The Gay Philosopher

By J. W. S.

THE LITTLE LEAGUE baseball season closed with the final playoff game last evening, and was a highly successful season from every standpoint. When the teams were organized early in the year, many fans doubted whether the little boys — ages 8 to 12 years — would be good enough players to make the games interesting.

As the season progressed, the boys began playing better baseball. By the middle of the season, errors were few and the boys were playing top quality baseball. This was the result, of course, of a lot of hard practice by the boys under the direction of good managers — managers who were trying to build good boys as well as good players.

The managers of the four teams — M. W. Cotton, Bill Pope, Rev. Bob Sanders and Lefty Sublett — are due a very big hand for their work during the season. Something like 130 boys learned to play baseball for the first time through their efforts.

The fans and parents genuinely appreciate the work of the managers. For example, a lady called us this morning and dictated the following statement: The Athletics, having come to the end of a successful season by winning 13 games, we, the parents and friends, wish to express our thanks and appreciation to our faithful Christian manager, Rev. Bob Sanders, and to others who assisted him. May God reward you for your clean sportsmanship.

That statement is a typical example of how pleased the parents and fans are with the Little League season. All Cisco is indebted to the managers and the sponsors — First National Bank, A-G Motor Company, Smallwood Electric and Nance Motor Company — for making the program possible and for a fine season.

We are all pleased with the knowledge that the baseball committee is already busy with plans for next year's program. There's considerable study being given to the proposition of building a better park for the games.

The success of the season speaks for itself. Everybody appreciates the work of the sponsors, the managers, the umpires, the ABC Club, and others who contributed to the fine program.

RAN INTO MR. Fred Meredith of Terrell here Monday. He and family were in Cisco to spend a few days with Mr. and Mrs. Fleming Waters. Fred and Fleming were classmates at college.

As many of you know, Fred Meredith has earned a fine reputation as a leader in the Texas government. As a member of the Legislature, he headed the crime investigating committee that uncovered many weak spots a couple of years ago. He has been a leader in other activities of the Legislature.

People like the Belden Poll, which feels the pulse of Texans with their regular polls of public opinion, are already at work on determining who will be governor after next year's election. The name of Fred Meredith has appeared on the list of possible candidates in the past few polls.

We didn't ask Fred about this, for the likely wouldn't comment at this very early hour. Those of us who have met this fine young lawyer and who have followed his career can take pride in his accomplishments and in the knowledge that his contributions to our state government have been many. We'll all be hearing more of Fred Meredith, is our prediction.

MR. H. O. (Andy) Anderson of the West Texas Utilities Company has been winning golf trophies again, according to our new copy of The Electric Times, WTUC magazine. Andy is pictured in the magazine holding a big trophy. He was the tourney medalist and won the first flight by defeating E. L. Gaines, formerly of here and now of Iran, in the finals. O. J. Russell of Cisco was one of the consolation winners, and Holland Nix was a lower flight finalist. Norman Houston was a championship flight semi-finalist, and Felton Underwood lost in the opening match.

TANNING TIME ON THE SEINE—Following a prolonged, cold, rainy spell, Parisian sunworshippers were anxious indeed to recultivate their tans. Here, a large group of bathers evade the shade as much as possible at a huge outdoor pool. The popular watering place is located on the banks of the famous Seine River, and is within easy reach of the city.

Changes Made In Draft Rules For Young Fathers

AUSTIN, Aug. 12. — Any young married man registered with a draft board had better be on the alert about reporting children in his family or expected birth of a child.

On August 25th and thereafter, fathers are not deferrable because of their children. Draft boards have this new regulation following an executive order of President Eisenhower.

Those who now have children, and those who are expecting birth of a child, are deferrable; likewise, those who become fathers or expectant fathers before midnight, August 24th.

But these men who are fathers and expectant fathers before August 25th must act at once to advise their draft boards in writing. If they fail to perform this important duty required by draft regulation, they will be liable for the draft simply because they failed to advise their boards of the facts.

In the case of expectant fathers, certificate from a licensed physician must be secured stating that child has been conceived, probable date of delivery, and evidence upon which positive diagnosis of pregnancy is based.

Brigadier General Paul L. Wakefield, state draft director, urges all married men who come under the provisions of this new regulation to act at once if they wish to retain their deferred status.

FIRST BAPTIST CHURCH BEGINS REVIVAL IN SERVICE TONIGHT

The annual summer revival meeting will open at 8 p. m. Wednesday (tonight) at the First Baptist Church with Dr. Frank Weedon, prominent Texas evangelist, in charge of the preaching services, it was announced today by Dr. H. M. Ward, pastor.

Services will be held twice daily — at 10 a. m. and 8 p. m. — through Sunday, August 23. All services will be held in the church's auditorium.

Dr. Weedon is on the evangelism staff of the Baptist General Convention of Texas, and he has served on this staff for more than 10 years. Prior to this connection, he served as the pastor of two outstanding churches — the Central Baptist Church at Jacksonville, Texas, and the First Baptist Church at Denton.

The evangelist is a graduate of Howard Payne College and of the

COTTON CROP OF OVER THREE AND HALF MILLION BALES SEEN

Texas' prospective cotton crop has been forecast at 3,525,000 bales of 500 pounds gross weight by the Crop Reporting Board of the Bureau of Agricultural Economics. This forecast is based on indications as of August 1 and assumes average conditions after that date.

The crop in prospect on August 1 is 7 percent smaller than the 3,808,000 bales produced in 1952 but 11 percent above average. The calculated yield per acre of 182 pounds is 11 pounds above the 1952 yield per harvested acre but 1 pound below average. The 182-pound yield per acre, calculated for 1953, is

Tom W. Mendenhall Is Called By Death

Mrs. Leita Mendenhall of Cisco left early today for Wichita Falls to attend final rites Thursday morning for Tom W. Mendenhall, brother of the late Lue Mendenhall of Cisco, who died there at 7 p. m. Tuesday.

Mr. Mendenhall had lived in Wichita Falls for many years and visited in Cisco on many occasions before his brother's death more than a year ago.

Mr. Mendenhall was known as "an old-time dynamiter" of oil wells, operating the Mendenhall Torpedo Company.

WATERMELON PARTY

Members of the Cisco Country Club and guests will hold a watermelon feast at the club at 7:30 p. m. Friday, the entertainment committee reported today. Members were asked to invite guests. A game hour will follow the serving of melons.

Southwestern Baptist Seminary. He is well known through the state.

The Rev. Stephen Heather, music and education director of the Oak Cliff Baptist Church, Dallas, will be the song director for the revival. He has worked with Dr. Weedon in a number of meetings.

Both Dr. Weedon and Rev. Heather will be here for tonight's opening service, Dr. Ward said. The local congregation has been preparing for the revival for the past several weeks and large audiences are expected for each service.

"Everyone has a very cordial invitation to attend any or all of the revival services," Dr. Ward said.

Kokomo Girl Is Crowned Queen Of Farm Bureau

Miss Louise Scitern of the Kokomo community was crowned queen of the Eastland County Farm Bureau on Friday night, August 7, during the silver anniversary celebration of the Old Rip Horned toad Derby in Eastland. She also reigned as queen of this event on Saturday night.

As the Farm Bureau queen, Scitern will go to the district contest and compete with other county winners. District winners will be in the state contest at Mineral Wells, where a state queen will be named and sent to the national convention in Chicago next November.

Miss Scitern, who was a member of the queen's court at the recent Indian Trail Festival at Gorman, was crowned queen of the Farm Bureau by President A. Z. Myrick. Mr. Myrick also crowned James Kendrick of Eastland as king of the Farm Bureau during the ceremonies.

Appearing with Mr. Myrick in the ceremonies were Sylvia Hendricks and Jimmy Smith, crown bearers; Helen Blackwell and Linda Phippen, flower girls, and Joy Love and Judy Phippen, train bearers. Trumpeters were Gary Downard, Jimmy Harris and Jim Ed Willman.

Duchesses, dukes and escorts were: Darlene Parmer, Don Ramsey and Ruby Wende; Kitty Ingram, Don Jobe and LeHannah Leveridge; Mary Evelyn Laminack, Jack Eison and Carol Eison; Sandra Harrell, Phil Hilliard and Gay Nell Blackwell; Melba Ruth Brown, La Doyt Maupin and Kay Eison; Patsy Norris, Pat Collins and Charlene Blackwell; Joyce Fry, Bobby Travis and Paula Coats; Donna Blackwell, Johnny Swinney and Sissy Blackwell; and, Sally Cooper, Franklin Knight and Loresta Love.

The program was described as a success from all standpoints.

Athletics Will Hold Steak Fry At Lake

Members of both major and minor league teams of the Athletics will be entertained with a steak fry at 6:30 p. m. Thursday at Lake Cisco Park, it was announced today. The party is being given by the First National Bank, sponsor of the team.

Men workers at the bank will be hosts at the party. The major Athletics team members asked to attend the party in uniform so pictures can be taken.

All boys on the two Athletics teams were asked to meet at ABC Field at 6 p. m. for transportation to the park.

BRAVES BECOME CHAMPIONS OF LITTLE LEAGUE IN 2ND VICTORY

The Braves became the champions of the 1953 Little League baseball program in Cisco at ABC Field Tuesday night when they defeated the Athletics by a 11-to-6 score to win their second victory in a best-two-out-of-three playoff series. A large crowd turned out for the contest.

The Braves had won the opening playoff game Monday night and their victory Tuesday night concluded the series.

The Braves scored first in the opening inning. Leadoff man Jimmy Dolgener singled and advanced to second as White grounded out. Bob Dolgener walked and Johnny Choate, playing shortstop, singled, scoring the leadoff man.

The Athletics knotted the count in the bottom of the second when Lester was hit by the pitcher and worked his way to third, scoring on an infield play.

The Braves exploded with three runs in the third, resulting from three walks, an error and a man being hit by the pitcher. Singles by Chatman and Richardson enabled the Athletics to push across two tallies in the third.

In the fourth, the Braves sewed up the game with a 5-run rally, resulting partly from two solid hits and three errors. Choate hit a home run in the fifth with Bob Dolgener on base to conclude the Braves scoring.

The Athletics scored once in each of the 4th, 5th and 6th inning but the deficit was too great for them to overcome. Choate, who pitched a no-run, no-hit in Monday night's game, was Tuesday's leading hitter, driving out a single and a home run in four trips to the plate.

Charles Lipsey was the pitcher for the Braves with J. Baum behind the plate. Others in the lineup included J. Dolgener, 2nd base; J. White, right field; B. Dolgener, 3rd base; Choate, shortstop; R. Adams, center field; D. Hale, left field; J. Qualls, first base, and Gosnell, outfield.

District Leader To Attend Meet

The John William Butts Post 123 of the American Legion will install new officers in ceremonies Thursday at 8 p. m. at the Legion Hall, according to an announcement today by W. J. Foxworth, the retiring post commander.

W. A. (Bill) Hazelwood, Jr., of Sweetwater, 17th District Commander, will be here to direct the installation of new officers, Mr. Foxworth said. Mr. Hazelwood became the district's top Legionnaire when he took office at the recent state convention.

Plans for the installation ceremonies have been worked out by a committee of post members with Joe Comingore as chairman. All retiring officers have been asked to serve as a reception committee to greet visitors at the meeting.

Mr. Foxworth said that the ceremonies will be open to the public and members of the Legion Auxiliary have been invited to attend.

Newly elected post officers who will take office at the meeting are: D. N. Morrison, post commander; Gene Abbott, first vice commander; Rex Moore, second vice commander; W. P. Knight, adjutant and finance officer; H. V. Kirby, sergeant-at-arms; E. L. Jackson, chaplain; Paul Brashear, service officer; Mrs. Marie Smith, historian; and, Fleming A. Waters, trustee.

The new post commander has been a resident of Cisco for several years and has been active in Legion affairs, managing the Legion baseball team since its organization two years ago. He is employed by the Henson Construction Company as office manager, has been active in the Little League baseball program, the ABC Club, and is an active member of the First Baptist Church.

"We will be pleased for the general public to turn out for the installation ceremonies," Mr. Foxworth said. "The Legion has a full program of civic work underway. Our membership is comparatively large and we hope to continue making valuable contributions to the community's progress."

Oldham Family Has Reunion At Lake Cisco Park

The children, grandchildren, and great grandchildren of Mrs. M. W. Oldham, who lives at 1308 Bullard Street, gathered last weekend at the Presbyterian Encampment at Lake Cisco for their annual reunion.

This was the seventh annual reunion of the Oldham family with 31 members attending. Mrs. Oldham has been a resident of Cisco for twelve years, formerly having lived in Abilene.

Swimming was a pleasant pastime for some while others enjoyed games of various kinds. On Sunday morning there was music and singing in the chapel with all of the family participating.

Those attending were Mrs. D. M. Cogdell and Billy, Snyder; Mr. and Mrs. Jack Bowden and children, Snyder; Mr. and Mrs. Joe Clements, Mr. and Mrs. Larry Phillely and Craig, Irving; Mr. and Mrs. Gip Oldham, Fort Worth; Mr. and Mrs. C. E. Terrell and Tillie, Artesia, New Mexico; Mrs. P. W. Gilliland of Fowler, Calif.; Mr. and Mrs. D. P. Walker and Don, Stamford; Billy Oldham, Dallas; Mr. and Mrs. J. A. Moore and Jerry, Dallas; Mr. and Mrs. Jim Daniel and Danna, Arlington; and H. L. Oldham and son of Breckenridge.

One daughter, Mrs. J. H. Evetts of Leuders and a son, Charles L. Oldham of Jacksonville, Florida, were unable to attend.

Mr. and Mrs. C. E. Hailey, Wanda and Kay, and Mrs. Owen King and son, Ralph, spent the weekend with Mr. and Mrs. B. R. Rodgers and family of Sulphur Spring.

Mr. and Mrs. O. M. Wilson, Mickey, Nancy, and Pamela, of Lubbock were visitors in the home of Mr. and Mrs. C. B. Powell over the weekend.

A MORE RESPECTABLE DOLLAR

A Wall Street Journal news story began with these words: "The dollar is getting more respectable. Despite the great abundance of greenbacks kicking around each of them will buy more of nearly everything." The paper went on to say that the official cost of living figures do not show this, but a trip to the markets does.

It would be a foolhardy man indeed who would forecast that inflation has run its course and that we can confidently expect steady price declines. No one knows what the future will bring, but the fact that so many prices have dropped, often by substantial percentages, since abandonment of

government price controls is an excellent commentary on the worth, efficiency and vigor of our competitive system of doing business.

All of us see that system in action on the retail level. Every kind and size of store, from the newest and smallest specialty shop to the oldest and biggest chain, is aggressively seeking business. In many lines, the "buyers' market" has come back with a vengeance. Every possible inducement of price and service is used to attract the consumer. In most merchandising operations, the retailer's profits are very small — a few cents or less out of each dollar he takes in. Together, mass production and mass distribution, both intensely competitive, see to it that we get the best possible value for our money.

Mr. and Mrs. O. W. Hampton of Whitney were Monday visitors in the home of Mr. and Mrs. Marshall Jones.

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN — Texas politics appear calm on top. Only an occasional ripple indicates the seething turmoil underneath the surface.

Such a ripple is the announcement by George W. Sandlin of Austin, secretary of the State Democratic Executive Committee, that the group will meet September 11 in Mineral Wells.

A small space was occupied in the newspapers by the announcement, which was casual in tone. Sandlin said the purpose of the gathering was mainly "finding out what the members might have on their minds."

What they might have on their minds might be plenty. It would involve whether the Shivers "conservative" people would retain control of the Democratic Party in Texas, or whether the "liberal-loyalist" faction would regain control.

Hopeful in the political races of next year were concerned — especially prospective candidates for state and national offices.

Politically and otherwise, a great deal depends on the governor's decision as to whether he will run for another term, seek some other office, or retire from the public service.

Several potential candidates are waiting for the governor's announcement before completing their own plans.

Some of the "experts" here said Shivers will try for a third elective term as governor, because in that position he could exert his influence most effectively in keeping Texas on the "conservative" side with respect to national politics.

A meeting of the executive committee at this time indicates strongly that the political forces are beginning early to prepare for next year's three-sided campaigns, with competition from both Democratic factions and from the Republicans.

Otherwise, there was the business of replacing two members of the executive committee.

Mrs. L. E. Tennyson of Clifton resigned because of illness in her family. Peyton McKnight of Houston, oil man and national GOP committeeman.

Sandlin's announcement of the Mineral Wells meeting came while Shivers was attending the national governor's conference at Seattle, where President Eisenhower expressed his views on states rights.

The federal government, said the president, should never undertake to do for the states anything that the states can do for themselves.

This was what most of the governors wanted to hear.

Shivers, chairman of the conference, had said that the problem of "bringing the government closer to the people" was considered by most of the delegates as the most important question before the meeting.

Governor Dan Thornton of Colorado agreed that there should be decentralization of government, and that the nation is still in danger of "drifting into socialism."

From Seattle came an indication on the part of some of the Shivers to enter the presidential race in 1956. Louisiana's Governor R. F. Kennon made the suggestion to reporters there — a thought that has been expressed in Texas and elsewhere before.

Everett L. Looney of Austin, president of the State Bar of Texas, has removed himself as co-counsel for District Judge C. Woodrow Laughlin of Alice.

Looney gave two reasons for his withdrawal: first, he is ill and unable to appear at the oyster proceedings; and second, some of the directors of the state bar felt that it was improper for him, as president, to appear in the Laughlin case.

Looney called for a special meeting of the bar directors for August 13 to determine what ac-

tion if any the lawyers' organization should take in the Laughlin case.

Eleven South Texas attorneys petitioned the Supreme Court to hear a list of complaints against the Alice judge and to consider removing him from office.

The proceedings are scheduled to begin August 17.

Laughlin is accused, among other things, of interfering with a grand jury investigation into election matters in his district.

Annexation powers of cities is being studied by the Texas Legislative Council.

Laws governing annexation have not been changed for 30 years, and there is need for revision, in the opinion of many, including Representative Marshall O. Bell of San Antonio.

Bell told the council that "cities should grow in an orderly way, but we ought to prevent the incorporation of 'parasitic' areas seeking to avoid city taxes while obtaining the benefits of a nearby big city. On the other hand, cities should be stopped from annexing farm territory, or from expanding where there would be no benefit offered to residents of the area."

Findings of the Council will be referred to the next Legislature.

Scheduled in federal court is the National Labor Relations Board's attack on the Texas "right to work" law.

Federal Judge R. E. Thomson of El Paso ordered Attorney General John Ben Shepperd to appear and testify in regard to an injunction suit filed by the NLRB.

The board by its suit is undertaking to prevent the attorney general from enforcing parts of the law as applied to a San Antonio collective bargaining case.

Texas' law in this instance is in conflict with the national labor relations act, the NLRB contends.

Behind the NLRB action are two injunctions forbidding the International Fur and Leather Workers Union of the United States and Canada from participating in an election to be held by workers of the Nelson Tanning Corporation of San Antonio.

Under present Texas laws labor unions are prohibited from operating in the state without first filing a detailed financial and operational report with the secretary of state. And union organizers must file a report and secure an organizers' card before conducting their soliciting activities in Texas.

Another Texas law under attack is the driver responsibility act.

The test is going to the U. S. Supreme Court.

D. C. Gillaspie of San Antonio is contesting the law, after registration of his family car was suspended because his son, who was driving it, figured in a traffic accident.

Under the law as it now stands, the son must show financial responsibility before the car can be driven by anyone.

The Texas supreme court upheld validity of the law, but Associated Justice G. B. Smedley cleared the way for the case to go to the U. S. Supreme Court.

Gillaspie argues that the sections of the law applying in his case are harsh and unreasonable and nullify the entire statute.

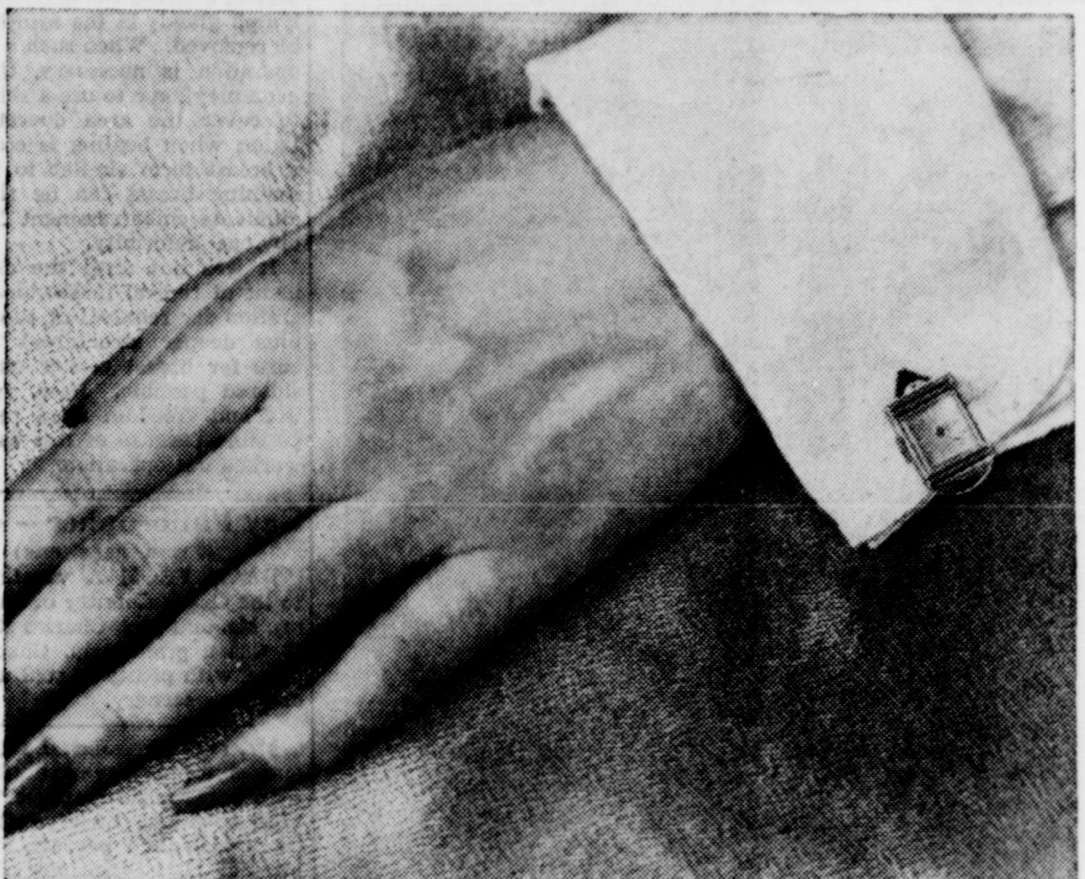

Construction in Texas for the first half of the year was greater than expected, reported Richard C. Henshaw Jr. of the University of Texas Bureau of Business Research.

Non-residential building more than counterbalanced the slump in home construction, the report said.

At the same time, Texas Employment Commission reported job placements for June above that of May, but behind that of June last year.

The drop was attributed to payroll cuts in federal and defense establishments, the drought, and other factors.

SHORT SNORTS: Frank S. Maddox has resigned as assistant state highway engineer to accept a position with the Portland Cement Association at San Antonio. . . . David Irons, assistant attorney general and president of the Texas Public Employees Association, will go to Washington to head up a subversive activities investigating unit of the U. S. Attorney General's Department. . . . Pay raises of \$50 per month have been granted to some of its employees by the Texas Library and Historical Commission, probably the first pay increases under the new appropriation law.

TIME ON THE CUFF—One of the most interesting new styles presented by the Watchmakers of Switzerland for the coming fall and winter seasons is a novel "cuff" watch. The timepiece, shown above, is made into an attractive cufflink. It's especially ideal, according to the makers, for use by the busy career woman who prefers to wear suits and blouses.

Duncan Coffee To Pay Wage Bonus To All Employees

The Duncan Coffee Company of Houston, world's sixth largest coffee importer and roaster, has declared a 10% bonus for all of its hourly-wage and salaried employees, based on their pay for the first six months of this year. The announcement was made by H. M. Duncan, president and founder of the company, on the eve of the firm's thirty-fifth anniversary, August 12th.

"Since our company began its operations, August 12, 1918," Mr. Duncan said, "the welfare of its employees has been of prime importance to the management. We have always been mindful of the fact that no institution is stronger than its associates, and through the years we have found it expedient to remunerate our faithful employees to the maximum justified by the profits of our business."

Long a leader, in this area, in the field of employer-employee relations, the Duncan Coffee Company has made yearly bonuses, based on Company profits, an established policy. Through the years, the company has continued to build a unique and enviable network of employee benefits which include free polio insurance, life insurance and low cost group hospitalization, sickness, accident and disability insurance. In addition, the firm gives its employees a yearly service bonus at the rate of 1% of base pay for each year of continual service upward to 20%.

The Duncan Coffee Company is roaster and blender of Maryland Club Coffee, widely known as "The coffee you'd drink if you owned all the coffee in the world," as well as of Admiration and Bright & Early coffees and teas.

Quality Of Texas Teachers Is Well Known In Nation

AUSTIN, Aug. 12.—Word gets around about the quality of Texas teachers, Dr. Hob Gray, director of the University of Texas Teacher Placement Service, reports. He received a telephone call from Denver, Colo., requesting 50 elementary school teachers and 25 secondary teachers. Salary for beginners with a bachelor's degree is \$3,000.

Dr. Gray also had a call from an oil company requesting a husband-and-wife elementary principal and teacher for an assignment in Peru. The principal's job pays \$500 and the teaching job \$400 per month. The couple would work nine months a year and receive 13 months' salary.

"Extras" that go along with the jobs include a two-bedroom brick house at \$25 per month (utilities furnished), free transportation to Peru for the couple, their automobile and any household furnishings they desire to take.

The assignment is in the mountains, where temperatures never go too high or too low, but if the lucky pair wants to return to Texas during the summer, they may do so, with the company paying the transportation.

"Now, let's go over that again," Dr. Gray cautiously told the company representative who telephoned him about the jobs.

The man complied and added a few other morsels, including the fact that company stock could be bought at par by the persons selected for the jobs, with the company standing ready to buy back any stock they might wish to dispose of later.

The applicant for principal must have two years' experience as an elementary principal, and

HEALTH TALKS

Prepared by the Texas Medical Association

One of cancer's seven danger signals, according to educational programs, is a "lump or thickening in the breast or elsewhere."

Because of the widespread public campaign against cancer, plus improved methods of diagnosis and treatment, major victories have been chalked up against the disease. When it is realized, however, that 15,000 American women die of breast cancer each year, the need for further vigilance and action against needless death is evident.

There is a growing consciousness on the part of most women of the need for early examination in case of suspicious lumps or sores of the breast, although many such signs prove not to point to cancer. Nevertheless, in many instances not even the doctor can tell whether cancer is present until he takes out a piece of tissue for microscopic study, in other words, performs a biopsy.

If the results of biopsy are negative, the doctor is able to reassure the woman and send her home. If not, however, the breast and sometimes (depending on the kind of growth present) deeper tissue such as the

teacher applicant also must have two years' elementary school experience.

Persons qualified are already on the payroll if they are accepted, for the salary started August 1, while the jobs began September 1. Further details may be obtained from Teacher Placement Service, University of Texas, Austin 12.

muscle beneath the organ and the lymph glands in the armpit must be removed. When such a radical operation is necessary, the surgeon may have to use a skin graft to cover the area operated on. Later, when healing is complete, a breast form similar to the remaining breast can be fitted to eliminate embarrassment from an obvious deformity.

It was not until the development of radical mastectomy (operation for removal of the breast plus deeper structures) that a cure for breast cancer was considered possible. Now, years of life and freedom from pain are possible because of this carefully worked out operation.
