The Gay Philosopher

By J. W. S.

THE NEWSPAPER over at Eastland reminded us yesterday that August 2 was the 79th anniversary of that city being designated as the county seat. That was before Cisco was born so this city didn't get a voice in where the county seat would be located. It was on August 2, 1875, that the election was held.

In December, 1873, the county was organized and a community named Merriman was designated as the county seat. Since it was a good ways from the center of the county, some Eastland business men asked for an election. They gave a bond in the sum of \$5,000 and agreed that if the county seat were moved to Eastland they would erect a building and furnish the upper story for the courthouse.

The election produced 127 votes from all Eastland County. The lady folks weren't permitted to vote in those days. Eastland got 67 votes — enough to win. Other votes were cast for Merriman, McGough Springs and "the center of the county."

The first courthouse was the top floor of the old Corner Drug Store that stands on the north-west corner of the square in Eastland today. It was used until 1883 when a rock courthouse building was put up. This building was destroyed by fire in 1896 and a larger courthouse was built. It served until 1928 when the present \$312,000 building was erected.

WORK HAS BEEN finished on the new Eastland and Ranger lake — Lake Leon — and they're ready for it to fill up, the neighboring paper also reports. Eastland and Ranger Chambers of Commerce conducted a contest for a name, and Lake Leon is the name chosen.

A few days ago we got a story from them about the new name. It was marked "release August 5." The same story went to area newspapers and radio stations. In Sunday's Eastland and Ranger papers there was a story that noted that an area Radio Station had violated the unwritten law and had broadcast the new name data. The story quoted Ranger's CofC Manager Rip Galloway.

Mrs. Bob Young of Baird submitted the winning name and will get \$100 for her suggestion. The story says that over 1,700 entries were received from over the country and from as far away as Mexico City and Alaska. The Eastland and Ranger folks figure to dedicate their lake with ceremonies this fall.

FROM MEXICO City comes a note that Mr. and Mrs. R. W. McCauley of Fort Worth and Mr. and Mrs. Jeff Gregory of Abilene, all formerly of Cisco, enjoyed a vacation in those parts. . . Mick Irvin and Rufus Horn, both of Cisco, went to Dallas the other day to donate blood so that an unidentified Eastland County patient undergoing surgery there could have badly needed blood. . . Mr. Jack Anderson reports that advice from Houston indicates that Mr. C. E. Whitaker, who underwent surgery, is doing nicely. He was expected to begin taking a few steps today.

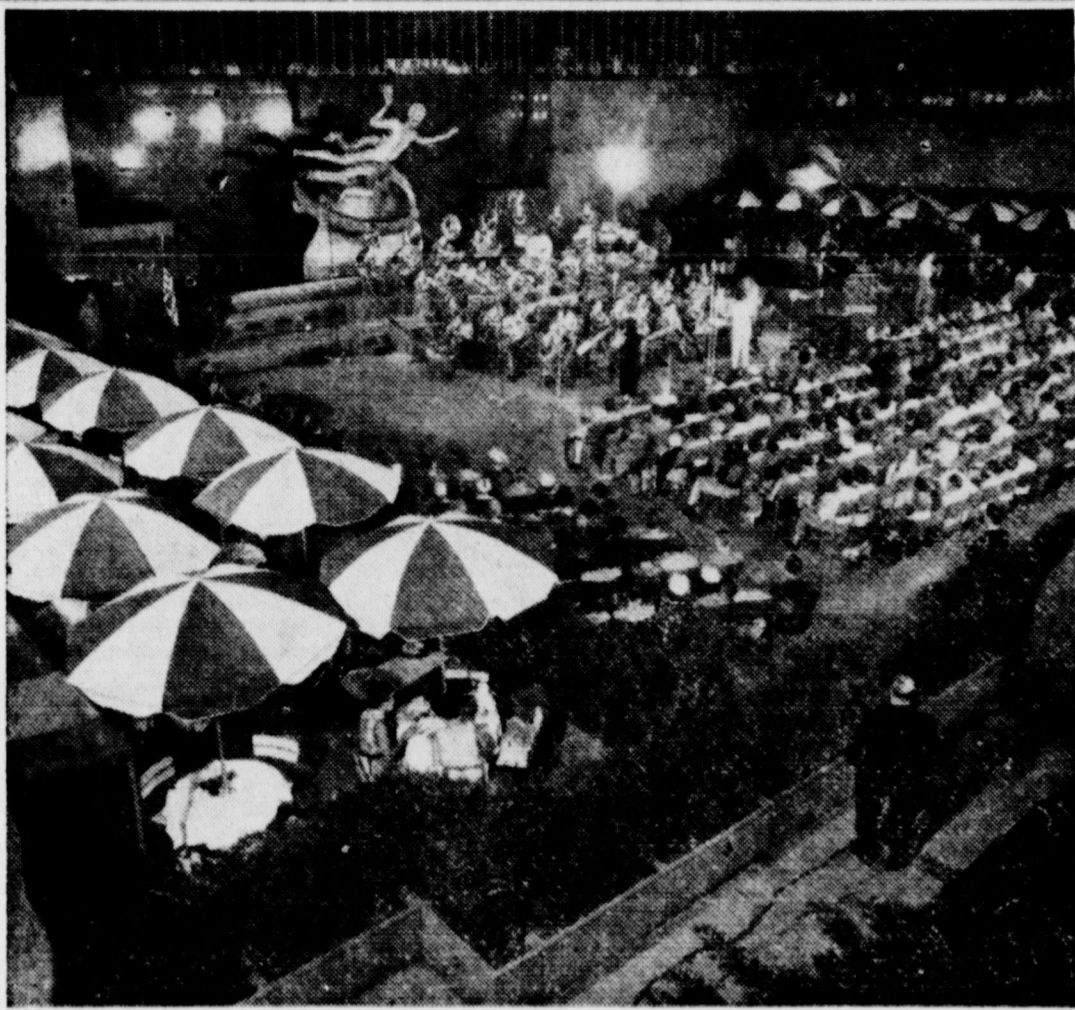

THE REAL VALUE is the title of an item in our new copy of Caps and Lower Case Magazine. It follows:

A rather prominent Texan, who would not want to be quoted, recently said that money means nothing unless it is wisely spent. By that, he meant that the possession of money is not necessarily power in itself.

This man is in position to know. He heads many corporations and was recently introduced as first citizen of his city. "I can get all the money I want," he said to a group of us, informally, "but unless I can spend it to advantage, what good would it do me?"

Texas men have made a name for themselves in their ability to make money. Extreme wealth has almost become the trademark of the man with the Texas drawl.

It is to be hoped that those who have been successful in the accumulation of money will be equally judicious in their expenditures of it. There is enough investment capital among individuals in our larger cities and towns to insure good business and good communities through the years if it is wisely spent.

OUTDOOR CONCERT—New Yorkers strolling among the sky-scrapers of Rockefeller Center hear an outdoor band concert. Conductor Paul Lavalle turned the famed sunken skating rink at the Center into a bandstand and an outdoor broadcasting studio for a 48-piece band.

Beginners Band Is Planned For Local Schools

The starting of a beginners band for Cisco schools has been announced by Harold Thomas, recently named band director for the schools.

Mr. Thomas has asked all those who wish to be in the beginners class to meet him at the band hall at the high school any time Friday from 9 a. m. to 4 p. m.

He stressed the importance of those who played in the tonette band in grade schools last year who will go into junior high school this year to meet with him Friday.

His plans are to begin classes prior to the opening of the regular school term so that more time may be given to the individual member.

Mr. Thomas invited the parents of the beginners to meet with him Friday to discuss the band program and the instruments. He pointed out that the band program was a part of the school work and that no charge was to be made for lessons. The only charge, he pointed out, was for the rental or purchase of instruments.

Industrial Specialist Examination Is Slated

The U. S. Civil Service Commission announces an examination for Industrial Specialist at \$4,205 to \$8,360 per year for employment in the Small Business Administration in the States of Texas, Oklahoma, Louisiana and Arkansas.

Information and application forms may be obtained at the Post Office; the Branch Office, Eighth U. S. Civil Service Region, 333 St. Charles Avenue, New Orleans, Louisiana; or the Regional Office, Eighth U. S. Civil Service Region, Room 809, 1114 Commerce Street, Dallas, Texas.

Stanley Webb Made President Of County Red Cross Chapter

Stanley Webb of Cisco was elected county chairman of the Eastland County Chapter of the American Red Cross at the annual meeting held at 2:30 p. m. Thursday in the 91st District Courtroom. He replaces W. B. Wright of Cisco who has served for the past year.

Judge George Davenport of Eastland was named first vice-chairman and Mrs. E. E. Freyschlag was elected second vice-chairman and fund campaign chairman. Mrs. Louise Weber of Rising Star was named secretary and Earl Woody of Eastland was elected treasurer. Don Parker of Eastland was elected auditor. Members of the board of directors:

UNDERGOES OPERATION

Jackie Hammer of Cisco underwent an operation for the removal of a bone from his foot at the Hendricks Memorial Hospital in Abilene this week. The operation was necessitated because of an injury Jackie suffered while playing at school last May. His condition was described as satisfactory and he was expected home in a few days.

BOTTLE BABY—Snowball, a four-week-old kitten in Minneapolis, Minn., has already taken to hitting the bottle. The pure-white kitten has been feeding from a full-size baby bottle for most of its young life. It seems to be a hard way of getting some food, but this cat will find that out as it gets older.

Carter Provides Scholarship Fund Of \$25,000 at TCU

FORT WORTH, Aug. 4.—Through a \$25,000 scholarship grant by the Amon G. Carter Foundation, a number of deserving young students of the South-west will attend Texas Christian University the next four years.

President M. E. Sadler announced the award today and said that the first Foundation check of \$6,250 had been received. Similar allowances will be made for the next three school years.

"We are deeply grateful for this most significant support from Mr. Carter in a very important area," Sadler said. "There are hundreds of worthy young people in our section who will be able to complete their educations only through such farsighted scholarship grants."

The regular scholarship committee of the university, chaired by Dr. Thomas F. Richardson, will select the students to study under the Foundation award. Character, scholastic record, need and other factors will be considered.

First students under the grant will be enrolled this school year which starts Sept. 13. A long list of applications is already on file with the university and others are being received daily.

Mr. Carter has long been a staunch supporter of higher education in the Southwest. He served as first board chairman of Texas Tech in Lubbock and has aided TCU in many areas. The Horned Frog football field, Amon Carter Stadium, is named in his honor. He is still president of the TCU Stadium Association which built the fine football plant in 1930.

He has materially assisted in the construction of many of the other seven new buildings on the campus in the last decade, having

Lauderdale, Farrow Promoted By Bank

Promotions for J. D. Lauderdale and Paul D. Farrow, veteran members of the staff of the First National Bank in Cisco, were announced today by President James P. McCracken. Mr. Lauderdale was advanced to the office of vice president, and Mr. Farrow was promoted to be cashier.

The action was taken Tuesday afternoon at a meeting of the board of directors of the bank. The two officers were honored by bank employees at a breakfast Wednesday morning at the Victor Hotel Coffee Shop.

Mr. Lauderdale, who had served as cashier since early in 1946, is a native of this section. He grew up in Stephens County 18 miles north of Cisco. After finishing high school in Breckenridge and business college in Tyler, he went to work for the old Cisco Banking Company in 1918.

When the old First State Bank merged with the First National Bank in 1933, Mr. Lauderdale joined the First National and he has been with the bank since that time. He was promoted to the position of cashier in 1946.

Mr. Lauderdale is well known in this section. He is a former president of the Cisco Chamber of Commerce and is serving as vice president of the Rotary Club. He is a former chairman and a present member of the board of the First Christian Church and has long been active in church and community affairs. He and Mrs. Lauderdale have one son, Jack, of Norman, Okla.

Paul Farrow moved to Cisco from Ranger eight years ago to accept a position as teller at the First National Bank. He was assistant cashier when he was promoted. A native of the West Coast, Mr. Farrow has lived in Texas for 23 years. He was employed by the Ranger bank for seven years before coming here.

Mr. Farrow has been a member of the board of trustees of the Cisco Independent School District for two and a half years and is serving as secretary of the

Doubleheader To Begin Play Here Thursday Night

Four of the top Little League Baseball teams of District 3, Section 4, will meet at ABC Field here Thursday night to begin the District tournament.

The four teams are the winners of area tournaments played in Brownwood, Mineral Wells, San Angelo and Abilene this week. The winners of the tournaments will all be selected by Wednesday night.

In the double header Thursday night, scheduled to begin at 5:30 o'clock, Albany will meet either Mineral Wells or Weatherford, and San Angelo will meet the Brownwood American League all-stars.

Albany won the Abilene tournament by winning over two strong Abilene teams. The winner of the Mineral Wells tournament will be decided tonight when Mineral Wells meets Weatherford. The winner of that game will meet Albany in the Cisco tournament opener.

The Brownwood American League won over the Brownwood National League Tuesday night to take the area championship. The national league entry eliminated Cisco Monday night to go to the finals. Brownwood will meet San Angelo in the nightcap Thursday night.

Friday night the winners of the Thursday night games will meet for the championship of the district and the right to play in the Section 4 tournament in Carlsbad, New Mexico, which is scheduled to begin on August 9.

Saturday night has been reserved for make-up games or for the playing of unfinished contests. Under Little League rules no inning may be started after 9:30 p. m.

The local tournament is under the direction of the Cisco Little League and the ABC Club, sponsors of the program in Cisco. Much work has been done on the field, but more remains to be done before Thursday night. Alpha Elder, president of the ABC Club, said Tuesday. He asked for volunteer workers to be at the field after 5 o'clock tonight to help with the work.

Some work remains to be done on the fence, and the infield needs some cleaning.

The Brownwood entry in the tournament will be at the field at 7:30 o'clock tonight to work out on the field. Fans were invited to watch them.

All Cisco fans were urged to attend the tournament games.

Ministers Leave For Study Meeting

Rev. and Mrs. Leslie Seymour of Cisco and Rev. and Mrs. J. C. Oglesby of Eastland left today for Evanston, Illinois, where they will attend for a week an ecumenical institute at Garrett Theological School.

Lecturers for this institute will be men from around the world who have come to Evanston for the World Council of Churches meeting there August 15 and the two weeks following. The Seymours and Oglesby will attend the World Council sessions following the week of institute lectures.

AN UNEASY PEACE

On Wednesday, July 21, newspapers and radio commentators noted that for the first time in 23 years there had been a cessation of fighting all over the world. But the peace is an uneasy one indeed, and there are many who wonder just how large a price has been paid for it.

Whether the Indochina truce was a great victory, a stunning defeat, or something in between those extremes depends on where you sit. According to an AP dispatch, Europe and Asia greeted it "with mingled relief, distaste and optimism." The relief is caused by the end of the bloodletting. The distaste comes from the concessions France was forced to make at Geneva — concessions that would have seemed absolutely inconceivable even a year or two ago.

The united will and power to win the fight for Northern Indochina. That "will to win" element was the heart of the matter. Our military people felt and feel that France had the necessary resources. It is true that she had suffered terrible losses in the prolonged Indochina war, as we did in Korea — but at the same time she had tough, well-trained troops backed with virtually all-out American support so far as materials and supplies were concerned.

A view held by many informed Americans, both in and out of the government, was expressed in these words by John M. Hightower of the AP: "The United States and its allies lost a great battle... in the long range conflict with communism. They lost because they could not command

At the White House press conference following the truce, President Eisenhower made a very significant statement. He said that this settlement makes it necessary for the free world to look the facts in the face and decide what must be done to assure its survival. That means, of course, that American policy is undergoing rigorous examination and overhaul. The apparently insoluble differences that were displayed at Geneva between the United States, Britain and France certainly proved to be among the greatest assets the Communist bargainers had.

It is certainly clear that in Indochina is to be the end of Communist aggression — and the President intimated that it must be — the wide rifts in free world thinking and acting must be mended. No one minimizes the difficulties this involves. But it is as essential a task as the nations concerned have ever faced.

... we started out in the abstract business in Eastland County. Then, as now, the abstract was a necessary part of every real estate transaction. We soon learned that an abstract was something more than a bundle of pages with numbers on them. Even more important today, it must not only be accurate, concise and revealing, but it must be a quality product of completeness prepared to stand the most thorough and critical title examination.

ONE WAY TO DO IT—Notes attached to balloons soared over the towers of Westminster Abbey in London, and out over the countryside. The 1000 colored balloons were released from the Dean's Yard to mark the raising of one million pounds to repair the ancient structure. The messages read: "Greetings from Westminster Abbey. Appeal fund target achieved."

OUT OF PLACE—Player Hudspeth did an unscheduled head-first dive over opponent Edwards during a basketball game between Pleasanton and Fulton high schools, in Pleasanton, Kans. Hudspeth, of the Pleasanton team, was playing defense as he followed Edwards who was dribbling down the court. Suddenly Edwards stopped, causing Hudspeth to topple over him for a foul. The Pleasanton player at left is unidentified.

THE LONESOME PINE—Brooklyn may have a tree growing in it but Berlin, Germany, boasts of this odd tree. At first glance, you may not be able to identify it as a pine tree as it is covered by a heavy ivy vine that has encircled it. The phenomenon provides interesting guesswork for amateur naturalists. The people in Berlin are accustomed to it as you can see.

STRIPED FOR ACTION — Eye-catching red stripes run across the white background of a striking linen play costume designed in West Berlin. The cover-up blouse and brief shorts are separated by a wide red leather belt. A demure white collar and big red tie are added.

CHECK! — Boldly checked in black and white, this new coat in cotton tweed is tailored on Chesterfield lines in New York. It boasts new melon sleeves, neat velvet collar and low-placed hip pockets. It's Arthur Jablow's design for the National Cotton Council.

"Are you ambitious for your children, too? Then, listen," says Mrs. Mary Callon, of Indianapolis, Indiana

"I sent my twins to college—by saving on the Payroll Savings Plan!"

"I've been a working widow since the children were eight," Mary Callon says. "Only through Payroll Savings could I have saved the money that sent them to college."

You can send your child to college, just as Mary Callon did. A sure way is to begin saving today on the Payroll Savings Plan!

It works because it makes you save. Here's how simple it is: You decide how much you'd like to save out of every pay. Go to the payroll office where you work and sign to save that amount every payday. The sum is then automatically saved out before you draw your pay. You can sign up to save any amount you wish. Your savings automatically purchase Series E Bonds, delivered to you.

Then your savings really grow. For every Savings Bond earns more money—at an average of 3% interest per year, compounded semiannually, when held to maturity.

How about it? For your sake, and your family's sake, will you sign up for Payroll Savings—today?

How you can reach your savings goal on the systematic Payroll Savings Plan

	\$1,000	\$5,000	\$10,000	\$25,000
Each week for 5 years, save	\$3.75	\$18.75	\$37.50	\$93.75
Each week for 9 years and 8 months, save	\$1.85	\$8.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save	\$0.75	\$3.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. Remember, you can save any sum you wish, from a couple of dollars a payday to \$375 a month. The important thing is, start your Plan today!

Start your child's college fund today... Invest in U. S. Savings Bonds through the Payroll Savings Plan!

UofT Will Begin New Program For Texas Business

AUSTIN, Aug. 4. — The University of Texas will launch an "executive development" program as a service to Texas business and industry with appointment of Dr. Virgil Albert James to the faculty.

Dr. James, director of the Southwest Executive Development Program from its beginning, will become director of executive development in September. He will work in the College

of Business Administration and Division of Extension.

The new service to management will be developed during the coming Long Session and a workshop probably will be held next summer, according to Dr. William R. Spiegel, business administration dean, and James R. D. Eddy, extension dean.

Dr. James has been management department chairman at the University of Houston since 1951 and is well known among Texas business men and industrialists. He also has taught at Cornell University and the University of Utah.

An expert in personnel management, Dr. James is a member of several professional organizations, including the Industrial Relations Research Association. He has a Doctor of Philosophy degree from Cornell University and a Bachelor of Science degree from the University of Utah.

Dean Spriguel also announced that Dr. Arthur G. Anderson, distinguished scholar from the University of Illinois, will be a visiting professor of management in 1954-55. Dr. Anderson has written extensively on industrial management and production, and has degrees in both civil engineering and business administration. He is a member of the exclusive Academy of Management, the Industrial Management Society and numerous other professional organizations.

Dr. Anderson has been a management consultant, operated his own engineering firm and has been associated with some of the nation's major industrial concerns.

given more than \$1,000,000 for that purpose.

Two years ago, the Carter Foundation established a chair of American and Texas history on the campus. This program is supported by \$10,000 grants yearly.

Mr. Carter has given similar contributions, in behalf of the Foundation, for scholarship funds at Texas Tech and Texas Wesleyan College in Fort Worth.

Mr. and Mrs. E. G. Pierce and Mrs. W. W. Everett visited relatives in Cross Plains Saturday afternoon.

IN THE ART WORLD—An ancient cannon provides two pretty students with a perch from which to make sketches in London, left. The girls are drawing the Tower of London as historic Tower Bridge looms in the background. In Chicago, young Terry Baum went to Lincoln Park Zoo to paint and ran into some competition, right. Harold Clausen was working on a fence.

YOUNG SALESMAN—Five-year-old Michael Pryer and his dog are dressed up for a children's pet parade in La Grange, Ill. That long pooch represents a hot dog with a bun wrapped around it, and young Mike carries a pot of mustard that ought to contain enough.

FIRE DOG—Many times a fire-fighter leads a dog's life, but it isn't often that a dog leads a fireman's life, as Smoky of the Atfol, Mass., Fire Department seems to be doing. Here he sits on an old number four engine with a gleam in his eye that would warm any chief's heart.

MATTRESS RACE—Inflated rubber rafts hit the surf at the start of a race near Rye, N. Y., as contestants head into Long Island Sound for the annual Rubber Mattress Regatta. Paddlepower provided the 24 entrants with enough push to complete the six-mile trip.

SAFE AT HOME—Brooklyn Dodgers Jackie Robinson slides safely into home plate during a game with the Chicago Cubs at Ebbets Field, Brooklyn. Covering the plate is veteran catcher Walker Cooper. Robinson's deft footwork scored the first run of the day.
