Will Be In Show A one-day creep fed registered

peef calf show will be held in Cisco under the auspicies of the Cisco Livestock Show Association and the Chamber of Commerce on Friday, June 25, acording to an announcement Saturday. Howard Turner of Cisco has been named general show superinten-

The show will be open to breeders of purebred Hereford or Angus calves. County Agent J. M. Cooper believed that the event would attract considerable interest throughout this area.

The one day show will be held at the show barn of the organization on the Albany Highway, Mr. Warden, who will speak at the Turner said.

Ed Huestis, Cisco, superintendent has already begun to get the grounds in shape. No show has been held in the building for the past few years since the county show was moved to Eastland.

Calves entered in competition must be in pens of three and must be of the same sex. They must be in their places by 9 a. m. on the day of the show. They can be released and taken home by 3 p. m. as many of the animals will not be weaned. Calvee must have been dropped after Sept. 25, 1953, to be eligible. They will be off of the range and will not be halter broke nor will they know how to lead. They will be judged in the pens.

Breeders may show calves of different sex or individual animals if they wish but not in competition for the ribbons to be furnished by the Cisco Chamber of Commerce. Exhibitors are expected to furnish their own panels made out of six-inch boards rough to be eight feet by ten feet. There will be no public sale or auction of the calves it was said. Breeders may sell at any time during the day by private treaty.

\$4.600.000.000 FOR PROGRESS

During this single year, the American Petroleum Institute states, the oil industry will spend more than \$4,600,000,000 to expand and develop its resources and facilities. About \$600,000,000 will be spent abroad, and all the rest within the United States. It will constitute a new high record for spending by this vast industry.

leases, wells and equipment, for pipelines and tankers and barges, for new refining facilities, for disof marketing operations. The healthy impact of such spending on the whole economy will be very great. Enormous quantities of materials and supplies of a thousand and one descriptions will be needed - and that in turn, means employment in the many industries affected.

Oil will spend this money because it has faith in the future of this country, and is confident and institutions are willing to in- be met.

Those billions will be used for vest the money and take the risks involved because they see the chance of making a fair profit. More than half of the total sum for chemical and fertilizer plants, will go for production and de velopment. That is often a very tribution outlets and other types risky undertaking - the great majority of wildcat wells, for in stance, turn out dry and worthless. If the chance for profit didn't exist, the gamble could never be taken.

Remember that next time you hear uninformed criticism of the depletion allowance or any other egal encouragement given the oil industry. Sucl encouragement isn't based on doing oil any favors. It is based on the fact that the public demand for oil long recognized by Congress, products will continue to grow. that it is necessary if oil is to go And individuals and companies ahead and our insatiable demands

"TOO SMART FOR SUBSIDY"

The May issue of The Reader's Digest carries an article by Paul Friggens, associate editor of Farm Jorunal, which should be something of an inspiration to all of us.

This was the biggest bust of its food chains and retailers in a mulkind in history, and some esti- timillion-dollar drive to help the mate the loss as much as \$5,000,-000,000. The drought couldn't

have come at a worse time - cat- increase in per capita beef cointle on the ranges were at a record sumption marks an all-time rec peak of 94,000,000 head. But the vast majority of cattle-

men, including small operators as rugged individualists, who value well as big ones, didn't go run- freedom and independence above ning to Washington for subsides everything else. They haven't and price supports. A typical at- changed. titude was that of the Colorado Cattlemen's Association. A vote decisively demonstrated that they must be a ruler of free enterprise the same way

to help themselves, in coopera- land of tyranny. In that choice tion with other interested parties. lies the future of business man Association joined with packers, R. Richberg.

Mr. Friggen's article is entitled "Too Smart for Subsidy", and deals with the collapse in cattle prices of last year and what followed. trouble. And today things are definitely looking up. The 1953

Cattlemen are traditionally

"The future manager of busion supports was taken among the ness should be ready, willing, and membership - and was defeated able to fight for his right to the by the overwhelming majority 1 .- power which he should swear to 164 to 202. In other leading beef himself he will not abuse. He has producing states the cattlemen but one choice in the future. He What the cattlemen did do was be a slave of political rulers in a As Mr. Friggens puts it, "The agement, and within it lies the American National Cattlemen's destiny of America." - Donald

SAFE!-After a court order saved Silver Joe, a pet boxer, from death in Dayton, O., he was almost smothered by hugs from his owner, Mrs. Norvle Craycraft, and her six-year-old daughter Carolyn. The court ruled the county dog warden could not

MOST UNFRIENDLY-When some horned toads from Brazil arrived at the Steinhart Aquarium in San Francisco, they promptly bit the first hand that tried to feed them. Approached by the enemy-an aquarium attendant-the frogs puffed up to almost twice their normal size, lower photo, and made squeaking noises. Their teeth are sharp enough to break the skin. The top photo shows one of them in a more relaxed moment.

HURRIED GLIMPSE-Framed by referee Harry Kessler's wide-spread legs, Gustav (Bubi) Scholz, of Berlin, is throwing a right-cross, the breeze from which must have cooled customers in the fifth row. It missed the target, which was the head of Al Andrews, who ducked. Bubi, making his American debut in New York, won a 10-round decision at Madison Square Garden,

L. C. Cash Named **Baird Lions Prexy**

L. C. Cash was elected president of the Baird Lions Club for the coming year at elections held at the regular meeting of the

Elected to serve with him were Roy Gilbreath, 1st vice-president; Randall C. Jackson, 2nd vicepresident; W. Clyde White, 3rd vice-president; Terrell Williams, secretary-treasurer; John Towler, Lion Tamer and Bob McKennon, tail twister.

Directors elected were: J. L. Ault and J. V. Thompson for one year terms, and Russell Warren and A. N. Johnson for two year

SAFETY EQUIPMENT

The Baird Volunteer Fire Department has announced plans to purchase a resuscitator for use by the department in emergencies. Arrangements have been made to purchase the equipment which will be mounted on a special car, and funds are being collected from Baird residents who desire to have a part in the project.

SINGING PLANNED

The Callahan County Singing Convention will be held Sunday (today) at the First Baptist Church in Cross Plains. Everyone in the area was invited to attend the affair which will attract many of the leading singers of the area.

New driver com New driving ease!

New Chevrolet Trucks

do more work per day . . . more work per dollar!

You save time in traffic. New truck Hydra-Matic transmission gets you off to smooth, time-saving starts without shifting or clutching. Imagine how easy this makes driving in traffic and on delivery routes! It's optional at extra cost on 1/2-, 3/4- and 1-ton models.

You save time on the highway. New high-compression power gets you up to highway speeds from a standing start in less time, and saves you time on hills, too. You make trips faster-and the new Comfortmaster cab makes them seem shorter. It's got everything!

You save extra trips, too. That's because of the extra load space you get in the new Advance-Design bodies. New pickup bodies are deeper . . . new stake and platform bodies are wider and longer. Also, they're set lower to the ground for easier loading.

You save on operating costs. High-compression power saves you money! The "Thriftmaster 235" engine, the "Loadmaster 235," and the "Johmaster 261" (optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

You save with lower upkeep. New Chevrolet trucks are built stronger to last longer and save you money on maintenance. There are heavier axle shafts in two-ton models . . . bigger clutches in light- and heavy-duty models . . . stronger frames in all models. And your savings start the day you buy. In

fact, they start with the low price you payand they never stop. Chevrolet, you know, is America's lowest-priced line of trucks. And it's also the truck that has a traditionally high

HERE IT IS :- The Trujillo Peace Monument, tallest in Latin America, has just been completed after nine years of work. The 200-foot-high marble structure overlooks historic Santiago. Dominican Republic, and will be dedicated next year for Generalissimo Rafael Trujillos 25th year of peace.

CARNIVAL IN PARIS-A ferris wheel has put in an appearance at a festival in the French capital for the first time since the war. One Parisian has stopped his bicycle to stare at the giant wheel which is always a welcome sight. The different sections of the city join in making the annual spring festival the largest and finest ever held, and everyone knows that Paris in the spring is something to dream about

KING-SIZE SHOWER-This baby pachyderm takes advantage of a large shower bath as the weather continues balmy in London. The little fellow is lucky as he doesn't have to share it with anyone so he never has to get in line. He is a resident

Army Reservists To Train At Fort **Hood This Year**

AUSTIN, MAY 15. — Concerging on Fort Hood May 30 for two weeks of summer field training will be approximately 4,000 Army reservists from the 90th Infantry Division and attached units of the 75th and 95th Division, Colonel Karl E. Henson, Chief of the Texas Military District, announced this week.

The May encampment, first of eight scheduled this summer, is the only one at which units of three Reserve divisions will train simultaneously. This is the first year that elements of all three divisions have been assigned at one camp during the same period. The 90th and 75th Divisions trained at Fort Hood last year but at different periods while the 95th trained at Camp Chaffee, National Bank. All women of

All basic trainees - reservists vithout prior active military will be attached to the 90th for their military indoctrination. Scheduled to attend the basic training this summer are 535 basics from Texas, 33 from Arkansas, 61 from Louisiana, 28 from New Mexico and 111 from Oklahoma. They will supplement the 455 officers and 1,272 enlisted

IT'S THE LAW * in Texas *

eighbor and his property. Ad- owners. bining landowners have many Another possible problem: Let's nutual rights and obligations, mediate neighbors.

Such limitations are in addition to those imposed by muniipal zoning ordinances, building f an entire subdivision or city, r the public generally.

For example, say you have just bought the vacant lot next Main Street. Smith has a fine big tree on his property but it danger of sliding. If you change juts over onto your lot and those verhanging branches will interfere with the plans you have for gation to see that it doesn't cause

You can't go over to Smith's to you to put up the retaining ot and cut down his tree even though the branches will make your proposed living room as dark as the catacombs at midnight. On the other hand, neither does Smith have a right to le the tree on his land extend over your property, especially when i s going to interfere with your se of that property, so you do

offending branches.

However, before you start saw

Of course, a boundary tree -Texas laws and court decisions where the trunk is on both sides your of the boundary line - can be ealings with your next door cut only by consent of both the

say you want to cut down the and your rights to the use of front of your lot below the level your own property may some-times be limited by the effect of smith's yard. The soil i pretty loose and you are sure that when you lower the grade Smith's yard will slide all along the cut. However, you figure that it is up to Smith to do what odes and other restrictions deigned to protect the interests from sliding over on yours. He can put up a retaining wall o

The law says you had better slow up a bit in that instance Mr. Smith's property out on The way things stand, Smith's yard is not currently in any that condition by cutting your land down, then it is your oblidamage to his property. It is up the adjoining land from sliding Suppose you and Smith build

ing you had better consider a driveway together so you can whether the removal of the both save the biggest possible branches will damage the tree space for lawn. You get along It is still Smith's tree and you fine with Smith, but he later don't want to cause it to die. sells his house to a new owner The best thing to do is have a who wants to take up part of the talk with Smith and see if you driveway and plant petunias can arrange to have the limb cut there. He can probably do it if off by someone who knows how you did not have a definite, so without harming the written agreement with Smith by which the subsequent owner bound.

Probably the best way to han dle such a situation would be to have a written agreement with Smith and record it with the County Clerk before the driveway is built. Anyone buying the property later would thereby have notice of the agreement and

PROFIT

Two eggs laid before Christmas usually brin more money than three eggs laid afterward. The means you can make 1/4 more profit simply by getting your pullets it full production early this fall. And the best way to do that is to feed a really good growing rationlik PURINA.

Makes YOUR GRAIN do its best work Puring Growing Chow

helps you grow fine, big pullets with your own grain. (It also helps you turn the little roosten into big springers ready to eat when just 9 or 10 weeks old.) When your growing birds run on range, they need only to 7 pounds of Purini apiece, plus your grain to be ready for the nest

for less than 40¢ cash outlay That's right, it will take

less than 40¢ worth of Purina Growing Chow, with grain, to help you grow a fine, big pullet ready to lay. She'll quick ly pay you back in heary

Feed Purina Growing Chow as soon as chicks are 5 weeks old SEE US SOON!
