The Gay Philosopher

By J. W. S.

COMES A LETTER from a gent New York way who has some ideas on how to live longer and look younger. Anything with a title like that interests us, so we read his dissertation. He has a bunch of books on health and has consolidated them into a pointed thing to do if you want to live longer and, we assume, look younger, as follows:

Each day, eat some brewers yeast, powdered skim milk, yogurt, wheat germ and black strap molasses.

Get vitamin A (the glamour vitamin) from green and yellow vegetables and fruits, liver, butter and milk.

Vitamin C (which also keeps you young) comes from citrus and citrus juice, green peppers, cabbage, and so forth.

Vitamin O comes from sunshine, and we should spend at least an hour in the sun each day. If you can't do this, take fish liver oil.

Vitamin E, important in the prevention of asthma, diabetes, heart disease and, perhaps, cancer, can be had in wheat germ.

The writer cites the example of a man named Thomas Parr, an Englishman who lived to be 152 years old. This man was a regenerate whose diet was largely made up of cheese, yogurt, vegetables, whole grain wheat bread and whey as a beverage.

Before following this man's advice on living longer — and looking younger — perhaps we'd better check with our doctors.

THE MAIL ALSO brings us the latest information regarding lipsticks. Stores will soon be selling (if they're not already) a new "breathless kiss" lipstick. They demonstrate its magic with the man test. The onion is rubbed in the band; then the lipstick is drawn across, removing the odor. Must be pretty potent, huh?

MR. GEORGE DAVIS, boss man of the Cisco Lions Club, reports that the crowd for Thursday night's wrestling show was disappointingly small. Due to this fact, they've decided to cancel the show scheduled for next Thursday night and to go ahead with the program set for Friday night, May 7. Although the crowd was small, the show was a good one, our scouts report. Tickets for the May 7th show will be placed in the sale room at the Chamber of Commerce office.

MR. OMER FENLEY, who runs the street maintainer for the city of Cisco, started out to work yesterday with a coat — an army type coat. And he lost it off the maintainer, probably between the baseball field and the city barn. If you've found one, contact Mr. Fenley. Dr. E. H. Ramsey plans to attend the state dental convention in Dallas April 26-29.

THEY'RE HAVING National Gold Day on June 5th, and on that day the amateurs will take a handicap and try to beat Champion Ben Hogan. If you beat Ben, with the aid of your handicap, you get a "I Beat Ben Hogan" medal. Each golfer pays a dollar into a charity fund.

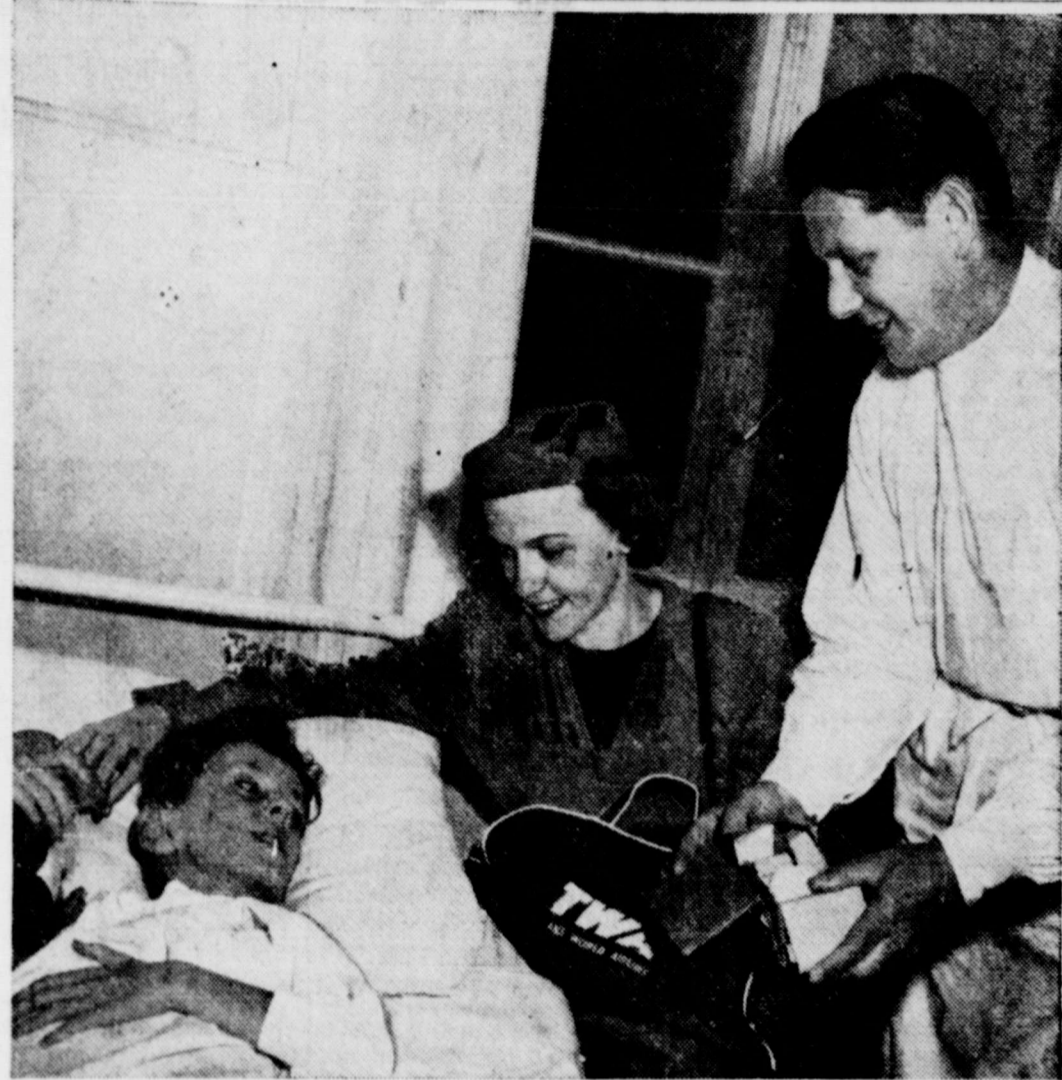

Several folks have expressed a desire to try to "Beat Ben Hogan." Maybe the Cisco Country Club will have one of the tournaments there. An "I Beat Ben Hogan" medal would be pretty valuable, huh?

MR. D. N. MORRISON, who is looking after the daily workouts for the Teenage League boys, reports that interest is growing daily. Over 50 boys are attending workouts now. They'll be divided into four teams a little later. It would be good to have about 15 boys to the team, and any other teenagers interested will be welcome at the baseball field for practice sessions.

The Little League teams are still practicing every day. Our town is going to have plenty of good baseball games this spring and summer.

ABC Field is looking better every day. President Alpha Elder and his crew are doing a splendid job of rebuilding the field. They've moved and enlarged the stands, fixed new dugouts, rearranged the lights and are doing something just about every day. A good many people have volunteered their services to help with the project.

NEW HOPE FOR WILLI—Stewardess Mildred Kneeland of Boston comforts Willi Weber, nine, who is suffering from leukemia in Heidelberg, Germany. Miss Kneeland delivered a package of Purinethol to Dr. Franz Schmit, right, in response to a plea from Willi's mother to the Frankfurt bureau of the United Press. The drug was flown from New York by a scheduled plane.

Outlook Of Game Birds Improved By Spring Rains

AUSTIN, April 23.—The Director of Wildlife Restoration for the Game and Fish Commission said field reports indicate the recent general rains spared Texas its worst spring for game bird nesting in modern times.

He added that cover, food and water, which were at a low ebb, already are rallying, presaging "fairly favorable nesting conditions."

He said reports from the major big game range in the Hill Country indicate deer are greatly benefited by recent rains. Those on over-populated ranges were facing starvation for want of green food.

The Director said some areas still are dry, but explained that most of the state "got some showers."

He said the critical period "lies just ahead" for nesting of such popular game birds as wild turkey and quail. Mourning doves have been reported nesting for some time in most state areas.

The Director said "the spring will be a crucial one for our quail, which suffered so greatly from the drought the last few years." He said the quail, also stricken

SO FAR SO GOOD

On April 1, substantial reductions took place in the retail excise taxes. An office of an association of retailers which represents some 7,500 stores, chains and independents among them, hailed this as an important forward step to "unlock the shackles that have so long fettered the sale of the affected categories of merchandise."

Dwarf Flowers are Best for Front Yard Borders

TYPES OF PLANTS USED FOR BORDERS AND EDGING AND SKETCH SHOWING EXAMPLE OF THEIR USE

"Edging" or "ribbon" plants are in great demand among home gardeners for planting along the boundary of a flower bed or border, to give it a trim look, and add color to the composition. Garden paths, can be planted attractively with dwarf plants which "stay-put" and can be relied upon not to get in the way. Sweet alyssum is deservedly popular, for its snowy carpet of fragrant blossoms. The dark purple blyssum violet queen is equally attractive, and white and violet plants can be alternated, with good effect. Dwarf ageratums and lobelias make bushy plants covered with blue-lavender flowers which combine with all other colors and enhance their beauty. The English daisies (bellis perennis) are double flowers of white, red and pink borne on bushy 8-inch plants. The dainty blue, rose and white blooms of the Swan River daisy are material for a beautiful border. The dwarf candytufts are rivals of the alyssum for snowy whiteness as well as giving beautiful shades of lilac and carmine. A tiny marigold, Tagetes signata pumila, bearing myriads of brilliant orange flowers above fernlike sweet-scented foliage, is a handsome border plant making a solid miniature flowering hedge. Other good dwarfs are: Antirrhinum (Snapdragon) "Magic Carpet"—Eight inches tall. All snapdragon colors, mixed. California Poppy (Eschscholtzia)—Dwarf erect varieties; soft apricot, double rose; deep scarlet; filled mixed. Calliopis (Tickseed) — Dwarf mixed in shades of maroon, garnet, yellow. Petunias—Martha Washington; Admiral, Cream Star. Portulaca (Moss Rose) — All warm colors. Verbena—Dwarf varieties — all verbenas colors. Viscaria — Tom Thumb or dwarf sorts—Rose; white; blue. Zinnia linearis—Golden orange.

GOING TO HER HEAD—Ballerina Alicia Markova is demonstrating her excellent control as she balances a tray on her head to show the importance of coordination in ballet dancing in London. Admiring her performance is a waiter who knows he could save himself a lot of trouble if he could do that.

Outlook Of Game —

From Page One with the periodic cycle slump, appear to exist in sufficient seed stock to begin coming back generally. "They're a durable species," he said, "and have amazing comeback qualities. If conditions continue to improve, we can count on some more quail this fall." The Director said one of the cutler handicaps of the dry spell concerned farmers and ranchers' efforts to restore quail habitat, including the multi-flora rose and bi-color impatiens.

West Texas Opera To Be Presented By Abilene School

ABILENE, April 23.—A real West Texas opera, written by two Abilenians, will be presented in two performances in Radford Memorial Auditorium, on the McMurry College campus, May 6 and 7.

The libretto is a story of wind and weather, blistering desert heat and gullywashing rain, mesquites and milkweed, rattlesnakes and scorpions, and was written by Frank Grimes, editor of the Abilene Reporter-News.

Musical score for the opera, entitled "Mesquites Under Thunder," was written by Dr. Richard C. von Ende, head of the fine arts division and music department at McMurry.

The operatic story is told in song by five singers — an Indian, an operator of a desert filling station, two tourists — a man and a girl — and a mail carrier.

Members of the cast will be Mrs. Bettye Guitler, Rev. Charles Cooke, and Jack Glover, all of Abilene, and Kenneth Rodgers, of Plainview. One other singer has not been named.

Sets are being done by George Zimmerman, acting head of the McMurry Art Department.

CIRCUS TO PLAY AT EASTLAND

Lydia, the nation's smallest elephant, is one of a herd of 18 elephants with the Al G. Kelley and Miller Bros. Circus which will appear for a matinee performance on Sunday, April 25, at the golf driving range at Eastland. Lydia is pictured above. The circus is the second largest in the nation.

And Answers Vets Questions

Q — I'm a World War II veteran who went back on active duty after Korea. When I did so, I put my National Service Life Insurance premiums under waiver. I've just been separated, and I understand that the waiver will last for 120 days after my separation. However, I plan to go back into service again before the 120 days are up. Will I have to apply for another waiver of premiums? A — No; there will be no need for you to apply for another waiver. So long as you re-enter service within the 120-day period, VA will continue to waive your premiums while you're on active duty — just as though you never had left the service.

Q — I am the widow of a World War I veteran, and I have applied for a VA pension. At the present time, I am in a nursing home. My nephew is paying the expenses. In figuring my annual income, for pension purposes, must I include the cost of keeping me at the nursing home? A — Money paid to the nursing home, to cover cost of maintaining you there, is not considered as income, for purposes of a VA pension.

Q — I want to go to school under the Korean GI Bill. Since I was discharged before August 20, 1952, I understand I'll have to begin before August 20 of this year. Would it be possible for

me to file my application now, and begin class this coming fall? A — No. Under the present law, you actually must begin your studies before the August 20 cut-off date. The filling of an application alone is not enough.

Q — I'd like to train in a foreign college under the Korean GI Bill. Will VA pay my way abroad and back? A — No. You will have to pay for your own travel. All you will receive from VA will be a single monthly allowance to cover each month of training.

Mesdames Lydia Krauskopf, Dee Clements, Ethel Moore, Leah Bates, Ruby Curtis, Meda Strawn, Effie Mayhew, Mae Kleiner, and Connie Hyatt attended the Rebekah Lodge meeting in Breckenridge Tuesday at which time Mrs. Maud Buzzard, state president of the Rebekahs made her official visit.

Mrs. Norman Bailey and children left Monday for their home in Mid-West City after spending the Easter holidays in Cisco with her parents, Mr. and Mrs. J. H. Hyatt.

Ever Think of Blue Monday --

... as a day when there's chores to be done which are not quite inspiring, but positively boreome? Some do. But in our business we never have a blue moment, altho pouring over ancient, dingy records sounds all but refreshing. To us it's all in the day's wash and we know what you mean when you say "build me a dependable abstract." Yes, it's hard work, tedious, exacting, responsible, but interesting. Try us on your next order — we never grow tired serving you.

Lutherans Make Plans To Observe 50th Anniversary

AUSTIN, April 23.—The year 1938 was designated as the golden anniversary of the Texas District of The Lutheran Church — Missouri Synod with the adoption of a resolution to gather a thankoffering of \$250,000 for the establishment of missions in Texas. The Convention gathering at Concordia Lutheran College in Austin thus climaxed a series of resolutions giving emphasis to the church's task of soul-winning.

Two men are attending the Convention who were charter members of the District in 1906. They are the Rev. W. H. Bewie, 77, of Austin, who covered the State for 32 years as District Director of Missions, and Dr. Henry H. Studtmann, 78, also of Austin who served as the first secretary of the Texas District and later served for a number of years as District President. He was pastor of Trinity Lutheran Church of Riesel, Texas for 22 years, and president of Concordia Lutheran College in Austin, for its first 23 years.

Both men are still active in District work. Each one has been on modified service in recent years, although they have "retired" from regular ministerial duties.

The Texas District now has nearly 53,000 members in its 227 congregations. The 32 Districts of The Missouri Synod comprise nearly 2,000,000 members.

The Missouri Synod congregations in Texas have been especially active in the promotion of Lutheran parochial schools, with a total of over 200 teachers in the 80 elementary schools of the District.

CHANGED HER WAYS — Curvaceous Mary McCoy was a schoolteacher in Buffalo, but she didn't stay one very long. She's showing off the attractive assets which aided her in landing the vocalist job with Sammy Kaye's orchestra. Yes, she can sing, too.

A number of the congregations in the District are considerable older than fifty years, as 23 congregations became voting members of the Texas District in the organizational year, 1906.

St. Paul Lutheran Church of Serbin (Lee County), Texas, the Rev. A. Arndt, pastor, will observe its Centennial this July.

Before organizing as a separate District, the Texas congregations were a part of the Southern District, comprising Louisiana, Alabama and Mississippi.
