I am making this statement early, so my opponent J. B. Williams can answer it if

he so desires. I do not believe in this last minute stuff. This is J. B. Williams, rec-

ord: On August 22nd, 1947, a prisoner was in jail charged with a felony offense,

this prisoner did not break jail, the door was unlocked and the prisoner walked

through the door and left the jail. On February 6th, 1947, a prisoner was placed in

jail, William Lobb for investigation, on March 6th 1947 four felony Grand Jury in-

dictments were returned against the said William Lobb, Numbers 10445, 10446, 10447

and 10448. On March 13th 1947 one felony indictment Number 10451, dated June 1st

1947, William Lobb was released from jail by Sheriff J. B. Williams and on Septem-

ber 16th 1947 made bond in all five indictments, this subject was out of jail for 106

days without bond, during this time subject was riding around with Sheriff J. B.

Williams, and William Lobb and wife attended a birthday party given by J. B. Wil-

liams. On December 3rd 1947 William Lobb was sentenced in the 91st District Court

of Eastland County, was sentenced to ten years in each of the five indictments, a

total of fifty years. Upon the request of the District Attorney and Sheriff J. B. Wil-

llams, William Lobb was paroled to Sheriff J. B. Williams in all of the above indict-

ments and turned loose. J. B. Williams says we have got to be strong and firm and

even a bit rough when necessary in handling criminals, I wonder what he means by

that statement. In a campaign rally at Olden my opponent J. B. Williams made this

statement: he said when he was Sheriff, he thought he did a good job with the

bootleggers, he said he collected \$20000.00 during his first term and \$18000.00 during

his second term and he thought that he did a pretty good job for a county this size.

I would like for J. B. Williams to tell the voters and citizens where that \$38000.00

My opponent J. B. Williams, says he is highly qualified, I believe in and practice

modern scientific crime detection, I am fully acquanted with and experienced in

such streamlinea technique including laboratory analysis, lifting and taking finger prints, identification and spotting cleverly diguised clues and other modern methods

now being employed to bring criminals to justice. That would take a trained expert

such as the state has in Austin. I challenge J. B. Williams to show to the citizens

We have the same old issue, we had four years ago, bootlegging and whiskey. We

have the county in a lot better shape and a lot better condition now than it was

when I took over following J. B. Williams January 1st 1951. I sincerely solicit your vote and influence on August 28th, lets keep this county a decent place in which to

"Are you ambitious for your children, too? Then, listen," says Mrs. Mary Callon, of Indianapolis, Indiana

"I sent my twins to college-by saving on the Payroll Savings Plan!"

"I've been a working widow since the children were eight," Mary Callon says. "Only through Payroll Savings could I have saved the money that sent them to college."

You can send your child to college, just as Mary Callon did. A sure way is to begin saving today on the Payroll Savings

It works because it makes you save. Here's how simple it is: You decide how much you'd like to save out of every pay. Go to the payroll office where you work and sign to save that amount every payday. The sum is then automatically saved out before you draw your pay. You can sign up to save any amount you wish. Your savings automatically purchase Series E Bonds, delivered to you.

Then your savings really grow. For every Savings Bond earns more money-at an average of 3% interest per year, compounded semiannually, when held to maturity.

How about it? For your sake, and your family's sake, will you sign up for Payroll Savings-today?

There are all sorts of concepts of freedom and liberty. Sometimes we ourselves become confused as to what it really is. We but usually with a privilege goes responsibility.

Some people are most fearful that our liberties will be jeopardized if wire-tapping becomes legal or if witnesses before investigating committees are limited in their right to claim protection under the Fifth Amendment. If this is a surrender of any liberty which we may enjoy, it seems to me we should be able to forego this much in order to protect ourselves against those who would destroy our freedoms completely.

In times of stress it has been necessary for everyone to give up to some degree a part of his liberty. Economic controls during the war, such as OPA and others, are an example.

The personal freedom of the loyal American is not limited by tightening the laws against subversive activities in our Country A great many things have been done in the name of liberty and

the claim to freedom, but the idea of freedom may have a different meaning among different peoples. The people of Denmark claim to have the greatest freedom of any one anywhere. Danish women, for example, are permitted to re tain their maiden names after marriage. Spinisters are allowed to call themselves "Mrs." A fam-
