

The Gay Philosopher

By J. W. S.

SEE BY THE papers that Mr. B. A. Butler has submitted his resignation as manager of the Chamber of Commerce here after holding down the job for the past 10 years. The resignation will take effect July 1 — the same date that Mr. Butler takes over as editor and publisher and owner of the weekly Rising Star Record.

IN MORE THAN two decades as a resident of Cisco, Mr. Butler's contributions have been substantial. As a newspaper editor and publisher and as a Chamber of Commerce executive, he has been identified with virtually every civic project the community has undertaken. Benny Butler has been in the harness for Red Cross, Boy Scouts, and Community Chest fund drives. He has helped the school system build two gymnasiums by taking a leading role in raising money.

Mr. Butler's work has been tireless over the years, and he is due a pat on the back and a word of "well done" as we all wish him well in his new connection. He will make Rising Star a good newspaperman and a good community leader.

WHEN MR. BUTLER turned in his resignation the other day, CoFC President Anton White told the directorate that "Benny has made us a good manager." And he went on to explain that Mr. Butler had worked closely with the Boss company since it came to Cisco.

Mr. E. L. Jackson, district manager for West Texas Utilities Company, is immediate past president of the CoFC. And he added words of appreciation and praise for Mr. Butler's work.

Mr. W. P. Guinn, division superintendent for Humble Pipe Line Company here, was president of the CoFC for three terms before Mr. Jackson took over for three years. And Mr. Guinn told the board that "we are losing a good manager, a good leader and a good citizen."

THINGS SOUNDED pretty quiet over at the Cisco Peanut Company yesterday and we asked Mr. Zan Burroughs what was the matter. He reports that they pulled the switches last Saturday night after a long run of shelling peanuts. To be exact, the mill shelled 1,279 tons (finished products) of peanuts. Mostly, the shelled nuts went to a peanut butter manufacturer at Fort Worth.

The peanut mill will stay open during the summer as they sell feeds and the like, and they'll be getting ready for another big crop. It looks, so far, like a good crop year. And the county has a quota of something like 35,000 acres.

ANYTIME SHE is ready, Alma Shelton can take off for the Girl Scout camp for colored girls down San Antonio way. Twenty-five Ciscoans have put dollar bills into a fund to pay for Alma's trip. And all 25 of them were happy to add their contributions because they think Cisco should be represented at the camp.

Those who contributed dollar bills are: Shy Osborn, W. H. McAnally, E. L. Jackson, A. G. Sander, James F. McCracken, J. W. Sitton, Dr. E. E. Addy, Jr., Jack Anderson, B. A. Butler, Haywood Cabaness, W. B. Wright, George Boyd, Pete Nance, Gene Abbott, Austin Flint, John Penn, Ellsworth Mayer, J. J. Porter, Ben Smith, Jim Flournoy, Mrs. W. T. Chance, J. L. Thornton, Nick Miller, Tom Stark and Ralph Glenn.

We think it would be nice if Alma kept some notes at the camp to write us a little article about it when she returns.

THE FHA GIRLS of Cisco High School went out to Lake Cisco the other night for an outing. It was one of those nights where everybody had such a good time that none of the girls got any sleep. When they went home early next morning, they were sleepy.

So Miss Kay Hailey, who lives up on West 9th Street, went through the house and on to a small house out back where they have a bed. She went to sleep.

NEW BLOOD FOR OLD GUARD—New members of the famed Swiss Guard at Vatican City are marching into the courtyard to take the oath of allegiance. This year 17 new men were added, bringing the full strength to 95. The picturesque Papal guard was founded in 1505 by Pope Julius II, who chose the Swiss as the best soldiers of that time.

House Beautiful To Be Feature Of Texas State Fair

DALLAS, June 10. — The "House Beautiful Pacesetter House for 1955" — an all-electric model home — will be built for exhibition at the 1954 State Fair of Texas, Oct. 9 through 24.

The house is being designed for "a typical Texas family," with air conditioning, two kids, two cars and activities ranging from serious correspondence to sunbathing.

The three-bedroom house is a joint project of the General Electric Company, the University of Texas, House Beautiful Magazine and the State Fair. The house is being designed by five students of the University under direction of Harwell Harris, dean of architecture.

Swimming Pool Open After Being Cleaned

Lake Cisco swimming pool had been refilled with new water today after being closed Tuesday and Wednesday for cleaning, Manager W. P. Knight reported.

While the pool was empty, workmen installed supports for a stage to be used during the July 4th weekend program.

Swimming Pool Notes . . .

The girls, they and the adult members of the Moran aggregation enjoyed a picnic supper in the park, followed by more skating and some miniature golf.

Just before noon Wednesday came a big school bus from Hamlin with 28 FHA girls and sponsors directed by FHA supervisor Mrs. James Simmons. Sponsors included Mrs. J. W. Carter, and Coach and Mrs. Elvin Hill. Mr. Hill drove the school bus.

The Hamlin group occupies several City of Cisco cottages just south of the swimming pool and skating rink building. Since the pool was not filled until early Thursday morning, the girls spent Wednesday roller-skating and golfing.

Coach Hill asked about getting in a little fishing, so we referred him to Ray Judia. We are sure the coach enjoyed some real Lake Cisco fishing.

Presbyterian Camp Program Off To Good Start This Week

By W. P. KNIGHT
Headed by Camp Director Rev. Buey of Mineral Wells, the 1954 Mid-Texas Presbyterian camp season got off to a good start Monday when 39 swimmers enjoyed the big Lake Cisco pool.

Assisting Rev. Buey with these eighth-graders were Rev. Al Severin of Roscoe and Rev. Leland Murphy of Abilene. Other camp leaders were: Margaret Flemister of Grapevine, Linda Norwood of Mineral Wells, Mrs. Wm. Dixon of San Angelo, Jane Rochester of Mineral Wells, Jack McMillan of Fort Worth and John Rutherford of San Angelo.

This week's Presbyterian group will leave Friday and another will replace it.

Monday evening 25 Moran Girl Scouts spent the early evening in Lake Cisco Park, under the leadership of Mrs. Myrtle Wooley. Also sponsoring the girls were Mr. and Mrs. O. Z. Smith, Alton Burton and Paul Harper.

State's Farmers Have Busy Week In Good Weather

Tractors were kept moving from early to late as farmers rushed planting, replanting, cultivating, hay baling and combining in the full week of hot, open, windy weather. Growing crops and pastures continued to make fast development over much of the state where moisture was ample. Moisture was again short, however, in a large area of central and southern counties as well as the extreme northern and western counties of the Panhandle.

Very strong south winds at the end of the week depleted surface moisture in all areas and speeded ripening of small grains. Wheat harvest moved along slowly as ample moisture combined with cooler temperatures the previous week delayed ripening. Active combining is expected to get under way by June 10. In the Low Rolling Plains, wheat was ripening very irregularly with early plants ripe or ripening and later spots and sucker heads still green.

Sorghum planting and replanting was active in the northwest areas. Condition of growing crops there was generally good. Combining of the Coastal Bend commercial crop was becoming active. The crop was making satisfactory growth in remaining areas except for a few dry counties in southern and western Texas. Condition of corn continued good except in some south-central and Coastal Bend counties where late plantings needed rain.

Baling of alfalfa hay was widespread. Rice continued to make good growth. Planting of peanuts was under way, to a limited extent in north Texas, with the bulk of the crop to be planted in the next few weeks. South Texas peanuts and broomcorn needed rain.

Planting and much replanting of cotton was active over the Plains country with first plantings since recent rains coming up. Many growers finished the job by Saturday night and most others will complete planting this week. In the northwest and northern Blackland counties, cool nights slowed germination and early growth.

Cultivation and early-season insect control measures moved northward with these operations becoming active in early planted north and east Texas fields. Throughout central, southeast and south Texas, prospects improved with warmer open weather which permitted much needed cultivation. Some of these areas, especially non-irrigated acreage in the Lower Valley, needed additional moisture.

Livestock were making satisfactory progress as the supply of green feed increased over a large part of the State. Development of summer grass was being checked, however, in central and southern counties where May rains were light. In the north-west, where drought and heavy grazing has thinned the turf, pastures were weedy. Marketing of cattle and sheep continued heavy.

City Workers Begin Removing Part Avenue D Parking Meters

Pictured above are the Starlight Sisters, who will be special guest stars on the Cisco Jamboree at the city hall auditorium Friday night. The popular Abilene radio, television and recording artists have appeared here on jamboree programs before and have been very popular with fans. They are Miss Ann Harper and her sister, Mrs. James Wood. Accompanying them will be James Wood on the steel guitar. He appeared on the show here last week with Slim Willet and the Hired Hands. One of the Starlight Sisters' most recent recordings is "The Moon Is So High." In addition to the Abilene entertainers, many local entertainers will be on the Friday night program.

The Cisco Jamboree band, composed of Sid Foster, Lyle Mace, Betty Bishop, Adrian Wesley, Al Anderson and Paul Huffman, will play. Other stars include Smiley Ricker, Kelley Coats, the Alexander sisters, Cisco's own Minnie Pearl and many others. The program is sponsored weekly by the Cisco Volunteer Fire Department with Al Anderson as the program manager.

TWINBILL BASEBALL PROGRAM PLANNED AT ABC PARK TONIGHT

The Little League Braves and Cardinals and the Teenage League Cats and Panthers will meet in a doubleheader at ABC Field tonight with the Little League game scheduled to begin at 6:15 p. m. The farm teams will meet at 5 p. m. Monday night the Athletics and the Cardinals began the second half of Little League play in a game that saw the improving Athletics trounce the Cards 8-5.

Gene Thetford went the distance on the mound for the Athletics and was the winning pitcher. He limited the Cards to five hits. Delbert Schaefer was the losing pitcher. He was relieved in the fourth inning with the winning runs on base. Rex Miller finished out the contest. Elmer Escobedo got three hits in three trips to the plate.

Parrell Parking To Follow Action

The city street department today began taking out part of the parking meters on Avenue D as arrangements were being made to inaugurate parallel parking on that thoroughfare. Plans call for half of the meters to be removed.

Parallel parking will begin as the meters are re-arranged and lines painted on the pavement. The new parking system was ordered by the city commission to cooperate with the State Highway Department in its highway improvement program here.

Roy Horn and Lefty Sublett of the city street department were in charge of taking the meters out. The meters that will be taken out will be put in storage for possible use elsewhere at a later date, city officials said.

Mayor G. C. Rosenthal reported that the meters have been bringing in about \$105 per week to the city treasury. He expected the revenue to drop. The city will complete paying for the meters in about a year, he said. Half of the proceeds from the meters go to pay for them.

The State Highway Department informed the city that parallel parking on Avenue D would be required if the state used its funds for improving the thoroughfare. Recently, the state re-topped the south end of Avenue D — from 8th Street south. Plans call for similar work on the street from 8th Street north to the railroad in the future.

Mr. Rosenthal expected that parallel parking would also help relieve the traffic congestion on Avenue D from 8th Street to 9th Street during the noon hour and around 5 p. m. The city commission has been studying the traffic problem and has considered installing a traffic light at 6th Street and Avenue D to operate only at busy periods.

Parallel parking on 8th Street has been discussed and this likely will be ordered in the near future to cooperate further with the highway department as it makes improvements in the roads and streets here.

Worthy said. The council will look at the records of these companies to see why they went bankrupt. Another aspect of the council's work will be to examine Texas' insurance laws and recommend changes "to assure a sound and stable insurance industry."

Yarborough's Charges Ralph W. Yarborough, candidate for governor, charged that there had been "influence peddling" in connection with the insurance situation. Yarborough recommended: "A complete investigation looking into refiners, bank accounts, expense accounts, income tax returns, and excessive personal expenditures of state government officials connected with insurance law administration in Texas."

Insurance News Nearly everybody got into the insurance show. These included: Attorney General John Ben Shepperd, who recommended 29 changes in the state insurance laws, including state control over insurance company stock sales.

Good Business Dr. John R. Stockton of the University of Texas Bureau of Business Research says that a trade decline is over and recovery has started. Business activity rose two per cent from March to April in Texas, Dr. Stockton found, representing "a recovery of approximately half of the decline from January, 1953, and January, 1954."

GOOD IDEA - Leila Holiday suggests a hot-weather idea for offices without air-conditioning. Garbed to represent the ideal white collar girl for National Secretaries Week, Leila could be starting a summer fashion trend in New York. A find of Edgar Bergen, she's been signed as a featured vocalist for a radio series.

This finding indicates, Dr. Stockton said, "that the decline in business, which has been under way since the spring of 1953, is approaching an end."

Lots of Roads A construction program for 1953-1956, costing about \$211 million, was announced by the state highway commission. It was the largest program ever approved in Texas.

Political Scene State political campaigns opened up, with principal interest in the governor's race. There, the contenders are incumbent Allan Shivers; Ralph Yarborough, Austin attorney; and J. J. Holmes, Austin contractor.

Shivers' Race Shivers, returning from Korea, said that the thing for Texans to do is to keep our government at home, and not turn it over to outsiders. At a press conference, the governor said he expected some opposition from Democrats who supported Adlai Stevenson last time.

IT'S THE LAW in Texas A public service feature of the State Bar of Texas.

Use of Preventive Law Helpful Most people seem to be in agreement regarding the value of preventive medicine - the taking of precautions to insure against bad health. However, very few stop to think that preventive law fulfills the same function with regard to the legal difficulties arising as we go through life.

Here is an example: Mr. N. was transferred by his company and needed a house. He finally found one, an old one in poor repair. The owner told him he could have the house on a 2 year lease if he would "fix it up."

Another example: Miss H., a business woman, lived happily in her own home. She wanted a friend to have her property upon her death. Miss H., believing she knew how to accomplish her wishes, prepared a deed to the friend, signed it and placed it in her safety deposit box.

A will would have achieved the desired end. Legal advice in time would have insured the carrying out of Miss H's wishes. These cases illustrate clearly the importance of consulting a lawyer in advance on matters involving a question of law.

Miss Elaine Ziehr Becomes Bride of Mr. Alvin Krause Last Sunday

In a double ring ceremony performed Sunday evening, June 6, 7:30 o'clock at Grace Lutheran church by the Rev. Floyd Groam of Copperas Cove, Miss Elaine Ziehr of Cisco became the bride of Alvin Krause of Copperas Cove.

The bride is the daughter of Mr. and Mrs. Frank Ziehr of Cisco, and Mr. and Mrs. Albert Krause are the parents of the groom.

The altar was decorated with tall baskets of white gladiolus and greenery and the wedding candelabra.

Les Bayer of Temple played the traditional wedding music and accompanied Norman Winkler of Temple who sang, "O Blessed Home Where Man and Wife," and "The Lord's Prayer."

The bride, given in marriage by her father, wore a floor length dress of white nylon tulle over white satin fashioned with a scalloped neckline outlined with seed pearls. The tight fitting bodice had covered buttons to the waist line and her long sleeves came to points over her hands. Her waist length veil was attached to a head piece of satin and seed pearls. She carried a white orchid atop a white Bible.

Miss Kathleen Ziehr, sister of the bride, was maid of honor. She wore a ballerina length dress of blue taffeta with a nylon net overskirt and fashioned with a sweetheart neckline. She carried a nose gay of white asters.

Mrs. Ann Brauer of Houston was matron of honor and Mrs. Myrtle Hempel of Copperas Cove, Miss Joyce Schnieder of Copperas

Nancy Folks of Temple, cousin of the groom, was flower girl. She was dressed identical to the maid of honor and carried a white basket of rose petals. Tim Bayer of Temple was ring bearer.

Arnold Krause, brother of the groom, of Copperas Cove, was best man and Irvin Deorssem, Melvin Hempel, Jimmy Wiley, and Harold Krause, cousins of the groom, all of Copperas Cove, and Joe Ziehr, brother of the bride, and Harold Krause, cousin of the bride, both of Cisco, served as ushers.

Roland Ziehr of Cisco, brother of the bride, and Robert O'Hair of Lampasas, lighted the candles.

A reception was held following the ceremony at the home of the bride's parents. The house was decorated with white gladiolus. The couple were assisted in receiving by their parents and their attendants.

The refreshment table was laid with a lace cloth and held the

bouquets of the bride and her attendants. The wedding cake was cut and served by Mrs. Charley Parks of Roscoe, aunt of the bride, and Mildred Winkler of Temple. Ruth Lanham and Shirley Miller, both of Cisco, poured the punch. Miss Verba Schnieder of Copperas Cove, registered the guests.

Other members of the house party were Edna Ziehr, Cisco; Maxine Parks, Roscoe; Louise Lueke, Temple; Dorothy Williams, Temple; Anita Stroebel, Cisco; and Betty Winkler, Temple.

Guests attended from Temple, Lockney, Oklahoma, Copperas Cove, Houston, Albany, Rising Star, Roscoe, and other points in Texas.

FERGUSON'S

What Was This Call Worth?

"Mommy, can I stay at grandmother's tonight?" That was little Carol's very first telephone call—a real thrill that can hardly be measured in dollars and cents. Yet, Mrs. Caroline Niemeyer, Carol's grandmother, can tell you what that call cost. She is one of a group of customers who kept day-by-day records of calls made for a week—a total of 30 calls covering 133 miles. Then she broke her telephone bill down into the actual cost per call. "I was amazed," she reported, "at how little my telephone service cost for all the convenience and happiness it delivers." SOUTHWESTERN BELL TELEPHONE COMPANY... Swimming Pool News . . . From Page One

that they met here where there were plenty of interesting things to do all day for visitors of all ages. And "everything's so handy — why you're just around the corner from so many interesting things to do," was the way one lady expressed her delight in coming to Cisco.

In addition to the above cities, visitors came from Houston, El Paso, Austin, McCombs and many other places.

George Irvine's grandson from San Angelo is getting in his share of swimming at our big pool, much to the satisfaction of both the grandfather and the grandson. San Angelo's pools are easily out-classed by our big pool, says the Humble Pipe Line assistant division manager.

In our brief report of activities at the annual school-bus-passengers' picnic at Lake Cisco, we failed to report a "missing" dog. We first learned of it after watching Mr. and Mrs. W. D. McCormick carefully scouring the hills and parking areas around the swimming pool and adjacent areas in vain.

Later, they asked us to help find their lost dog, which we remembered seeing with them as they watched their daughter, Peggy, enjoy her daily swim. Just after we agreed to keep our eyes open for their fine dog, the telephone rang. It brought a message from a Junior High School teacher that the dog had returned to school on the bus with Peggy and that said dog was safe and sound. The McCormicks were greatly relieved to hear this welcome news.

Leon Boykin, back from Korea last year, and ex-U. S. Navy Frogman and underwater demolition expert, informed us that one of the requirements for this dangerous work was to swim under water 50 meters. As a Red Cross lifeguard with his card still active, Leon swims free at our pool. His intensive training in water safety helps keep our swimming pool a safer place.

After Nancy and Scrippy Cluck each received both a 25 and a 10-swim season pass, we figured that these graduation presents were quite a big order for one family. However, the girls decided that all the swimmers in the family ought to have passes and one was purchased for Bobby. While this is supposed to be a secret, we feel sure that he has received the pass by now.

Commissioner Bob Cluck thoroughly inspected the lower swimming pool area shortly after his appointment last week. He sees great possibilities in opening both pools and agreed with us that the west end of the lower pool could stand some cleaning out, which was done late last week. We still have a lot more cleaning ahead, but already the deep end looks lots better.

West Point was formally opened on July 4, 1802.

Gay Philosopher . . . From Page One

Mrs. C. E. Hailey, her mother, didn't see Kay come in and about 10 a. m. she called some of Kay's friends. There was excitement for a time when Mrs. Hailey learned that all the girls had come home a couple of hours before.

It turned out alright, however, when they thought to look in the bed in the little house out back of the big house . . . Mr. Hailey tells us that he hasn't been able to catch any fish lately.
