TRADE AT HOME

If you spend a dollar at home you have some hope of getting it back; if you don't, you just spend a dollar.

VOLUME XXXIV

day

CISCO, TEXAS, TUESDAY, APRIL 6, 1954

The Gay Philosopher By J. W.

THE MESQUITE trees urning green and that's a sign warm weather ahead. There's an old legend that mesquite trees never put out until the danger of a freeze has passed, and we can't mber a freeze killing the mesquites

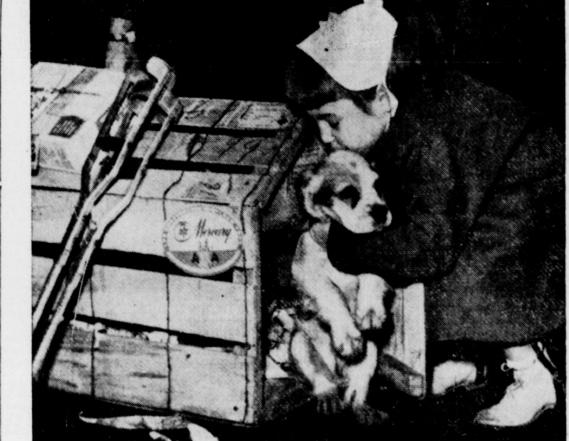

Although they're not worth much, mesquite trees don't grow except on good land. Much work is being done these days to find an effective way to eradicate mesquites, which are litterally taking parts of West Texas. about a meat curing firm up at Knox City which specializes noking meats with mesquite. Didn't try any of it, but we'd like to.

Was up at the First National Bank and their weather forecastservice confirms the govern s long-range prediction that April is supposed to be a month. The forecast service are from April 6 to 10 and a couple of times later in the

DID YOU NOTICE mention of he Lucky Strike Drilling Co. of in the Sunday oil story from alia in all the papers? As you know, this firm was organ-ized by the Kamons of Cisco and Robert Kamon went to Australia got an oil concession for the company.

Some Tulsa folks bought an interest in the company and it is preparing to do some drilling in Australia.

THE FACT THAT Robert Kamon went from Cisco to Ausalia and obtained an important concession proves that you do just about anything if Before he could obtain concession, the laws of Aushad to be changed. And Robert had a big hand in this. Since that time, other countries had done the same thing nged their laws to permit out ers to develop their resources. countries have included Egypt, Brazil and others in South ica and the Middle East. Robert, by the way, is still in The morning mail Australia. brought a letter from him, which will appear in Wednesday's Press.

TEMPORARY PARTING-Little Karen Albrecht, five, the 1954 Easter Seal girl from San Antonio, Tex., had to kiss "Freckles" good-bye in New York. Karen and the pup were flying to Chicago to make personal appearances, and the separation didn't last very long.

Plans are progressing for the !

Will Speak For THE FOLKS UP at the Fashion Lions Luncheon Cleaners celebrated their 3rd anniversary in Cisco with a big open house party Monday. Over 500 people went through the plant and saw a demonstration of how a cleaning plant cleans clothes. The Fashion was highly pleased with the big turnout.

ONE OF THE biggest crowds we've ever seen at a family night supper party was present last Friday night at the Cisco Country Club. There must have been 60 people present for the delightful meal and game hour. President J. A. Robinson introduced a half-dozen new members.

The club voted to postpone until a later date a tentatively scheduled spring dance. The event was to have been held on April 17. A new date will be announced later, it was decided.

SEE BY THE papers that another dam for West Texas has been proposed. This one would be built just below the junction of Big Sandy and Hubbard reeks some ten miles northwest f Breckenridge. It would imbound some 300,000 acre feet of vater for the cities of Abilene, Breckenridge and others.

An engineering firm is getting ome facts and figures together on the proposition to be submitted to interested cities. A lot of preliminary work needs to be done before action can be taken. They roughly estimate that the dam would cost two and half million dollars.

The City of Cisco still has the water rights to Battle Creek, which empties into Hubbard Creek.

Complete information about the State Extension Service for

This is the fifth consecutive year that the Pure Oil Company has provided the awards in this program.

County and state awards are offered by the donor in 26 states. County-wide public speaking finals will be arranged by Extension agents, and the outstand for a cafeteria at the East Ward ing boy and girl in each county will receive a gold-filled medal of honor. The state awards are a 19-jewel watch for the high ranking boy, and a set of silverware for the top rating girl.

In addition, two college scholarships of \$300.00 each, and two all-expense trips to the 33rd National 4-H Congress in Chicago next November will be awarded to a 4-H boy and girl selected from the state winners. All states are eligible to submit candidates for these national awards. The two national 4-H Public Speaking achievement winners last year were Rosemary Gladhart, of Highland, Kansas, and Billy Sam Moore, of Petersburg, Tenn.

The program is directed by the Cooperative Extension Service.

Only 150 Votes Are

Cast In City Poll Only 150 votes had been cast

by 1:30 p. m. today in the annual City Commission election at the city hall. The polls opened at 8 a. m. and were to remain open until 7 p. m.

Observers had predicted that approximately 500 persons would take part in the election. Voters were to elect three members of the City Commission for two-year terms in today's election. There were four candidates for the three vacancies

New Jobs for Texans

l'exas industries have been providing new jobs for Texans at the rate of about 70,000 a year. That's about 200 new jobs every day.

All kinds of jobs . . . in offices, on construction work, in manufacturing plants, in the development of the natural resources of the State. Jobs for riggers, for secretaries, for engineers, for truck drivers, for accountants, for lawyers, for crane operators, for decorators, for sailors ... all kinds of jobs.

And the reason why these new jobs have been, and continue to be available is this: Texas industry is expanding, and industry makes jobs.

On the average, each new job created in Texas requires the investment of \$12,000 capital*. Thus, Texos industry invests over threequarters of a billion dollars each year in new plants and in plant expansion to create 70,000 new Texas jobs.

Much of this annual investment in new jobs for Texans is made by the oil industry itself and industries which depend on oil and natural gas for fuel and raw materials. Every year a wider variety of industries put to profitable use a larger number of the resources of the State, and call on a broader assortment of available Texas skills.

Forecasters predict an even greater industrial development in Texas, and an even larger number of new jobs, as more industries recognize the advantages that Texas offers: good markets, raw and manufactured resources, trustworthy and dependable people, efficient and abundant fuel, a mild climate, and a good state government . . . In that list of advantages, the Texas oil industry provides raw materials for processing, and the world's finest industrial fuel -natural gas.

PAGE THREE

*In the oil industry, the required investment for each new job is over \$50,000.
