

The Gay Philosopher

By J. W. S.

COMES A NOTE from Southern Methodist University saying that Cisco's own Scrippy Cluck had accepted a graduate assistantship at the Dallas university next year. Plans call for her to be an assistant in the teaching of music theory as she begins work in her masters degree. Scrippy just completed four years at S.M.U. and graduated with her honors on June 1. She had an average of A for her four years in college.

SCRIPPY WAS Valedictorian of her class at Cisco High School when she graduated with the honors in 1950, and she continued her good work in college. As she graduated from S.M.U. she was named one of the two most outstanding seniors. She was the top graduate in the music department, judged on the basis of grades, attitude and participation in school activities. She was one of two members of her junior class who were made life members in Pi Kappa Lambda. Only junior and seniors are eligible for the honor.

WHILE AT S.M.U. she was awarded four \$500 scholarships. The awards were based on grades for the past year. The assistantship she was given at the end of her year means some \$700 or \$800 in scholarships. Her grades during her four years in the music department of the school were the highest of all the students in that department. Her outstanding record in college speaks well for our Cisco schools, and all of us should join her parents, Mr. and Mrs. Bob Cluck, in throwing out our chests.

INCIDENTALLY Scrippy isn't the only member of the Cluck family to receive recognition recently. Her sister, Nancy, was valedictorian of this year's graduating class at Cisco High School, and her brother, Bobby, is coming along with straight "A" cards.

OUR SCOUTS report that Mr. Bob Cluck, father of Scrippy, Nancy and Bobby, came in for his share of glory Thursday. The Rotary Club paid tribute to Bob at their meeting Thursday in recognition of his being appointed police commissioner recently. Rotarian B. A. Butler made a short talk and presented the new commissioner a gift on behalf of the club. In the package were the following items, all tools of his new trade: a water pistol and scabbard, a police badge and a police whistle.

THE C. E. HAILEYS, the Owen Kings and the R. L. Tatons are enjoying a week's vacation in Corpus Christi, a card we received this week reported. The report was that the weather was fine — fishing not so good. A card from Mrs. Minnie Hill, professor at Cisco Junior College, reports that she stopped to view the Indian dwelling places at Mesa Verde National Park, Colorado, en route to San Francisco for a vacation.

TWO VERY pretty Persian kittens are looking for a new home. They can be seen at the B. A. Butler home at 610 West 5th. The Butlers are leaving soon for their new home in Rising Star, but the kittens want to stay in Cisco.

THE LITTLE League Mothers Club is sponsoring two bake sales Saturday to help pay for improvements at ABC Field. The Giants will have their cakes at Norvell and Miller Grocery, and the Athletics will have their cakes at Richardson Food Store. Mothers of the players were asked to bring their cakes to the proper store by 9 a. m. tomorrow morning. There's your opportunity to buy a good cake and help the baseball program at the same time.

CARD OF THANKS
We want to thank everyone for every thing done to comfort us at the home going of our beloved Mrs. Mary Newman. We especially thank Bro. J. C. Pelfrey who comforted her as she went while she was so lonely. Also the members of Calvary Baptist Church who lovingly meal they served and to Millie Lassiter for her wonderfulness. May God bless each of you is our prayer.

New Courses To Be Added To Cisco Schools For Next Year

Plans were working out satisfactorily for the addition of new courses and services at Cisco schools for the 1954-55 school year, Superintendent Arlin Birt reported Friday. Planned is the addition of classes in civics and driver education and the employing of a school nurse.

The adding of the new courses was in line with the Cisco school's long range plan for the widening of its scope through the addition of new courses and instructors.

Civics was dropped several years ago when the demand of industry absorbed all competent instructors, Mr. Birt said.

Driver education will be taught for the first time in Cisco schools next year. Al Langford, assistant football coach, will be the instructor. He recently completed a course in the program in Austin, and was given a certificate as an instructor. The course was planned to give students a knowledge of proper driving methods and stresses driver civility.

The school nurse has long been sought for Cisco, Mr. Birt said, but the system had not the required number of teachers for the state department to approve the

program here until this year. The nurse will serve all the Cisco schools.

Mr. Birt said that the athletic program for the Cisco schools was being enlarged this year, and plans call for the development of a well rounded sports program in all schools. Cisco High School will have three coaches, and for the first time will have a coach to devote full time to "B" team players. The staff will consist of Jay Williams, head coach; Al Langford, assistant football coach and head basketball coach, and Carroll Tatum, "B" team coach in football and basketball. Plans call for football, basketball, baseball and track in the high school, and a similar program in the grade schools. All the coaches are also full time class room teachers.

Mr. Birt said that plans called for the widening of both the band and choir programs for the schools. He pointed out that Cisco bands and choirs had always

been outstanding, and that the groups were always welcome in any competition or program because of the ability and behavior of the members. Some \$4,500 in new band instruments have been added during the past three years. The band program is available to both grade and high school students, as is the choir program.

Mr. Birt was high in his praise for adult groups who work closely with teachers and administrators in all programs for the betterment of the school program. He named several organizations that had been formed that were working directly with the schools and the students in making the schools better. They are the West Ward Parent-Teacher Association, the East Ward Mothers Club, the Junior High School Mothers Club, the Band Parents Club, the ABC Club and the Cisco Boosters Club. In addition, he said, all civic groups cooperated at all times in bettering the school program.

He said that the evaluation program planned for next year would reveal the results of close cooperation between the teachers, the students and parents.

Will Rogers Once Visited Stamford Cowboy Reunion

STAMFORD, June 18—Many traditions enrich the 24-year history of the Texas Cowboy Reunion but none is more deeply cherished than the memory of the visit of the beloved Will Rogers to the rodeo in 1935.

Their son, Bill (now a movie star himself and a former Congressman) had the measles and Mrs. Rogers was afraid that Will would catch the ailment too so she suggested he leave. Rogers had heard of the Texas Cowboy Reunion — in fact, he knew it was then in progress and so he decided to attend.

From his Beverly Hills home, he phoned the Los Angeles airport and found there was a plane leaving for Texas in an hour and a half. It was an hour's drive to the field but Will packed in a matter of minutes and he climbed aboard at 7 p. m. With him was his portable typewriter and he wrote the long syndicated article that many newspapers published on Sunday.

It was 6:40 a. m. on July 3 that he landed in Abilene, went into town and ate a hearty breakfast at the Wooten Hotel, then hired a taxicab for Stamford, 38 miles away. The driver was Johnnie Schug and the car was brand-new. As they passed through Anson, Rogers remarked, "This is the place Larry Chittenden wrote the ballad about." He was referring, of course, to "The Cowboys' Christmas Ball."

Nobody in Stamford knew he was coming as he hadn't known it himself till the night before. So, unannounced, he went to the box office, bought a bleachers ticket, seated himself and watched the activities in the rodeo arena.

Pretty soon, a spectator's eye alighted on the visitor and said "There's a double take," then whispered to his neighbor, "There's Will Rogers" and the word spread through the crowd. This was at the morning performance. At the afternoon show, W. G. Swenson, president of the Texas Cowboy Reunion, provided Will with "Tommy," a famed roping horse, and he acted as a pickup man.

"His roping was wonderful," Swenson declares. Rogers himself grinningly described his activities differently, "I was just messin' around, getting in everybody's way."

He greeted old-time cowboys, some of whom he had known in the days when he himself was a range rider. One friend on hand was the noted Texas Ranger captain, Tom Hickman. They had competed in the same rodeos before Will had become a star of stage, screen and radio.

The visitors shook lots of hands and signed many autographs for girls and boys, then said he had to leave and was driven to the Stamford airport where he boarded a plane for Fort Worth. Next day, the millions who read Will's daily syndicated newspaper feature were told of the visit.

Scranton And Cisco Voters To Decide Consolidation Issue

IT'S THE END!—Snuffing out the last flickering holdover of the gaslight era in Chicago, city workmen are watched by gas officials as they remove one of the last 18 gas street lights in the Windy City. Installed in the "nineties," the lights gave off only one-twentieth of the glow of their new electric replacements. Residents nearby will have to learn to live with all the unfamiliar night-time light they'll be getting.

Medical Films Shown Thursday At Local Rotary Club Meeting

Two films, "Act Your Age" and "The Traitor Within," were shown at the weekly meeting of the Rotary Club at the Hotel Victor Thursday. The program was in charge of Dr. Jim Lawrence.

The first film, "Act Your Age," was based on heart disease and pointed out that the heart grew old as the body grew old. It stressed the importance of moderation in exercise and work as the person grows older.

The second film, "The Traitor Within," told the story of cancer, and how to combat it. It pointed out symptoms of the disease and told of how to combat it. It stressed immediate treatment as the means of controlling the growth.

David Ward was at the projector for the showing of the films. Rotarian Bill Wright announced the program.

Visitors at the meeting were Rotarians Roy Chappel, Jr., of Waco; Major Fred Cherb, W. C. Rhoden, William Powell and Bob

Gilchrist of Abilene and Luther Wilson and Jack Frost of Eastland.

Other visitors were Ivy Boggs of Dallas, Dr. H. M. Ward and Mrs. W. W. Fowell of Cisco.

Elections To Be Held Saturday In Both Communities

Everything was in readiness Friday for the holding of an election in Cisco on the proposition of accepting the Scranton School District into the Cisco Independent School District. The election will be held at the city hall Saturday from 8 a. m. to 7 p. m.

At the same time elections will be held in the Scranton district on the question of consolidation with the Cisco district.

The law requires that a majority of the patrons of the district seeking consolidation vote for the issue before consolidation can be made, and that the district with which they seek to join vote to accept the new students.

Interest in the election is running high in the Scranton area and a large percentage of the eligible voters were expected to go to the polls there. A light vote was expected in Cisco.

Arlin Birt, superintendent of the Cisco schools, said that the action in the Scranton district was originated there, and that the Cisco schools had acted only when called upon to answer questions or to help with plans. He said that Cisco would be glad to accept the Scranton students if the patrons decided upon consolidation, or to work with them in any way if they decided against it. He said that the present facilities were adequate to care for the some 125 additional students if they decide on consolidation.

In the Cisco election G. E. Langston was named election judge, and Oscar Cliett and Mrs. W. F. Watson were named his assistants.

DRIVERS AT FAULT IN MOST WRECKS

One or both of the drivers are at fault in about 75 per cent of all fatal traffic accidents. So the best advice for avoiding a traffic accident during the Fourth of July holiday, the National Safety Council says, is to think twice — once for yourself and once for the other guy.

With 40 million vehicles — and drivers — jamming the nation's highways during the three-day weekend, the chance for driver mistakes will be multiplied many times over the normal accident risk, warned Ned H. Dearborn, Council president.

"Traffic accidents don't just happen — they are caused," he said. "They are caused by human indifference, ignorance, recklessness, or lack of plain courteous and decent behavior."

"A car does not go out of control until the driver loses his control over it."

In an effort to reduce the holiday toll, the Council is coordinating a nationwide campaign in which 160 national organizations are participating. The campaign is designed to increase public awareness of the extra holiday hazards on the highways and the extra caution needed to overcome them.

The Council suggests five points for the Fourth to help balance the extra highway hazards:

- 1. Don't drive after drinking — even a little. 2. Cut your usual cruising speed 10 miles an hour. 3. Double check before passing or changing lanes. 4. Don't follow the car ahead too closely. 5. Don't compete in traffic — let the other guy go first.

FULL SPEED AHEAD!—Speed and balance kept this Frenchman on his toes during the annual bartenders' race in Paris. The men had to race across streets with bottle and glasses on a tray and not spill or break anything. The gendarme seems as concerned as the contestant as he goes about his business.

HIS NOSE KNOWS—With his educated nose working full blast, cheese-checker Alois Kersten is judging the quality of cheese products exhibited at a German fair in Munich. To keep the judges' noses operating efficiently, each judge is required to check only 40 cheeses. And they must frequently go outdoors into fresh air to preserve the accuracy of their sense of smell.

ART CAN WAIT—Some "sidewalk superintendents" are letting art take a back seat in New York. They're concentrating on the activity of a huge pile driver at work on the site of the old Brevoort Hotel, a Greenwich Village landmark demolished to make way for an apartment house. An outdoor art show was going on as these gentlemen seized their chance to peek.

Vets Questions And Answers

Q — I have a Korean GI term insurance policy — the kind that doesn't pay dividends. Would it be possible for me to convert it to a permanent form of insurance?
 A — No. Under the law, non-participating term insurance policies issued to Korean veterans may not be converted to permanent plans.

Q — I am a disabled World War II veteran, and I'd like to take vocational rehabilitation training under Public Law 16. If I'm eligible to train, would I be allowed to take a four-year law course?
 A — No. The law would allow you to take only a course that you could complete by July 25, 1956, the date the Public Law 16 training program comes to an end. You would have to enroll for a course that you could finish in two years or less.

Q — I am a World War II veteran taking GI Bill training at night. I have a job that normally doesn't require me to travel, but I found out that I'm going to have to take a three-week business trip, and therefore interrupt

my training. Will I be permitted to resume my GI Bill training when I get back? Or is this the kind of interruption that's not allowable?
 A — You will be permitted to resume your GI Bill training when you return from your trip. VA considers such a temporary interruption as one caused by a "valid reason," so long as it doesn't last for more than four months. If it did last longer, you would be required to show VA that you couldn't possibly have resumed your training earlier.

Q — Does the August 20, 1954 deadline for starting Korean GI Bill training apply to all Korean veterans?
 A — No. The August 20 cut-off date applies only to veterans separated from service before August 20, 1952. Veterans separated after that date have two years from separation to begin Korean GI Bill training.

 . . . when grandfather boasted that he bought bananas at a dime a dozen and his farm from the State with only one deed in the chain of title. Today the chain may contain hundreds of transactions and as it lengthens defects multiply and enlarge. The abstract is the only means yet devised which may reveal these defects and place them in position for correction. That's why more and more people are demanding an abstract when they buy real estate.
