CISCO, TEXAS, WEDNESDAY, APRIL 7, 1954

NUMBER 86

The Gay Philosopher

By J. W. S.

ONE OF THE good things about the Texas Industrial Week exhibit in Cisco was the fact that a lot of people learned some things about our town. And it gave visitors an opportunity to see what Cisco plants turn out. One Pennsylvania man looked through the exhibit and started making arrangements to become distributor for the products of one local manufacturer back in his part of the country.

Two exhibits that attracted a lot of attention were the Gallagher Clay Products Company with their flower pots and Thomas-Moore, Inc., with modernistic furniture. A dining table with a center lazy susan was especially noticed.

All of the exhibits were good and our town should be mighty proud of its industries.

FROM MINERAL Wells, Miss Hope Tackitt, general chairman for the local planning committee of the recent Texas Library Association's 41st annual meeting there, writes: "Through the columns of your paper will you please express my appreciation for the valuable assistance rendered by Miss Mayme Estes, librarian of Cisco Junior College, by her serving on the registration committee at the meeting here April 1-3."

OUR SCOUTS report that they've struck water in the well up at the home of Mrs. Charles Kleiner on West 14th Street. There was some 40 feet of sand from about 100 to 140 feet. The well's initial pumping rate was 65 gallons per hour and this was expected to increase as the well cleans itself out.

BACK FROM Corpus Christi and a visit with their daughter, Mrs. Hagan McMahon and family, are Mr. and Mrs. Oscar Cliett of our town. Mr. Cliett took advantage of being near the Duke of Duval's domain to drive over to have a look-see at the home country of Mr. Parr. He found it incredible, indeed.

Mr. Cliett says they enjoyed a month's stay in the south country but didn't go fishing. Can't understand Mr. C. not going fishing, seeing as how he has scored some outstanding successes at Lake Cisco.

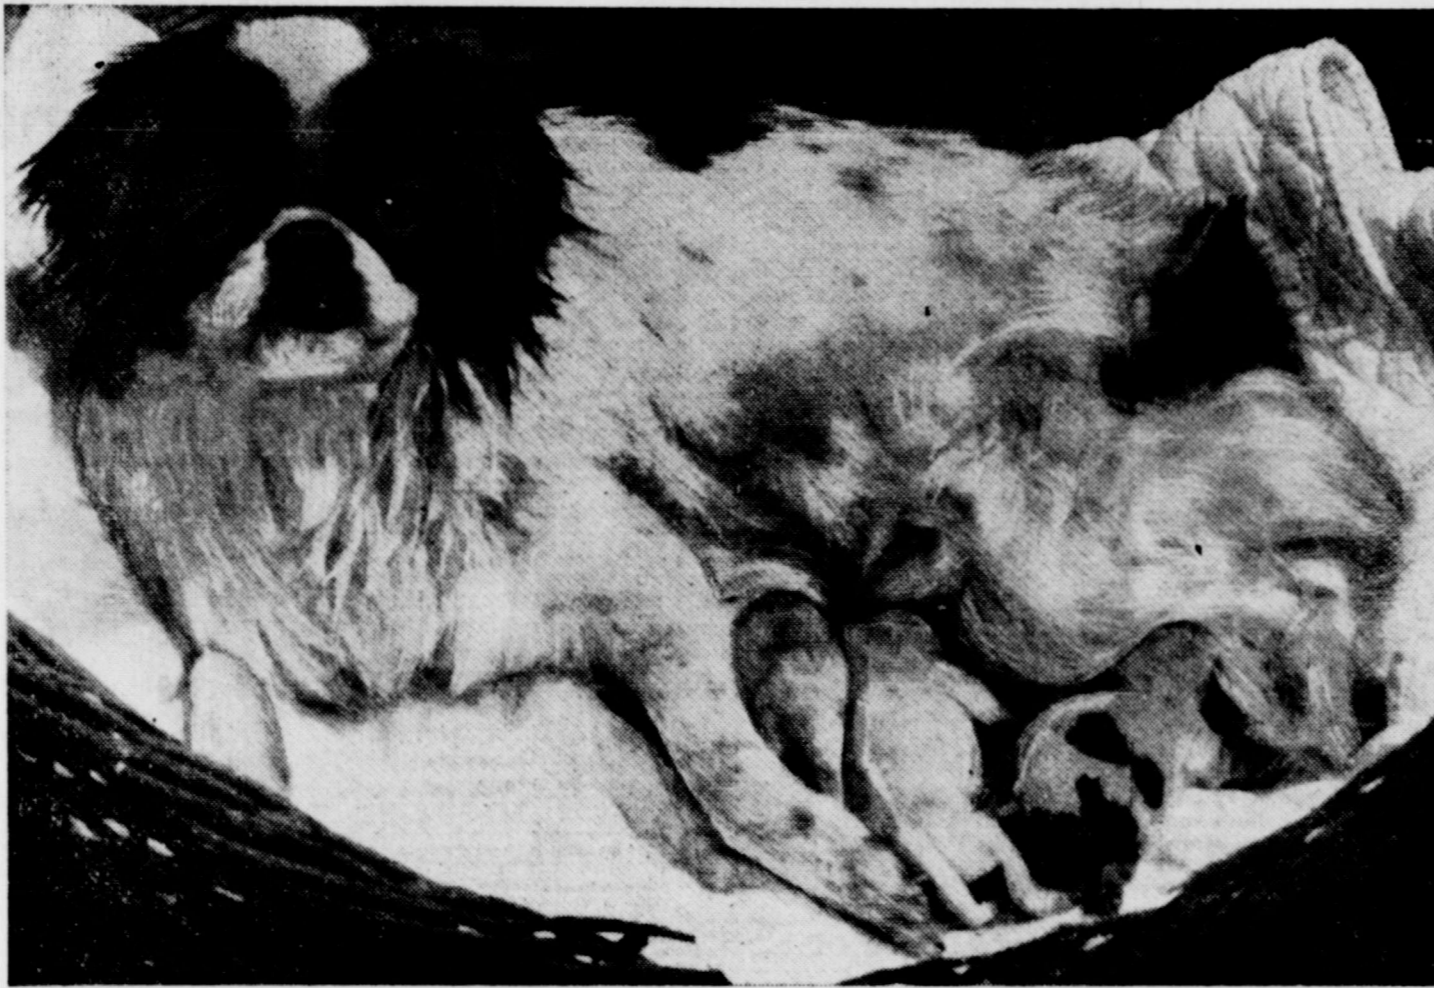

RAN INTO MR. Stanley Webb, the tax collector, and he reports that things must be better in Cisco as compared with the same period in 1953. He has just finished checking Mrs. Peggy Gallagher out of the auto license selling business and she sold more plates this year than last. He expects to have a complete report ready for announcement soon.

HEAR THAT Mr. and Mrs. Hardy Glascock have purchased the Roy Killingsworth property out on the old Abilene highway. It's just outside the city limits and they have some 10 acres of land with the house. Mrs. G. teaches at the West Ward School.

THINGS ARE LOOKING up out at Lake Cisco Park. Mr. Ed Wendt has opened up his amusement enterprises, including the miniature golf course and the kiddie rides. And business is right good at the skating rink. . . Mr. Knight has been appointed manager for the swimming pool again this summer and he's making surveys to see what needs to be done before the beginning of the season around May 1. . . A good many folks are already having late afternoon picnics in Lake Cisco Park, and this is a very good sign of spring. . . If we could just have a good rain to settle all the dust and make things grow.

THEY'VE GOT a new money lender up at the First National Bank. Mr. Tom Wilson has taken over the desk of President James P. McCracken and Mr. JPM has moved to the desk formerly occupied by Board Chairman Charles Spears. Mr. Paul Farrow has moved into the No. 1 cage, and nobody had moved into his vacant cage when we were there.

When construction work is completed soon on the building next door, Mr. Spears and Bob Hammett will move into offices there. Mr. Hammett is president of the Consumers Acceptance Corp., a finance company formed a couple of years ago.

SHIFTING FOR HERSELF—When the time arrived for Suzi to become a mama, the four-year-old Japanese spaniel got no help from her owners, who were fast asleep in the early morning hours in Chicago. Suzi took out for herself, crossed a busy six-lane expressway and walked two miles to a veterinary clinic she was familiar with. The three pups arrived shortly after Suzi got there.

C of C Board Asks Water Resources Study Continued

The board of directors of the Cisco Chamber of Commerce instructed its water resources committee to continue its study of Lake Cisco and the need for new sources of supply here at a semi-monthly meeting at noon Tuesday at the Victor Hotel Coffee Shop.

Members of the committee are James P. McCracken, W. P. Guinn and W. B. Wright. In a report to the directorate, Mr. Wright noted that Lake Cisco has a supply good for about two years and suggested that area developments be reviewed. The committee was asked to continue its work and to report its findings to the City Commission.

Several industrial matters were discussed. Committee reports were heard. Present at the luncheon were President Anton White, Manager B. A. Butler, W. B. Wright, J. P. McCracken, Gene Abbott, Tom Wilson, J. L. Stafford and C. E. Higginbotham.

LAURA KATHRYN POE

A daughter, Laura Kathryn, was born to Mr. and Mrs. James D. Poe at Graham Hospital Sunday, April 4. Both mother and daughter are doing nicely. Mr. and Mrs. Poe have another daughter, Jane Ann, who was two years old April 4.

AGNEWS ARE BACK

Rev. and Mrs. Mart Agnew returned today from Oklahoma City where they visited her nephew who was seriously ill and awaiting surgery. They report no change in his condition.

Mr. and Mrs. Oscar Cliett have returned from a visit with their daughter, Mrs. H. McMahon, in Corpus Christi.

2 DIAMOND RINGS WORTH ABOUT \$2,000 STOLEN FROM HOOKER'S

Hooker's Jewelry of Cisco was the victim Tuesday of a clever shop lifting scheme which netted the thieves two diamond rings with a retail value of \$2,000.

It was believed by clerks at the store that three persons were involved in the theft which occurred about 1:15 p. m. Tuesday. One of the trio, a tall brunette, approached a clerk to inquire about having a piece of jewelry repaired. While the clerk was examining the broken piece of jewelry for the woman another woman and a man companion came in the store and stopped at the case containing the diamonds. The woman was described as a blond of medium height apparently about 25 years of age. The man was short and stocky and about 35 years of age. All were well dressed.

After the clerk had completed the examination of the broken

Three Decorated Tables To Be Among Features Of Garden Club Flower Show

Three completely decorated tables will be on display at the annual flower show to be held Saturday, April 10, from 2 to 8:30 p. m. in the Reynolds Building, under the auspices of the Cisco Garden Club.

The tables to be entered are "Pink Perfection," by Mrs. Paul Woods; "Spring Melody," Mrs. W. C. McDaniel; and "June Fantasy," Mrs. George Fee. The entries will be in keeping with the flower show theme "Beauty

DEBORAH MARIE DAVIS

Mr. and Mrs. Gerald Davis are the parents of a daughter, Deborah Marie, born March 28 in the Hendricks Memorial Hospital in Abilene. The infant weighed eight pounds and two ounces at birth. Both mother and baby are doing nicely. Mrs. Davis is the former Miss Wylene Bint, daughter of Mr. and Mrs. Eldon Bint of Abilene. Mr. Davis is stationed overseas with the U. S. Army.

PROGRAM IS READY FOR COUNTY 4-H SHARE-THE-FUN FESTIVAL

An evening of unusual entertainment has been assured all friends of 4-H Clubs when they attend the big 4-H Share-the-Fun Festival at the Cisco Junior High School Gym at 7:30 p. m. Thursday, April 8. Bob Williams, assistant county agent, and Jimmie Dee Sturdivant, assistant county home agent, are in charge of the event.

The following 4-H Club boys and girls will appear on the program: song, "As Far As I'm Concerned," by Sheila and Laura Redden and Billy Ray Parks,

Scranton; piano solo, by Jill Watkins, Ranger; song, "Stranger in Paradise," by Jo yDunlap, Olden. Piano solo, "St. Louis Blues," by Wanda Dunlap, Cisco; duet, "Birds," by Glenda Hughes and Shirley Fowler, Cisco; piano solo, by Shirley Rhodes; song and piano solo, by Maxine Stacy; song, "Secret Love," by Wilma Mendoza, Ranger; puppet show, by Louise Yancey, Carol Sue Hall and Linda Sue Lewis, Desdemona; song, "Rattler," by Robert and Ronnie Bostick, Nimrod.

Rhythm five, musical group from Scranton; song, by Joyce Johnson, Rodgers and Betty Vinson, Ranger; piano solo, "Skip-to-My-Lou," by Camille Lee, Cisco; The Ramblers, musical group from Carbon; clarinet solo, "Irish Lullaby," by Bess Underwood, Gorman; instrumental music and song, by Billy Ray Rose and Gene Parks, Scranton; readings, "What It Was Was Football," and "The Basketball Game," by Robert Bell, Scranton.

The talent competition is sponsored by the extension service. The First National Bank of Cisco is furnishing ribbons for the winners of the event. The winning act will compete for district honors entitling participation in a state-wide Fun Festival finals at College Station in June. The state winners may be nominated to perform at the national 4-H club congress in Chicago.

This event is a part of the 4-H Recreation and Rural Arts Award Program. It provides top entertainment and at the same time encourages the development of talent among rural boys and girls. The public has been invited to attend.

Mrs. V. H. Bosworth, Mrs. M. P. Farnsworth, and Mrs. C. E. Whitmore plan to attend the regional W. M. U. convention in Waco Thursday and Friday.

In The Home.

Club members are limited to one entry in each Flower Show class, including specimen of horticulture, according to an announcement by the committee in charge of the show. Fresh flowers may be used with dried arrangements and driftwood providing it meets with the requirements of the particular class listed in the schedule.

All horticulture specimen are to be entered at the Reynolds Building Friday afternoon from 2 to 5 o'clock and arrangements from 8 to 10 a. m. Saturday morning.

Entry cards are to be filled out in advance and be ready to give to the classification committee. Entry cards may be obtained by contacting Charlotte Spears. All members are urged to enter both horticulture and flower arrangements. Mrs. Ray Chapman and Mrs. Charlotte Spears will assist in getting the flowers and helping in any other way.

National Ideas Of Farm Bureau Explained Here

"The Farm Bureau's proposed farm program does not mean that support prices will slide downward from 90 per cent of parity; it does mean that farmers will continue to receive support prices at 90 per cent of parity if production is kept in line with demand," President A. Z. Myrick of the Eastland County Farm Bureau explained today.

Mr. Myrick noted that "some confusion has arisen over the national farm program advocated by the Farm Bureau," and he issued a statement to "set the record straight."

"The Farm Bureau's proposed program is not intended as a stop-gap measure, but it is intended to solve the recurring problems of farm surpluses, and unstable prices. It does not pretend to be perfect and will undoubtedly be altered and improved in the future. What it does represent now is the majority opinion of more than 1 1/2 million Farm Bureau members in 48 states and Puerto Rico.

"The Farm Bureau is for full parity for farmers and ranchers. The Farm Bureau is for price supports for agriculture. The Farm Bureau believes that 90 per cent of parity prices are inadequate for a standard of living on the farm equal to that enjoyed by other groups.

"The Farm Bureau is not in favor of a price support system that would guarantee lower and lower support prices, but is for a price support system that will allow farmers to have 90 per cent price supports or higher if production is kept in line with demand. The Farm Bureau is not in favor of keeping production in line with demand through a permanent acreage control program administered by the government.

"The Farm Bureau is for a long-range, over-all program of action on a number of fronts — expanded foreign markets, liberal farm credit, price supports, more research — everything fair and honest and feasible that will help secure a higher and higher standard of living on every farm and ranch in America.

"The Farm Bureau believes that price is vital but only part of the total picture. Net income is derived by multiplying volume times price, minus costs of production. The only way to guarantee artificially high prices is to cut production. A small volume of production, even at a comparatively high price, does not secure a high net income. It does guarantee a nation of subservient, low income farmers and a bankrupt agricultural economy. And a bankrupt agriculture means a bankrupt nation."

W/O and Mrs. Vernon Shirley and family of Maryland are expected Friday for a visit with relatives in Cisco while en route to Corpus Christi where Mr. Shirley will be stationed with the Navy.

478 Voters Take Part In City Commission Election Tuesday

PROGRESS REPORTED FOR TRACK SQUAD BY COACH AT COLLEGE

Coach L. L. Lewis reported Wednesday that his Cisco Junior College track team was shaping up well and that the school should make a good showing at the conference meet to be held on May 3 and 4.

Nine members of the team have been working out regularly and will begin to work in earnest this week. They will taper off during the week prior to the meet.

Del Wright of Pecos will run the high and low hurdles and enter the broad jump. Don Benthall of Anson will run the 880 and 440 and possibly a leg on the mile relay team. D. D. Trice of Anson will run the mile or the 880 and possibly a lap on the relay team.

Carl Metkar of Irving will enter the mile and Darris Foster of Decatur the 880. Metkar was one of the leading milers in high school competition last year.

Johnny White will probably enter the 440 and will be on the relay team. Ray Westmoreland will throw the discus, enter the dashes and run on the dash relay team. Vernon Franklin will enter the dashes and run on the dash relay team.

Three members of the team entered the Southwestern Track and Field meet in Fort Worth a few weeks ago. Del Wright took fourth place in both the high and low hurdles and was ahead of all runners from the Texas Junior College Conference. Don

FORD SCHOLARSHIPS

DALLAS, April 7.—Several Texas youngsters are among applicants for 70 four-year college scholarships which will be awarded sons and daughters of Ford employees this year by the Ford Motor Company Fund.

Eight noted American educators, members of the Ford Scholarship Board, will meet in Dearborn, Mich., April 5-6 to select scholarship recipients.

The 1954 Ford Scholarships will be awarded sons and daughters of Ford employees on the basis of scores made on competitive examinations, rank in high school, recommendations of high school principals and student counselors and other factors determined by the board.

The condition of Mrs. S. B. Webb was unchanged Wednesday.

Dr. and Mrs. H. C. Brown were business visitors in Fort Worth Tuesday.

Benthall came in fourth in the 440 yard dash and D. D. Trice was fifth in the mile. They also won over all runners from their own conference.

Cookie Barron will represent the college in the girls tennis division. The school will not be represented in the boys tennis division.

Auditorium Gets Face Lifting To Prepare For Play

The stage at the Cisco High School auditorium is getting a complete face lifting in preparation for the senior class play, "It's Great To Be Crazy," which will be presented at 8 p. m. Friday.

The walls that furnish the background for the props have been repapered and trim has been painted. The work has been in charge of Jack Everett, director of activities for the school.

Meanwhile the members of the cast are working late each night putting the finishing touches on their parts. Dress rehearsals will be held Thursday night.

Tickets went on sale Wednesday, it was announced. Admission prices were set at 60 cents for adults and 35 cents for students.

Legion Will Seek 75 New Members

Members of the John William Butts Post 123 of the American Legion were asked by Post Commander Gene Abbott today to help recruit some 75 members this week. Mr. Abbott asked each of the Post's 105 members to recruit one more member in a letter mailed Tuesday.

The Post will hold a regular semi-monthly business meeting at the Legion Hall on Thursday night, and the commander urged each member "to bring a new member and let's complete our quota."

He reminded the Post that "a strong membership is important for a good program of community work." The local Legion Post operates the Lake Cisco Swimming Pool and park as its major community enterprise.

RIGHT AT HOME—Although he'll never get very big, Pepito, a monkey at the London Zoo, is comfortable in the pocket of his keeper. He's a Langur and was abandoned by his parents in India, where such monkeys are sacred. It's obvious that he was adopted by someone—he seems to be doing all right.

New Officials To Take Office Soon

A total of 478 Cisco voters went to the polls Tuesday and elected three members of the City Commission to serve two-year terms. Elected were D. N. Morrison, Joe Britain and J. W. Sitton.

Votes cast for each of four candidates in the race were as follows: Morrison 408, Britain 374, Sitton 360 and Miss McCracken 252. Britain and Sitton were re-elected, and Morrison was elected for a first term.

Returns of the election will be canvassed by the City Commission at a regular meeting Tuesday night, April 13, and the new commissioners will take the oath of office at the April 27 meeting.

City commissioners are assigned to department by the mayor, and it was expected that Morrison would be assigned as finance commissioner since he is succeeding J. W. Slaughter, who is retiring as finance commissioner. Mayor G. C. Rosenthal was expected to announce commission assignments at the April 27 meeting.

Voting was particularly heavy after 5 p. m. Tuesday. Only about 200 votes had been cast at 5 p. m. Results of the election were available shortly after the polls closed due to the short ballot.

George Davis was the presiding judge, assisted by S. H. McCannell, Mrs. R. B. Carswell, Mrs. Annie Watson and Mrs. R. L. Justice.

Hold-over members of the City Commission are Mayor Rosenthal and Commissioners Albert Hansen and Ace Lucus.

Civil Service Will Employ Architects

The 8th U. S. Civil Service Region has announced a competitive examination for the position of architect for filling vacancies in various Federal agencies in Texas, Oklahoma, Louisiana, and Arkansas. Salaries range from \$3410 to \$7040 per year.

Further information and application forms may be obtained from the Post Office or from the Director, Eighth U. S. Civil Service Region, 1114 Commerce Street, Dallas 2, Texas.

Fourth Graders Plan Plant Tour

Members of the fourth grade classes of West Ward school were to be taken on a conducted tour of two Cisco manufacturing plants Wednesday in connection with the observance of Texas Industry Week in Cisco.

The group was to go through Boss Manufacturing Company's plant and the N. D. Gallagher Clay Products Company plant. At the Boss plant, Manager Anton White planned to show them the glove manufacturing process from the cutting room to the finishing room, and at the Gallagher plant Manager C. E. Whitaker was to show the group how flower pots are made from clay found in deposits in the Cisco area.

The students were to be accompanied by their teachers, Mrs. Grady Laws and Mrs. Irene Hallmark, and by Jack Everett, director of activities for Cisco schools.

Mr. and Mrs. J. J. Holder of Stanton; Mr. and Mrs. R. S. Irving and son, Rick, of Fort Worth; Mrs. Russell Dennis of Ysleta; and Laverne Dennis and Dale Gorr of Howard Payne College in Brownwood were the weekend guests of Mr. and Mrs. Carlton Holder.

CARD OF THANKS

This is to express my sincere thanks and appreciation for the support given me in Tuesday's City Commission election. My candidacy was based on a genuine desire to be of service to my community, and I am grateful for the consideration and reception extended.

KAMON WRITES FROM AUSTRALIA

Dear Editor: Here we are in the Northern Territory of Australia with its vast landholdings and thousands of head of cattle, a land of wonder which should be of great interest to our rancher friends around Cisco.

Traveling from one cattle station to the next and living on these vast ranches where a few white men look after areas of hundreds of thousands of acres and thousands of head of cattle is a wonderful experience.

As the guest of a number of cattle companies which turn out thousands of head of cattle every year, we are immediately impressed by the terrific number of cattle raised for each white man employed and the profits that should result.

We had a group of unusual things happen such as a wild parrot bird landing on my shoulder, natives fanning the dinner tables at numerous stations with Indian type rope pulled fans, a native dance at Flora Valley given in our honor where they danced to didgeridoo and showered each other with five brands of glowing coals (Some were badly burned) in perfect stickiness in the weed firelight with gaily painted bod-

runs diagonally through the ranch. We circled over the homestead with its multitude of tin roofed buildings and headed down on the airstrip. This airline lands a plane on the ranch every two weeks to bring in passengers and supplies. The Australian government subsidizes the airline for mail and freight, and pays for free flying doctor service.

In addition to airmail service every two weeks, the ranch has its own radio transmitter and receiver to keep in daily contact with the outside world, and cablegrams can be sent anywhere in the world from the station.

A pickup truck met us at the airfield and took us over a freshly graded road to the homestead, which is in the process of being remodeled in a very modern attractive style. The water supply is pumped from a nearby spring to the homestead. There are all types of various tin roofed buildings including a dining room, living room, pantry building, a bedroom building, a kitchen building, a 220 cu. ft. cold storage room, garages, storerooms, native quarters, etc.

We have just returned from a 100 mile trip by truck and horse out to the mustering camp. I can hardly sit down after riding horse back. The trip was extremely interesting and wasn't like the modern life at the station homestead.

A half cast and three natives who had just come in with 40 head of cattle to go in the stock pond pasture ready for market, left again with 30 head of fresh horses and several pack mules. In the afternoon we drove out about 22 miles in the ranch's four wheel drive truck to catch up with them and make camp for the night.

The next day we got up before daybreak for breakfast, loaded our camping equipment and had on pack mules, and, on horseback, headed for the mustering camp across beautiful green alluvial river flats. I asked about water and was informed that they don't need to carry any drinking water and didn't have a usable container on the place for carrying any. We drank out of the numerous water holes and streams.

We bumped along over miles and miles of green grass without seeing a cow, except for about 50 which dashed across the road at one stage. At the mustering camp they had a herd of 120 in one of the 30 branding pens on the place.

Tired and sore from the ride, we ate salt beef, bread, and had cups of Australian brown sugar or tea and went to sleep on the ground under mosquito nets. The next day we rode with the mustering camp crossing river channels I feel deep at the shallowest crossing on to beautiful green pasture land that ought to make rich irrigated farms in future years.

Sincerely, ROBERT KAMON

SOCIETY AND CLUBS AND NEWS OF INTEREST TO WOMEN

JOY SS Class Holds Business Meeting

The monthly business meeting of the JOY Sunday School Class of the First Baptist Church was held Monday at the home of Mrs. Bill Bledsoe.

The meeting was called to order by the president, Mrs. Jerry Sittin, and Mrs. J. R. Burnett led in prayer. Minutes of the previous meeting were read by the secretary, Mrs. Richard Turknett and chairmen reports were given by Mrs. Bethel Gallagher, Mrs. J. T. Richardson, Mrs. C. W. Reed, and Mrs. Austin Flint. Mrs. V. C. Estes gave the devotional from the fifth chapter of Matthew. The meeting closed

with prayer.

Refreshments were served at the close of the meeting to Mesdames Austin Flint, Richard Turknett, W. B. Cates, T. E. Lisenbee, W. L. Darr, W. W. Sawyers, C. W. Reed, J. T. Richardson, V. C. Estes, J. R. Burnett, Bethel Gallagher, Jerry Sittin, and the hostess, Mrs. Bledsoe.

Lutheran Missionary League Holds Meeting

The L. W. M. L. of Christ Lutheran Church met Monday evening at the parish hall for their monthly meeting with Mrs. Herman Reich and Mrs. Park Plambeck as hostesses.

The meeting opened with scripture reading and prayer by the Rev. M. J. Scaer and Philippians 1 and 2 were read and discussed.

A short business session followed with Mrs. Herbert Wende presiding. Plans were made for the rally to be held in the near future and the meeting closed with prayer.

Refreshments were served to Mesdames Martin Wende, Herman Schaefer, Herbert Wende, Carl Wende, Paul Wende, Oscar Reich, Carl Weiser, Theodore Eifert, Ernest Stroebel, Robert Stephan, Theodore Reich, M. J. Scaer, Rudolph Reich, and the hostess, Mrs. Park Plambeck.

Junior Group Enjoys Lake Skating Party

The Junior Training Union of the First Baptist Church met Tuesday evening at Lake Cisco for a skating party. Joan Lisenbee, social chairman, was in charge of the affair.

Those attending were Joan Lisenbee, Carol Richardson, Dona Kay Bowers, Gatha Sue Thompson, Joyce Redwine, Tony Johnson, Ted Evans, John Baum, Ralph Clary, Johnny Rodden, and five visitors: Billy Kendall, Earlene Townsend, Johnny Choate, Jan Johnston, Rhonda Coulter, and the chaperon, Mrs. T. E. Lisenbee.

Mitford Johnson and son, Biff, of Pecos and Mr. and Mrs. Joe Dan Johnson and family of Abilene spent the weekend in the home of their parents, Mr. and Mrs. Edgar Johnson.

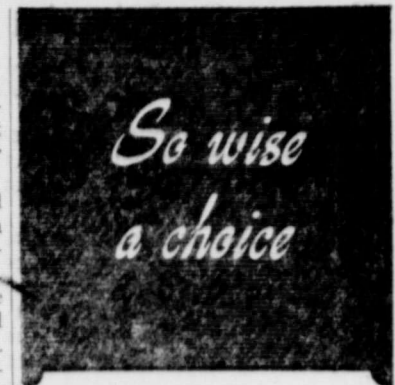

First Presbyterian Circle Has Meeting Tuesday

Circle Three of the First Presbyterian Church met Tuesday at the church for their regular meeting.

Mrs. J. A. Pressley presided and opened the meeting with prayer. Routine business matters were transacted, and Mrs. C. R. Baugh taught the Bible lesson from Acts 8 and 9 and closed the meeting with prayer.

Those attending were Mesdames J. E. Stansell, Alex Spears, F. E. Harrell, A. E. Jamison, C. R. Baugh, R. L. Ponslar, J. G. Rupe, J. A. Pressley, and Guy Brogdon.

Mozart's wife kept him awake with amusing stories, while he composed an overture to an opera to be performed the following day.

Look at it This Way —

... If the seller convinces the buyer that he has good title and no abstract is necessary then the buyer is entitled to a reduction in the sale's price for a sum equal to the abstract's cost. For the abstract is considered by property owners everywhere as being as much a part of the assets of sale as are the land and improvements. Better take the abstract. No real estate transaction is complete without it.

Eastland, (Abstracting since 1923) Texas

Report On District Meeting Is Made To Garden Club; Show Plans Studied

The monthly meeting of the Cisco Garden Club was held Monday afternoon at the Federated Club House.

During the business session, Mrs. E. G. Damron, chairman of the library committee, reported that all books pertaining to gardening were available from the National Council at a discount of 10%, which would be sent to the local club treasury.

Mrs. Ray Chapman gave a report of the district meeting held in Stamford. She said that Gardo-Therapy was emphasized at the meeting, Gardo-Therapy being muscle reeducation through garden activities for the physically handicapped. Mrs. Chapman also reported that there were 101 new garden clubs in Texas and 30,000 Texas members.

Mrs. Charles Spears, chairman of the flower show, distributed entry cards and completed plans for the show to be held April 10 at the Reynolds building.

It was announced that Mrs. R. D. Smith of Breckenridge is the nominee for district eight governor. Also, that the Cisco Garden Club has received a certificate of awards for their work in garden therapy.

It was announced that the fall district meeting would be held in San Angelo. All members voted to join the major project of Texas Garden Clubs, Incorporated, to access 10¢ per member for a permanent national home of garden clubs to be erected.

The president appointed Mrs. E. E. Addy, Mrs. Don Choate, and Mrs. Leveridge to represent the Garden Club at the City Federation meeting.

An announcement was made of the 1954 annual spring meeting of Texas Garden Clubs to be held May 3, 4, and 5 at the Adolphus Hotel in Dallas. It was also announced that the Abilene garden clubs are chartering a bus for the forty members of this area to attend. Members were asked to turn in their reservations immediately to Mrs. Chapman.

The forthcoming flower shows in the area were announced as follows: April 9, San Angelo; April 21, Sweetwater; April 21, Stamford; April 22, Abilene; April 24, Kerrville; and May 11, Sweetwater.

Mrs. Shy Osborn, program chairman, introduced Mrs. L. P. Johnson of Abilene who spoke to

the group on conservation. Mrs. Johnson said, "By conservation we hope to keep our soil as productive as it was originally or to improve that condition."

Most of our soil is greatly in need of humus, which is organic manures, tree leaves, peat moss, commercial humus and other plant debris such as grass clippings, garbage, and other refuse from the yard. Humus is life to plants. It is teeming with bacteria and fungi and makes an ideal food manufacturing plant for plants.

"A hard rain washes the major elements of plant food down in

the soil, away from the plants. Several inches of mulching helps this condition. It reduces the temperature of the sub-soil and conserves moisture. The same is true in watering plants. It is better to sprinkle early in the morning or late in the evening with a fine, soft, spray several hours than to lay a hose and allow a hard flow of water to pack the soil," she said.

"The water goes down so fast, it carries food elements with it and away from the plant," said Mrs. Johnson. She also stressed the need of having good drainage. She also stated that trenching and mulching was the best method of conserving moisture and reducing sub-soil temperatures and to promote good growth in this area.

"In trenching," said Mrs. Johnson, "remove and save the top ten inches of the soil. Take out and discard the next ten inches of soil, and replace the second ten inches of removed soil with mulch and organic fertilizers, pack down good, then replace the top ten inches of your top soil back over the bed."

"If a three or four inch layer or top mulch is added, these two layers of your top mulch and lower mulch act as an insulation in retaining the plant food and moisture of the soil. It is best to plant over your trenching material in three months. This will give the bed time to settle and weather," said Mrs. Johnson.

Mrs. Johnson also discussed the foiler method of feeding plants, which is the application of nutri-

ents to the leaves of plants by spraying of water solution. "Foliar feeding is especially good during dry periods, she said." For this feeding, use high plant foods as a spray, one tablespoon to 1 gallon of water, and spray plants lightly. Repeat every 10 days.

"When temperature is high, it is better to apply plant food on the leaves either early in the morning or late in the evening," said Mrs. Johnson. Of the high plant foods, Mrs. Johnson mentioned RX, High Grow, Grow Stuff, Rapil Grow, Instant Figero, Triple 20, and New Green.

Mrs. Johnson urged all members to analyze their own plant food such as one having 20-20-20, which would be 60% plant food per 100 pounds. The remaining

40 is filler and so in pure high plant food, one more of the nutrients.
