, Mayor and Mrs. G. C. Rosenthal.

See DON PIERSON Olds-Cadillac Before You Trade!

Seated at the piano above is Miss Anita Carlin, daughter of Mr. and Mrs. Hal Lavery of Cisco, who is a student at Southern Methodist University. She appeared on a recent program with violin and viola artists in the sculpture court of the Dallas Museum of Fine Arts.

The group played two divertimenti for violin and the viola by Dr. Jack Frederick Kilpatrick, composer-in-residence at Southern Methodist University, well known composer and music critic.

Dr. Kilpatrick is seated at the piano with Miss Carlin as he listens to the trio play his compositions. Miss Carlin accompanied the violin numbers and presented piano solos.

It was the third straight year the Kilpatrick program had been presented at the popular Dallas Sunday afternoon programs. The Sunday concerts are sponsored jointly by the Dallas Park Board and the American Federation of Musicians through a grant from the Music Performance Trust Fund of the Recording Industry.

GOVERNMENT IN BUSINESS

It is sad but true that the Administration has found the budget problem an even tougher nut than that was expected. Hopes for an early balance of the budget and general tax reduction have faded like cut flowers in the sun.

lawmakers are very wary of taking any chances with the defense set-up.

There is another phase to the matter, however, which is getting increasing attention now, though little has been done about it on a high government level.

Time magazine featured a revealing article on the subject in its July 13 issue. It begins: "How far has 'creeping socialism' crept? Farther than most businessmen think. The astounding fact is that the U. S. Government is now operating some 100 separate types of business enterprises in which it has sunk at least \$40,000,000.

In some cases, Time continues, government went into business because of compelling national security reasons — atomic energy and synthetic rubber are examples of this.

a cost higher than that which private enterprise could and would supply the product—which is in a very different category.

Time goes on to list some of the unnecessary losses that government business operations entail. It owns 122,000 housing units and operates them at a loss.

press nearby which could have taken care of all the scrap the base had in 10 days time.

So it goes, down an apparently almost endless list. Time's conclusion seems to be very much in point: "When there is a will to get the government out of business, it can unquestionably be done."

Swimming Pool News . . .

From Page One
 The Lake which await new "Mr. Crains."
 In addition to the Nick Crain's and guests, Abilenians played an important part in swimming activities at the lake pool again Sunday. Tom Webb, leading Abilene attorney, civic leader, and legal instructor at Hardin-Hammons, occupied a city lake cottage over the weekend, along with some friends. Judge Webb is one of our best customers. Jim Ewell and wife, along with his sister, Mrs. Bryan Bradbury of Colorado City, were in swimming Sunday with their brother, Dave, and their dad, Hugh. Jim reported that he thought our pool was wonderful, and that's a fine

statement from one of the Abilene Reporter-News' top reporters.
 Hershel Wagley, Putnam garage and service-station operator and member of Cisco Legion Post 123, brought his wife and family over for a swim late Sunday evening. While it was near closing time, the boy especially had a swell time.
 County-commissioner Ed McCantles paid us an unofficial visit Sunday and said he thought the water looked very good, an opinion concurred with by many weekend swimmers.
 Like food, the appearance of water in a swimming pool is an important factor with people debating whether to sample the

product. Right now, in the opinion of many swimmers and non-swimmers, the water in our big pool looks good enough to drink. While self-praise is poor recommendation, our opinion concerning the appearance and actual condition of the water in our pool is the same as the opinion of so many who see and swim in the pool, that we feel that we are correct in assuming that we have the finest pool of water in the state.
 From the cool lakes and pools of Wisconsin came Mr. and Mrs. W. A. Smoot and children of far-off Lancaster. This couple met while Mr. Smoot, a Moran native, was stationed with the Army during world war II, at Madison. They appreciated the comfortable

83 degree temperature of our water, and commented on our beautiful natural setting around our pool. This is some compliment from a Wisconsin couple, because that state has many eye-appealing scenes. The Smoots commented upon the cold water in pools in their state. He is a nephew of Brittain Wagley of Cisco.

SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

First Baptist W.M.U. Meets On Tuesday

The First Baptist W.M.U. met Tuesday at the church for their regular business meeting and Bible study.

The meeting opened with the group singing "My Faith Looks Up To Thee," with Mrs. W. F. Walker at the piano and Mrs. John Popalio leading. Mrs. W. L. Hussey of Big Spring, a visitor, led in opening prayer.

Routine business matters were transacted and a letter of thanks from a scholarship girl, Amelia Morton, was read. Mrs. Alma Philpott, Mrs. D. L. Kisner, and Mrs. W. D. Hazel were elected to serve on the nominating committee to secure officers for 1953-1954. Mrs. E. L. Jackson brought the lesson on Mary and Martha and the meeting closed with prayer by Mrs. G. B. Langston. Twenty-five members attended.

C.W.F. Holds Monthly Business Meeting

The C.W.F. of the First Christian Church met Tuesday at the church for their monthly business meeting with the president, Mrs. Standlee McCracken presiding.

Rev. Sidney Spain led in opening prayer and Group One was in charge of the program. A playlet, "Mrs. Inactive Member," was presented by Miss Marie Winston and Mrs. Sidney Spain. Routine business matters were transacted and it was announced that the women met Tuesday morning and canned peaches for the Juliett Fowler Home. The meeting closed with the missionary benediction. Twenty members attended.

Presbyterian Women Hold Monthly Meet

The monthly inspirational meeting of the Women of the First Presbyterian Church was held Tuesday at the church with the president, Mrs. John Kleiner, presiding.

Mrs. C. R. Baugh prayed the opening prayer and roll call of the circles was taken. Letters were read from the synodical president, Mrs. Elizabeth Moore and cards from Mrs. Zo Moore and Mrs. Vellie Meyers of Montreat, North Carolina.

Reports were given from Circle One by Miss Helen Crawford; Circle Two, Mrs. B. S. Huey; Circle Three, Mrs. J. A. Jensen; and Circle Four, Mrs. Rudy Kamon. The spiritual growth chairman, Mrs. H. Grady James, asked all to make visits through the summer and Miss Helen Crawford told of two new Presbyterian families in town.

Mention was made of the recent accident of Mrs. Bailey's mother. Miss Willie Word asked for names for the Austin College Friendship Circle. Mrs. W. W. Wallace, chairman of the carpet committee gave information on the cost of carpet and the group voted to purchase same.

The president thanked the women who helped to house clean the church and Miss Titia Bell Simmons spoke of the interest of the deacons to renovate the church. Mention was made of five bushels of peaches, given by Mr. and Mrs. Homer Bible and canned by the women, for the orphans home.

Mrs. Homer Slicker was in charge of the program which opened with all singing "America." Mrs. James gave the devotional using verses from I King.

Isaiah, and 2 Chronicles ending with a season of guided prayers followed by audible prayer by Mrs. James.

Mrs. Slicker spoke of the historical events of our country and Mrs. J. E. T. Peters spoke on the Mayflower Compact. Miss Helen Crawford spoke on the Declaration of Independence and the Bill of Rights; Miss Sara Ashcraft on the foundation of freedom; Mrs. Slicker on Continental tasks and world destiny; Mrs. Tom Wilson on Foundations that make our country strong; and Mrs. Peters, Miss Ashcraft, and Miss Crawford led discussions on problems confronting us today, teaching religion in our schools, what can be done for young people, and citizenship. Mrs. Slicker closed the program with the remark, "never think God does not see and does not hear."

All members present repeated 2 Chronicles 7:14 and Mrs. W. W. Wallace prayed the closing prayer.
