The Gay Philosopher

By J. W. S.

WHESS YOU READ in The last Sunday that Superintendent Walton Baum of the Lake Fish Hatchery departs with his family very soon for an assignment up at the new Little Elm Lake Hatchery in Dallas. And you'll probably join us in saying that you see this fine family in our city.

Mr. Baum is a good citizen — in church and community work. Mr. Baum has held just about every office there is at the Lake Fish Hatchery. He is a member of the four bodies that make up the hatchery here, and he has been one of the most active members. He wouldn't want to deny any promotion in his work, but he has declined the promotion because it would have been effected in such a way that the Baums could have stayed in Cisco. With the local hatchery in a state of drought, the state isn't affording to utilize the ability of Mr. Baum elsewhere.

LAND OF THE FREE—A group of refugees from Communist-dominated Silesia are in a festive mood as they attend the annual West Berlin refugee meeting. Basking in the sunshine of freedom, the refugees wear their colorful national costumes. The meeting was held in the British sector Waldruhne open-air theater.

City Water Line Break Repaired, Business Is Good

Business was good and everything was normal with the City of Cisco's water department today, Superintendent John Rodden reported.

That wasn't the case Monday, as all water customers probably know, for a big main line from Lake Cisco to town broke just southwest of the railroad near the Texas Company warehouse. Workmen used most of Monday before the break was repaired.

Mr. Rodden reported that the College Hill storage reservoir, which holds a million gallons, was thoroughly cleaned last week and was refilled last Friday night. Pressure was good and there was plenty of water everywhere in the city today.

Ciscoan Is With Marine Reserves At Recruit Camp

SAN DIEGO, August 16.—Members of Abilene's 87th Special Infantry Company, Marine Corps Reserves, have concluded their first week of summer training at San Diego's Marine Corps Recruit Depot. They have one more week to go before they return to Abilene on August 21st.

Since their arrival here last Sunday the group has participated in a varied program ranging from instruction of a Marine's duties aboard the major ships of our fleet to night exercises involving small unit infantry tactics.

"This Abilene unit is rapidly approaching top-notch efficiency and will be tough to beat in the completion with the twelve other male units that will receive their training here," said Major R. E. Moffett, officer in command of reserve training.

The winner of this competition receives the William T. Clement Trophy, awarded to the unit that is outstanding in weapons qualification, combat firing proficiency, including inspections.

The unit's training schedule, which started last Monday morning, commences at 5:45 a. m. Many of the group are hearing "reveille" sounded for the first time. Others, who are Marine veterans, have once again adjusted themselves to that early morning "eye-opener."

Although the group has been undergoing intense training under the supervision of some of the top instructors in the Marine Corps, they have had some fun and relaxation too. Through the cooperation of civic organizations in San Diego, groups of Abilene Reservists have visited famed Balboa Park, Mission and La Jolla Beaches and planned a beach party.

DE LEON AND GORMAN TRIUMPH IN OPENING BASEBALL CONTESTS

De Leon and Gorman won their first games Monday night in the Cisco Invitation Baseball Tournament being held at ABC Field this week, with the Cisco Cubs as the hosts.

De Leon, behind the hurling of Clyde Nooncaster, took the opening game of the tourney when they downed Breckenridge, 3-2, in seven innings. Nooncaster, the De Leon high school player, held the Breck batters to two hits and gave up four walks. He struck out 11 men. In addition to doing a fine job on the mound, Nooncaster got a single and a double in three official times at bat.

Carpenter, Breck hurler, gave up seven hits and two free passes to be charged with the loss. De Leon bunched their hits in the third inning to win the game. Breckenridge got their two runs in the fifth.

In the nightcap Gorman took an easy 10-0 win over Olden in a four inning affair. Wildness on the part of the Olden hurlers spelled victory for the Gorman entry. The Gorman team scored three runs in the first inning when the first five batters received free passes. Six bases on balls and an error accounted for the three runs.

In the second inning four hits, a free pass and three errors gave Gorman their other seven runs. Stub Poyner, veteran Gorman player, pitched a no-hit and no-run game. He gave up only two free passes and struck out eight enemy batters.

Tonight the losers of Monday night's games, Olden and Breckenridge, will meet at 7 o'clock, and the winners, Gorman and De Leon, will meet in the late afternoon.

Representatives of City Water Departments of five area counties attended a monthly meeting of their Water Works Association at the Veterans Recreation Club here Monday night. A barbecued chicken dinner was served by J. D. Yardley to open the meeting.

Fall Workouts To Start August 23rd

Charles Williams, a graduate of Sam Houston State College in Huntsville, will join the coaching staff at Cisco High School as practice for the 1954 season begins Monday, August 23, it was reported by Superintendent Arlin Birt.

Coach Williams comes to Cisco after coaching four years at Aldine, near Houston. He went to Aldine as assistant after four years at the Huntsville school.

While at Sam Houston, Williams was named to the all conference team each of the four years he played, and in his final year was named to the Little All-American team as end.

At the local school he will serve as assistant football coach and basketball coach.

Mr. Birt said that the position of "B" team coach remained to be filled, and that the school was seeking a man for that post. Roy Bird, basketball and assistant football coach at Cross Plains, had accepted the post earlier in the month, but changed his mind and decided to stay at Cross Plains.

Jay Williams, coach at the high school, said that everything was ready for the beginning of practice Monday. He expected some 50 boys out on opening day. The squad will be led by 15 returning lettermen.

The Lobo running attack for the coming season will be led by Marcus Gallegos, Tommy Reynolds, Harold Pippen, Benji Lipsey, Buck Whitehead, Freddy Hayes, Joe Gilmore, John Carlile, David Ewell and others from the "B" team and junior high. Gilmore, Carlile and Ewell were members of the "B" team last year and the others are returning lettermen.

Ends Bill Smith and Jerry Weiser; Tackles Edward Bernie, Kenneth Penn and Carroll Thames; Guards Joe Farrow, Arzell Hale and Tommy Collier and Center Ronnie Qualls, all returning lettermen, will form the nucleus for the Lobo line for the coming season. Several boys from the "B" team were expected to bolster the forward wall.

CATCHING FIRE WINS CAMPAIGNS

Liberal and Loyalist Democrats were on fire. That's why they nearly upset the Shivers' conservatives.

Zeal wins elections. A candidate whose followers are charged with religious current reflects the magnetism of a cause.

Two years ago Texas conservatives were on fire. The Loyalists were not. The magnificent Shivers as Chicago, his hair falling in his face and his jaw set, defied the left wing of his own party and in the name of Texas vowed a to-death stand.

Harry Truman had double-crossed Texas on the tidelands. Adlai Stevenson followed Mr. Truman. Shivers, already on fire, imbued the state with his own heat.

This year it was the same Shivers. He worked like a beaver in the campaign. His strategy and technique were perfect. He fought—and so did his lieutenants and colonels, men like Hugh Frather Jr. and Gordon Galt and

Many Happy Returns Of The Day!

This is the best anniversary our U. S. Savings Bonds ever had

BORN in days of trouble, in May 1941, and out of our faith in America, Savings Bonds have become today the greatest nation-wide savings program in history. They did their vital share for defense and for victory and for stabilizing our economy. But they have done another great thing for us.

They have been buying for us, as individuals, things we need for our own security, happiness, and betterment.

- On the roads, new cars bought by Bonds
- On the hills and in the valleys of America, new homes
- On the farms, new equipment for better crops
- In colleges, sons and daughters getting extra education
- And all over America, new independent businessmen, thanks to the start given by Bonds

Today, we still own more U. S. Savings Bonds than ever before—thirty-seven billion dollars worth!

Last year we bought 22% more Bonds than the year before, setting a seven-year sales record! At year's end, three-fourths of all matured B Bonds were still being held at interest by their original owners.

So, this is truly a happy anniversary for America's happiest habit—the Bond-buying habit.

Let Bonds work for you, too—try the easy Payroll Savings Plan

You may save any sum you wish—a couple of dollars a payday or as much as you can spare. You never miss the money because it's saved for you—before you even get your check. And when enough has accumulated, it's automatically invested in a U. S. Series E Savings Bond, in your name, and the Bond is turned over to you. Then your savings really go to work—earning you an average 3% interest, compounded semi-annually, when the Bonds are held to maturity! Join the Payroll Savings Plan today!

AUSTIN—Charges and counter-charges flew fast as the race for governor rounded the turn for the final lap.

Judge Ralph W. Yarborough, quick to accuse Allan Shivers of misdeeds, found fault with state printing contracts awarded to the Times Publishing Company of Mission because Shivers had been a stockholder in the company in 1946.

From Attorney General John Ben Shepperd came the retort that "I have investigated the whole transaction and there is nothing wrong with it." The contracts, Shepperd said, amount-

ed to only about one per cent of the state's printing business and it went to the Mission firm on the basis of low bids.

Another Yarborough charge was that Shivers had withdrawn the Rangers from politically-hot Duval County.

This statement, said Ranger Captain Alfred Y. Allee, was "utterly untrue." Captain Allee testified that the Rangers are still in Duval County.

And Colonel Homer Garrison, director of the Texas Department of Public Safety, asserted that no request had been made to pull the law officials out of George Parr's domain.

Yarborough's political promises, came in for attack. When he pledged himself, if elected, to support a Galveston County project — a \$5 million bridge across San Luis Pass — a statement came from John S. Redditt of Lufkin.

Redditt, former chairman of the state highway commission, former state senator, and former president of the Texas Good Roads Association, said:

"In all my experience the Texas Highway Department has operated without this kind of political interference from the governor, the Legislature, or any other source. This policy has given Texas the nation's finest roads per dollar expended."

Yarborough Campaign

Otherwise, in his campaign speeches, Yarborough: Promised to build 40 new dams in South Texas.

Charged that a "vast army of state employees" had been forced to leave their jobs and campaign for Shivers.

Proposed the creation of a new Texas water board and advocated the investment by the state of \$400 million in water conservation projects.

Charged that Shivers spent \$2 million in his first primary campaign.

Shivers Campaign

In his campaign appearances, Shivers: Rapped Yarborough for being "the only man I know in Texas who has cast doubt on Texas' tidelands claim to the 10 1/2 mile limit."

Told Port Arthur listeners in a public rally that people who represent Communist-dominated unions and opposed the present state law outlawing the Communist Party are supporting Yarborough.

Received praise from B. A. Stufflebeme, Grand Prairie member of the State Prison Board, for cooperating to make the system "one of the best."

Big Vote Anticipated

Absentee balloting reports from over the state indicate a good possibility of the August 28th Democratic run-off primary bringing a heavier turn-out than did the first primary, according to various county clerks.

In Austin, Travis County absentee ballots were coming in at a rate approximately five times that of the July primary, according to County Clerk Emilie Limberg.

A Short Ballot

Texas voters August 28th in the Democratic run-off primary will have one of the shortest run-off ballots in years.

Only two state-wide run-off races the gubernatorial contest between Allan Shivers and Ralph Yarborough, and the Supreme Court race between Alfred M. Scott and Few Brewster.

There will be 21 district races composed of two runoffs for Congress, one for district judge, three for district attorney, and fifteen for state representative.

New Bridge

Texas Governor Allan Shivers will be the chief speaker at August 21 ceremonies opening the \$2.5 million surfside highway bridge at Brazosport.

The bridge is the only fixed span over the Intracoastal Waterway. It has a 78-foot vertical and 201-foot horizontal clearance for water traffic.

Road Bids

Bids for construction on 288 miles of state roads were scheduled to be opened by the State Highway Department Tuesday and Wednesday with estimations running around \$9 million.

Bids were to cover some 182 miles of farm roads and 106 miles of state and federal highways. A large portion of the total cost will go for expressway construction in Austin and Dallas.

Farm Income Up

Texas' farmers earned more during January-June of this year than during a like period last year although farm prices were declining, the University of Texas-Bureau of Business Research has reported.

The bureau said that farm income was running nine per cent over that of the first six months of 1955. Increased revenues from cotton and cattle were primarily responsible for the increase, the bureau said.

GUEST OF HONOR—Dr. Albert Schweitzer, right, philosopher, organist, writer and missionary, chats with a uniformed prefect at a ceremony in Colmar, France, commemorating Frederic A. COOLING SPRAY—The smooth brick walkway under the Bernini colonnade in the Vatican City gets a watering down to keep it cool during a hot summer's day. Many such squares in Italy are sprayed to provide cooling comfort for visitors.

One-year-old Brian is America's youngest "co-pilot." Mrs. Kelley, a free-lance lecturer, flies all over the New England area and usually takes Brian along.

Milk Producers Receive Less For July Production

Producers supplying milk for the Central West Texas marketing area will be paid \$5.17 per hundred weight for milk containing 4 percent butterfat delivered to plants in Abilene, San Angelo, Stamford, and Sweetwater during July 1956. This is 60 cents per hundred weight less than producers received for milk during July of 1955.

For milk delivered to Brownwood, the Uniform Price received by producers will be \$4.97 and at Midland and Lamesa the Uniform Price will be \$5.37. These prices are subject to an adjustment of 6.8 cents per hundred-weight for each one tenth of one percent that the butterfat content of a producer's milk is above or below 4 percent.

Milk production continued to decline in the Central West Texas market. Total receipts of milk from producers during July was 10,626,094 pounds or an average of 342,777 pounds per day. This was a decline of 5.83 percent in producer receipts from June but was an increase of 24.61 percent over July 1955. The average production per farm per day decreased from 503 pounds for June to 468 pounds for July.

There were 732 producers supplying the market during July, an increase of 11 over June and 181 more than for July of 1955.

Class I sales (chiefly bottled milk, buttermilk, chocolate milk and bottled cream products) continued to increase. July Class I sales averaged on a daily basis 3.56 percent higher than June and 32.69 percent higher than July of 1955. Over 90 percent of producer milk was classified as Class I milk during July.

The total value of producer milk in the Central West Texas market

at a 4 percent butterfat test during July was \$549,369.00 or an average value of milk shipped per farm of \$750.00 for the month.

Prices payable to producers were computed on the basis of reports of receipts and utilization of milk submitted by 11 milkers operating milk processing plants at which minimum prices to producers are fixed by the Central West Texas marketing order.
