It Takes A Lot Of Head Scratching For Agents To Learn U.S. Tax Laws

Taxpayers know that our Federal tax laws are complex and present great mysteries. Each of us usually spends several days scratching our heads over the mystery of how much income tax we owe between January 1 and March 15.

The District Director's Office of Internal Revenue at Dallas has 212 Internal Revenue Agents who scratch their heads over the complexities and mysteries of tax laws every day in the year.

How did they get to be tax men and find out the answers to all the "head buster" problems that the taxpayer encounters in dealing with taxes? A large majority of these fellows majored in accounting while earning their college degrees in Business Administration.

These fellows love punishment. After they get through with all the required study, a large part of them take night courses at college, study for CPA examinations, get a law degree on the side or engage in similar studious endeavor.

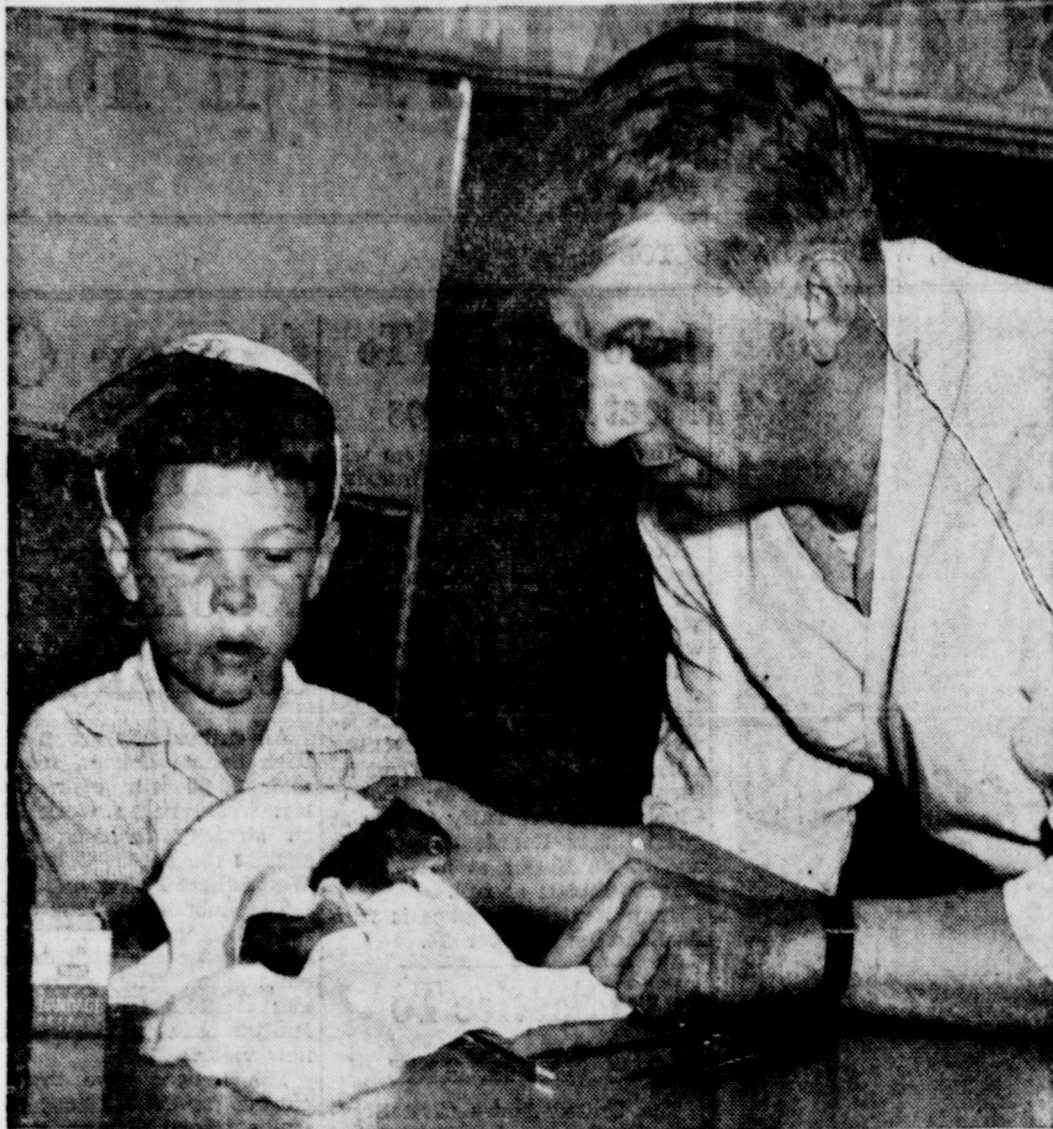

Have several nice listings at reasonable price. Also have buyers wanting Cisco area property. L. H. QUALLS 1005 W. 13th - Phone 1123

FIRST AID—Blanketed and held tenderly in the hands of his master, Brownie, a three-month-old pet squirrel of Ricky Bell, left, is treated by veterinarian Dr. Richard Hill in Bethlehem, N. H. The little animal fell from a farmhouse roof, injuring its back and a leg. But Ricky's grave concern turned to joy when the doctor said Brownie would get well.

STATELY STOREHOUSE—In their mansion at Chudleigh, Devon, England, Lord Clifford of Chudleigh and his wife, Lady Clare Mary, are standing ankle-deep on a "carpet" of golden grain. About 50 tons of grain are piled on the floor under paintings of Lord Clifford's ancestors. When his normal storage facilities got too full, he used this mansion.

Grow Christmas Flowers with Bulbs in Bowls

Growing flowers for Christmas in a living room is not easy, but it can be done if Paper White Narcissus bulbs are started Nov. 1, and grown in carefully regulated temperatures. Without such care the flowers are likely to be inferior, and the stems weak, because the bulbs have not matured to the degree most favorable for "forcing."

"Forcing" is the florist's word for making a plant flower out of season; and the formula for accomplishing this is much the same with all bulbs. Bulbs develop, even in storage; and take time to reach the stage where they are ready to grow. When planted, they first must produce roots, since top growth without good roots is weak, and seldom flowers.

Jumbo hyacinth bulbs will flower in hyacinth glasses, filled with water. which their roots drop. It takes 10 to 12 weeks for the roots to develop, in a dark place, in cool temperature. When roots fill the glass and top growth begins, accustom the plant gradually to light, and grow slowly in a temperature below 65 degrees. The water should not be changed, but merely replenished.

SABANNO NEWS

Mr. and Mrs. W. M. Hall of Fritch, Texas, visited her brother and wife, Mr. and Mrs. A. C. Evans, Monday evening.

Mr. and Mrs. Lee Cumba had as their guests over the weekend, all of their children as follows: Mr. and Mrs. Earl Cumba and children of Avoca; Mr. and Mrs. R. L. Sansom and children of Grapevine; Mr. and Mrs. Rubin Cumba and children of Amarillo; Mr. and Mrs. Ray Gage and daughter of Moran; Mr. and Mrs. Bill Cumba and children of Brownwood; Patsy Cumba of Abilene; and Mr. and Mrs. Raymond Cumba of Cross Plains.

Mrs. Joe Lilley attended a bridal shower for her cousin at Williams Saturday night.

Mr. and Mrs. Benny McCann and children of Coleman spent Saturday night with their parents, Mr. and Mrs. W. S. McCann.

Mr. and Mrs. Dean Allen and children of Denver City and Mr. and Mrs. C. E. Goleman visited Mr. and Mrs. Oscar Maddux at Union Sunday.

Mr. and Mrs. Jimmie Meador and baby of Eastland visited their parents, Mr. and Mrs. Robert Meador and Mr. and Mrs. Howard Hicks, Sunday.

Rev. Whithorn and family visited Mr. and Mrs. Pruitt Dawkins Sunday.

Mr. and Mrs. Clarence Scott and Mrs. Joe Lilley visited Linnie Wood in Cisco Thursday. Mr. Wood formerly lived in Sabanno and his many friends there regret to hear of his illness.

Mrs. Thelbert Meador and children of Coleman visited her parents, Mr. and Mrs. Bill Smoot, and Mr. and Mrs. Robert Meador Sunday.

Mr. and Mrs. Forest Scott of Cottonwood visited Mr. and Mrs. W. S. McCann and attended the singing Sunday afternoon.

Mr. and Mrs. J. L. King visited their daughter, Mrs. C. L. Webb, in Cisco last Friday. Mrs. Webb has recently returned home from Abilene where she was a patient in Hendricks Memorial Hospital.

Mr. and Mrs. Ira Russell of Cisco visited Mr. and Mrs. W. A. Durham Sunday.

Obra Lee Hicks of Camp Hook visited his parents, Mr. and Mrs. Howard Hicks over the weekend.

Mrs. Clara Westerman visited Mr. and Mrs. W. E. Lusk Sunday.

Mr. and Mrs. Amos Smith of Cross Plains visited Mr. and Mrs. W. A. Durham Thursday.

SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

Tea Opens New Year For Garden Club On Monday Afternoon

The Cisco Garden Club opened the club year with a tea Monday afternoon at 2:30 o'clock at the Federated Clubhouse.

"Roses" highlighted the program. Mrs. Ray Chapman, president of the club, introduced Dr. and Mrs. E. E. Addy, Jr., who showed colored films of their pilgrimage to the national American Rose Society meeting in San Francisco last May. The abundance, size, and beauty of this favorite flower was an inspiration to all rose growers.

A short demonstration indicated major points to consider in selecting the No. 1 rose bush for planting.

The following new club members were introduced: Mesdames Horace Cameron, J. T. Carson, O. M. Evans, James E. Graham, V. J. Honea, Frank Jacobs, and W. F. Watson. Other guests were Mrs. C. C. Moore, Houston; Miss Martha Graves, State Supervisor of Home Economics, State of Idaho, Boise, Idaho; and Mrs. Harold Thomas of Cisco.

The "Rose Theme" tea table held silver appointments and was centered with an arrangement of pink rose buds with ivory tapers on either side. The table was laid with a cloth of Venetian lace and linen. Mrs. Edward Keough presided at the tea service.

During the tea, Mrs. W. O. Wylie played piano selections dedicated to the Rose. Selections played by Mrs. Wylie were "Roses of Picardy," "The One Rose," "My Wild Irish Rose," and "Moonlight and Roses."

Hostesses for the tea were Mrs. Keough, Mrs. E. G. Damron, Mrs. C. S. Surlis, and Mrs. Alice Bacon.

On an exhibit table members displayed numerous horticulture specimens now in bloom. Mrs. E. G. Damron won the door prize.

Members attending the affair were Mesdames C. Kleiner, Dorothy Prange, A. J. Olson, B. S. Huey, Glenn Dietiker, Don Choate, R. Kamon, W. C. Hogue, W. O. Wylie, Ervin E. Addy, Jr., R. L. Clinton, R. B. Carswell, Eugene Lankford, M. E. Goldberg, W. R. Winston, J. V. Heyser, W. F. Watson, James Graham, V. J. Honea, O. M. Evans, Horace Cameron, J. T. Carson, R. F. Jacobs, Shy Osborn, Edward Keough, E. G. Damron, Ray Chapman, and Miss Alice Bacon.

East Baptist Circle Has Meeting Tuesday

The Kathleen Jones Circle of the East Cisco Baptist Church met Tuesday morning at the home of Mrs. Pebble Howell for their regular meeting.

The meeting was called to order with prayer by Mrs. Enis Qualls and the devotional entitled "Walk In The Light," taken from Ephesians 5:1 and 2, was given by Mrs. Roy Marcontell.

Mrs. Howell, chairman, presided over a short business session at which time officers were elected as follows: vice chairman, Mrs. Enis Qualls; program chairman, Mrs. Roy Marcontell; stewardship chairman, Mrs. W. R. Lewis; community missions, Mrs. Kerby Thetford; hospitality, Mrs. A. W. White; and secretary, treasurer, and reporter, Mrs. J. H. Carlile.

The meeting was dismissed with prayer by Mrs. Marcontell.

Those present for the meeting were Mesdames W. R. Lewis, Maud Lisenbee, A. V. Payne, Don Rupe, Enis Qualls, Woodrow Howell, and Roy Marcontell.

Mrs. Spain Hostess For CWF Group Three

Mrs. Sidney Spain was hostess in her home Tuesday afternoon when Group Three of the C.W.F. of the First Christian Church met for their weekly meeting.

Rev. Spain opened the meeting with prayer and Mrs. Willie-rue Logan gave the devotional from Matthew 16. Mrs. Jim Flournoy gave the missionary lesson on the restoration of the Campbell Home.

A short business session followed with Mrs. A. L. Snider in charge. Mrs. Snider mentioned the Area School of Missions in Abilene and the Ranger-Eastland County of Churches meeting to be held October 11. The group voted to help on a special fund for work on the church parsonage and the meeting was dismissed with the missionary benediction in unison.

A new member, Mrs. Roy B. Huestis; a visitor, Rev. Sidney Spain, ten members and five children attended the meeting.

Safety Lesson Given At Lake HD Club Meet

A lesson on artificial respiration was given members of the Lake Cisco Home Demonstration Club at their regular meeting held Monday afternoon at the home of Mrs. Ray Judia.

The lesson was taught by A. L. Snider of Thomas Funeral Home and A. B. Sanders of the Fire Department. Mr. Sanders also brought and demonstrated the emergency unit car.

Following the lesson, Mrs. W. D. Hazel, chairman, called the group to order. The club voted to give \$5 for the audiometer and other routine business matters were transacted.

Refreshments were served following the meeting to three visitors; Mrs. Frasier, Mrs. A. Y. Ball, and Mrs. Allen Jones, and the following members: Mmes. W. D. Hazel, C. A. Ditmore, A. E. McNeely, A. T. Gorr, D. Ball, C. E. Whitmire, W. V. Gardenhire, W. Z. Latch, W. W. Sawyers, and Ray Judia.

The meeting will be held at the home of Mrs. Latch on October 8 at which time the new County Home Demonstration Agent will be present.

CWF Group One Holds Meeting On Tuesday

The weekly meeting of Group One of the Christian Womens Fellowship of the First Christian Church was held Tuesday afternoon at the home of Mrs. Bob Siddell.

Mrs. W. J. Armstrong, chairman, was in charge of the meeting. Mrs. George Estill gave the devotional on "Introducing Christ As Your Friend," taken from Acts. Mrs. Hallye Shaw gave the missionary lesson. A short business session followed and the meeting was dismissed with the missionary benediction.

Refreshments were served at the close of the meeting to Mmes. W. J. Armstrong, A. L. Clark, L. C. Burzenski, I. A. Brunkenhoefer, George Estill, Hallye Shaw, J. D. Lauderdale, Bob Siddell, and nine children.

Beverly Bishop Given 1st Birthday Party

Beverly Bishop celebrated her first birthday Tuesday, October 4, with a party at the home of her grandmother, Mrs. Pearl Crowder.

Refreshments of cake, cookies, and pop, with favors of balloons, were served to Marion Watts, Jim Fitzgerald, Darrell Hollis, Deborah Archer, Paula and Barbara Mosely, Sherrie Mosely, Linda Hoag, Joy Thetford, Wayne Stringfellow, and Mesdames Watts, Fitzgerald, Hollis, Archer, Mosely, Hoag and Thetford, the honoree, Beverly Bishop, and the hostesses, Mrs. Crowder and Mrs. Gene Bishop.

Gifts were sent by Franky Fleming of Lamesa and Mr. and Mrs. Thompson of Cisco.

How to Get Most Profit From a Forage Program

Forage is the ideal feed for most kinds of livestock. They can utilize large quantities most efficiently in converting it into the important foods for man.

A forage program should be planned to provide the greatest food value for the animals consuming it and for man, who eats the animals. The crops to grow, time of harvesting or grazing, quality at different stages of growth and method of utilization, should all be studied.

First with old, run-down grasslands comes replacement of the old sod with new grasses and legumes, that are most productive of high-quality nutritious forage, the seed of which is available commercially. Bromegrass, orchardgrass, timothy and tall fescue among the grasses, and alfalfa, Ladino clover, red clover and lespedeza among the legumes, are prominent. Such grasses as reed canarygrass, wheatgrasses, ryegrasses and such legumes as sweetclover, crimson clover, burclover, are also widely adapted.

Not only variety but quality of seed is important. The best is always most economical. If land is worth renovating (and many old, run-down pastures are), it is worth using high-quality seed and not just ordinary seed in the renovation.

The quality of the forage influences its feeding value. This depends not only on the kinds of plants that compose it but upon the stage of growth when cut or grazed. Young growth is more nutritious, palatable and digestible but not usually more productive of dry matter. Leaves are the most nutritious parts of the plant in protein and digestible carbohydrates.

Methods of harvesting, preserving and handling forage, especially dry hay, affect losses of leaves which directly affect the quality of the forage.

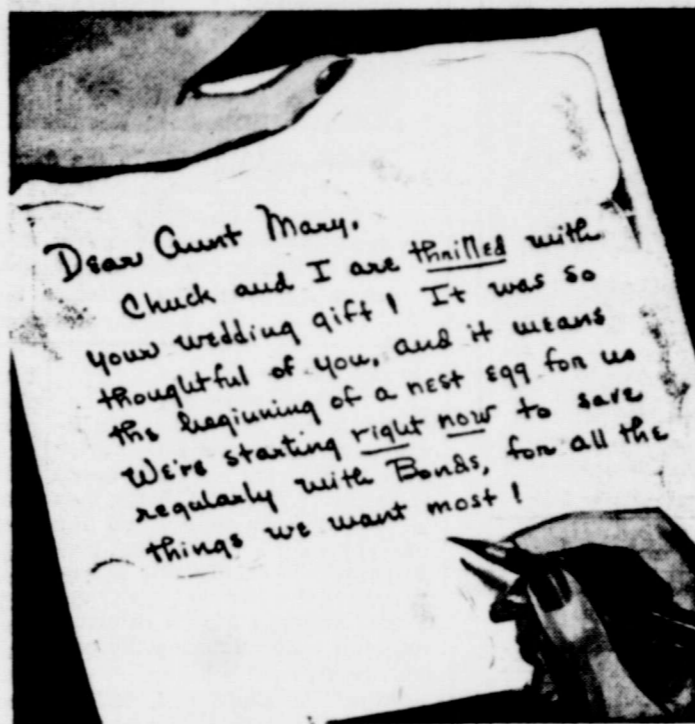

Good pastures when available are usually considered the best and most economical source of digestible feed nutrients. But even good sods may provide more feed at less cost if not pastured. At the Minnesota station more milk was produced from 31 acres by the sodding method than on 51 acres of pasture.

Some Things to Consider in a Planned Forage Program

1. Kinds of livestock to feed and number of each.
2. Kinds of grasses and legumes best adapted to soil and most suitable as feed for livestock on farm, as pasture, hay and silage.
3. Periods during which pasturage can be made available normally and periods when preserved forage is required.
4. Land available and best suited as permanent pasture or whether to depend upon rotation pastures.
5. Crops which can be grown to supplement permanent or rotation pastures during normal hot summer months or as emergency crops in drought periods.
6. Where numbers of livestock and labor available, and acreage small, consider economy of sodding practice to produce most green forage from fewest acres.
7. Rotation grazing and "pasture-a-day" pattern for most efficient pasture use.
8. Quality of forage—how to produce best quality silage and hay, most efficiently and economically.
9. Equipment needed for harvesting, preservation and storage of forage—the initial cost, storage and maintenance of such equipment.
10. How operation of grassland program can increase productivity of low-fertility areas.

Where pastures are an important source of forage, rationed grazing has demonstrated its economy and efficiency. The object is to furnish each day the optimum quantity of material that a given number of animals will consume effectively and economically.

"Thanks for your wonderful gift—a Savings Bond!"

Do you know a young couple about to be married? Give them the most appreciated gift of all—a U. S. Savings Bond. So simple for you: no worry about duplications, because duplications of this gift are always welcome! So wonderful for them: because an interest-earning Savings Bond increases in value with time.

Millions have discovered this safe, sure way to save "rainy day" money...

Have you a little extra money you're saving for emergencies? Then do as 43 million Americans are doing—put it where it's safe, and where it will work for you—in U. S. Savings Bonds! Bonds pay good interest—an average of 3% compounded semi-annually, when held to maturity. They can go on earning interest for as long as 19 years 8 months if you wish, giving you back 80% more than you put in!

You'll find, too, that you aren't so tempted to spend the money when it's invested in Bonds. Yet, should an emergency arise, your money is readily available.

Best of all, your money is safe. Cash destroyed is gone forever. But if your Savings Bonds are lost or destroyed, your Government will replace them free of charge.

Get into the habit of putting that "rainy day" money into Bonds. And—if you have a particular savings goal, find out about the Payroll Savings Plan where you work, or the Bond-A-Month Plan where you bank.

Give the Gift of Security—with U. S. Savings Bonds!

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

Gift Announced For Mary Hardin Baylor College

BELTON, Oct. 6. — A gift to Mary Hardin-Baylor college of properties valued at \$125,000 was announced today by Dr. Grady Metcalf of Temple, president of the board of trustees.

The gift comes from M. T. Goodman of Port Isabel, a wealthy South Texas real estate broker and active Baptist layman, who said he was making it "because I think the nation needs more Christian mothers."

He stipulated that a recreation building costing at least \$100,000 be built on the campus, construction to begin not later than March 1, 1956. The new structure will be known as the Goodman building in honor of his parents.

Today's announcement came exactly 20 years from the date of a \$250,000 gift to Baylor college by the late Mr. and Mrs. John G. Hardin of Burkburnett. The name of the college was changed at that time to Mary Hardin-Baylor in honor of Mrs. Hardin.

Announcement of the Goodman gift came during a meeting of trustees in which L. T. Daniels of Dallas, executive secretary of the Baptist Endowment department, explained the provision of conveyance of certain properties to the Baptist Foundation of Texas for an annuity for Mr. Goodman's lifetime. The remainder of the principal of the trust estate upon his death will be transferred and paid over to Mary Hardin-Baylor college.

HECK OF A TIME—In the fourth quarter of the Florida-Georgia Tech game in Atlanta, Gator end Welton Lockhart (86) leaps in an attempt to make an end zone catch of a pass from Fred Robinson. However, three Tech men went up with him to thoroughly foil the attempt. Underdog Florida came back moments later to score the winning touchdown to beat the Engineers, 13-12.

Cover Crop
From page one
in our County do not have sufficient allotment in supported price crops to meet the economic needs of the farmers of our County, thus creating the advisability and the necessity of a soil building program; and especially this is true in view of the fact that our County has suffered severe droughts and crop failures during the past four years;

ED: That the dead-line for compliance with any adopted legume planting for cover crop program be extended by the County Committee to not earlier than December 15th, 1954;
"BE IT FURTHER RESOLVED: That a copy of this resolution be furnished at once to the P. M. A. office at Eastland for Eastland County, Texas, and a copy of same be sent to each Chamber of Commerce in Eastland County and/or any other organizations in the County interested in the up-building of our soils;
"BE IT FURTHER RESOLVED: That a copy of this resolution be furnished for publication in the newspapers of Eastland County;
"BE IT FURTHER RESOLVED: That a copy of this resolution be mailed to the State P. M. A. Office at College Station, Texas.

Everything Ready For Whoopers To Return To Texas

AUSTIN, Oct. 6. — The Executive Secretary of the Game and Fish Commission said Texas game wardens and other personnel will help in a statewide watch for the imminent southward migration of the celebrated Whooping Cranes.

The assignment, he said, is for the dual purpose of providing maximum security for the remaining few Whoopers and to trace their actual route through the state.

The Commission staff will cooperate with the Texas Ornithological Society and Julian Howard, manager of the Aransas National Wildlife Refuge, where the giant birds spend their winters.

As a part of the security undertaking, Texas newspapers are being supplied with a formal questionnaire designed for publication as a means of informing hunters and others on the distinctive characteristics of the majestic cranes and to help guide them in reporting accurately on their observations. The questionnaires may be forwarded through local game wardens.

Although the Whooper is the largest bird seen in Texas and has an exclusive bare red head and black wing tips, it is often mistaken for the whistling swan, white pelican or the snow goose. This confusion has hampered efforts to determine the route taken during migration southward in the fall and back northward in the spring.

"We are placing our maximum resources behind this worthy mass lookout," said the Executive Secretary, "because the Whooping Crane is a living symbol of the fight to save wildlife. Above all, we count on the combined efforts of all to avoid hunters' mistakes which have all but exterminated the rare birds."

Presbyterian Circle Has Meeting Tuesday

Circle Three of the First Presbyterian Church met Tuesday afternoon at the church for their regular meeting with Mrs. J. A. Pressley presiding.

Mrs. Pressley opened the meeting with prayer. It was announced that Pres-Mex would be the project for the circle for the next three months. It was decided to meet twice a month instead of once as was done during the summer months. Other routine business matters were transacted.

Mrs. C. R. Baugh taught the lesson from Acts 25 and 26 and closed the meeting with prayer.

Those attending were Mrs. C. M. Townsley, Mrs. J. A. Pressley, Mrs. B. S. Huey, Mrs. C. R. Baugh, and Mrs. Guy Brogdon.

Mrs. Jack Hailey is home following a weeks stay in the Harris Hospital in Fort Worth.

G. R. Nance Honored With Birthday Dinner

G. R. Nance was honored on his birthday Tuesday evening with a dinner at his home given by his wife and daughter, Patsy.

Those attending the celebration were Charlie Holland of Houston, Mr. and Mrs. G. R. Nance and Patsy, Mr. and Mrs. S. H. Nance, Mrs. R. I. Collingsworth, Mr. and Mrs. John Speir, and Mrs. Ford Taylor.

CISCOAN'S FATHER ILL

T. S. Lamb, 84, father of Carl Lamb of Cisco, is seriously ill in the Hendricks Hospital at Abilene, it was reported here today. He is a resident of Abilene and became seriously ill late last week.

BLOOD DONORS NEEDED

Three pints of blood are needed to provide transfusions for D. J. McGough of Abilene Memorial Hospital in Abilene, who was reported today to wish to donate blood to his mother-in-law, Mrs. DeLoe of Cisco. Mrs. McGough, former Miss Margaret of Cisco.

Conoco Super Gasoline with TCP

In its first year, millions of motorists have proved the benefits of Conoco Super Gasoline with TCP. Now let these five "full-year-users" tell you what they have discovered about The Greatest Gasoline Development in 31 Years.

GAS IS THE KEY TO BETTER LIVING

More and more industry is looking to natural gas as a source of power for their plants. Those plants produce the items you use in your home every day.

SINCE World War II expansion of the gas industry has averaged nearly one billion dollars per year, or 10 times the rate of prewar development. As a result of this expansion, an average of 900,000 new customers per year have been added to utility gas lines which now serve more than 27 million users in the United States.

Much of that Gas comes from CISCO AREA FIELDS
Including Many of Our Wells.

The reason is apparent - natural gas is Economical, Clean and Easy to use.

CISCO GAS CORPORATION

713 Ave. D. Phone 122

Little more than a year ago, we introduced Conoco Super Gasoline with TCP. At that time, we promised owners of new cars and old that TCP would:

- Boost engine power as much as 15%.
- Give you extra gas mileage.
- Be just like an engine tune-up.
- Increase spark-plug life up to 150%.
- Let you enjoy all the extra performance of Conoco Super's higher-octane rating.

Now, one year later, here's what TCP customers are telling us about Conoco Super Gasoline with TCP, the greatest gasoline development in 31 years:

- 1 "I use this 1951 Plymouth, and my wife, our 1949 DeSoto. Since using Conoco Super with TCP, they run almost like new. The engines sound better. We're sold on Conoco Super with TCP."
Mr. Shiril R. Thomas, Grocer
280 South 10th West, Salt Lake City, Utah
- 2 "Spark plugs used to go at 10,000 miles, but with Conoco Super haven't changed plugs in 10,000. I'm getting new car power from my Buick. Conoco Super with TCP is just what I needed."
Mr. Ulmer J. Newman, Insurance Salesman
2502 West Jefferson Blvd., Dallas, Texas
- 3 "What I like about Conoco Super with TCP has been the ease of starting. I use it in my trucks because it's important to be on time. In my '52 Cadillac, I get better mileage."
Mr. Robert M. Rowland, Builder
1165 Emporia Street, Aurora, Colorado
- 4 "For one year, we've used Conoco Super Gasoline with TCP in 12 trucks and 5 cars, besides this 1953 Oldsmobile. It boosts engine power and gets more miles out of each gallon."
Mr. T. P. McAdams, Jr.
Vice-President, McAdams Oil Equipment Enterprises
308 East 6th Street, Bristow, Oklahoma
- 5 "Driving with my children in my car, it's important to have young people who can drive. Since we've used Conoco Super with TCP, there's no more engine chatter at all. We're most impressed."
Mrs. James T. Cox, Housewife
4808 Holly Street, Beaumont, Texas

CONOCO
After one full year, there's still no substitute for Conoco Super Gasoline with TCP.
*Trademark owned and control applied for by Shell Oil Company
