VOLUME XXXIV

The Gay Philosopher

By J. W. S.

IN CONNECTION with calling an election on proposed changes to the City Charter, it was necessary to determine that Cisco has 60 or more people. The 1950 census listed the city's population as 5,230. To arrive at the present population, you can use the utility meter yardstick — take the number of utility meters and multiply it by 3.6. The national average says 3.6 people use each the meters.

Checking this, we find the following utility meters:

| | |
|-----------------|------|
| Water Meters | 1886 |
| Gas Meters | 1795 |
| Electric Meters | 1914 |

The electric meters total was 1,914, and included 46 rural meters. The gas meters were included for the time the two companies merged last spring, as a number of meters are disconnected during the summer months.

If you want to say that the city has 1,800 or 1,850 utility meters, you can see that our population is from 6,000 to 7,000. Our conclusion is that you can safely say Cisco has over 5,000 people. Wouldn't you agree with this?

DURING THE FOUR years of the federal census, the city gained in water customers from 1,886 to 1,886. Electric meters were dropped off about 50, while gas meters have held their own. Some people might say that there aren't 3.6 people per meter. This connection, you take the water meters. All of the homes, for example, are on meter. And the 50 units of Cisco Housing Project are on meter.

WHILE WE WERE at it, we checked up on the telephone situation. In 1950, the city had 101 telephones, including about 100 rural lines. Now, there are 105 telephones, including 100 rural lines. The telephone situation has improved, but you wouldn't use the number of telephones to determine population. It is probable that they have a surplus on telephones for determining population, but we haven't read about it.

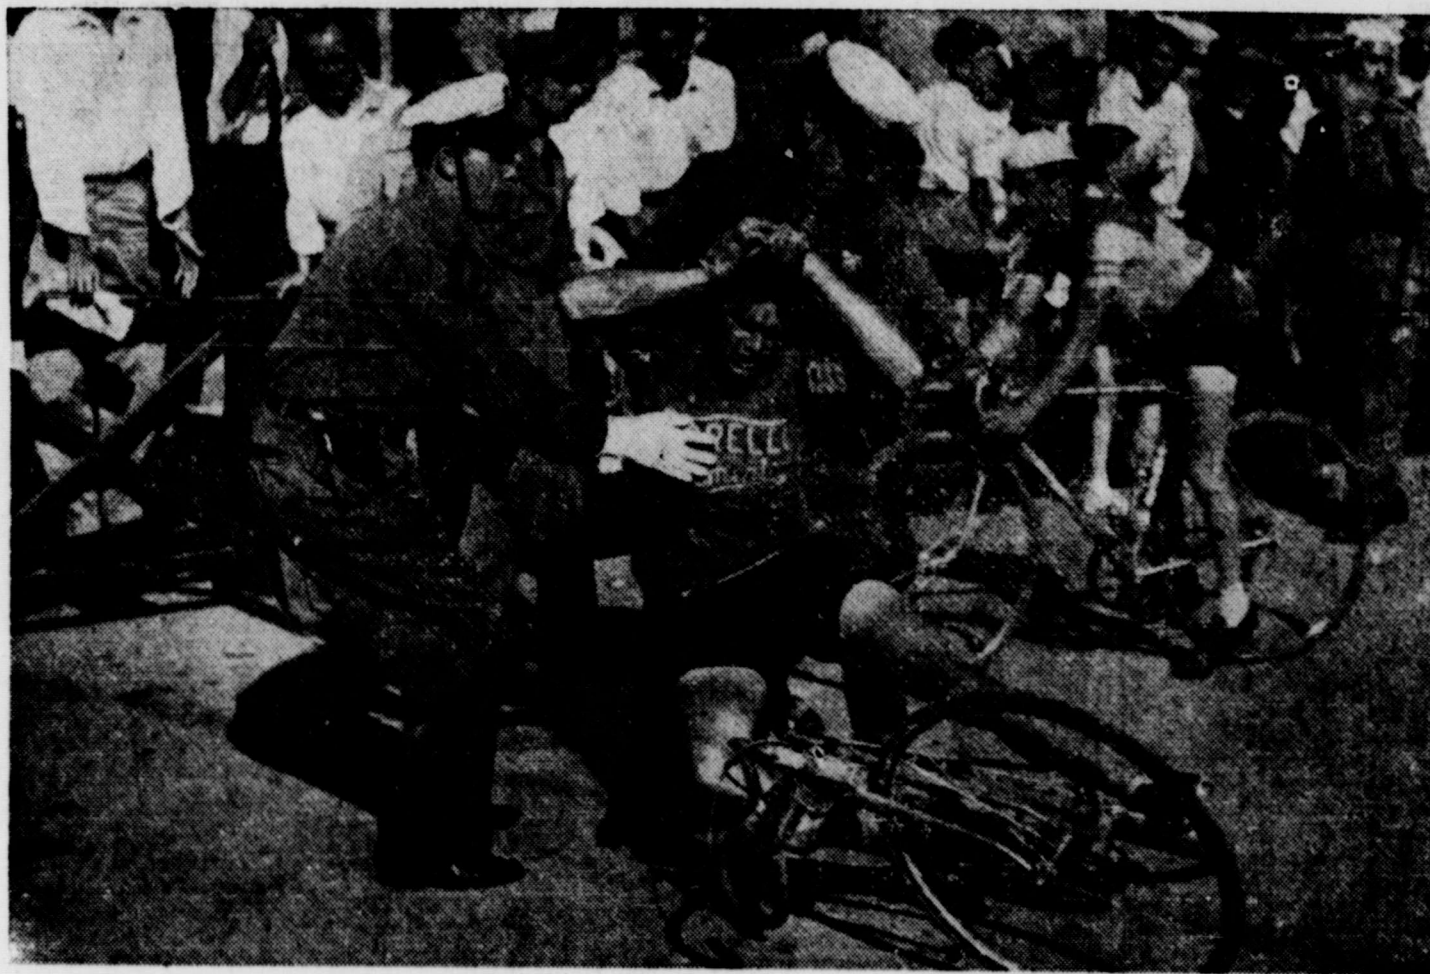

EDITOR JOE COOK of the Times is in town for a few days to visit in the home of father-in-law, H. A. McCann, and his boyhood home in Ireland. He and Mrs. HAMM, who is in the Press the other noon.

Mr. Cook's newspaper has been in a lot of publicity lately by Yarborough interests in connection with some state printing contracts. He tells us that he will discuss this matter in an interview over the Eastland radio station at 12:14 p. m. Thursday. The Mission paper has been in the family of Governor Shivers for several decades. Mr. Cook was sold a quarter interest some 10 or 12 years ago, and he has done well. You have heard the word of Attorney General John Ben Shepley that there was nothing illegal about their state printing contracts.

AT THE meeting of the Commission last evening, Commissioners D. N. Morrison, N. Cluck and Albert Hansen were comparing notes and found that they had all observed their 25th anniversaries this month. The Clucks and the Hansens served their 25th anniversaries. Cluck has lived in Cisco 25 years, and the Hansens have lived here 17 years. It was Mr. Morrison's . . . Mayor Mrs. G. C. Rosenthal are in town. Worth where her brother served a major operation this week. See Mr. Haywood (Doc) back in town after a 20-day trip to Colorado. Says he ate a lot of delicious trout — at the cafes.

OACH RED LEWIS of Cisco College gets a master's degree in mathematics this week at NTSC, Denton. . . that a number of the CJC ball players are arriving for fall term of school and the season. Wrangler Bud Miller will be a little late for practice. He's a professional baseball player over in Louisiana and his on won't be over before next week. Work is progressing on the Highway 80 widening project just east of town.

ICE CREAM SPECIAL! Special all this week — Honeycup Mellorine, 50¢ per gallon. Cisco Locker Plant, Phone 200. 188

SITTING FOR HIS PICTURE—Pedaling across the finish line of the annual Pontedecimo, Italy, bike race, this grounded cyclist collided with an over-anxious photographer. Both went down in a heap, but the cameraman scrambled to his feet in time to snap the rider being picked up by a couple of carabinieri policeman.

Nazarenes Will Hold Homecoming Program Sept. 5

The board of the Church of the Nazarene has set Sunday, September 5, as the date for the annual home coming service of the church here.

The September 5 date was set so that more people could plan to attend since the following Monday is a legal holiday.

All present and former members of the church were invited to attend the all day affair.

The following committees were appointed to handle the arrangements for the home coming program:

Invitations — Mrs. Marshall Thomas, Mrs. S. L. Cook, Mrs. Leslie Flemining and Mrs. J. B. Elder.

Program — Dr. C. M. Cleveland, Van Parmer, Mrs. Stuart and Mrs. Thelma Watson.

Dinner — Mrs. Grover Cleveland and Mrs. Pernicia Cleary.

Decorations — Mrs. Boatman and Kathryn Pippen.

Memorial roll — Mrs. R. L. Callaway and Mrs. Ira Pence.

Cisco's Grandson To Get Tech Degree

Tommy Powell of Kermit, grandson of Mrs. T. J. Powell of Cisco, is among the students who will receive degrees from Texas Technological College in ceremonies Friday, August 27, in Lubbock.

He will receive his degree in architecture, and is a member of the American Institute of Architects.

He is the son of Mr. and Mrs. T. J. Powell of Kermit, and has visited Cisco many times.

The services Friday will be held at 7:15 p. m. on the lawn of the administration building of the Lubbock school with Dr. James P. Cornette, president of West Texas State College, as the speaker.

ENROLLMENT INCREASE IS SEEN FOR HIGH SCHOOL THIS YEAR

A slight increase in enrollment at Cisco High School was evident Wednesday after members of the senior and junior classes had registered Friday, Saturday, Monday and Tuesday, it was reported by Superintendent Arlin Birt.

It was expected that the high school would gain some 10 to 15 students for the coming year.

No estimate on grade school enrollment was given since registration in the three schools does not begin until Thursday.

Mr. Birt said that school would begin Monday, with a full schedule of work planned for the opening day. Buses will run on regular schedule and the lunchroom program will begin that day.

High school classes begin at 8:35 a. m. Monday and grade school classes will begin some ten minutes later.

The first school holiday is scheduled for a week after school opens. Plans call for a holiday on Labor Day, Monday, September 6.

BAPTIST ASSOCIATION TO HOLD EVANGELISM CONFERENCE HERE

Local Baptists, along with Baptists from other cities in the Cisco Baptist Association, will attend an associational stewardship evangelism conference at 7 p. m. Thursday, August 26, at the First Baptist Church in Cisco.

Dr. L. T. Daniel, Dallas, endowment secretary of the Baptist General Convention of Texas, will serve as team captain and be in charge of the conference.

He will be introduced by Rev. Tom Small of Gorman, stewardship chairman for the association.

Rev. Levi Price, pastor of the First Baptist Church, Monahan, will be the evangelism speaker; and Dr. Richard Poss, pastor, First Baptist, Greenville, will discuss stewardship. H. P. Black, minister of music, Spring Branch Baptist Church, Houston, will be in charge of music.

The closing prayer will be given by Rev. J. Fowler of Moran, associational evangelism chairman. Rev. H. M. Ward will serve as host pastor.

The evangelism — stewardship conference is one of 122 scheduled during August and September for members of the 3,512 Baptist General Convention of Texas churches and is a part of the Southern Baptist Convention's fall program. This is the first year that evangelism and stewardship have been combined in an annual emphasis.

During the conferences, plans and materials for the churches' fall observance of "Harvest Week" will be held October 31 — November 7 previous to the churches' adopting their annual budgets for 1955. An evangelism stewardship book, "These Go Together," will be taught, and evangelistic services will be held in the churches during the week of special emphasis.

Available for use of the churches through their district missionaries will be a color movie, "These Go Together," written and produced by the Convention's Public Relations Department and a color slide series, "Blocks for Building Better Budgets." The script for the slide series is narrated by Dr. L. B. Cobb of Dallas, stewardship promotion for Texas Baptists.

Last year Texas Baptists gave \$55,506,986 to their churches with more than \$7,000,000 being given to world missions. They baptized more than 60,000.

Plans Completed For Duck Hunting

AUSTIN, Aug. 24. — The Executive Secretary said all arrangements have been completed for the waterfowl harvest in Texas now that the United States Fish and Wildlife Service has formally issued its regulations.

"All we need now," he said, "is some good rains to fill up rivers, small lakes and tanks. We need to scatter the ducks when they come on down from the northern nesting grounds to avoid the concentrations that will otherwise occur, to the detriment of hunters as well as to the hungry birds themselves."

The Executive Secretary said the Commission has received no formal complaints from Texas hunters about the sixty-day shoot beginning at noon on Friday, November 5, and continuing until sundown on January 3. Regulations are identical with last fall.

"We naturally would have preferred the zoning system as requested to give the northern tier of counties an earlier opening," he said. "But the Fish and Wildlife Service, which has final authority over migratory birds, apparently decided it would be poor conservation to liberalize the regulations under the present waterfowl population status."

Mr. and Mrs. R. M. Johnson, accompanied by Jerry Parks, were weekend visitors in the home of her sister, Mrs. Bobby Mashburn, and family in Killeen. Larry Johnson and Carolyn Parks accompanied them home after a week's visit with the Mashburns.

Only one person out of 100 in Finland is illiterate.

City Charter, Parking Meter Elections Ordered Sept. 25th

REPORT GIVEN ON USE OF SALK POLIO VACCINE OVER COUNTRY

For an estimated 100,000 people the Salk polio vaccine will be too late, even if it is proven effective.

These are people who are now suffering from polio, or will contract the disease this summer, according to Dr. Kenneth S. Landauer, assistant medical director of the National Foundation for Infantile Paralysis in New York City.

"It is largely to assure care for those who cannot be aided by any vaccine that an Emergency March of Dimes is now being conducted," Dr. Landauer said.

There are 67,000 patients being helped by the March of Dimes who contracted polio in 1953 or before, Dr. Landauer said. Estimates indicate that about 40,000 additional children and adults may be attacked by the disease in 1954.

"This year," he went on, "the National Foundation has the simultaneous burden of two tremendous programs: first, prevention, which includes evaluation of the vaccine field trials and purchase of gamma globulin; and second, patient aid."

"Hope for effective prevention in the future cannot be allowed to mean a lessened effort in behalf of those who have been stricken and need help now."

Treatment of those severely stricken by polio is far more expensive than for those with lighter attacks, Dr. Landauer pointed out, yet may have extremely heart-warming results, as patients learn to leave their iron lungs and lead more nearly normal lives.

It may cost as much as \$10,000 to care for one iron lung patient for one year. In 1953, Dr. Landauer said, of \$29,734,000 spent by the National Foundation for patient care, \$20,000,000 was for long-term illness.

"The expenditures are large," he said, "but the results are often close to miraculous in terms of giving a chance for a reasonably normal life to people whose paralysis at first seemed an insurmountable handicap."

The scientist cited the instance of a Seattle veterinarian, stricken in 1948, with virtually complete paralysis. Now, six years and many thousands of dollars later, he is still severely paralyzed and needs the help of a respirator, but is able to carry on his practice and earn a living.

March of Dimes funds joined with his determination to achieve this result. The outcome is not always even this good, Dr. Landauer said. Some patients may always need a tank respirator. But the National Foundation maintains a group of ten respirator centers

from Massachusetts to California where men, women and children are "weaned" from iron lungs and taught to use smaller, portable devices.

"About nine of every ten people who come to our respirator centers will overcome their complete dependence on iron lungs," Dr. Landauer explained. "Many learn to care for themselves entirely. Some continue to need small chest respirators, but even these patients often can carry on an occupation and in some instances drive a car."

"As the results of the vaccine trials are awaited, the slow, expensive and infinitely rewarding work of patient care goes on. And among those most interested in the answer to the question: 'Does the vaccine work?' are the men, women and children who are suffering from polio now, and who know better than anyone else what an effective vaccine will mean."

Sister Of Ciscoan Dies At Midland

Mrs. J. Willie Moore received word Wednesday of the death of her sister, Mrs. J. H. Hunter of Midland.

Mrs. Hunter was en route to visit her son, W. J. Hunter in Portland, Oregon, when she was stricken with a heart attack. She was returning to Portland with her son, who had been in Texas visiting her and other relatives. She had visited Mrs. Moore in Cisco Friday.

Funeral arrangements were pending Wednesday, but they will be held in Merkel, probably Thursday.

San Angelo Men Pay Huge Hunting Fines

AUSTIN, Aug. 25. — Out-of-season deer hunters have paid some heavy fines according to the latest arrest report announced by E. M. Sprott, director of Law Enforcement for the Game and Fish Commission.

Three San Angelo men prosecuted for taking two deer, one a doe, paid \$600 in fines plus costs. Several \$100 fines plus costs were meted out in similar cases elsewhere.

Illegal fishing cost several men substantial fines, including levies of as much as \$100 fines plus costs.

Mr. and Mrs. Frank Morehart, Mary Ann and Tommy, of Hobbs, New Mexico, spent the weekend in Cisco with Mrs. B. E. Morehart.

DOESN'T LIKE OUR CUSTOMS—Casting a dirty look toward the customs house, 13-month-old Jane Bradley, of Tonbridge, England, attempts to close her valise after its contents were disarrayed during an inspection in New York. Jane was on her way to Baltimore, Md., where her father will teach.

Contract Awarded On Boss Building

Two propositions — proposed city charter changes and the parking meter question — will be submitted to the voters of Cisco in an election on Saturday, Sept. 25, according to action taken Tuesday night at the semi-monthly meeting of the City Commission.

In other action, the Commission awarded contracts for the erection of an addition to the Boss Manufacturing Company building and for equipping the structure with a sprinkler system. A contract for an audit of the city books was let, three directors were named for the Chamber of Commerce, and other matters were considered.

W. A. Garrett, local contractor, was awarded the general contract on the Boss building addition. He will erect the 70x160 foot brick annex to the main building for the sum of \$29,884. Other bidders for the general contract were B-W Construction Co., Bryan, Quisile Construction Co., Fort Worth, and H&W Construction Company, Abilene.

W. H. Ladew Company, Dallas, was awarded the sprinkler system contract. His bid was \$5,867. Other bidders were the Grinnell Company of Dallas and the Gulf Automatic Sprinkler Company, Abilene.

Construction work on the building is due to begin in about 10 days. The sprinkler system will be installed in both the new and old buildings and this work will be done while the annex is being built. It will be necessary for the city to install a larger water main in that area.

City officials expressed the opinion that the \$40,000 fund raised through the sale of 5% revenue warrants would be sufficient for the project, as the bids were slightly lower than anticipated.

A resolution calling an election on the city charter proposition was passed. In this election, the voters will decide whether they want the charter rewritten; and, if they do, a charter commission will be elected. The ballot will contain the names of 15 men to be on the charter commission. A copy of the resolution will appear in The Press soon in the form of an official notice of election.

Acting on a petition presented by Robert Donovan recently, the Commission determined that 10% of the qualified voters had signed the instrument and an election was ordered. The question on the ballot will be for or against removal of the parking meters.

To save money, both elections were set for the same time. The residents of the city who hold poll tax receipts or exemptions will be eligible to vote in both elections. George Davis was named presiding judge.

G. R. Nance, local accountant, was awarded a contract to audit the city books. This is done annually and the work was done by a Dallas firm last year.

A resolution authorizing the mayor to enter into agreement with the T&P Railroad in connection with doing away with the crossing on the Lake Bernie road was passed. The railroad has agreed to contribute the sum of \$6,400 to the project.

Three new directors for the Chamber of Commerce were named to fill vacancies caused by the resignations of O. L. Stamey, Coy Warren and Tom Wilson. The new directors are: Zan Burroughs, operator of the Cisco Peanut Company; C. W. Henry, local Purina dealer; and R. J. Stevenson, T&P agent here.

The Commission ordered an advertisement published for bids on a city garbage contract. The bids will be opened on September 28. This action is taken every two years.

City Secrtay Hal Lavery reported to the Commission that 25 1/2 blocks of new pavement have been completed at a cost of \$19,051. Of this sum, \$1,214 is being paid in time payments, \$854 has been assessed against non-homestead property, and \$3,207 remains to be paid this month. In addition, 20 blocks of existing pavement were given the seal-coat treatment.

Left Behind By Oil And Railroad, Highway Now Will Desert Pioneer

PIONEER, Eastland County, Aug. 24. — Stranded!
First the railroad was junked.

Second, the highway "passed on the other side."

So Pioneer, once a city of 10,000, built by oil, went through the gamut of prosperity, conflagration, depletion of liquid gold, and vagaries of modern transportation.

In its heyday in 1922 and 1923 its hotels by twilight blinked "no vacancy" its business houses were jammed with oil field workers buying provisions, its questionable gambling houses and red-light district resounded with ribaldry and maudlin voices. In one year building a small Reno gambling hall flourished. But in the whole history of the pulsating, sky-rocketing little southwest Eastland County metropolis, only two persons were known to have died deaths from shootings.

Laborers were in great demand. Once, an oldtimer asserts, the town was so cramped for lodging accommodations a newspaper begged people not to come here. Flop houses paid off better than oil leases. And in lieu of downy mattresses many slept on the sandy ground wherever space had not been preempted.

The Missouri-Kansas-Texas Rail-road spotted many cars of pipe and oil-well equipment daily, and the outgoing freight picked up long strings of heavily loaded tankcars of crude oil. And the highway, then unpaved, became a two-strand, furrowed streak across the post oak carpeted landscape.

About eight years ago the railroad took up its rails and ties, quit hauling the few peanuts and hay offered it, and left Pioneer and its sister cities, Rising Star and Cross Plains, railroadless.

Fire Sweeps Main St.
And when the oil field was gradually becoming dormant, a fire swept down the long main street — later Texas Highway 36 — cleaning out shop after shop. It was the beginning of the end.

For years Pioneer struggled along. It had a postoffice, a large store, lately operated by Lonnie Gray. The postoffice looks lonely now in one corner of the only store building whose stock of wares has been sold and moved away. The town now has no store — the nearest being along Highway 36 south of old Pioneer.

And virtually Pioneer has no highway, just the remnant of Texas 36, a sinuous artery that is now only a "business route" with no business. Highway 36 now runs south of Pioneer, a wide, heavily traveled thoroughfare.

The day of the 1,200-barrel producer apparently has passed. In the Pioneer area there still are about 30 producing wells, ranging in yield from one to ten barrels daily. It is said to be 44 gravity oil, a good quality. — By Hamilton Wright in Abilene Reporter-News.

Consistent Air Policy Is Urged In New Booklet

WASHINGTON, D. C.—With a warning that modern bombers can fly from Moscow to Washington in just 439 minutes, the American Legion's National Security Division says that the United States must have a clearly defined, consistent National Air Policy if it is to survive in today's age of supersonic speeds and atomic weapons.

Such a policy must have the endorsement of the legislative, executive and military branches of government, according to the Legion.

In an illustrated booklet, "Air Power in an Age of Peril", just published as part of its air education program, the veterans organization appraises the requirements for achieving and maintaining American air power — second to none.

Arthur J. Connell, National Commander, said that in publishing the booklet the Legion has attempted to "create in the minds of all Americans an awareness that air power is no longer merely important, it is imperative."

The study list four essential requirements which the Legion says should be attained through a National Air Policy if the United States is to achieve and maintain sufficient air strength. It says to assure our defense the United States must have air forces in being, a stable aircraft industry, leadership in research and development and strong airline and civil aviation.

Pointing out that there is no target in the world that can not be reached within two hours after bombers have crossed a nation's borders, the Legion warns that America must be prepared the "instant an attack occurs."

Letters

Dear Editor:

While reading the political advertisement for Omar Burkett in yesterday's paper, I began to wonder if his supporters couldn't find something more recent that he has done to compliment him on. The Court of Civil Appeals for the 11th Supreme Judicial District was located in Eastland in 1925, and I am sure that he has done something since then worth mentioning.

SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

Delphian Club Holds Special Meeting

A called meeting of the Cisco Delphian Club was held Monday at the home of the Club president, Mrs. Leo Clinton.

Mrs. L. H. McCreary, Sr., and Mrs. Kleiner were elected to membership. Mrs. A. W. Snider was elected as second vice president and Mrs. Frank Jacobs was elected as secretary. Committee reports were given by Mrs. B. S. Huey on Membership and Mrs. H. L. Ferguson on yearbook.

A committee composed of Mrs. G. B. Langston, Mrs. W. L. Hussey, Mrs. J. V. Heyser, Sr., and Mrs. A. R. Day was appointed as a program committee for the annual club breakfast to be held September 22 at the home of Mrs. B. S. Huey, 600 Avenue L, when the yearbooks will be presented. Mrs. Eugene Lankford and Mrs. Huey will also give a history of the club at the breakfast meeting.

The meeting was dismissed in regular form.

Mrs. Alton Zander and James Frederick have returned to their home in Midland following a visit in Cisco with relatives.

Baptist Circle Three Has Meeting Monday

Circle Three of the First Baptist Church met Monday morning at the home of Mrs. Frank Walker for their regular meeting.

A cool drink was served before the meeting to a visitor, Charlotte Strasser of Eastland, and Mesdames E. J. Poe, W. J. Poe, J. E. Burnam, W. C. Cates, Fred Grist, Bobby Zellars, J. T. Brewer, Frank Ashenhurst, Algie Skiles, Frank Walker, and Miss Willie Frank Walker.

Mrs. Fred Grist opened the meeting with prayer and Mrs. E. J. Poe presided over a short business session. The group discussed the district meeting to be held Thursday evening after which Mrs. Bobby Zellars taught the lesson from the book "Alcohol and Christian Responsibility."

The meeting was dismissed with prayer by Mrs. J. T. Brewer.

IS ENTITLED TO

THE TRUTH!

Ralph Yarborough has claimed that ALLAN SHIVERS deserted Texas teachers in their request for a pay raise.

HERE ARE THE FACTS - THE TRUTH!

The "Teacher Pay Bill" never got to ALLAN SHIVERS' office. It was returned to the legislature by the Comptroller for lack of funds. This is a constitutional provision!

ALLAN SHIVERS COULD NOT SIGN A BILL HE NEVER RECEIVED!

ALLAN SHIVERS JOINED IN APPOINTING A COMMITTEE TO ARRIVE AT A FIGURE SATISFACTORY TO ALL CONCERNED. THE FIGURE OF \$402.00 ANNUAL RAISE WAS AGREED UPON.

ALLAN SHIVERS CALLED A SPECIAL SESSION OF THE LEGISLATURE AND LED THE SUCCESSFUL FIGHT FOR THE RAISE. THEY FOUND THE MONEY! THE TEACHERS GOT THEIR RAISE. ONLY BECAUSE OF THE GOVERNOR'S FIRM BELIEF THEY DESERVED IT.

ALLAN SHIVERS WILL BE RECORDED ALONG WITH MIRABEAU B. LAMAR AS A GREAT LEADER IN EDUCATION.

DON'T SURRENDER YOUR STATE!

Many Happy Returns Of The Day!

This is the best anniversary our U. S. Savings Bonds ever had

BORN in days of trouble, in May 1941, and out of our faith in America, Savings Bonds have become today the greatest nation-wide savings program in history. They did their vital share for defense and for victory and for stabilizing our economy. But they have done another great thing for us.

They have been buying for us, as individuals, things we need for our own security, happiness, and betterment.

- On the roads, new cars bought by Bonds
- On the hills and in the valleys of America, new homes
- On the farms, new equipment for better crops
- In colleges, sons and daughters getting extra education
- And all over America, new independent businessmen, thanks to the start given by Bonds

Today, we still own more U. S. Savings Bonds than ever before—thirty-seven billion dollars worth!

Last year we bought 22% more Bonds than the year before, setting a seven-year sales record! At year's end, three-fourths of all matured E Bonds were still being held at interest by their original owners.

So, this is truly a happy anniversary for America's happiest habit—the Bond-buying habit.

Let Bonds work for you, too—try the easy Payroll Savings Plan

You may save any sum you wish—a couple of dollars a payday or as much as you can spare. You never miss the money because it's saved for you—before you even get your check. And when enough has accumulated, it's automatically invested in a U. S. Series E Savings Bond, in your name, and the Bond is turned over to you. Then your savings really go to work—earning you an average 3% interest, compounded semi-annually, when the Bonds are held to maturity! Join the Payroll Savings Plan today!

The Savings Bond Habit Brings Happy Returns - Buy more in '54!

Water Program Is Outlined In Shivers Speech

BROWNWOOD, August 25.—A state water conservation program to build a series of up-stream dams on Texas rivers and creeks was advocated by Governor Allan Shivers as he addressed a Central West Texas rally here Tuesday night.

Granting the importance of major flood control and water storage dams on the larger streams, Governor Shivers said these were not enough to solve Texas' many-faceted water problems.

"The major dams are of vast benefit to the citizens and the farms below them, but the up-stream areas must be served, too," the Governor said.

"My opponent proposes a super-duper federal dam-building program, which means turning over our most precious natural resource to Washington bureaus. I say that Texas can and will solve this problem in the Texas way, with the state supplying leadership, direction and the necessary financial assistance and

COLLISION AT HOME PLATE—Frank Baumholtz of the Chicago Cubs is out at the plate after trying to score from second base in the first inning of a game with the Cincinnati Redlegs at Chicago. Cubs' catcher Andy Seminick lies on the ground but manages to hold onto the ball. Calling the play is umpire Babe Pinelli.

Miss LaVerne Dennis Is Married Aug. 21st

Miss LaVerne Dennis of Ysleta became the bride of Dale Gore of Corpus Christi in ceremonies performed Saturday evening, August 21, in the Coggin Avenue Baptist Church of Ysleta.

Miss Dennis is the daughter of Dr. and Mrs. Russell Dennis of Ysleta and Mr. Gore is the son of Mr. and Mrs. B. L. Gore of Corpus Christi.

Dr. Dennis, pastor of the First Baptist Church of Ysleta and father of the bride, and Rev. Kenneth Hiner, pastor of the Forrest Park Baptist Church in Corpus Christi, officiated at the ceremony.

Dr. Dennis and family formerly lived in Cisco where he was pastor of the East Cisco Baptist Church.

Following a wedding trip to Dallas the couple will be at home in Cross Plains where Mrs. Gore will teach in the Cross Plains schools. Mr. Gore is a senior ministerial student at Howard Payne College.

EVENING WEAR — Buyers from all parts of the world have gathered to view the fall and winter collections of Rome's leading fashion designers. One of the eye-catchers in the collection is this winter evening frock. Of black lace, it features a silk pleated wrap below the waist and ermine collar with full length narrow front.

breath that over 99 per cent of Texas companies were sound," Governor Shivers declared. "He said just last week that as soon as he got to be Governor, he was going to fire the whole Insurance Commission and appoint a new one — although, at the same time, he says it is very bad for one man to make all the appointments to a State Board. And now this week, the people who work in the Insurance Department — the ones he was going to clean out — got letters from him saying not to worry, that he really didn't mean it, and if they'd vote for him, he'd see that they kept their jobs.

"I have come to the conclusion that either he's confused, or he's trying to confuse the voters — or both."

How Long Has It Been —

... Since you had your abstract brought to date or your title checked for possible flaws? High prices, cheap money and inflation stimulate sales, especially real estate sales. Do you want to buy or sell? In either event, the seller will be called on to furnish an abstract and the buyer will surely want one. Whether buying or selling, remember this: A defective title destroys value — a good title adds to it.

EARL BENDER & COMPANY

Eastland, (Abstracting since 1923) Texas

Mr. and Mrs. David Elser and daughter, Rhonda Diane, have returned to their home in Tucson, Arizona, following a ten day visit in Cisco with his parents, Rev. and Mrs. J. G. Elser. David is the principal of the Lutheran School in Tucson.
